

Last Day of Attendance (LDA)

...made easy by Canvas

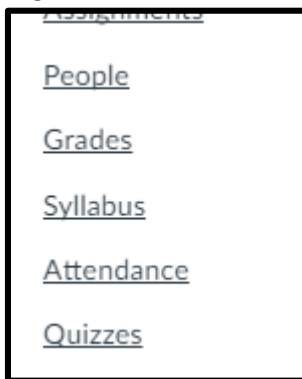

How to determine last day of attendance in an online class

LDA in an online class is the last day a student engaged in academically related activity:

- Assessment
- discussion
- journal entry
- assignment

To determine the LDA:

1. Log in to Canvas and click on People in the course menu

2. Select student's name and click on student grades.
3. Look through the student's grade and click on the last item the student completed. The activities should be in chronological order by due date.
4. Click on the actual assignment, and you will see when the student submitted it.
5. That is the LDA
