**Transfer Credit Guideline**

**By utilizing this Articulation Agreement and the Transfer Credit Guidelines a student can transfer up to 80 credit hours from a community college.**

**This Articulation agreement shows the transferable Major Preparatory classes for the first three semester of DeVry's major. In addition to this, you will find the Transfer Credit Guidelines at the end of this document with more classes that will transfer to DeVry.**

- **DeVry Academic policy states that we can accept a total of 80 units from an accredited two year college. All courses must be completed with a grade of "C" or better.**
- **It is the student's responsibility to check the current catalog and articulation for any changes that may occur.**

## **ARTICULATION AGREEMENT ACCOUNTING PROGRAM**

**DeVry's BSBA Accounting graduates are prepared for career-entry position in Financial Accounting, Financial consulting, Federal And State taxation, and Internal auditing. These graduates are knowledgeable in the application of technology to business strategy, management, and decision making. BSBA develops these competencies using case studies, team projects, Internet use and Web page development as well as computer applications and systems integration.**

## **ARTICULATION AGREEMENT COMPUTER INFORMATION SCIENCE PROGRAM**

DeVry's CIS curriculum comprises both technical and business-oriented topics, from basic systems analysis and design to business programming in several popular computer languages. Database query languages, object-oriented programming, client/server computing and visual development tools are also studied along with PCs and PC networks.

## ARTICULATION AGREEMENT ELECTRONICS ENGINEERING TECHNOLOGY PROGRAM

DeVry's EET program blends theory with practical lab work, resulting in graduates who are well-grounded in current technology and in electronics principals and applications. The curriculum offers a broad base of skills in instrumentation and controls, microprocessor and computer systems, and wireless and telecommunications technology. In addition, coursework integrates interpersonal and communication skills, and relates electronics theory and application to the real world.
