Get ready for success... at OCC!

“We’ll help you get there” is more than a slogan at Orange Coast College — it’s our personal commitment to you and to each of our 25,000 students. In fact, we help more students get to the University of California and California State University than nearly any other community college in the state.

OCC’s expansive 164-acre campus — located in the heart of Orange County — features the latest in modern technology. State-of-the-art facilities include our Math, Business, and Computing Center, Fitness Complex, Library, Arts Pavilion, and Enrollment Center. OCC has begun construction of our new Planetarium, a vital science center and extension of OCC’s commitment to STEM curriculum. In the near future, OCC will begin construction on a new student life building, a college center with conference and dining facilities, and student housing.

Our students enjoy big-time amenities in a small-college atmosphere. In addition to free tutoring, counseling, health and wellness services, and on-campus public safety, OCC offers a variety of programs to meet the needs of every student, from first-time college students to disabled students, single parents, former foster youth/wards of the court, veterans, international students, and much more. Best of all, you’ll find instructors dedicated to helping you every step of the way.

OCC offers AA and AS degrees, transfer degrees, and certificates in career programs. Plus, the College provides limitless opportunities in student government, clubs, academic groups, and athletics.

This catalog will help you get to know OCC and find programs that are just right for you. Visit our website at www.orangecoastcollege.edu for more information, or call us at (714) 432-5072 to speak with one of our friendly staff members.
President’s Welcome

On behalf of our entire faculty, staff and students, I want to welcome you to Orange Coast College!

I hope you’ve had a chance to discover some of the outstanding programs and services that distinguish Orange Coast College as one of the nation’s best community colleges. At OCC, we share a common vision: to be the standard of excellence and transform lives through education. It’s a bold commitment that we’re proud to make – and fulfill – to our students and community.

For nearly 70 years, OCC has been a gateway to the highest quality education in California. Our programs are developed to provide the skills, training and knowledge to help you succeed in any career path. OCC is one of the state’s top combined transfer schools, a regional leader in career training, and a trusted resource in the local community for lifelong learning. Our faculty and staff are dedicated to ensuring that you reach your personal educational goals.

We understand that each of our nearly 25,000 students are looking to achieve their own educational objective. Some students wish to transfer to a four-year institution, while others want to receive a degree or a certificate and enter the workforce immediately. Yet others are returning to school to enhance their skills and become more marketable in their current career. Whatever the reason for considering OCC and higher education as a whole, I applaud you for taking the first step toward a brighter future.

The College has garnered a reputation for excellence statewide and ranks among the top community colleges in California. As a multicultural and multinational institution, OCC is a qualifying Hispanic Serving (HSI) and Asian American Native American and Pacific Islander Serving (AANAPISI) institution and serves nearly 1,200 international students representing more than 70 countries.

I pledge to you that the OCC faculty, staff and I will work tirelessly to not only maintain the highest standards of academic excellence, but to increase the resources for students so that you may continue to succeed.

Thank you for choosing Orange Coast College.

Yours for a brighter future,

Dennis Harkins, Ph.D.

- Contact the Answer Center at (714) 432-5072

If a holiday falls on Friday, then Saturday and Sunday classes will not meet. If a holiday falls on Monday, then Saturday and Sunday classes will meet.

Final examinations are held during regular class meeting times during the last week of the semester.
General Information

Vision Statement
To be the standard of excellence in transforming lives through education.

Mission Statement
Orange Coast College serves the educational needs of our diverse local and global community. The College empowers students to achieve their educational goals by providing high quality and innovative programs and services leading to academic degrees, college transfers, certificates in career and technical education, basic skills, and workforce development to enable lifelong learning.

The College promotes student learning and development through fostering a respectful, supportive, participatory, and equitable campus climate of student engagement and academic inquiry.

Institutional Commitment
Orange Coast College is committed to providing a unique learning community where freedom of thought and personal and intellectual growth is valued by all. As an outcome of their academic study, graduates of Orange Coast College possess proficiency in four core areas: Communication, Thinking Skills, Global Awareness, and Personal Development and Responsibility.

Administrators, faculty and staff are committed to the development of students as individuals and as citizens of the world. We value teaching and learning relationships, support services and co-curricular programs that contribute to meaningful personal growth in our students and to their quest for knowledge.

About the College
Orange Coast College in Costa Mesa, California, was founded in 1947 on a site granted by the federal government. The campus currently consists of 164 acres used for instructional facilities, athletic fields and parking areas.

The Coast Community College District is comprised of three public community colleges: Orange Coast College, Golden West College and Coastline Community College. Each is a tax-supported community college.

About this Catalog
This publication must be prepared well in advance of the time period it covers; therefore, changes in some programs, policies and fees may occur. Courses as described are subject to change without notice and some listed courses are not offered each year. In addition, some courses or programs that are offered may have to be canceled because of insufficient enrollment, elimination or reduction in programs or for any other reason considered sufficient by the College president or designee. Any questions about courses or programs listed in this catalog should be directed to the Counseling Office located in Watson Hall.

Accreditation and Approvals
Orange Coast College is accredited by the Accrediting Commission for Community and Junior College, Western Association of Schools and Colleges, 10 Commercial Blvd., Ste. 204, Novato, CA 94949; (415) 506-0234, for an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U. S. Department of Education. Additional information about accreditation, including the filing of complaints against member institutions, can be found at www.accjc.org

The College and its instructional programs are also approved by the Board of Governors of the California Community Colleges and by the State Department of Education for training veterans.

In addition, Orange Coast College offers programs which are accredited or approved by recognized accrediting agencies:
• Accreditation Council for Education in Nutrition and Dietetics (ACEND);
• Accrediting Commission of the American Culinary Federation Educational Institute;
• California State Department of Health;
• Commission on Dental Accreditation (CODA);
• Commission on Accreditation of Allied Health Education Programs (CAAHEP);
• Committee on Accreditation for Neurodiagnostic Technology (CoA-NDT);
• Committee on Accreditation for Polysomnography Technology (CoA-PSG);
• Commission on Accreditation for Respiratory Care (CoARC);
• County of Orange Health Care Agency — Emergency Medical Services;
Career Services

Career Services is a multi-faceted department that focuses on preparing students for careers. It encompasses the Career Library Resource Center, Career Programs, Tech Prep Career Pathways/Articulation, the Internship Academy and the Job Placement Center. Career Services is located on the third floor of Watson Hall. For more information, visit www.orangecoastcollege.edu/careerservices.

Career Resource Center

The Career Resource Center offers a variety of materials for students to do research on various aspects of occupational or educational goals. Students can access school catalogs, college major directories, college rankings, career information, job outlook and trends, and much more. There also are career assessments available to help students in making the right decision about their future. The Career Resource Center will help students to pave their own path to success. For more information, phone (714) 432-5576 ext. 4 or visit us online at www.orangecoastcollege.edu/careerservices.

Career Pathways/Articulation

The Career Services Department receives funding from the California Community College’s Chancellor’s Office through a CTE Transitions Grant and a SB70/SB1133 Career Technical Education Community Collaborative Grant to develop and maintain articulated courses between local high schools and the College; plan sequences of study in career technical education programs that begin in high school, and extend through at least two years of postsecondary education or an apprenticeship program; and develop and operate career pathway day events to showcase the College’s career technical education programs to high school students and community members.

This funding is essential in helping to promote a bridge between secondary and postsecondary career technical education programs, providing career pathways, and helping all students make the connection between school and employment. For more information on our career programs, call (714) 432-5576 ext. 5 or visit us online at www.orangecoastcollege.edu/careerservices.

Internship Academy

The Internship Academy at Orange Coast College offers students the opportunity to attend college classes and earn college credit for concurrent learning on the job. The program is designed to meet the demands of the students and employers for internship experience, and is “compliant” or “in compliance” with Title 5 regulations for accredited field experience. Together, the employment experience and educational aspects enable the student to acquire the knowledge, skills and attitudes necessary to enter and progress in a chosen career.

The Internship Academy assists students in making the transition from school to work by providing hands-on, “real world” learning experiences, and practical application of classroom theory. The Academy delivers career-related field experience to students interested in or planning to enter a specific career related to their education.

The Academy experience is a compilation of career exploration, training-related field experience and clinical fieldwork. For more information, call (714) 432-5576 ext. 2 or visit www.orangecoastcollege.edu/careerservices.

Job Center

The Job Center provides a connection between employers and Orange Coast College students. The Center assists students in their job search by providing listings from local employers that include temporary or permanent part-time, full-time and internship opportunities. Workshops are provided to improve resume-writing skills and interviewing techniques. Books dealing with job preparation and search skills are available for checkout. Computers are accessible to assist with job searches. Job Center personnel also are available to discuss particular job search needs. For more information, call (714) 432-5576 ext. 1 or visit us online at www.orangecoastcollege.edu/careerservices.

College Programs

Career and Technical Education Programs

Orange Coast College offers more than 150 Career & Technical Education programs. OCC offers a variety of programs combining theory, practical training and experience. A program advisory committee, composed of local employers and workers, helps plan and offers ongoing advice and supervision for career programs. An extensive list of program descriptions is located in the College’s catalog under “Degrees and Certificates.” Pick up one of the career program information sheets to find what career and certificate programs OCC offers. To learn more about career options, please visit www.orangecoastcollege.edu/careerservices or call (714) 432-5575.

College Transfer Information

Many students choose careers that require four or more years of college. Orange Coast College has a comprehensive transfer program that satisfies lower division requirements for most majors. A student, working with a counselor, may plan a two-year program at Orange Coast College then transfer to a college or university to complete a four-year degree.

Courses numbered A100 or higher are transferable to the California State University system. A list of courses that transfer to the University of California system is available in the Counseling Center and Transfer Center. These courses also are marked “UC” in the Courses section of this catalog. Counselors can help determine which courses transfer to other colleges and universities.

The Transfer Information section of this catalog contains additional information about transfer.

Counseling and Guidance

The counseling program at Orange Coast College is in place to help students identify and clarify personal, career and educational goals. The intent is to help students choose options that will improve the quality of their lives.

The counseling process encourages the building of a strong self-concept by helping students identify their needs and motivations, and by guiding them in learning and applying effective decision-making skills. Personal, career and academic choices are not viewed as separate and disconnected entities, but as interrelated issues, the combination and interaction of which determine the present and future quality of each individual’s life experience.

Community Education Programs

Orange Coast College’s Community Education programs provide a variety of lifestyle, recreation, enrichment and professional development opportunities to our community members. All of OCC’s Community Education courses are low-cost, fee-based, not-for-credit and not supported by any state or local taxes; enrollment fees support this programming. For more information about Community Education, please call (714) 432-5155 or...
Developmental Programs

Many special programs are offered to students who are not prepared for the demands of college-level courses. OCC offers special programs and courses in developmental reading, vocabulary building, spelling, oral communication, basic mathematics and English as a Second Language.

Consumer Information

Orange Coast College is committed to providing comprehensive Consumer Information to all students and stakeholders. For a complete listing of Consumer Information please visit www.orangecoastcollege.edu/consumerinformation

Degrees and Certificates

By authorization of the Board of Governors of the California Community Colleges, Orange Coast College confers the Associate in Arts degree on students who complete sixty (60) units with a grade of “C” or better in prescribed courses.

Orange Coast College also grants the degree of Associate in Science only for the majors listed in the Associate Science Degree requirements section in this catalog.

Orange Coast College awards the Certificate of Achievement to students who successfully complete the required courses of a certificate program including a minimum of 18 units. Orange Coast College also grants the Certificate of Specialization (less than 18 units) to students who complete a specially designed or intensive learning activity.

The Orange Coast College Foundation

The Orange Coast College Foundation serves as a community and financial support organization to help Orange Coast College achieve its mission. The goals of the Orange Coast College Foundation include providing financial support for the College, involvement opportunities for board and community members, advocacy to help the College meet its goals, and advisement to the College’s administration.

The OCC Foundation accepts donations of cash, securities, real property, insurance and personal property from individuals, businesses and other foundations. The Foundation strengthens the educational objectives of the College by providing funds for faculty development, student scholarships, Library acquisitions, and capital improvements and repairs to the campus of Orange Coast College.

Members of the Orange Coast College Foundation Board of Directors are volunteers. They generally serve three-year renewable terms. Members are appointed from the community and can include alumni, business leaders, community leaders, parents, donors, and members of the College’s current and retired faculty and staff who are interested in supporting the missions of the College and the Foundation. For additional information on the Foundation, please call (714) 432-5126.

Goals and Objectives

In the 2014-15 Academic Year, the college revised its Educational Master Plan. Below are the five college goals (College Council approval in spring 2015) and corresponding objectives (College Council content approval in spring 2015).

Goal 1: Community – Foster a culture that serves, engages and connects the campus to the local and global community.

Objective 1: Promote an inclusive college environment and intercultural understanding, to enable a stable society and the ability of graduates and employees to work in a diverse, culturally rich environment.

Objective 2: Develop and encourage faculty, staff, management and student engagement in global and international experiences, and facilitate a means to bring those experiences back to campus.

Objective 3: Develop, expand and institutionalize community and industry connections.

Goal 2: Learning – Ensure students receive a quality education to become self-directed and successful lifelong learners.

Objective 1: Increase completion rates for a wide range of students from a wide-range of backgrounds while preserving access and enhancing quality.

Objective 2: Implement a comprehensive approach for the development of integrated academic and support services to holistically address the needs of students.

Objective 3: Strengthen the scheduling processes for program/discipline pathways and learning practices to increase student goal completion.

Objective 4: Foster adaptable, innovative learning environments.

Goal 3: Access – Create equitable access through effective and innovative pathways and programs that result in increased student success.

Objective 1: Adapt basic skill instruction and support processes to increase skill development, and accelerate college level preparedness.

Objective 2: Assist students by creating a coordinated K-12, OCC and four-year academic seamless pathway to degree and job attainment.

Objective 3: Increase completion rates for students from diverse social and academic backgrounds and eliminate academic achievement gaps.

Goal 4: Stewardship – Sustain, improve and create programs, physical and human resources, and infrastructure through processes that ensure accountability, continuous improvement, and long-term viability.

Objective 1: Model and embed environmental sustainability practices to benefit OCC students and programs.

Objective 2: Develop and maximize financial resources to benefit OCC students and programs.

Objective 3: Cultivate human potential to advance our mission and enhance the quality of the work and personal lives of our employees.

Objective 4: Embed an open environment with rigor, transparency, continuous improvement, and recognition of collaboration and individual achievement.

Objective 5: Enhance services and instruction through the use of self-directed, intuitive on-line technology.

Goal 5: Student and Employee Engagement – Promote active and collaborative participation leading to meaningful connections among people, places and ideas within the College.

Objective 1: Create equitable access through effective and innovative pathways and programs that result in increased student success.

Objective 2: Develop programs to promote faculty and student interaction, along with team and community building that advances the mission of the College.

Objective 3: Support the development of students and employees as individuals, and as community members.

Institutional Student Learning Outcomes (SLOs) (ISLOs)

Communication – Students will communicate effectively, which includes:

1. Reading: Students will be able to comprehend and interpret various types of written
2. Writing: Students will demonstrate the ability to communicate thoughts, ideas and information in writing.

3. Listening: Students will be able to receive, attend to, interpret and respond appropriately to verbal and/or nonverbal messages and cues.

4. Speaking: Students will be able to organize ideas and communicate verbal or non-verbal messages and cues appropriate to the audience and the situation.

5. Non-verbal: Students will be able to interpret and communicate nonverbal messages and cues.

**Thinking Skills** — Students will think critically, which includes:

1. Critical, creative and analytical thinking: Students will be able to reach decisions, solve problems, and make judgments and evaluations using critical, creative and analytical skills.

2. Quantitative reasoning: Students will demonstrate problem-solving skills by using critical thinking and logical reasoning.

3. Information competency: Students will demonstrate abilities to determine the extent of information needed; obtain data from various sources; evaluate the information and its sources critically; cite their sources correctly to avoid plagiarism; and understand the ethical and legal issues surrounding the use of information.

4. Technological competency: Students will demonstrate a firm grounding in the foundational concepts of computing in information technology; apply these concepts through the use of contemporary hardware, software and network infrastructure; and access, interpret, and apply information that facilitates learning and critical inquiry.

**Social and Global Awareness** — Students will demonstrate a measurable understanding of the world, which includes:

1. Science and society: Students will apply critical thinking skills concerning the causes and effects of natural phenomena and will become familiar with the rational approach that researchers use to analyze data and formulate logical conclusions.

2. The arts and society: Students will develop skill sets associated with the arts by analyzing aesthetic qualities, evaluating and devising rational arguments, identifying cultural and historical influences, and engaging in artistic expression and experiences.

3. Social diversity: Students will describe how knowledge from different cultural and moral perspectives would affect their interpretations of prominent problems in politics, society, the arts and/or global relations.

4. Civics: Students will use theoretical and methodological principles of the social and behavioral sciences to explain and evaluate the human experience; describe institutional, group, and individual processes across social and global contexts or historical periods; and communicate the concepts, theories, and methods used to understand social, political, economic institutions and individual behavior.

**Personal Development and Responsibility** — Students will demonstrate personal development and responsibility, which includes:

1. Self-management: Students will be able to accurately assess their own knowledge, skills and abilities; motivate self and set realistic goals; accept that taking feedback well is important to success; respond appropriately to challenging situations.

2. Social and emotional wellness: Students will engage in self-evaluation in regard to social and emotional wellbeing, and will demonstrate an awareness of the skills and behaviors necessary to develop plans for behavior change for the achievement of satisfactory relationships on an individual, community and societal level.

3. Physical wellness: Students will manage personal health and physical fitness by actively applying appropriate principles for the development and implementation of a plan of health and fitness-enhancing behaviors.

4. Workplace/professional skills: Students will be dependable, reliable and accountable; meet deadlines and complete tasks; maintain a professional attitude; and work as a productive member of a team.

5. Ethics: Students will demonstrate individual moral responsibilities toward themselves and others.

**Memberships**

Orange Coast College maintains membership with the following organizations:

- Academic Senate for California Community Colleges
- Accrediting Commission for Community and Junior Colleges
- American Association for State and Local History
- American Association of Community Colleges
- American College Dance Festival Association (ACDFDA)
- American College Health Association (ACHA)
- Association of Community and Continuing Education Membership
- Association of Core Texts and Courses
- California Association of Community College Registrars & Admissions Officers (CACCRAO)
- California Community Colleges Chief Instructional Officers (CCCIO)
- California Community College Student Services Association
- California Community College Student Financial Aid Administrators Association
- Community College Public Relations Organization (CCPRO)
- Honors Transfer Council of California
- Learning Resources Network
- NAFAA: Association of International Educators
- National Association of Colleges and Employers (NACE)
- National Association of Student Financial Aid Administrators (NASFAA)
- National Collegiate Honors Council
- National Council for Marketing and Public Relations (NCPMR)
- South Coast Higher Education Council (SCHEC)
- Trash for Teaching (T4T)
- Western Association of College Admission Counseling (WACAC)
- Western Regional Honors Council

**Parking Permits**

A registered student may purchase a parking permit for $30 each semester and $15 for the summer session. The permit is valid at Orange Coast College, Golden West College and Coastline Community College. Alternatives to the parking permit are metered parking, which costs $0.50 per hour, and temporary parking permits available at the ticket dispensers.

Parking spaces are available on a first-come, first-served basis. The Coast Community College District and Orange Coast College accept no liability for vandalism, theft or accidents; students use the parking facilities at their own risk.

For more information, complete parking rules and regulations are available at the campus safety office in Parking Lot C (714) 432-5017.
Admissions Eligibility

Admission to OCC is granted to those applicants who meet one of the following requirements:

- High school graduation
- Certificate of Proficiency or a G.E.D. from the State of California
- Attainment of 18 years of age and who, in the judgment of College officials, is capable of profiting from instruction at the College
- Enrollment in the 11th or 12th grade, and recommendation for advanced academic or vocational college-level study

Students enrolled as 11th or 12th grade students may enroll for courses at Orange Coast College under provisions of the Education Code, sections 76001 or 76001.5, and in accordance with the District’s policy and the following guidelines:

- Students must be enrolled as 11th or 12th grade students at their schools
- The course is an advanced academic or vocational experience for the student and not available at their regular school
- Students must have letters of permission, Early Start Petition (ESP form), signed by the parent and principal or designee of their school, recommending the specific course or courses. Students must meet any and all prerequisite and co-requisite course requirements. This includes appropriate assessment scores on math and English placement tests. Visit the OCC website for more information.

International students who are, or intend to be, under F-1 visa status should contact the Global Engagement Center directly for entrance requirements (please see pages 9-10.)

Application

An application for admission is required for all students. Application forms may be accessed through the OCC website at www.orangecoastcollege.edu

International students should contact the Global Engagement Center regarding admission to the College at (714) 432-5940 or at cccinternational@cccd.edu.

Acceptance of Transfer Credit/Transcripts from Other Colleges

Students who have completed coursework, especially English and/or mathematics, at another regionally accredited college or university should submit their transcripts for evaluation to the Enrollment Services Office, located on the first floor of Watson Hall. Official College transcripts from accredited institutions are required in order for the student to receive credit toward the associate degree, certificates of achievement, transfer certification, all awards/credit and advisement. For the purposes of this catalog, “accredited institutions” means those institutions accredited by one of the six U.S. regional accrediting associations. The six regional associations are:

- New England Association of Schools and Colleges
- Middle States Association of Colleges and Secondary Schools, Commissions on Institutions of Higher Education
- North Central Association of Colleges and Schools, Commission on Colleges and Universities
- Northwest Association of Secondary and Higher Schools, Commission on Higher Schools
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities and Accrediting Commission for Junior Colleges

OCC reserves the right to evaluate work completed at other colleges in accordance with campus policies. Official student transcripts of record from other institutions become the property of OCC. Students with transcripts from countries outside the United States must first submit their transcripts to an evaluation service. Please contact the Counseling Office, located on the third floor of Watson Hall, for information regarding these services.

Admission to School of Allied Health Professions

Admission into Allied Health Professions programs is limited for several reasons:

- Training in any health care program needs to meet an identified community need.
- Available clinical sites for hands-on experience is limited.
- Educators must meet stringent qualifications.
- Availability of specialized equipment in highly technical laboratories is limited.

Allied Health General Program Requirements

The following programs require Allied Health A010 as a prerequisite:

- Cardiovascular Technology, Electrocardiology, and Echocardiology
- Dental Assisting – Registered
Diagnostic Medical Sonography
Dietetic Technician
Medical Assisting
Neurodiagnostic Technology
Polysomnographic Technology
Radiologic Technology
Respiratory Care
Speech Language Pathology Assistant

Admission
Taking Allied Health A010 is the optimal method to determine career choice and is required to apply to a specific program. Students should take Allied Health A010 as early as possible and should take this course prior to completing other General Education or prerequisite classes. Admission criteria is based on a first-come, first-served basis and the priority criteria for acceptance is listed below in order of ranking:

- The dates of successful completion of specific program prerequisites and applicable General Education requirements.
- The date of application to the program through Allied Health A010.

More specific information concerning the admission procedure can be found on the Allied Health website at www.orangecoastcollege.edu/academics/divisions/consumer_health/allied_health/Pages/default.aspx

General

- Students should have adequate financial support so as not to jeopardize their academic achievement and clinical experiences by extensive outside employment.
- Many programs have external licensing/certification examination with specific requirements for employment.
- Many programs require completion of the General Education requirements for the Associate in Science degree before admission. See College catalog for specific General Education requirements for the Associate in Science degree.

Course Recency for Programs that Require the Following Prerequisites:

- Allied Health A111 – Medical Terminology: must be successfully completed with a grade of ‘C’ or better within a three-year period of the application date for the specific program.
- Biology A221 – Anatomy-Physiology: must be successfully completed with a grade of ‘C’ or better within a three-year period of the application date for the specific program.
- Chemistry A110 – Introduction to Chemistry: must be successfully completed with a grade of ‘C’ or better within a three-year period of the application date to the Respiratory Care program.
- Math A030 – Intermediate Algebra: must be successfully completed with a grade of ‘C’ or better within a five-year period of the application date to the specific program.
- Radiologic Technology A100 – Radiation and Imaging Physics: must be successfully completed with a grade of ‘C’ or better within a three-year period of the application date to the specific program.

Prerequisite courses listed above that have exceeded the three or five year limit must be re-taken.

If the course is greater than three years old (or five years old for Math) and the student has been working in a field that requires application of this course material, the student may ask for a waiver of the recency requirement. This waiver will require a letter from the employer indicating the need and utilization of the course material. Final waiver determination is by the program director.

Clinical

- Admission into the clinical phase of a program requires that students be in good physical and mental health. A physical examination is required that includes blood testing, TB testing, and vaccinations.
- A criminal background check and drug screen are required.
- Students must adhere to a specific dress code and wear picture identification badges.
- Students must have reliable transportation to off-campus clinical sites.

More specific information concerning the admission procedure can be found on the Allied Health website at www.orangecoastcollege.edu/academics/divisions/consumer_health/allied_health/Pages/default.aspx

Termination of Allied Health Program and Procedure for Readmission

Any break in enrollment due to any of the items listed below will cause a termination in the program.

1. Voluntary withdrawal due to extenuating circumstances, defined as personal/family health issues, personal/family financial issues, or family-related issues preventing the student from continuing (NOTE: Grades are not considered as extenuating circumstances)

2. Non-passing grades (D or F) in Didactic Courses or

3. Non-passing grades (D or F) in Clinical and/or Laboratory Experiences or

4. Non-passing grades in Clinical and/or Laboratory Experiences for unsafe practices or substandard professional performance.

A student who terminates as indicated above in items numbered one to three, and who subsequently desires readmission to the program, will need to follow the Procedures for Readmission as specified on the Allied Health website. NOTE: For item four above, the student will be unable to continue in their chosen program and will be unable to reapply to the School of Allied Health Professions for any program.

Priority Registration Policy

Enrollment priority is the process used to determine the order in which students will have the opportunity to register for classes. Recognizing that each college serves a unique student population that may have differing needs, the development of specific registration priorities for some student groups will be done at the college level in accordance with District procedures.

The Coast Community College District is committed to the philosophy that all students should have fair and equitable access to courses and programs within the resources of each college and in accordance with State Education Code, Title 5 provisions, and guidelines adopted by the Board of Governors. Further, the District believes that students should be able to progress toward their stated educational objective in a timely manner.

The primary mission of the District colleges is to provide degree, certificate, and transfer programs. Therefore, priority is extended to students who have completed the requirements of SB1456 as defined by the Student Success Program. These include 1) completion of an orientation program 2) completion of assessment testing in English and Math 3) selection of a college program of study (major) 4) establishing a Student Education Plan (SEP) with an appropriate counselor 5) demonstrate Satisfactory Academic Progress toward their declared educational objectives (major). Effective Fall 2014 registration and forward, the registration priority will be according to the framework of Administrative Procedure (AP) 5055.

Board Policies and Administrative Procedures are available on the Board Policy section of the Coast Community College District (CCCD) website at www.ccccd.edu
Loss of Priority Registration

Students are assigned registration appointments in accordance with the Coast Community College District (CCCD) Board Policy 5055 and Administrative Procedure 5055. Students will lose priority registration due to unit cap limitations and/or not meeting academic progress standards (completion of more than 50% of courses attempted and maintaining a cumulative 2.0 GPA). Students will also lose eligibility for the Board of Governors Fee Waiver (BOGFW) due to not meeting academic standards. Students may submit an appeal form for consideration of reinstatement of priority registration and/or BOGFW eligibility. The form is available on the OCC website at www.orangecoastcollege.edu/enrollment/Pages/New-Registration-Priority-Information.aspx

Residence Requirements

California Residence

Verification of residence status may be required. Generally California residence is established by one of the following:

1. If the applicant is under the age of 18, his or her parents must have had legal residence within the State of California for 12 consecutive months preceding the day before the first day of the semester.

2. If the applicant is 18 but not yet 19 years of age, the applicant and the applicant’s parents must have had legal residence within the State of California for 12 consecutive months preceding the day before the first day of the semester.

3. If the applicant is 19 years of age or older, the applicant must have had legal residence within the State of California for 12 consecutive months preceding the day before the first day of the semester. If the applicant’s parents or legal guardians reside out-of-state, the student must be financially independent. (See Non-California Residents #2)

4. A non-immigrant holding a status that does not preclude the student from establishing residency in California must have had legal residence in California for 12 consecutive months preceding the day before the first day of the semester, and a restrictive immigration status dated at least one year and one day prior to the semester start date.

Persons generally ineligible to establish California residency include: students under age 18, students dependent on out-of-state parents/guardians, students with certain non-immigrant status, etc. For further information regarding who is eligible to establish residency, contact a Residency Specialist at the Enrollment Center on first floor of Watson Hall at occresidency@occ.cccd.edu

Non-California Residents

Students who do not meet the California residence requirements as of the day immediately preceding the first day of the semester or summer session are required to pay the non-resident tuition fees and capital outlay fees. This includes:

1. Minors (under 18 years of age and not married) will be required to pay the non-resident tuition fee if their parents or legal guardians reside outside the state even though such minors may have lived in the State of California for one year or more.

2. Students who are financially dependent on their parents or legal guardians will be required to pay non-resident tuition and capital outlay fees if their parents or legal guardians reside outside the state, even though such students may have lived in the State of California for one year or more.

3. Students holding non-immigrant status that precludes them from establishing residency in California may be restricted in their enrollment and will have to pay non-resident tuition and capital outlay fees.

Exceptions authorized by the State of California:

- Active military personnel are exempt from non-resident tuition fees provided they are in California for a purpose other than attending a state-supported institution of higher learning. Beginning Summer 2017, active duty military students and their dependents who are only enrolled in fully online classes at any of the Coast Community College District sites are exempt from the capital outlay fee.

- Dependents of military personnel stationed on active duty in California are classified as a resident.

- Veteran military personnel that were stationed in California for more than one year prior to separation qualify for the non-resident college fee waiver for one year within two years commencing immediately after discharge.

- Non-resident students who have completed three years of high school in California and graduated in California (or equivalency) may file an affidavit for waiver of non-resident fees (AB540). Students under certain visa classifications may not be eligible for this exemption. Please contact the Residency Specialist for more information at occresidency@occ.cccd.edu

- Non-Resident students who have completed credits earned in California from a California High School equivalent to three or more years of full-time high school coursework to substitute for three years of high school attendance as long as the student attended a combination of elementary and/or secondary schools in California for a total of three or more years. The intent of this exemption is to allow student who participate in accelerated learning programs and graduate early to be eligible for the nonresident tuition exemption. (AB 540)

- Veteran students receiving Montgomery GI Bill (Chapter 30) or Post 9/11 (Chapter 33) educational assistance and enroll within three years of discharge after serving 90 days or more on active duty; or anyone using transferred entitlement within three years of the transferor’s discharge after serving 90 days or more on active duty; or surviving spouses or children under the Marine Gunnery Sergeant John Fry Scholarship who enroll within three years of an active service member’s death in the line of duty after serving 90 days or more; or individuals who remain continuously enrolled after initially meeting the requirements and continue to use Chapter 30 or 33 benefits shall receive California residency for tuition purposes as required by the Federal Veterans Access, Choice and Accountability Act (VACA).

Incorrect Classification

A student incorrectly classified as a California Resident is subject to reclassification as a nonresident and payment of nonresident fees. If incorrect classification results from false or misleading statements, the student will be responsible for any fees associated with the incorrect classification.

For evaluation of residency status, students must complete the Statement of Residence form and submit appropriate documentation as proof of California Residence (Sections 54012 and 54024 of AP 5015 Residence Classification) through the third week of the semester. The initial residency classification will be made at the time the student applies for admission. Students may file residency questionnaire forms through the third week of the semester to request a review of their residency status. Final residency determination is made by Enrollment Services.

Reclassification

Reclassification to resident status must be requested by the student. The appropriate Statement of Residence form along with the required proofs that establish both physical presence (minimum requirement of 12 consecutive months prior to the
residency determination date) and intent to make California their permanent home must be submitted to the Enrollment Center prior to the term in which the student wishes to establish residency. Although a minimum of two proofs are required for residency reclassification consideration, the burden of proof remains in the hands of the requestor. Therefore, the Enrollment Center reserves the right to request additional documentation in its efforts to determine California Residency for tuition purposes. For additional information, contact a Residency Specialist in the Enrollment Center at occresidency@occ.cccd.edu.

**International Students**

Orange Coast College is authorized by the U.S. Department of Homeland Security (DHS) to admit international students under F-1 visa status.

At OCC, we believe that our international students provide ethnic and cultural diversity to the campus and help increase the awareness and understanding of students from other countries and cultures. Conversely, we provide an opportunity for international students to study in the United States and learn about our culture.

Interested international students can request an application for admission by emailing the Global Engagement Center at occinternational@cccd.edu. An application packet can also be downloaded by visiting the Global Engagement Center website at www.orangecoastcollege.edu/international.

Our admission process allows for acceptance to OCC during the fall, spring, and summer semester or term. Applicants must submit all required documents prior to the application deadline for the semester in which they wish to attend. Approximate semesters start dates are late August for fall, late January for spring, and early June for summer semesters.

The following are admission requirements for international students who are, or intend to be under F-1 visa status:

- Completed and signed international student application.
- Application fee in the amount of $55 USD.
- Passport-size photograph.
- Typed written statement (1-2 pages); applicants can discuss their academic goals, experiences and the reasons for their interest in OCC.
- Academic records: All evidence of academic records equivalent to high school graduation or higher, demonstrating successful academic achievement. The transcripts of the original records must be accompanied by a notarized English translation. In addition, international students who are in the U.S. under F-1 status must submit all of their academic records from the institutions they have attended in the U.S.
- English requirement: A minimum score of 500 (paper-based) or 61 (internet-based) on the Test of English as a Foreign Language (TOEFL), or a minimum score of 5.5 on the IELTS, or the EIKEN STEP Pre-First Grade level, or a minimum score of 5 on ITP Test. For applicants in the U.S., an equivalent placement on the OCC English Assessment Test (EAT) can be used to satisfy the English requirement. Applicants in the U.S. also can use the appropriate level in one of the English language programs with which OCC has agreement to satisfy this requirement. Applicants can contact the Global Engagement Center for a complete list of these schools.
- Confidential financial support documentation: Sponsor’s information and verification of support, as well as an original bank statement verifying sufficient amount is required. Additional documentation may be required upon reviewing applicant’s file. Financial forms can be obtained from the Global Engagement Center or downloaded from the Global Engagement Center website at www.orangecoastcollege.edu/international.
- Immigration-related documents: Applicants in the U.S. must submit copies of all immigration-related documents along with their application.

International students must enroll in and complete a minimum of 12 units each semester with a minimum 2.0 grade point average (GPA) in order to maintain their valid F-1 status. In addition, all international students must maintain continuous medical coverage that is provided through the Global Engagement Center throughout their studies at OCC. All international students pay non-resident tuition fees in addition to all other applicable fees during their entire attendance at OCC.

DHS prohibits international students from unauthorized employment. International students must obtain approval from the DHS and the Global Engagement Center before they engage in any on- or off-campus employment.

For further information or specifics regarding admission and submission of documents, refer to the International Student application packet or contact the Global Engagement Center by telephone at (714) 432-5940 or via email at occinternational@cccd.edu, or visit the Global Engagement Center located in Legacy Hall.

**Students with Visas**

Students with certain types of visas who are eligible for admission may enroll (limitations of units and/or restrictions may apply) provided they have a valid status that does not expire before the end of the term for which they are enrolling. Students with a non-immigrant visa classification must insure that enrollment in College does not interfere with their primary intent of non-immigrant status. A student who is precluded from establishing domicile in the United States shall not be classified as a resident unless and until he or she has been granted a change in status by the Department of Homeland Security (DHS) to a classification which permits establishing domicile and has met other residency requirements.

Students with B1 or B2 visa status are not eligible to take courses. They must contact the Global Engagement Center to inquire about changing their visa status.

**Assessment and Placement Test Requirements**

Placement testing is a process through which the College collects information about students to facilitate their success by ensuring their appropriate placement into Math, English, and/or ESL.

Placement testing is required for all students prior to enrolling in courses. Students who have any of the items below may be cleared from taking the placement test:

- CSU Early Assessment (EAP) Results – high school students who have taken the EAP and received a “Ready” status for CSU English and/or CSU Math.
- AP Scores – students who received a score of “3” or above on AP Calculus and/or AP English Literature or AP English Language and Composition.
- Other community college placement test results – students who have taken a placement test at an accredited community college within the last two years (excludes ESL).
- Successful completion of courses – students who have successfully completed an English or math course from an accredited college or university that is considered equivalent at OCC.
- Students who possess an associate degree may be exempt from placement testing. Students must provide official transcripts in order to verify satisfactory completion of college-level English and math coursework in order to be exempt from testing.
- Students who possess a bachelor’s, master’s, or doctoral degree can be exempt from placement testing. Students must provide official transcripts verifying the degree earned.

Students must wait one (1) year before retaking the
ESL or Native English Test and wait four (4) months before retaking the same level math test. Students are permitted to complete a different level math test at any time. All test results are valid for two years from the original test date. Students may not register in a course level higher than what is indicated on their placement test results.

OCC, in compliance with California Community College State Chancellor’s Office regulations, has validated the assessment process used to place students and found it to correlate highly with a student’s ability to perform at the level indicated. However, the College recognizes that, on occasion, the assessment process is not always the only indicator to determine a student’s placement, and in some cases, other factors may need to be considered. Therefore, students may submit an appeal for review for consideration of higher placement if they believe their placement is inaccurate. Appeal forms are located in the respective division office and must be made prior to enrolling in the course.

Students are encouraged to visit the Assessment Center’s website at www.orangecoastcollege.edu/assessmentcenter, call (714) 432-5789 or stop by the Assessment Center, located on the first floor of Watson Hall, for more information about placement testing. International students should contact the Global Engagement Center at (714) 432-5940 or occinternational@cccd.edu for testing requirements.

Course Accessibility

The policy of the Coast Community College District is that, unless specifically exempted by regulation, every course section, or class, reported for state aid, wherever offered and maintained by the District, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) and who meets such prerequisites as may be established pursuant to regulations contained in Title 5 of the California Code of Regulations, Division 6, Chapter 6, sub-chapter 1, Article 2.5, commencing with Section 55003.

Course Prerequisite, Co-requisite, and Advisory on Recommended Preparation

A “prerequisite” is a course a student is required to complete with a “C” or better, or a skill a student is required to have before enrolling in another course. A “co-requisite” is a course a student is required to take at the same time he or she is enrolled in another course. All prerequisites and co-requisites are designed to ensure students have the skills or information they need to succeed in a course. These requirements are established because it has been determined that without meeting them, a student is not likely to receive a passing grade in the course. A prerequisite or co-requisite also may be necessary to protect a student’s health and safety, or the health and safety of others. Additionally, courses taken without prior completion of the prerequisite may be denied credit upon transfer to a CSU or UC per articulation agreements, either at time of admission or upon petition for graduation.

An “Advisory on Recommended Preparation” (listed as “Advisory”) is a course or skill a student should have before enrolling in another course. Such recommendations are offered by the faculty who teach these courses, and it should be followed for student success. However, unlike a prerequisite or co-requisite, an “Advisory” is not required.

Prerequisites and Co-requisites Clearance Process

OCC enforces prerequisites and co-requisites at the time of registration. It is the student’s responsibility to determine if a course they wish to take has a prerequisite prior to their assigned registration appointment. To determine if a course has a prerequisite, go to the online class schedule, click the CRN number of the course and the prerequisite/co-requisite information will display.

Students who have completed a course at another college/university that is equivalent to a prerequisite at OCC must submit a Pre/Co-requisite Course Equivalency Form to the Assessment Center on the first floor of Watson Hall along with official or unofficial transcripts. In order to avoid registration difficulty, students must submit the form in a timely manner prior to their registration date. Students who wish to challenge a prerequisite based on previous experience or knowledge must visit the respective division office to obtain and complete a Challenge Form.

Students may be cleared in the registration system for enforced prerequisites and co-requisites in one of four ways:

1. Successfully completing the prerequisite/co-requisite at OCC.
2. Placing into the course via a California Community College placement test (if applicable).
3. Successfully completing the equivalent prerequisite/co-requisite with a “C” or better at another regionally accredited college/university and submitting transcripts to verify successful completion. Students may submit unofficial transcripts for prerequisite and co-requisite clearance only but must submit official transcripts if they wish to receive course credit/units. Students who believe that they have completed the OCC course prerequisite/co-requisite at another college must submit a Pre/Co-requisite Course Equivalency Form for review along with official or unofficial transcripts to the Assessment Center on the first floor of Watson Hall in a timely manner prior to their registration appointment.

4. If a prerequisite/co-requisite course equivalency is denied, students have the right to challenge a course prerequisite or co-requisite in accordance with Title 5, Section 55021. Students must contact the respective division office to obtain the Prerequisite/Co-requisite Challenge Form. The initial burden falls upon the student to show that grounds exist for the challenge. A grade lower than a “C” in a prerequisite course may NOT be challenged through this process. Grades of “C” do not meet the “C” grade or better requirement as defined for this purpose.

Decisions on challenges of prerequisite/co-requisite course listings will be made by a committee of two College instructional staff members, at least one of whom will be a faculty member knowledgeable about the discipline, but not the faculty member assigned to teach the course section for which the challenge is being made. All decisions are final.

Fees and Expenses

California legislation requires the College to charge student enrollment fees. Student fees are:

- Enrollment fee of $46 per unit for students meeting California residency requirements;
- $30 parking permit;
- $19 health service fee;
- $20 College Services Charge*;
- Material fees as listed in the current class schedule.

*The College Services Charge provides services and benefits, such as Bookstore buyback, Robert B. Moore Theater discounts, free tutoring, interest-free emergency loans, student activities and legal advice. Students may present their request for waiver of the College Services Charge to the ASOCC Office prior to registration (714) 432-5730.

Students who do not meet California residency requirements are required to pay a non-resident fee of $234 per unit and a Capital Outlay fee of $37 per unit in addition to the Resident fee of $46 per unit, for a grand total of $317 per unit.

All fees quoted are at time of publication and are subject to change without notice. The state legislature may increase enrollment fees at any time including current and future terms.
Student Health Center services include no-cost visits with doctors, registered nurses, and the mental health team, in addition to other services at reduced rates.

The student health service fee is mandated unless students present a waiver prior to registration. Those eligible for a waiver are:

- Students who depend solely on prayer for healing in accordance with the teachings of a bona fide religious sect, denomination or organization. For more information, call (714) 432-5730. For information and/or waiver, contact the Dean of Students Office prior to initial registration.
- Students in courses of less than two weeks duration.
- Students enrolled only in non-credit courses.
- Students enrolled only in study abroad programs.

Student Photo ID Cards are required for use in the Bookstore, Library and for other transactions with the College. This card may be used in succeeding semesters when the student is enrolled. Students will be required to replace any lost, stolen or unusable card.

In accordance with regulations of the Board of Governors of the California Community Colleges, Title 5, California Administrative Code, Section 59400 et seq., the Coast Community College District shall provide free of charge to students all instructional materials, except for the following materials which the student may purchase from the District at cost or may be provided through the student’s own means.

- **Optional Instructional Materials:** Materials used to enhance the student’s learning experience in the classroom, but that are not essential to the completion of course objectives.
- **Required Instructional Materials:** Materials required to complete the objectives of the course and that are tangible property of continuing value outside the classroom which the student will retain.

The College shall have the discretion to either charge or not charge a fee for instructional materials of the types indicated above. Such fees will cover actual District costs.

---

**Enrollment Fees, Non-Resident Fees, Material Fees**

100% refund of fees paid at registration for each class dropped by the refund deadline. No refund will be made after the refund deadline (refer to the Student Class Program/Web Schedule Bill on the Student Tab of the MyOCC portal page, or see Dates to Remember). There are no exceptions.

**Health Fee, College Service Charge**

100% of the fees paid at registration will be refunded if the student totally withdraws from all classes by the refund deadline for each class. No refund will be made after the refund deadline.

**Parking Permit**

Students must return the parking permit (if purchased) in-person or by mail. The parking permit must be postmarked or returned to the Enrollment Center (Registration Office) on or before the earliest refund deadline on the student’s official Student Class Program (Web Schedule Bill), which is available via the Student tab on the MyOCC portal.

**Refund Processing**

Refunds automatically will be processed weekly beginning the first week of registration of the semester in which the fees were paid and each week thereafter, until the end of the term. Official withdrawals made in accordance with the refund policy and by the withdrawal deadline will generate a credit balance on the student’s account.

**To Be Eligible for a Refund**

Students must officially withdraw from classes by the refund deadline (refer to the Student Class Program/Web Schedule Bill on the Student tab of the MyOCC portal page or see Dates to Remember). It is the student’s responsibility to officially withdraw from classes and to verify all withdrawals by printing their Student Class Program/Web Schedule Bill for confirmation. An instructor may drop students for non-attendance. Instructors are not responsible for dropping students prior to refund deadlines. Students who are officially enrolled in a class after the refund deadline will not be eligible for a refund. There are no exceptions.

**Online Credit Card Payment Refunds**

Registration fee payments made by credit card through MyOCC will be refunded to the same credit card used for payment. Allow 6-10 business days for the refund to post. If the credit card used to pay fees is no longer valid, it is the student’s responsibility to notify the Enrollment Center once the credit has been posted to the student’s account and prior to the refund being processed. The refund will be converted to a check refund upon proper notification.

**On Campus Payment Refunds**

Fee payments paid on campus — by cash, check, money order or credit card — will be refunded through BankMobile as either a check, mailed to the mailing address the Enrollment Center has on file, direct deposit to an existing bank account; or to a BankMobile account, depending on the refund choice made by the student. It is the responsibility of the student to make sure their BankMobile Vibe account is activated, and updated, and to maintain correct and up-to-date address information. Addresses can be updated on MyOCC, under the Student tab, and then click on Banner Self Service.

All requests for review of account summary must be made within a one-year grace period from the semester in which the fees were assessed. Such petitions are subject to review and all decisions are final. There is no additional appeal process.

**Important**

Payments made using multiple payment methods (online credit card payments and cash, check or money order) during the current registration period will be refunded to the credit card used for online payments.
Student Services and Co-Curricular Programs

The primary mission of all educational institutions is learning. Orange Coast College recognizes that there are many activities and programs outside of the classroom which enhance the learning process. Consequently, numerous student services have been established to help students move toward the attainment of their goals.

Students at OCC come from a diversity of backgrounds, ages, and lifestyles. The personal circumstances of many students often include financial, physical and/or learning constraints that make attending college difficult. The variety and comprehensive nature of student services at OCC is intended to support a multitude of concerns for a large student population. All students are encouraged to explore the services available at OCC by visiting the College’s website which provides valuable information.

Memorable college experiences often include more than classroom instruction. These activities expand learning and living skills. To this end, student activities and co-curricular programs are an integral part of OCC. The Student Services staff and the Associated Students of Orange Coast College coordinate these programs. Examples of activities offered throughout the year are lecture series, awareness days, clubs, Coast Days, athletics, forensics, leadership opportunities and many more.

A current schedule of student activities is available at www.orangecoastcollege.edu and in the Associated Students Office.

### Adapted Kinesiology Program

Adapted Kinesiology classes are designed for students with physical disabilities who can benefit from personalized exercise programs. A variety of courses are offered for improvement in strength, balance, flexibility and cardiovascular endurance, in addition to courses in individual sports such as bowling and aquatics. Students must register through the Disabled Students’ Center (page 15) and complete a necessary medical verification form prior to participation. For more information, call (714) 432-5528 or email roconnor@occ.cccd.edu

### OCC Alumni and Friends Association

The reputation of every distinguished college grows as a result of the benefits it bestows on its students, faculty and staff. The Orange Coast College Alumni & Friends Association enables our College to not only maintain its distinctive standing among community colleges but also to strengthen that standing by preserving close ties with all former OCC students.

Any student who has taken one or more classes at Orange Coast College is considered an alumnus. Voluntary membership in the Alumni & Friends Association is available for an annual fee of $20, or $25 for couples. Lifetime membership is available for $150, or $200 for couples.

Orange Coast College Alumni & Friends Association is a membership-based organization that relies on its members to support its programs and activities. Membership in the Alumni & Friends Association entitles you to a membership card, Library privileges, Job Placement Center resources, an alumni decal, discount tickets to campus performing arts events, invitations to alumni events, and opportunities to meet former classmates.

For more information, call (714) 432-5707 or email eparker@occ.cccd.edu

### Assessment Center

The Assessment Center, located on the first floor in Watson Hall, administers English, English as a Second Language (for students who are not native speakers of English), chemistry and mathematics placement tests. In order to take a placement test, students need to have an OCC student ID number and display a photo ID upon check-in. Placement testing is done on a walk-in basis during the Assessment Center’s testing hours (no appointment necessary). For more information and test schedules, call (714) 432-5789 or visit the Assessment Center’s website at www.orangecoastcollege.edu/assessmentcenter

### The Associated Students

The Associated Students of Orange Coast College are responsible for student government and participation in College planning, policy-making and governance. They manage a large college-life program that includes a wide variety of clubs, social activities and informal learning experiences. They also oversee a substantial budget to ensure that many needs of students are met on campus.

Within the ASOCC, students may choose a variety of leadership experiences such as serving on campuswide committees, serving as a club member or officer, participating in programs and activities, and working on fiscal-related issues.

We invite students to participate in our many programs and become involved as a student leader. For more information, please stop by the ASOCC office located in the Student Center.

Jurisdiction of the Associated Students of Orange Coast College is established in the Manual of Board Policies and Administrative Procedures of the Coast Community College District. For more information, call (714) 432-5507.

### Athletics

With several decades of winning tradition, Orange Coast College has been regarded as having one of the top athletic departments among all two-year colleges in the state. This standard has produced one of the highest totals of team and individual state and national championships throughout all California community colleges.

The Pirates field 12 men’s athletic teams and 13 women’s teams. Men’s sports include baseball, basketball, crew, cross country, football, golf, soccer, swimming and diving, tennis track and field, volleyball and water polo. Women’s sports include basketball, crew, cross country, golf, sand volleyball, soccer, softball, swimming and diving, tennis, track and field, volleyball and water polo. Cheerleading is a co-ed sport.
**Intercollegiate Athletics**

Orange Coast College participates as a member of the Orange Empire Conference for most of its sports sponsored by the California Community College Athletic Association (CCCAA). The Orange Empire Conference includes the following colleges: Orange Coast, Cypress, Santa Ana, Riverside, Saddleback, Fullerton, Golden West, Irvine Valley and Santiago Canyon.

For football, OCC is a member of the Southern California Football Association, National Southern Division, which includes the following colleges: Orange Coast, Palomar, Santa Ana, Saddleback, Long Beach, Fullerton and Grossmont.

**Non-Conference Athletics**

The men’s and women’s crew compete in individual sports associations.

Orange Coast College is the only community college in California to offer competitive rowing. OCC Crew is a member of the Western Intercollegiate Rowing Association and the American Collegiate Rowing Association. Other colleges competing in these associations include: CSU Long Beach, Loyola Marymount, CSU Sacramento, St. Mary’s College, CSU San Diego, Santa Clara University, UC Irvine, UC Davis, UC San Diego, UC Santa Barbara, Stanford University, UC Berkeley, University of Washington, Oregon State University, UCLA, USC and Washington State University.

**OCC Bookstore**

The OCC Bookstore provides all required textbooks and supplies for students and faculty and also offers general interest books, magazines, greeting cards, gifts. Pirate clothing and general merchandise to accommodate the needs of the campus community.

**Bookstore Hours**

Contact the bookstore at (714) 432-5896 or by fax at (714) 432-5928 or visit www.orangecoast.bncollege.com

**Online Ordering**

Textbooks and merchandise are available for online order, pick-up or delivery. You may visit the website 24/7 at www.orangecoast.bncollege.com

**Gift Cards**

The OCC Bookstore accepts Barnes & Noble gift cards. Gift cards are available at the bookstore and can be purchased for any denomination.

**Computer Software**

Software titles are available at www.thinkedu.com and are educationally discounted up to 85%.

**Returns**

Textbooks: A full refund will be given in the original form of payment if textbooks are returned during the first week of classes with original receipt. With proof of a schedule change and original receipt, a full refund will be given in your original form of payment during the first 30 days of classes. Textbooks must be returned in original condition. Unwrapped loose leaf books and activated eBooks are non-returnable.

General Reading Books, Software, Audio, Video, and Small Electronics: A full refund will be given in your original form of payment if merchandise is returned within 14 days and with original receipt. Opened software and small electronics may not be returned. They can be exchanged for the same item if defective.

All Other Merchandise: A full refund will be given in your original form of payment with original receipt.

For additional details visit the bookstore or www.orangecoast.bncollege.com

**Buyback of Textbooks**

Students should bring their textbooks back to the bookstore at the end of the semester to receive up to 50% cash back. Finals week is the best time to get the most cash back, so sell early!

Books must include all original material and a Student ID or identification may be required at the time of buyback.

**Textbook Rentals**

Renting is easy and cost effective. A majority of textbooks are available to rent. When shopping for textbooks in-store, the course information tag displays a “Rental” option as well as New and Used options. Students also may shop online for rentals at www.orangecoast.bncollege.com.

Students must be 18 years of age or older and provide a telephone number, government issued ID, email address and a personal credit card at the time of purchase. All accepted forms of payment may be used to pay for textbook rentals.

Students may register their email address to receive reminder notices when their rental due date approaches.

For more details visit www.orangecoast.bncollege.com

**Forms of Payment**

The OCC Bookstore accepts Barnes & Noble gift cards, VISA, MASTERCARD, AMERICAN EXPRESS, and DISCOVER cards. The account/card holder must be present at time of purchase.

**The Children’s Center**

The Harry and Grace Steele Children’s Center is a unique and comprehensive child development program that offers child care for student parents enrolled at OCC, faculty, staff and the community.

The California Department of Education (CDE), the Associated Students of Orange Coast College and parent fees fund the Children’s Center. The Children’s Center serves children ages 6 months to 5 years throughout the year.

Student parents must pay the college service charge before registering their children. Subsidized child care services are available for student parents who qualify under the CDE-Child Development Division qualifications. A 10 percent discount on child care fees is offered to student parents that do not qualify for subsidized care. Full-cost openings also are available for faculty, staff, and the community.

Check the OCC website for hours of operation. The Children’s Center is located on Merrimac Way, on the west side of Parking Lot D.

For more information call (714) 432-5569

**CalWORKs**

In cooperation with the Orange County Department of Social Services, the California Work Opportunities and Responsibilities to Kids (CalWORKs) program provides specialized services to families who are applying for or are current TANF (Temporary Aid to Needy Families) recipients. Additional services for qualified students may include: child care grants, personal counseling, academic advisement, advocacy, transportation assistance, subsidized work-study, community referrals and job placement guidance.

The CalWORKs program is located on the fourth floor of Watson Hall, Room 456. For more information please call (714) 432-5636.

**Cooperative Agencies Resources for Education (CARE)**

CARE is an additional support program for EOPS students who meet the following qualifications:

- Be 18 years of age or older
- Be a single parent and head of household of a child or children under 14 years of age
- Receive TANF/CalWORKs monetary benefits

Services for CARE students include supportive counseling, textbook/supplies, transportation assistance and a meal program.

The CARE office is located on the fourth floor of
Counseling Services

Counseling appointments serve the needs of students seeking academic, career and/or personal counseling. Appointments may be made in person at the Counseling Counter on the third floor of Watson Hall; by telephone at (714) 432-5078, or by visiting our website at www.orangecoastcollege.edu/student_services/counseling/Pages/Make_Appointment.aspx. For further counseling information call (714) 432-5700.

Resource Desk

A resource desk is located in the Counseling Center on the third floor of Watson Hall and is staffed by a credentialed counselor during most day and evening hours. The resource counselor cannot respond to questions that require a student’s records, but is otherwise available to provide information and assistance. You may come in person to the resource desk, or call (714) 432-5699.

Transfer Center

The Transfer Center provides information and assistance to students who are preparing to transfer to four-year colleges and universities. The center provides information on transfer programs, general education requirements, and schedules appointments with representatives from four-year colleges and universities as well as offering assistance in the four-year campus application process. Applications for admission to CSU and UC schools are available at the Transfer Center. The center also sponsors a “Transfer Day” in the fall and spring semesters with representatives on campus from more than 80 colleges and universities from both California and out-of-state. Transfer planning workshops are offered throughout the academic year. The Transfer Center is located on the second floor of Watson Hall, Room 215. For more information, call (714) 432-5894.

Workshops

Workshops — offered on an ongoing basis — focus on topics of interest to both new and returning students. Workshop schedules are available in the Counseling Center.

Instruction

The Counseling Division provides instruction in career and personal development, offering a variety of credit courses that support the developmental needs of both new and returning students. Counseling courses are offered both day and evening, and are articulated for transfer the same as courses offered in other divisions. Courses are listed under “Counseling” in this catalog and the class schedule.

Outreach

Outreach consists of a variety of liaison activities with area high schools, including participation in college nights, classroom presentations, and meetings with counseling and administrative personnel. Outreach counselors work closely with Assessment Center personnel, the director of the Transfer Center, and Student Success and Support Program services. For information about Outreach activities, phone (714) 432-5197.

Cumulative Records

The students’ cumulative records are developed and maintained in the Counseling Center. Counselors refer to these records in preparation for and during student appointments. Students, through a counselor, also may access their own cumulative records.

Petition Processing

A petition is a request for special action and is processed through the Counseling Center. Petitions for Credit by Examination, Waiver of Requirements, Excessive Units and Academic Renewal are available in the Counseling Center.

Disabled Students’ Center

The Disabled Students’ Center (DSC) provides support services to students with disabilities in an effort to ensure equal opportunity and participation at the College.

To receive services from the DSC, each student is responsible for the following:

• Verification of Disability: Submit verification by a certified professional or other appropriate agency.
• Personal Care: Each student is responsible for their own personal care, such as toileting, eating, and behavior; and, if necessary, providing a personal attendant while on campus, including in the classroom.
• Seizure Policy: Because of the College’s concern for the well-being of all students, OCC has a policy governing a student who has a seizure on campus. When a physician indicates that seizures possibly endanger the student or others, the student may be denied continued enrollment. This may range from a particular class deemed hazardous to exclusion from campus. Reinstatement may occur when there is evidence that seizures are controlled.

For more information, contact the Dean, Enrollment Services.

Financial Aid

Orange Coast College participates in multiple federal and state financial aid programs. Students apply by completing the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov. This application is available ten months before the student’s attendance year.
Below are some legislative changes effective July 1, 2012, for Federal Student Financial Aid Recipients:

- Students without a high school diploma or its equivalent are ineligible for funds. If the student passed an ATB test prior to July 1, 2012, and began an eligible program, the student is still eligible for federal student financial aid funds.

- There is a six-year maximum for the Pell Grant (full-time equivalent semesters) from the date that the student began receiving Pell Grant funds.

- For Direct Loans that originate after July 1, 2012, and prior to July 1, 2014, the borrower must pay interest that capitalizes during the grace period. (Grace period is a six month period of time after a student leaves college or drops below half-time enrollment.)

- First-time borrowers may not receive subsidized loans for more than 150 percent of the length of program of study. For example, if you are enrolled in a two-year associate degree program, the maximum period for which you can receive Direct Subsidized Loans is three years (150 percent of two years = three years). The Department of Education may stop paying your interest subsidy if you exceed that limit.

**Federal Grants (money awarded that does not need to be repaid)**

The Federal Pell Grant is available to undergraduate students. Award amount is based on the student’s Expected Family Contribution (EFC) (determined by FAFSA) and is prorated according to the number of units in which students are enrolled.

The Federal Supplemental Educational Opportunity Program (FSEOG) is for students with exceptional financial need.

The Federal Work Study Program provides jobs for a limited number of students with financial need, allowing them to earn money to help pay for educational expenses.

**Federal Loans (money which must be repaid)**

The William D. Ford Federal Direct Loan (Direct Loan) Program is the largest federal student loan program. Under this program, the U.S. Department of Education is the lender. The interest rate is variable (adjusted annually on July 1) and will not exceed 8.25 percent.

Direct Subsidized Loans are loans made to eligible students who demonstrate financial need to help cover the costs of education.

Direct Unsubsidized Loans are made to eligible students, but in this case the student does not have to demonstrate financial need to be eligible for the loan.

Direct PLUS Loans are loans made to parents of dependent student to help pay for education expenses not covered by other financial aid.

**State Financial Aid Programs**

**Cal Grant**

The California Student Aid Commission awards Cal Grants. Students must be legal residents of California and have financial need. To apply, students complete a Free Application for Federal Student Aid (FAFSA) at http://www.fafsa.gov, and submit a grade point average (GPA) Verification form by March 2 and September 2.

- Cal Grant B – Assists very low income, first-year students with living expenses, books, supplies, transportation and other non-tuition costs. (Renewals also may cover tuition/fee costs).
- Cal Grant C – Assists low- and middle-income vocational students with tuition and training costs. Recipients must be in a program of study that is four months to two years in duration, at a vocational school, community college or independent college.

For more information, visit the California Student Aid commission website at www.csac.ca.gov.

**Board of Governors Fee Waiver**

The Board of Governors Fee Waiver (BOGW) waives students’ course enrollment fees if they are California Residents and meet the eligibility requirements. If a student is eligible for the BOGW, he or she is still responsible for the student health fee, College service charge, material fees, parking permit and any other fees associated with courses.

Note: Starting with the Fall 2016 term, students will lose their BOG fee waiver eligibility after two consecutive primary terms (fall and spring semesters) of not meeting academic progress or progress standards. Academic requirements for BOGW are a cumulative GPA of at least 2.0 and a cumulative satisfactory completion of more than 50 percent of cumulative attempted units (in two consecutive semesters). Students who lose their BOGFW may appeal to reinstate their BOGFW eligibility. Students may submit the appeal form — which is available on the Enrollment Services website — directly to Enrollment Services on the first floor of Watson Hall.

**Chafee Grant**

This grant is only available to foster youth. Students who are eligible for a Chafee Grant also should contact the EOPS office to learn more about qualifying for the Guardian Scholars Program.

**California DREAM Act**

The California Dream Act of 2011 is the result of two bills: Assembly Bill 130 (AB 130) and Assembly Bill 131 (AB 131). Together, these bills allow students who meet certain provisions of AB 540 law to apply for and receive private scholarships funneled through public universities (AB 130), state-administered financial aid such as the Cal Grant programs, university grants, and community college fee waivers (AB 131). The application is available at https://dream.csac.ca.gov. You must be eligible for AB540 status for your Dream Act application to be processed.

**Full Time Student Success Grant (FTSSG)**

The Full Time Student Success Grant (FTSSG) was created by California Senate Bill 93, the 2015 Budget Act, was signed by the Governor on June 24, 2015, and includes language initiating a new grant program for California Community College students. The program provides funding to the California Community College Chancellor’s Office (CCCCO) to provide for supplemental grants for the 2015-16 year (anticipated ongoing funding) to community college Cal Grant B recipients who have already received a full time Cal Grant B award payment. All 113 California Community Colleges are participating.
Eligibility requirements for the grant:

- California community college student who has received a Cal Grant B, and;
- Is a full-time student. Full time is defined as being in 12 or more units for a primary term.
- For the Coast Community College District, the student will have received a Cal Grant B and will need to be enrolled in 12 units for fall and spring.

**Satisfactory Academic Progress (SAP) Standards for Financial Aid Recipients**

SAP standards apply to all federal and state aid applicants whether or not they have previously received student financial aid.

Students receiving financial aid must meet Satisfactory Academic Progress (SAP) toward an eligible educational goal. Failure to maintain these standards will result in loss of eligibility for financial assistance. These standards apply to students receiving assistance from those financial aid programs administered by the Orange Coast College Financial Aid Office and is separate from the College’s academic progress policies. All students must meet the SAP policy to be eligible to receive financial aid.

The Financial Aid Office reviews SAP at the end of each semester. SAP includes measures of cumulative GPA, pace or progress of unit completion, and a maximum number of attempted units allowed.

The Satisfactory Academic Progress (SAP) Standards is published on the Coast Community College website at www.cccd.edu (click on Students, then Financial Aid).

**Return of Title IV Funds**

Recipients of federal aid programs (Title IV grants or Direct Loans) who withdraw completely from the College before completing at least 60 percent of their enrollment period may be required to repay all or part of aid received. The Financial Aid Office will officially notify the student regarding the amount owed and repayment deadline.

**Guardian Scholars**

Orange Coast College’s Guardian Scholars Program is committed to supporting ambitious college-bound students who are current or former foster youth/wards of the court. The program’s mission is to provide a comprehensive program that contributes to the quality and depth of the student’s college experience. It serves as a resource for young adults by assisting in their development and equipping them with skills necessary to transfer to a four-year university or the vocation of their choice. Guardian Scholars aims to be a “One Stop Shop” that provides caring and personalized assistance with educational goals and practical day-to-day needs to ensure that full advantage is taken of college life, both inside and outside the classroom. Services include academic advising, financial aid, and referrals to community resources. The Guardian Scholars Office is located on the fourth floor of Watson Hall. (Check in at the EOPS Office.) For more information please call (714) 432-6877, email guardianscholars@occ.cccd.edu or visit http://tinyurl.com/occguardianscholars.

**Honors Program**

The OCC Honors Program provides an enriched collegiate experience for intellectually curious and highly motivated students. The Program celebrates the collaborative effort of students and instructors in reciprocal teaching-learning environments that promote student initiative, knowledge, curiosity about the world of ideas, and concern for current social issues.

**Honors Courses**

OCC Honors courses may be taken by OCC students who wish to engage in a more rigorous learning experience, whether or not they are enrolled in the Honors Program itself. The courses are challenging and demand a significant commitment of time for study and engagement. Honors instructors enhance the basic curriculum requirements of their classes by offering more opportunities for intensive study than are possible in most non-Honors sections. Freedom of inquiry and student discovery are stressed. The generally smaller Honors sections are intended to foster discussion, mastery of content, critical thinking, and analysis. Guest speakers, field trips and comprehensive research, including the presentation of results, further enhance many Honors sections.

**Writing Skills and Honors Courses**

While there are no prerequisites for Honors sections other than those that apply to non-Honors sections of the same courses, many Honors courses include scholarly reading and writing assignments, including research and essay-style exams. Strong college-level writing skills are critical to student success. Prior completion of, or concurrent enrollment in, English 100 or higher is strongly recommended.

**Multiple Paths within Honors**

Students enroll in the Honors Program for a variety of reasons and not all students are expected (or required) to pursue the same path or take advantage of the same benefits. In fact, certain benefits may not be available to all Honors students, depending on choice of major or target transfer school. Students are further advised that involvement in Honors Program on- and off-campus events, projects, academic conferences, creative works competitions and social gatherings are recommended. These activities provide a variety of personal development opportunities and may improve the likelihood of selection for transfer admission and scholarship awards.

**Benefits of Enrollment**

For all students enrolled:

- Close interaction with enthusiastic learners and passionate instructors
- Flexible, rigorous coursework emphasizing research, critical thinking and writing skills
- Added preparation for upper division coursework
- Opportunities to develop leadership and organizational skills through the Honors Student Council (HSC)
- Access to specialized Honors Counseling
- UCLA and UCI Library privileges
- Special activities, including guest speakers, seminars, field study, and social events
- Opportunities to present research and creative works at prestigious academic conferences
- Added preparation for upper division coursework
- Notation of each Honors course on transcripts
- Access to specialized Honors Counseling

**Benefits of Certification**

For students who choose to complete Honors Program certification requirements:

- Earn priority consideration for transfer admission to a number of respected four-year institutions, including UCLA and UCI
- Receive a notation on official OCC transcripts of Honors Program completion
- Earn the privilege of wearing the program’s distinctive sage and silver Honors regalia and receiving recognition in the graduation program

**Enrollment Procedures**

Students may apply to the OCC Honors Program year-round; if they believe they have met all of the enrollment criteria.

Successful applicants will:

- Be in good standing with the OCC Dean of Students Office and adhere to the Coast Community College District Student Code of Conduct and Disciplinary Procedures (Refer to the OCC Catalog for detailed information.)
- Be currently enrolled in OCC classes
• Complete an Honors Orientation prior to submitting an application (Visit the Honors Program website to make a reservation for an orientation session.)
• Meet the English composition requirement in one of the following ways:
  - Receive an exemption from English 100 with an AP exam score of 3 or higher; or
  - Complete at least one qualifying English composition course with a grade of A or B: English 100, 101, 101H, 102, 102H, or 109.

Submit an application to the Honors Program

Students who graduated from high school less than one year prior to submitting an Honors Program application AND who have completed fewer than 12 units of letter-graded college coursework MUST:

- Have a minimum final cumulative high school GPA of 3.25 for grades 9-12; AND
- Have a minimum cumulative GPA of 3.25 in all college coursework completed

All students who have completed 12 or more units of letter-graded college coursework MUST:

- Have a minimum cumulative GPA of 3.25 in all college coursework completed

Note: Applicants are required to submit transcripts from all colleges attended. Grades of D, F, or NP earned within the Coast Community College District at any time, or at another college during the two years prior to entering any of the CCCD colleges, must be “excluded” through course repetition or academic renewal. Incomplete grades of ID, IF, or INP must be resolved with a final grade for course completion. If eligible for Academic Renewal, a written notification must be filed with the Honors Office.

Completion Requirements

Special recognition is awarded to transferring or graduating students enrolled in the Honors Program who meet the following requirements:

- Complete of a minimum of 15 units of Honors coursework, distributed over at least three different subjects, with a letter grade of C or higher earned in each
- Earn a minimum cumulative GPA of 3.50 in all transferable coursework, including courses taken at other institutions
- Earn a grade of A or B in at least one qualifying English composition course (English 100, 101, 101H, 102, 102H, 109) or receive an exemption from English 100 with an AP score of 3 or higher
- Obtain an exclusion for all grades of D, F, or NP through course repetition or academic renewal prior to the start of the final semester, and earn a passing grade in all previous “Incomplete” courses.

Certification Requirements

Eligibility for Honors transfer priority requires that students meet applicable university transfer requirements AND Honors Program certification criteria: general education breadth, selective-major prerequisites, and completion of at least 12 units of Honors coursework before the start of the student’s final semester at OCC. (Up to three of the required 15 total Honors units may be in progress at the time certification is requested.)

Up to one-half of UC-transferable Honors units earned at another college may be accepted toward Honors Program completion at OCC. (Submit official transcripts to the Honors Office for a determination.)

Exceptions to Policies

Exceptions to policies for enrollment, completion or certification may be requested through the appeals process. For further information, contact the Honors Office.

Contact Us

Please visit the Honors Program office on the fourth floor of Watson Hall, Room 433, or call (714) 432-5601 for more information. Please refer to the Honors Program website for the most up-to-date news and policy information.

Alpha Beta Gamma

Orange Coast College is accredited by Alpha Beta Gamma International Business Honor Society to initiate members into the honor society for business and related professional disciplines. For additional information about the society, refer to www.abg.org. For more information about OCC’s chapter or for an application, please contact the Academic Honors Office on the fourth floor of Watson Hall, Room 433, call (714) 432-5601, or email abg@occ.cccd.edu

Alpha Gamma Sigma

Alpha Gamma Sigma is the California Community College Scholastic Honor Society, established in 1923. The Orange Coast College Chapter is “Alpha Kappa.” Initial membership is granted to applicants who have met the minimum requirements. In order to receive graduation recognition and transcript notation, members must earn permanent status through membership renewals. For full details about membership requirements and benefits, as well as a current application, visit www.orangecoastcollege.edu/academics/AcademicHonorSocieties/alpha-gamma-sigma/Pages/default.aspx or email the chapter at ags@occ.cccd.edu

Mu Alpha Theta

Mu Alpha Theta is a national mathematics honor society for high school and community college students. The Orange Coast College chapter was established in 1971. Eligibility requires completion of at least 12 units of OCC coursework with a cumulative GPA of 3.25, as well as completion of qualifying mathematics courses (Math 157 and higher, excluding Math 160 and Math 220) with grades of A or B only. Candidates for membership will receive an email invitation, or may contact the Honors Office to obtain an application.

For more information, go to www.orangecoastcollege.edu/academics/AcademicHonorSocieties/Mu-Alpha-Theta/Pages/default.aspx or email the chapter at mat@occ.cccd.edu

Mu Delta Rho

Mu Delta Rho is the Pre-Health Honor Society of Orange Coast College. The organization’s goals are to recognize the academic achievements of community college students preparing for a health profession, nurture and develop the qualities required to be a good health care practitioner, and encourage members in their pursuit of excellence, knowledge and beneficence. To be eligible for membership, students must submit an application; pay one-time dues; demonstrate qualities of character, citizenship and service (as evidenced by a letter...
of recommendation); hold a minimum cumulative GPA of 3.0; and have a minimum GPA of 3.5 in the qualifying allied health or pre-health coursework listed below.

1. Qualifying Coursework for Allied Health Student Eligibility: Completion of 15 units or 50 percent (whichever is less) of required core coursework (prerequisite courses cannot count toward the 15 units) in an OCC Allied Health program. For a list of applicable core courses, refer to the specific allied health program requirements.

2. Qualifying Coursework for Pre-health Student Eligibility: Students preparing for baccalaureate or graduate level health professions must complete at least 15 units of approved prerequisite courses in biology, chemistry, mathematics, physics and other required disciplines.

For more information about Mu Delta Rho, including membership eligibility criteria and activities, please refer to the Academic Honor Societies section of the OCC website.

**Omega Psi Sigma**

Omega Psi Sigma (Alpha Chapter) is the Orange Coast College Honor Society for Political Science. The goals of the society are to recognize academic achievement in political science coursework, to promote scholarly research and participation at academic conferences, to support student efforts for transfer into political science, pre-law and other majors at four-year institutions, and to provide opportunities for student engagement in political issues through raised awareness and experience. The chapter accepts new lifetime members during the spring and fall semesters, and requires a minimum 3.25 cumulative GPA as well as among political science courses. A one-time payment of dues must accompany the application (refundable if the application is not approved). Members in good standing are eligible to purchase and wear honors regalia at graduation.

For the most current information about complete membership eligibility criteria and activities, please visit the chapter website [here](http://www.orangecoastcollege.edu/academics/AcademicHonorSocieties/omega_psi_sasma/Pages/default.aspx)

**Phi Alpha Mu**

Phi Alpha Mu was created in 1957 by the Orange Coast College Social and Behavioral Sciences faculty. It grew from a desire to recognize, honor, and encourage outstanding student achievement in OCC social and behavioral sciences courses. The name was derived from Thucydides who, in reporting the Funeral Oration of Pericles, described the Athenians as searching for “wisdom without loss of strength.” The name, accordingly, is intended to signify an organic fusion of philosophy, anthropology, and other matters pertaining to the Muses. Thus, through these studies individuals can achieve “wisdom without loss of strength.”

Phi Alpha Mu offers open membership enrollment to students during the first four weeks of the fall and spring semesters. Phi Alpha Mu membership benefits include the following:

1. Notation on student’s OCC transcript;
2. Commencement regalia and recognition during graduation ceremonies;
3. Leadership, Service and Scholarship portfolio development;
4. Opportunity for club-active society members to compete for scholarship awards.

**Qualifications for membership:**

Freshman students must have completed a minimum of nine units in Social/Behavioral Sciences courses with a 3.50 grade point average or higher in these courses. In addition, the student’s Orange Coast College overall grade point average must be at least 3.0.

Sophomore students must have completed a minimum of 12 units in Social/Behavioral Sciences courses with a 3.50 grade point average or higher in these courses. In addition, the student’s Orange Coast College overall grade point average must be at least 3.0.

**Qualifying courses include:**

**Honor Society Membership Dues:**

Beginning Fall 2010, lifetime membership dues ($5) must be attached to completed applications in the form of a check or money order made out to the OCC Foundation.

Note: Current enrollment in courses does not count toward qualification. Only OCC courses with grades that are listed and highlighted on the transcripts will be considered.

**Phi Theta Kappa**

Phi Theta Kappa is the only internationally acclaimed academic honor society serving two-year institutions. The American Association of Community Colleges recognizes Phi Theta Kappa as the official honor society for two-year colleges. The Orange Coast College Chapter is Beta Mu Alpha.

You may be eligible for membership if you meet the following minimum requirements:

1. Twelve (12) semester units of associate degree level coursework.
2. Cumulative GPA of 3.50
3. After acceptance, members must maintain a cumulative GPA of 3.25 or above.

Membership is not automatic. Students will be invited to join following the end of each semester, or may request an application if they feel they meet all the qualification criteria. Applications are submitted to the Academic Honors Office with one-time dues. Acceptance enrolls the student in PTK international, regional and local chapters.

For more information, go to [www.orangecoastcollege.edu/academics/AcademicHonorSocieties/PhiThetaKappa/Pages/default.aspx](http://www.orangecoastcollege.edu/academics/AcademicHonorSocieties/PhiThetaKappa/Pages/default.aspx) or email the chapter at [ptk@occ.cccd.edu](mailto:ptk@occ.cccd.edu)

**Psi Beta**

Psi Beta is the national honor society for psychology in community and junior colleges.

The purpose of the society is to stimulate, encourage and recognize students’ outstanding scholarship and interest in psychology.

Psi Beta offers the experience of leadership, interaction with faculty outside the classroom, participation in community service, and meeting others with the same interests. It offers the opportunity to participate in national, regional and local programs.

Students must have completed at least 12 semester hours, three of which must be in psychology. The student’s overall GPA must be 3.0 or better; plus a grade of “B” or better must be received in psychology classes.

There is a one-time national registration fee of $50, which includes a certificate and lapel pin.

**Housing**

The Global Engagement Center is responsible for housing information for the campus. A current listing of housing options can be found on the Enrollment Center website at [www.orangecoastcollege.edu/enrollment/Pages/Housing-Information.aspx](http://www.orangecoastcollege.edu/enrollment/Pages/Housing-Information.aspx)

The Homestay Program is another housing option for international students. The Global Engagement Center can provide information on Homestay Programs. Through these programs, students are put in contact with interested host families in the area. The goal of the program is to provide both guest and host with the opportunity to learn about each other’s country and culture, see one’s own country in a new light, and make new friends. For further information, please contact the Global Engagement Center at (714) 432-5940.
The Global Engagement Center is listed as an issuing office for International ID Cards. The Center issues the International Teacher Identity Cards (ITIC), the International Student ID Cards (ISIC), and the International Youth Travel Cards (IYTC). These cards provide access to special discounts and benefits while traveling internationally. For pricing information and eligibility requirements, contact the Global Engagement Center at (714) 432-5940.

The Learning Center

The Learning Center provides basic skills instruction in reading, writing, spelling, and arithmetic for students with learning disabilities. In addition to basic skills, the program provides English and math tutoring and support services such as test accommodations, note taking, registration assistance, and alternate media for students enrolled in general academic courses. The Center’s staff evaluates the learning difficulties of each student and then develops a program which includes a number of teaching techniques and materials. A student may earn 1 to 3 units of credit each semester by enrolling in LRNG 001AD. The Learning Center’s phone number is (714) 432-5535 and is located in the Special Services Building.

Library Services

Containing more than 100,000 books, periodicals, and video visual materials, the Orange Coast College Library supports and enriches the quality of the College’s educational program. Check the Library website for hours of operation. The Library is closed during all school holidays. Remote access to the Library’s online catalog and full-text databases is available through the Library website at www.orangecoastcollege.edu/library.

An OCC student ID card or a Library card is required to check out Library materials. Circulating books may be checked out for a three-week period and renewed once if not on hold. Fines are $0.25 per day per book up to a maximum of $10. Reserve material will be found at the circulation desk and may be checked out for a limited time, usually two hours. In addition, the Library has established a textbook collection for the students, funded by the OCC Foundation, with a generous bequest from former OCC faculty member Shirley Brooke. Students may use a textbook in this reserve collection for two hours in the Library. Fines vary depending on whether the material is a reserve item, a circulating book, or a media item. Library materials may be returned in the book bin in Parking Lot E or at the front of the Library. Materials not found in the Library may, in some cases, be requested by students from libraries in the Cal-West Consortium and by faculty from libraries throughout the United States. Inquire at the reference desk for more information.

The media/computer lab department provides instructional videos, Coastline College telecourses, language resources, and a computer lab with access to the Internet and software for word processing, and other programs. Media reserves may be viewed in the Library or checked out overnight.

Reference librarians are available to teach and guide students in using the numerous print and online resources provided by the Library. The Library offers a transferable two-unit class (LIB A100, Library and Information Competency) designed to develop research skills.

Lost and Found

Lost and Found is located in the ASOCC Office in the Student Center. Check the OCC website for hours of operation; hours are subject to change. The ASOCC Office can be reached by calling (714) 432-5730.

Recycling Center

The Associated Students of Orange Coast College sponsors an on-campus Recycling Center located on Adams Avenue, between Harbor Boulevard and Fairview Road. The center accepts donated materials such as newspapers, magazines, pamphlets, office paper, computer paper, glass, aluminum and plastic beverage containers. The Center also accepts electronic waste.

The center will pay the current market price for “CA Redemptive Value” containers of glass, plastic and aluminum; check the OCC website for hours of operation. Profits from the Recycling Center go to scholarships for OCC students.

Reserve Officers Training Corps

Orange Coast College students can participate in the Army and Air Force Reserve Officers Training Corps. Army ROTC classes are conducted two hours each week at UCLA and CSULB. Two- and four-year programs lead to a commission as a second lieutenant in the Army or in the National Guard. Participants must be physically qualified full-time students at the undergraduate or graduate level. During their last two years, students receive a monthly tax-free stipend through the regular school year. Students with ROTC scholarships receive full tuition, and have their required fees and books paid for. Veterans ordinarily qualify for advanced placement. For more Army ROTC information, call California State University, Long Beach, or University of California, Los Angeles or California State University, Fullerton.

Through arrangements with Loyola Marymount University (LMU) in west Los Angeles, students may participate in the Air Force Reserve Officer Training Corps (AFROTC) program. AFROTC offers a variety of two-, three- and four-year scholarships, many of which pay the full cost of tuition, books, and fees. Successful completion of as little as four semesters of AFROTC academic classes and leadership laboratories can lead to a commission as a second lieutenant in the United States Air Force.

Classes consist of one hour of academics and two hours of laboratory for freshmen and sophomores, and three hours of academics and two hours of laboratory for juniors and seniors. The academic hours earned can normally be counted as elective credit toward graduation. All AFROTC classes and laboratories are held on Fridays to better accommodate students commuting from other colleges and universities. Currently, LMU does not charge for the courses and offers cross-town students free parking while attending AFROTC activities. Additionally, AFROTC cadets under scholarship, and all juniors and seniors receive a monthly tax-free stipend.

For more information, contact the Loyola Marymount University Department of Aerospace Studies (AFROTC) at (310) 338-2770.

Scholarships

Students who complete OCC scholarship applications will be considered for a wide variety of scholarships awarded through the generosity of the citizens and civic groups in the Coast Community College District.

Application requirements vary, depending on the scholarship programs for which the student applies. For further information, visit the Scholarship Office in the Administration Building, visit www.orangecoastcollege.edu/scholarshipoffice or call (714) 432-5645.

Student Health Center

The Orange Coast College Student Health Center is open to all OCC students, regardless of whether they have health insurance. The Student Health Center is financed by the health fee that all students pay each semester; it receives no other college or state funding. Students must be enrolled in the current semester in order to use the Student Health Center.

The Student Health Center is located off Fairview Road and Pirate Way, between the Peterson Gymnasium and Watson Hall. Check the OCC website for hours of operation. Summer and winter session hours will be announced and posted prior to the beginning of those sessions.

Students may schedule appointments to be seen at the Health Center by calling (714) 432-5808. Every
Student Services & Co-Curricular Programs

Student Success Center

Student Success Center is located in C&L 103. For more information, call (714) 432-5559 or course.

OCC instructors and required to complete a training drop-in tutoring, study groups, workshops and program. Services include scheduled appointments, textbooks, materials, and equipment necessary for achievement for students with the greatest needs. Through this program the College ensures that, regardless of background, students are supported with the resources and services needed to achieve their educational outcomes, including textbooks, materials, and equipment necessary for success. For more information call (714) 432-5730.

Student Center Lounge

The Student Center Lounge serves as a study area as well as a place to relax, and often serves as the location for speakers, workshops and other special events. Check the OCC website for hours of operation. For information call (714) 432-5730.

Student Equity Program

At OCC, Student Equity is designed as a guarantee of fair treatment, access, opportunity, and advancement for all students, while working to identify and address barriers that stand in the way of student success. OCC’s Student Equity Program was created to address gaps in achievement for students with the greatest needs. Through this program the College ensures that, regardless of background, students are supported with the resources and services needed to achieve their educational outcomes, including textbooks, materials, and equipment necessary for success. For more information contact (714) 432-6847.

Student Success Center

The Student Success Center offers free tutoring to OCC students in most subject areas and consists of the Math Center, Writing/Reading Center, General Tutoring area and the Peer Assisted Study Sessions program. Services include scheduled appointments, drop-in tutoring, study groups, workshops and PASS program. All tutors are recommended by OCC instructors and required to complete a training course.

For more information, call (714) 432-5559 or visit our website at www.orangecoastcollege.edu/student_services/student_success_center. The Student Success Center is located in C&L 103.

Student Success and Support Program

The Student Success and Support Program intends to help students achieve their educational goals through core matriculation services as well as support services that are necessary to assist students meet their personal, academic and career objectives. All students, unless exempt, are required to participate in English and math assessment testing, orientation, and academic advising. The College also provides follow-up services to evaluate the academic progress of students and to provide additional resources as necessary. Other support services also are available to those students who qualify for them. Effective Fall 2014, Student Success and Support Program regulations require that students complete testing, orientation, and creation of an informed educational plan in order to receive priority registration. Students who believe they are exempt or would like to file an appeal may contact Enrollment Services on first floor of Watson Hall.

Study Abroad Program

The Orange Coast College Study Abroad program offers a variety of short-term programs. For information on upcoming programs, visit www.orangecoastcollege.edu/studyabroad

The Global Engagement Center also provides additional information on study abroad opportunities. For more information, please visit the Global Engagement Center. It is students’ responsibility to verify that the courses taken abroad are transferable.

Veterans Resource Center

Orange Coast College is grateful for the sacrifices made by members of the United States armed services and their families. We realize that veteran students bring a wealth of experience to the campus environment, and we welcome their contributions as part of our campus community.

Realizing that veterans are positioned in a unique situation, we strive to help them make the transition from the military to college as easy as possible. The Veterans Resource Center (VRC), provides information on campus-based and external resources available to all veterans.

Some of the on-campus services include health services, tutoring and direct access to the OCC Veterans Club. In addition, the Veterans Resource Center provides information and connections with the local VA office and other community organizations that provide supplemental assistance to veterans. Interested students should visit the VRC, located in the Student Center, or visit www.orangecoastcollege.edu/student_services/Veterans. In addition, the

Veterans Services Office

In addition to the Veterans Resource Center, the Enrollment Center provides services for Veterans that include administering GI Bill Education Benefits and orientations that provide details regarding the use of those benefits. Orientations include an introduction to Student Success and Support programs and assistance with course enrollment.

Veterans may schedule academic counseling appointments through Veterans Services, while receiving referrals to a variety of College-wide services and student life activities. New and returning veterans and service persons nearing separation are encouraged to contact Veterans Services at (714) 432-0202 ext. 26376.

Veterans Resources

Students who have physical, emotional, or other disabilities may be eligible for State Department of Rehabilitation services if their disabilities affect their vocations. These services include vocational counseling and guidance, reimbursed training and job placement. Under certain circumstances, students also may qualify for assistance with medical needs, living expenses and transportation.

Interested students should visit or write the State Department of Rehabilitation Office, 222 S Harbor Blvd., Ste 300, Anaheim, California 92805. For more information contact (714) 991-0800 or visit www.rehab.ca.gov

In accordance with requirements of DVB Circular 20-76-84, Appendix P, this is to certify this school catalog is true and correct in policy at the time of printing.

Academic Freedom

In accordance with District Board Policy 4030, Orange Coast College’s recognizes that the search for truth and free expression of ideas is essential to a democratic society, and affirms the following as principles of academic freedom:

(a) Academic Freedom is essentially the right of faculty to express or discuss in their classrooms and throughout the District challenging ideas and topics related to courses they teach and their own academic, professional expertise. The primary responsibility is to achieve the objectives of the course outline of record. This does not preclude Faculty Members from using their professional judgment in discussing other topics with their students when aimed at enhancing student learning. The expression of this right is guided by a deep conviction of the worth and dignity of students and the advancement of their knowledge.

(b) Academic Freedom includes the right of faculty to create and to use instructional materials that may be thought-provoking or controversial and are relevant to the courses they teach to enhance student learning. These rights notwithstanding, Academic Freedom is to be practiced within the parameters of commonly recognized standards of teaching, professional conduct, and applicable policies and laws.

(c) Faculty Members recognize the special responsibilities placed upon them. These responsibilities include the obligation to exercise critical self-discipline and sound judgment in using, extending, and transmitting knowledge. In the conduct of their teaching and professional lives, faculty members demonstrate intellectual honesty and devotion to continual improvement of scholarly competence.

With the shared understanding of the rights and responsibilities, Academic Freedom will be promoted and protected.

A Faculty Member’s exercising of his/her right of academic freedom as delineated below shall not be subject to any adverse action affecting the Faculty Member’s employment status with the District:

(a) For the development and publication of instructional materials, as well as the interpretation of course content and adoption of innovative instructional methods compatible with the course outline of record and standards accepted within the academic community;

(b) For exercising freedom to examine or endorse unpopular or controversial ideas within their fields of professional expertise as appropriate to course content, discussions with students, or academic research or publication. In so doing, the Faculty Member shall attempt to be accurate, fair, objective, and show respect for diverse opinions;

(c) For using or recommending, within the parameters of (a) above, instructional materials which may challenge prevailing social attitudes, or contain unpopular or controversial ideas;

(d) For presenting all points of view in teaching and discussing controversial ideas or content in their courses and for including library materials of broad and diverse interest, information and enlightenment without prejudice in regards to the race/ethnicity, gender, sexual orientation, nationality, social, political or religious views of the authors;

(e) For expressing in an appropriate forum the Faculty Member’s viewpoint on matters of College and District policy.

(f) In collegial life, for example, for participation in the governance of their colleges, and engaging in the collegial expression of opinions in their department, college, and/or District meetings.

Political activities on college campuses shall be governed by District policies and procedures which shall be in accordance with the requirements of applicable Federal and State law.

The District shall respect the Faculty Member’s right in public life to exercise freedom of speech, freedom of association, freedom of union activity, and freedom to express expert opinions in a public forum provided it is clear that the Faculty Member is not speaking or acting on behalf of the District.

Academic Honesty

Orange Coast College has the responsibility to ensure that grades assigned are indicative of the knowledge and skill level of each student. Acts of academic dishonesty make it impossible to fulfill this responsibility. Faculty have a responsibility to ensure that academic honesty is maintained in their classroom. Students share that responsibility and are expected to refrain from all acts of academic dishonesty. Procedures for dealing with any violation of academic honesty will be followed. Additionally, the Student Code of Conduct and Board Policy Board Policy 5500 and Administrative Procedure 5500 shall be applied to incidents of academic dishonesty.

Academic Honors

President’s List

Students are eligible for the President’s List after completing a semester of at least 12 units in courses awarding letter grades and a GPA of 4.0. To request a letter recognizing this achievement or obtain additional information, please contact the Office of the President in the Administration Building. Your official transcript will show that you are on the President’s List.

Dean’s List

Students are eligible to be included on the Dean’s List after completing a semester of at least 12 units in courses awarding letter grades and in which a GPA of 3.50 to 3.99 is earned. To request a letter recognizing this achievement or obtain additional information, please contact the Office of Instruction in the Administration Building. Your official transcript will show that you are on the Dean’s List.

Honors List

Students are eligible to be included on the Honors List after completing a semester of at least 12 units in courses awarding letter grades and in which a GPA of 3.75 to 4.0 is earned. To request a letter recognizing this achievement or obtain additional information, please contact the Office of Instruction in the Administration Building. Your official transcript will show that you are on the Honors List.

Academic Renewal Policy and Procedures

This Academic Renewal Policy for Coast Community College District is issued pursuant to Sections 55764 and 55765 of the California Administrative Code (Title 5) regulations. The purpose of this policy is to disregard past substandard academic performance of students when such work is not reflective of their current demonstrated ability. It is based on the recognition that due to unusual circumstances, or circumstances beyond the students’ control, the past substandard work will negatively affect their
Academic standing and unnecessarily prolong the rate at which they complete their current objectives.

If specific conditions are met, Coast Community College District colleges may disregard from all consideration associated with the computation of a student’s cumulative GPA up to a maximum of thirty (30) semester units of course work from a maximum of two (2) semesters or three (3) quarters taken at any college for graduation or grade point average (GPA) purposes only. These conditions are:

1. The course work to be disregarded is substandard. The average grade points of the courses to be disregarded is less than 2.0.

2. A minimum of 12 semester units has been completed at any regionally accredited college or university with a cumulative GPA of at least 2.0 in all course work subsequent to the course work to be disregarded.

3. At least 12 months have elapsed since the most recent course work to be disregarded.

4. All substandard course work shall be disregarded, except those courses required as a prerequisite or to satisfy a requirement in the student’s redirected educational objective.

5. Academic Renewal cannot be reversed once it has been granted.

6. Credit for courses from other colleges or universities can be disregarded in order to meet the grade point average requirements for an A.A./A.S. degree or Certificate of Achievement toward graduation.

NOTE: It is important to understand that ALL COURSE WORK WILL REMAIN LEGIBLE on the student’s permanent record (transcript), ensuring a true and complete academic history. However, students’ permanent records will be annotated so that it is readily evident to all users of the records that the units, even if satisfactory, are to be disregarded. This notation will be made at the time that the academic renewal has been approved by the appropriate college office.

If another accredited college has acted to remove previous course work from consideration in computing the GPA, such action shall be honored in terms of its policy. However, such units disregarded shall be deducted from the 30 semester units maximum of course work eligible to be disregarded at a Coast Community College District college.

Interpretation of the academic renewal procedure is the responsibility of the appropriate college official who may, for compelling reasons, make exceptions to the stated conditions provided the requirements of Title 5 (Sections 55764 and 55765) are observed.

### Procedures

1. Students requesting removal of previous coursework for certificate or degree consideration shall make an appointment to meet with a counselor for academic renewal. The petition shall indicate the semester(s) for coursework to be disregarded, and shall include evidence verifying the expiration of at least 12 months since the end of the last semester containing courses to be disregarded, and the subsequent completion of a minimum of 12 units with a 2.0 cumulative grade point average.

2. The Dean of Counseling, or his or her designee, upon verification of the conditions set forth in the policy statement, shall act to approve the petition and make the proper annotation on the student’s permanent record.

Interpretation of the academic renewal policy is the responsibility of the Dean of Counseling who may, for compelling reasons, make exceptions to the stated conditions provided the requirements of Title 5 (Sections 55764 and 55765) are observed.

### Attendance

In accordance with District Administrative Procedure 5070, OCC’s attendance policy is as follows. Students are expected to attend class regularly. Failure to attend may be taken into consideration by instructors when assigning grades. Students who miss the first class meeting, are absent for two contiguous class meetings, or have too many absences MAY be dropped by the instructor at any time during the semester until the final deadline for withdrawal. Instructors may have more restrictive requirements for attendance and these requirements shall be stated in the class syllabus. Students who miss class due to verifiable extenuating circumstances beyond the control of the student, (i.e. accident, illness, death in the immediate family, etc.) should inform their Instructors prior to missing class meetings. A student who has been absent due to verifiable extenuating circumstances should report to the instructor immediately on the day of his/her return. No absence excuses a student from making up the work missed. Students should realize that absences may adversely affect their grades.

Please Note: It is the responsibility of the student to withdraw in order to meet all fee/refund deadlines and it is also the responsibility of the student to withdraw by state mandated deadlines to avoid grade penalties.

### Absences

Instructors may allow absences for reasons of illness, emergencies or College-sponsored activities including field trips, athletic events, speech tournaments, or other co-curricular activities. Those student activities should be scheduled to minimize absences from regularly scheduled classes. Prior to the activity, instructors are responsible for submitting Co-Curricular Participation Lists to the academic division office. All others are responsible for submitting lists to the Dean of Student Services. Students, also, should inform instructors of upcoming co-curricular activities and ask for ways of making up the absences.

### Absence/Make-up Activities

Instructors may require make-up activities equivalent to the lessons missed through absence. What constitutes an excused absence and any required make-up activities, should be stated clearly, preferably in writing, by the instructor at the start of the course.

It is recommended that a student not be absent more than the number of course units in order to maintain a passing course grade/credit. That is, one hour of absence for each unit of class. State law requires an accurate attendance record in order for the College to receive funding.

### Student Responsibility

It is the student’s responsibility to be aware of and adhere to State-mandated drop deadlines and deadlines to request a pass/no pass grading option. In addition, students should be aware of and adhere to the deadlines for fee-payments and fee refunds. Students should verify all transactions of adds or drops by printing their Student Class Program/Web Schedule Bill for confirmation of actions taken. Students who wish to submit either of the following petitions: Petition for Review of Account Status or Petition for Change of Grade from “F” to “W,” must submit the appropriate petition no later than the end of the subsequent semester in which the course in question was taken. (Ex: student received an “F” in ENGL A100 for Spring, 2017, the Petition for Change of Grade from “F” to “W” must be submitted prior to end of the Fall 2017 term.) Petitions submitted after the stated deadlines will not be accepted or reviewed. Students should check their MyOCC page — particularly their Student Class Program/Web Schedule Bill — and their CCCD issued email account often for important updates and information. The CCCD email account is the official communication method that instructors and staff use to send students important information.

### Working Students

Working students should remember that taking 15 units of college coursework requires about the same amount of time as working 40 hours a week; therefore, full-time students should work no
more than 20 hours a week. Students may contact the Financial Aid Office or call (714) 432-5508 to determine their eligibility for financial assistance. No student should expect any instructor to lower course standards to accommodate them for not doing required coursework due to work employment.

**Alcohol and Drug Abuse Notice**

It is the intention of the Coast Community College District to provide an environment that maximizes academic achievement and personal growth. The District recognizes that alcohol and other drug use or abuse pose a significant threat to the safety and well-being of users and the people around them. Substance abuse also interferes with academic, co-curricular and extra-curricular interests, and can lead to health, personal, social, economic and legal problems.

**Policy**

OCC is committed to a drug-free campus so that students and staff can work in a drug-free environment.

In addition to our commitment to providing a drug-free environment, education, and help to students, there are state laws and the CCCD Student Code of Conduct which specifically prohibit the use and possession, distribution or sale of drugs or alcohol on College property or at any College-sponsored activity or event. These rules also describe the penalties and disciplinary actions which may come into play when violations occur for those who abuse or don’t take positive steps to get help.

Information on the laws and Student Code of Conduct is available at the Dean of Student Services Office.

The District policy is that all use of alcohol and other drugs is prohibited on District property and at any College-sponsored activity regardless of its location. Furthermore, the use of tobacco is prohibited in all District buildings and vehicles, and in designated outdoor areas.

**Counseling**

Students can meet with a mental health counselor or registered nurse at the Student Health Center if they have questions or concerns. In addition, a number of OCC staff members are available to refer students to the help they need.

**Referrals**

The Student Health Center provides information and referrals to community resources, support groups and social services. Visit the Student Health Center website on the OCC home page.

---

**Information**

OCC offers several classes that focus on alcohol and drugs.

- Health Education A100 — Personal Health
- Health Education A122 — Drugs, Health, & Society
- Health Education A160 — Peer Health Education, Level 1
- Health Education A271 — Drugs and Sports

**Self-Help Resources**

A wide variety of self-help groups meet on campus, or in the community. All of them are open to students if they wish to take advantage of the services. Visit the Student Health Center for current referrals.

Confidential professional counseling for all active employees and family members is available.

Employees can contact the Employee Assistance Program 24-hour hotline at (800) 635-3616.

**Alternate Methods of Study and Course Credit**

Orange Coast College recognizes work taken at other accredited colleges. Additional college credit is awarded in the following areas:

**Credit by Examination**

Credit by Examination may be offered on a limited basis at the discretion of the respective instructional division. Students who have completed a minimum of 12 units at OCC, with a cumulative grade point average of at least 2.4 (C+) may inquire in the respective division office regarding eligible courses. If the course is eligible, students may petition through the division office and seek approval. Since Credit by Examination may not transfer to other institutions, students are strongly encouraged to make an appointment with a counselor. The final approval is determined by the respective division office.

1. Contact the respective division office to determine course eligibility for Credit by Examination.
2. If eligible, obtain and complete the petition from the respective division office and attach an official or unofficial OCC transcript showing successful completion of a minimum of 12 units at OCC prior to petition, AND a cumulative grade point average (GPA) of 2.4 or higher. There are no exceptions to this requirement.
3. If the petition is approved by the dean and the instructor, take the petition to Enrollment Services in Watson Hall to file your petition for credit and make payment no later than the third week of the semester.
4. Meet with the instructor at the agreed upon time and place, and take the examination. Exam grades are final and will be posted to the transcript. Failure to successfully complete the examination will result in an unsatisfactory grade.

Students should not enroll in the course to be taken as Credit by Examination. The course credit is clearly identified on the student’s transcript and designated as “Credit by Examination.” Transfer ability of Credit by Examination is subject to review by other colleges and universities, and may not transfer. Units earned by examination are excluded from enrollment verifications, Financial Aid eligibility and OCC residence requirements for associate degrees.

**Advanced Placement (AP)**

Orange Coast College grants academic credit towards an Associate Degree for successful completion of examinations of the Advanced Placement Program of the College Entrance Examination Board.

Course credit or General Education area credits granted for Advanced Placement Examinations can be used to meet OCC general education requirements for an A.A. and/or A.S. degree under General Education Options 1, 2, or 3.

Course credit earned through Advanced Placement Examination can be used to certify general education requirements for transfer to UC under Option 3 (Intersegmental General Education Transfer Curriculum). AP credit can be used to certify general education for transfer to CSU under Option 2 (CSU General Education Breadth) or Option 3 (IGETC). Students certified using Option 3 can satisfy only one course requirement per exam on the IGETC.

Posting of Advanced Placement credit on the OCC transcript does not guarantee transfer to other colleges. The respective college or university determines eligibility for AP units, according to its policies. AP scores must be submitted for evaluation to the college or university where the student requests credit. Students planning to transfer should consult the catalog of the transfer institution to determine how AP credit is granted at that school.

Students may request AP credit through Enrollment Services on the first floor of Watson Hall. Submission of official exam results is required prior to any evaluation and posting of credit.

For more information, including score requirements for each exam, refer to the AP Chart on pages 26-27 of this catalog.

**College Level Examination Program (CLEP)**

Orange Coast College grants a maximum of 24 units for any combination of CLEP general exams and
subject exams, using as minimum standards a score at or above 500 on the general exams and 50 on the subject exams, and 50 for all CLEP computer-based exams. CLEP scores count toward graduation requirements at OCC under General Education Option 1 or Option 2, and AS GE. CLEP credit may be used to certify general education requirements for transfer to the CSU only. The University of California does not grant credit for CLEP exams. CLEP scores must be submitted for evaluation directly to the college or university where the student requests credit. CLEP policies for each private or out-of-state four-year college may be found in their catalogs.

Students may request CLEP credit through Enrollment Services on the first floor of Watson Hall. Submission of official exam results is required prior to any evaluation and posting of credit.

For more information, including score requirements for each exam, refer to the CLEP Chart on page 28 of this catalog.

International Baccalaureate (IB)

Students can earn OCC credit for International Baccalaureate examinations with a minimum score of 5. Exam results can be used to satisfy CSU General Education-Breadth and IGETC requirements but may require a score of 4 in some of the areas.

Students may request IB credit through Enrollment Services on the first floor of Watson Hall. Submission of official exam results is required prior to any evaluation and posting of credit.

For more information, including score requirements for each exam, refer to the IB Chart on page 29 of this catalog.

Learning Contract for Independent Study

This is an alternative method of college study. If the instructor and the division dean approve, a student may take any course in the Orange Coast College catalog on a contract basis. The number of units received and the prescribed hours of study follow the approved catalog description. Two kinds of independent study exist at OCC:

Contracted Studies

A student who, for one reason or another, cannot attend a class or classes (excluding class or time conflicts) may negotiate an Independent Study Contract by following these procedures:

1. Request a Learning Contract from the respective division office.
2. Request the permission of the instructor and ask the instructor to specify in detail the context of the contract the way the student will master the study area and the criteria for evaluation.

3. Ask the instructor and division dean to approve the contract.
4. Take the contract personally to Enrollment Services in Watson Hall. If the contract is approved, the Enrollment Center will officially enroll the student in the course and notify the student.
5. After the student completes the coursework, the instructor will certify the earned grade. Enrollment Services will then record the grade on the student’s transcript.

Directed Studies

A student may take advanced coursework in a field of study after having completed the introductory courses. Most departments offer a set of directed study courses numbered A291-A295. In unusual cases, students may petition to enroll in directed studies without completing the pertinent beginning courses. Directed Studies students must ask the instructor to fill out a Learning Contract for Independent Study and have it approved by the Division Dean. Follow the procedures given under Contracted Studies.

<td>5</td>
<td>270</td>
</tr>
</tbody>
</table>

A maximum credit of 3 units per term—6 units total—in otherwise transferable subject areas is allowed. Letter grades are assigned for Directed Studies (grade only). Transfer credit for courses of this kind is contingent upon a review of the course outline by a University of California or California State University campus.

Not all courses are eligible for Contracted Studies or Directed Studies options. Students must first meet with the appropriate instructor and division dean to determine if a Learning Contract for Independent Study is a viable option.

Licensure Credit

Radiologic Technologist

Forty-five units may be awarded for holders of valid Certified Radiologic Technologist State License (or equivalent agency). Students must show the original license to Enrollment Services in order to be eligible for this credit. Credits are posted to transcripts upon completion of 12 units of credit at Orange Coast College.

Other Licensure Credit

Other licenses issued by the State of California will be considered through the Academic Petition Council procedures as appropriate.

Military Study Programs

OCC recognizes and grants academic credit to veterans for eligible military service and training credit completed in the armed forces for a maximum of 15 units. OCC reserves the right to evaluate and grant credit based on the academic policies established by the College. Veterans may apply for evaluation of this credit by presenting official military service and training records—including a copy of discharge papers indicating honorable discharge—to Veteran’s Services in the Enrollment Center on the first floor of Watson Hall. Awarded credit will be applied once the student has completed 12 units at OCC. Credit earned for military training may count toward satisfying requirements for the Associate Degrees; military credit awarded may not transfer to other colleges. Veterans are advised to check with the college they plan to transfer to for information regarding awarding military credit. Under no circumstances will OCC graduate a student who has not completed 12 units of OCC coursework.

Technical Advanced Placement Process (TAP for ROP/High School Students)

Students who complete approved articulated courses in high school, or with an ROP program with a “B” grade or better, may be eligible for TAP credit at the college. Students must provide the appropriate TAP Petition Form and Official High School Transcripts to the Counseling Office at OCC for processing. Additional information is available on the OCC website at www.orangecoastcollege.edu

Upper Division Credit

Request for transfer of upper division courses and credits will be evaluated on a case by case basis. Upper-division units may be considered for application towards a Certificate, local/non-transfer Associate Degree, Associate Degree for Transfer (ADT), CSU/GE and IGETC certification. The units will count toward the 60 units required for the associate degrees and meet the transfer requirements. If you are using upper-division courses to fulfill a lower-division IGETC or CSU/GE course or Associate Degree for Transfer major requirement, remember that you are required to have a certain number of upper-division courses at the transfer institution. Contact the receiving institution to see how upper-division course credit will be awarded towards the baccalaureate degree. See the IGETC Standards or the CSU policy for details.
### ADVANCED PLACEMENT CREDIT

Students can earn AP credit with a minimum score of 3 unless otherwise indicated.

The AP Chart is based on the most current information available. Although every attempt has been made to ensure the accuracy of the information provided, make sure to use the following links to verify information.

</table>

Many colleges or universities may apply AP test credit toward satisfaction of subject or specific requirements (e.g., major). AP policies vary by institution. Students should see a counselor to discuss how AP is applied based on the transfer institution's application of AP major credit.

UC AP major credit information can be found at [http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html](http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html)

**OCC Associate Degrees** – Students should be aware that AP test credit is evaluated by corresponding it to an equivalent OCC course (e.g. History A170). A student who receives AP Credit and then takes the equivalent OCC course will have the unit credit for such duplication deducted prior to being awarded the A.A. or A.S. degree. Credit by Advanced Placement exam is noted and listed first on a student’s transcript, with units assigned and no grade.

Course credit and units granted to the OCC Associate Degree may differ from course credit and units granted by a transfer institution. For more information, please see a counselor.

**CSU GE** – The Advanced Placement examinations may be incorporated into the certification of California State University General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.

**IGETC** – AP Exams must be used in an area indicated regardless of where the certifying California Community College’s discipline is located. Many colleges or universities may apply AP credit toward satisfaction of subject or specific requirements (e.g., major). AP policies vary by institution. For policy information regarding individual institutions, visit [apstudent.collegeboard.org/creditandplacement](http://apstudent.collegeboard.org/creditandplacement)

*If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered “Level I” and earns six units of baccalaureate credit; the higher score listed for each test is considered “Level II” and earns additional units of credit and placement in Area C2 of General Education Breadth, as noted.

**Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.
# INTERNATIONAL BACCALAUREATE

Students can earn OCC credit for International Baccalaureate examinations with a minimum score of 5, except where noted. Exam results can be used to satisfy CSU General Education Breadth and IGETC requirements but may require a score of 4 in some of the areas.

The IB Chart is based on the most current information available. Although every attempt has been made to ensure the accuracy of the information provided, make sure to use the following link to verify information: [http://www.calstate.edu/AcadAff/codedMemos/AA-2015-19.pdf](http://www.calstate.edu/AcadAff/codedMemos/AA-2015-19.pdf)

* A minimum score of 4 is needed for CSU credit.

**CSU GE** – The IB examinations may be incorporated into the certification of California State University General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.

**IGETC** – IB Exams must be used in an area indicated regardless of where the certifying California Community College’s discipline is located.
Classroom and Lab Access

With the exception of persons expressly invited by the faculty, or persons providing an accommodation per Special Services, persons sitting in on a class or lab or using an athletic facility must be enrolled in that class or lab.

Course Auditing

In accordance with the California Education Code Section 76370 and District policy, students may audit courses specifically designated by the College as eligible for audit. Students who audit classes will be expected to participate in all class activities as required by the instructor. No credit is awarded. Further information can be obtained in the division offices.

Conditions for Course Auditing

1. The course has been designated by the College as eligible for audit.
2. The student is ineligible to enroll for credit because the course has already been taken for the maximum number of times allowed.

NOTE: Permission to audit a class requires the approval of the faculty member and Division Dean. Students who enroll in a class for the semester without permission of the student.

Disabled Students’ Rights

In accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, OCC will take all necessary steps to ensure that no student with a verified disability is denied the benefits of, or be unlawfully subject to, discrimination on the basis of race, color, sex, gender identity, religion, age, national origin, ancestry, sexual orientation, marital status, physical or mental disability, and/or veteran status. Inquiries about the District’s Equal Opportunity Policy should be directed to the Director of Personnel Services at (714) 432-5670 in Administration, or the District Office of Human Resources.

Inquiries regarding compliance and/or grievance procedures may be directed to the Title IX Officer and/or the 504/ADA coordinator.

Title IX Officer and 504/ADA Coordinator

Shannon Quihuiz
Associate Dean, Title IX & Student Relations Administration Building
Phone: (714) 432-5930
squihuiz@occc.cccd.edu

Equal Opportunity Policy

Orange Coast College is committed to providing equal opportunities in its educational programs and activities. Therefore, neither an Orange Coast College student nor a Coast Community College District employee, nor any applicant for enrollment or employment, shall be unlawfully denied the benefits of, or be unlawfully subject to, discrimination on the basis of race, color, sex, gender identity, religion, age, national origin, ancestry, sexual orientation, marital status, physical or mental disability, and/or veteran status. Inquiries about the District’s Equal Opportunity Policy should be directed to the Director of Personnel Services at (714) 432-5670 in Administration, or the District Office of Human Resources.

Disabled Students’ Rights

In accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act should be directed to the 504/ADA Coordinator at (714) 432-5930.

Family Rights and Privacy Act of 1974 Policy (FERPA)

Orange Coast College may release student directory information upon request, provided such release is approved by the College president or a designee. Students may request in writing to the College president that directory information not be released. The president or a designee may limit or deny the release of specific categories of directory information based upon a determination of the best interests of the student.

Directory information is defined to mean one or more of the following: student’s name, city of enrollment, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and previous public or private school attended. Any currently enrolled or former students shall have access to and all of their records on file at the College. Such access shall be granted within 15 working days of a written request and shall be subject to procedures established by the Dean of Enrollment Services for academic records or the Dean of Counseling Services for counseling files.

Students, by written request to the above administrator, may challenge the content of their records pursuant to Education Code section 76232. Such challenges will be processed according to procedures established by those responsible administrators.

Grades and Grade Points

Performance in each course is indicated by one of seven grades. Five of these grades signify passing work. Each grade and its value in grade points follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Significance</th>
<th>Grade Points per Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing; less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
<tr>
<td>P</td>
<td>Pass; at least satisfactory</td>
<td>Hours awarded; not counted in GPA</td>
</tr>
<tr>
<td>NP</td>
<td>No Pass; not satisfactory or failing</td>
<td>No hours awarded; not counted in GPA</td>
</tr>
<tr>
<td>MW</td>
<td>Military Withdrawal</td>
<td>No hours awarded; not counted in GPA</td>
</tr>
</tbody>
</table>

The grade point average is calculated by dividing the number of grade points earned by the number of GPA hours for the grades of A, B, C, D, F. The grades of P and NP, and the symbols of IP, Incomplete (I) and W are not used in the grade point average calculation.

A disciplinary grade of “F” may be assigned for violations of the Academic Honesty Policy, consistent with the District Student Code of Conduct.

The following non-evaluative symbols may be used as defined. These symbols are not used when calculating the grade point average.

**Grade Changes**

Petitions to request a change from a substandard grade to a withdrawal due to a serious, documented, extenuating circumstance, must submit the appropriate petition no later than the end of the semester in which the course in question was taken. OCC semesters are: Fall, Spring, and Summer. (Except grade grievance cases which have a shorter time limit. See Grade Grievance information in catalog). Petitions are subject to review.

**Abbreviation/Definition**

**W (Withdraw)**

1. A “W” grade will be assigned for students who officially withdraw prior to the end of week 12 of the term for full-semester classes, week 6 of the term for eight-week classes, and 75 percent of the class for all other courses.

2. No notation (“W” or otherwise) is made on the permanent record of a student who withdraws prior to the third Monday of the term for full-semester classes, or 20 percent of a class for all other classes.

Specific drop deadline dates can be found on the Web at MyOCC (Student Class Program/ Web Schedule Bill). Students are responsible for withdrawing from a class within the appropriate time to avoid an unsatisfactory grade. **Students may drop a class using the MyOCC website, or by letter to the Enrollment Center, U.S. postmarked prior to the drop deadline.**

**I (Incomplete)**

If agreed upon between the instructor and the student, a student may receive an “I” grade when work in the class cannot be completed by the last day of the semester due to extenuating circumstances.

a. Most of the academic work must be completed and there must be a justifiable reason for receiving the incomplete such as an accident or illness.

b. The condition for removal of the “I” shall be stated by the instructor in a written record and recorded as an IB, IC, ID, IF, or INP depending on what grade the incomplete will revert to if the student doesn’t meet the condition for removal within the stated period of time.

c. All academic work must be completed and submitted to the instructor per written agreement with the student, which will be valid no longer than one year following the end of the semester in which it was assigned.

d. An incomplete not made up within the specified timeline will revert to the alternate grade assigned by the instructor when the “I” was assigned.

e. A student may not re-enroll in a class in which an incomplete was awarded.

**IP (In Progress)**

The “IP” abbreviation is used only in those courses which extend beyond the usual academic term. The “IP” symbol remains on the student’s academic record to document enrollment, but is not used in calculating grade point averages. If a student enrolled in an “open-entry, open-exit” course is assigned an “IP” at the end of a term and does not re-enroll in that course during the next term, the appropriate grade will be assigned.

**Grade or Pass/No Pass Option**

Students who enroll in courses designated “graded or pass/no pass” may select the pass/no pass option via their MyOCC account until the class starts. Once the class has started, students may request pass/no pass by submitting a Pass/No Pass Request Form to the Enrollment Center on the first floor of Watson Hall.

- Students must choose the grade or pass/no pass option no later than the third week of a semester-length course or before the completion of 20 percent of the course. Pass/no pass options are not reversible after this time.
- Before selecting the pass/no pass option, students should consult with a counselor. Generally, it is recommended that students select a letter grade in courses satisfying requirements for majors, general education or a high school course deficiency.
- Grades of “NP” are considered unsatisfactory for progress probation or dismissal
- In courses where one performance standard determines unit credit, only a “P” or “NP” is given. A maximum of 15 units of Pass/No Pass graded courses may be used towards an associate degree. Students also should consult with a counselor to determine pass/no pass eligibility for specific courses prior to submitting the pass/no pass forms.

Students may repeat a course in which they received a “NP”, “D”, “F” or “W” two additional times for credit within the Coast Community College District (Orange Coast College, Golden West College, or Coastline Community College). After three unsuccessful attempts, a student’s registration in the course is automatically blocked (BP4225). Only the second grade and units in the repeated course will be counted when determining grade point average. A student can request to have the first substandard grade for a repeated course removed from the grade point average calculation by filling out a form in Enrollment Services (Petition to Exclude a Sub-Standard Grade from GPA Calculation).

**Grade Grievance**

Recognizing that a trusting, positive relationship between students and instructors is vital to successful learning and teaching, the Grade Grievance procedure at Orange Coast College is intended to provide all parties with due process in the event of a disagreement or misunderstanding regarding classroom policies or grades. The Grade Grievance process does not address personality, character, or styles of teaching; this process takes into account only the grading concern of the student to determine if the California Code of Education was violated.

The final grade that is assigned to a student is the purview of the course instructor who teaches the course. The California Code of Regulations, Title 5, Section 55025, Grade Changes (a), states, “In any course of instruction in a community college district for which grades are awarded, the instructor of the course shall determine the grade to be awarded each student in accordance with this article. The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency.”

Concerns about grades should be addressed as soon as possible in order to ensure availability of student and instructor records, and to permit time for a formal appeal, should one be necessary. Grade grievances will be permitted only through the end of the sixth week of the semester following the semester or summer session in which the grade was assigned. For more information, contact the Grade Grievance officer at (714) 432-5773.

**Illegal Distribution of Copyrighted Materials**

OCC supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material.
The Coast Community College District abides by all relevant sections of the Education Code and United States copyright law. Board Policies (BP) and Administrative Procedures (AP) 3710 and 3750 provide information related to Securing of Copyright and Use of Copyrighted Materials. To review this information as well as other Board Policies and Administrative Procedures, please visit the District website at www.cccd.edu (view Board of Trustees – Board Policies).

**Liability**

Throughout the academic year, some classes will meet at off-campus locations. The College will not provide transportation to these sites, and students enrolled in these classes are responsible for making their own transportation arrangements. Orange Coast College personnel may assist in coordinating this transportation and/or may recommend travel time, routes, carpooling, etc. However, the student does not have to follow these recommendations. The Coast Community College District is in no way responsible, nor does it assume liability, for any injuries or losses resulting from this non-sponsored transportation. If you ride with another student, that student is not an agent of, nor driving on behalf of the District.

Under the California Code of Regulations, Subchapter 5, Section 55450, if you participate in a voluntary field trip or excursion, you hold the District, its officers, agents and employees harmless from all liability or claims that may arise out of, or in connection with, your participation in this activity.

**MyOCC**

All admitted students receive a personal account to log in to MyOCC, the College’s student/staff portal, which may be accessed via the College website. Access to the following services and important information is available via MyOCC:

- Order official transcripts
- Access/print unofficial transcripts
- Access account balances and pay fees
- Check academic standing
- Check for holds on records/registration
- View important targeted announcements & OCC News
- Order a verification of enrollment
- Print a student class program Web Schedule Bill (includes specific course information including meeting dates/times, deadlines for each course, and a detail of fees paid)
- Register for classes
- Drop classes
- View registration history

- Change mailing address and/or phone number
- Access and print 1098T Hope Tax Credit Form
- Access CCCD student email account
- Purchase a parking permit
- Access the online textbook order system
- Access Library resources
- OCC student financial aid information
- Apple Store
- Important deadlines

It is the student’s responsibility to be aware of and adhere to state-mandated drop deadlines and deadlines to request a pass/no-pass option. In addition, students should be aware of and adhere to the deadlines for fee-payment and refund of fees. Students should check their MyOCC page, particularly their student class program (Web Schedule Bill), and their CCCD issued email account for important updates and information. The CCCD email account and MyOCC message boards are the official communication methods that instructors and staff use to send students important information.

**Non-Discrimination Policy**

The District is committed to the concept and principles of providing equal opportunity in education and employment for all persons, and does not discriminate unlawfully in providing educational or employment opportunities to any person on the basis of race, color, sex, gender identity, gender expression, religion, age, national origin, ancestry, sexual orientation, marital status, medical condition, physical or mental disability, military or veteran status, or genetic information. This commitment applies to every aspect of education and personnel actions and practices in employment, development, advancement, and treatment of employees, students and the general public.

**Declaración de no discriminación**

El Distrito honra su compromiso para con el concepto y los principios de la igualdad de oportunidades de educación y empleo para todas las personas, y no discrimina ilegalmente a ninguna persona, en la prestación de oportunidades de educación o empleo, sobre la base de raza, color, género, identidad de género, expresión de género, religión, edad, origen, ascendencia, orientación sexual, estado civil, afición médica, discapacidad física o mental, calidad de militar o veterano de guerra, o información genética. Este compromiso se aplica a todos los aspectos de las decisiones y prácticas de educación y gestión del personal en el empleo, así como en el desarrollo, avance y trato de los empleados, los estudiantes y el público en general.

**Chính Sắc Bất Kỳ Thịnh**

Cơ Quan cam kết theo đúng quan điểm và nguyên tắc tạo cơ hội bình đẳng trong giáo dục và việc làm cho tất cả mọi người, và không phân biệt đối xử bất hợp pháp trong việc cung cấp các cơ hội giáo dục và việc làm cho bất kỳ ai vì lý do sắc tộc, màu da, phái tính, đặc điểm giới tính, thể hiện giới tính, tôn giáo, tuổi, quốc gia nơi xuất thân, nguồn gốc tổ tiên, x=user hướng tính dục, tình trạng hôn nhân, bệnh tật, khuyết tật về thị, chất hoặc tính thâm, tình trạng quân ngũ hoặc cựu chiến binh, hoặc thông tin di truyền. Cam kết này áp dụng cho mọi hành động của cơ quan và cá nhân, hướng dẫn bằng giấy tờ thuộc liên quan tới giáo dục và nhân sự trong việc làm, phát triển, thành viên, và đối xử với các nhân viên, học sinh và cộng chúng.

**Online Learning**

As an important instructional tool and delivery system, the Web is used to enhance instruction at Orange Coast College in a wide variety of ways. Online learning opportunities at OCC include courses taught partially or completely via the Internet, as well as campus-based classes that include online materials and activities. All online courses are equivalent to their campus counterparts. Many of the online instructional modules offer students new and highly stimulating modes of learning.

Consult the OCC schedule of classes for more information about online courses.

**Extended Learning Attendance and Non-Participation Policy (Online Learning)**

All students enrolled in extended learning courses (online learning) must log in to each course and complete any assignment or other activity, to be determined by the instructor, that are required during the first week. Students who fail to complete first week assignments/activities within the instructor’s deadline may be dropped.

After the first week and during the time period before the final withdrawal date, Students are responsible for withdrawing from a class within the appropriate time to avoid an unsatisfactory grade,” as stated in this catalog. (See “Grades and Grade Points” section on page 30 for additional details.)

OCC’s Attendance Policies state that “Instructors may drop a student from a course when absences number the equivalent of two weeks of class recorded from the first day of instruction.” In the case of extended learning, “absences” shall be defined as...
services. (Title 5, Sections 55754, 55755).

Probationary students shall be notified of their status shall be on probation at all three district colleges. All A student on probation from one district college below are met:

- Not following the instructor’s participation guidelines as stated in the syllabus.
- Not submitting required assignments.
- Not contributing meaningful discussion in required chat rooms, discussion boards, or other online forums.
- Not participating in scheduled activities.
- Failure to communicate with the instructor as required.

It should be noted that simply logging into the course does not constitute participation. Students must demonstrate that they are actively participating in the course by submitting required assignments, contributing to discussion forums, etc. as outlined above.

Probation and Disqualification Policy

Probation

A student in the Coast Community College District shall be placed on probation whenever one of the two conditions listed below are met.

Academic Probation

The student has attempted at least 12 semester units at a District college and

1. has a grade point average of less than 2.0 in the most recent semester completed; or
2. has a cumulative grade point average of less than 2.0 in all units attempted.

Progress Probation

The student has attempted at least 12 semester units at a district college and the percentage of units in which the student has been enrolled for which entries of “W,” “I,” and “NP” are recorded reaches or exceeds 50 percent.

A student on probation from one district college shall be on probation at all three district colleges. All probationary students shall be notified of their status and provided with an opportunity for counseling services. (Title 5, Sections 55754, 55755).

Disqualification

A student in the Coast Community College District who is on academic or progress probation shall be disqualified whenever one of the two conditions listed below are met:

Academic Disqualification

Any student on academic probation whose most recent semester grade point average equals or exceeds 2.0 or whose cumulative grade point average equals or exceeds 2.0 shall not be disqualified but shall be continued on academic probation.

Progress Disqualification

Any student who is on progress probation for two consecutive semesters shall be disqualified for lack of satisfactory progress. However, any student on progress probation whose most recent semester demonstrated that fewer than 50 percent of his/her units were “W,” “I,” and “NP” shall not be disqualified but shall be continued on progress probation.

Appeal for reinstatement: When notified of disqualification a student will be informed about appeal procedures, through the Counseling Division office.

Any student disqualified from a college within the Coast Community College District may be dismissed for a minimum of one semester. A student dismissed from one district college shall not attend another district college during the semester of disqualification. (Title 5, Section 55756).

Privacy of and Access to Student Records

The Information Practices Act of 1977, California Civil Code, Sections 1798 et. seq., guarantees certain rights:

The Right to Privacy. Only information about a student that is relevant and necessary to carry out the purpose of the College will be collected. This information will be used only in the administration of specific College programs.

The Right to Access. Students may request access to any records about them that are maintained by the College. The College shall promptly let students or a chosen representative inspect or shall provide students copies of any document or item of information in their case record, within 15 working days of a written request. In a few cases, medical or psychological information will be released only to an appropriate licensed professional chosen by the student.

Protection Against Re-disclosure. All persons who are allowed access to student records are prohibited from disclosing this information to anyone else without specific, informed and written consent. There are specific instances where information may be released without informed, written consent, such as in the case of a medical emergency.

Student Identification Number. Students are not required to provide their social security number except to receive student financial aid and the 1098T Hope Tax Credit Form. However, social security numbers are helpful in identifying student records upon transfer to other institutions. All students are strongly encouraged to select a personal identification number to protect electronic access to their records.

Records Holds. Per Title 5, a student’s records may not be released if there are outstanding fee obligations.

Withholding of Student Records

In accordance with District Administrative Procedure 5035, the College Admissions and Records Director shall withhold grades, transcripts, diplomas, and registration privileges from any current or former student who fails to pay a proper financial obligation to the District. The student shall be given written notification and the opportunity to explain if the financial obligation is in error.

The definition of proper financial obligation shall include, but is not limited to: student fees; obligations incurred through the use of facilities, equipment or materials; library fines; unreturned library books; materials remaining improperly in the possession of the student; and/or any other unpaid obligation a current or former student owes to the District. A proper financial obligation does not include any unpaid obligation to a student organization.

Remedial Coursework Limits

No more than 30 semester units of course credit may be assigned to a student for remedial coursework, except when the student is enrolled in one or more courses in English as a Second Language or is identified as having a learning disability. This limit may be waived if the student can show significant and/or measurable progress toward the development of skills appropriate to enrollment in college-level courses. Students needing remedial instruction beyond the course credit restrictions set forth in this section shall be referred to appropriate non-credit adult basic education programs conducted by an adult school.

Repetition of Courses

For courses in which a “D,” “F,” “NP,” or “W” was recorded on the student’s academic transcript, the student may repeat the course two additional times within the Coast District (Orange Coast College, Golden West College, or Coastline Community College). After three unsuccessful attempts, a student’s registration in the course is automatically blocked BP4225. Only students with an extenuating
classes in the District.

For example, all ballet courses are part of the “Ballet Family”. Repeatable courses that are related in content and taken prior to Fall 2014 will count toward the four-enrollment limitation. A student who previously enrolled in Dance A110 twice can only take two more courses in the family; a student who previously enrolled in Dance A110 four times may not take any additional courses in the family. Due to the regulatory changes, a student who is unable to successfully complete one course in a family after three attempts will not be allowed to enroll in any subsequent courses in the family. Therefore, the Dance and Music families include the following courses:

**DANCE:**
- Ballet Family: DANC A110, A111, A144, A172, A244, A254.
- Tap Family: DANC A125, A126, A146, A174, A246, A256.

**MUSIC:**
- Musicianship Family: MUS A180, A185, A280, A285
- Theory Family: MUS A181, A186, A285, A286
- Voice Family: MUS A145, A146, A213, A214, A215, A216

A family of courses may include more than four courses, but students are limited to a maximum of four courses in any family within the District. Further, all grades — including “Ws”, will count toward the four — course enrollment limitation and for computing the grade point average (GPA). Students can repeat athletics, art, dance, music, and theatre arts courses that are included in Family of Courses in which a “NP,” “D,” “F” grade was earned or “W” was assigned; however, all enrollments count toward the four enrollment maximum for each family of courses.

**Service Complaint**

Orange Coast College and its employees make every effort to serve students and non-students courteously and efficiently, including acting in accordance with College policies and state and federal laws. Individuals dissatisfied with a campus policy or the conduct of a College employee can bring a complaint — a written or verbal notice of dissatisfaction — to the attention of the appropriate faculty, staff or administrator at any time. If a problem is identified, applicable remedies will be put in place as soon as possible. Before filing a complaint, individuals should make every effort to resolve their dissatisfaction informally with the College personnel immediately involved. If addressing an issue informally does not lead to satisfactory resolution, the individual may register a complaint with the appropriate supervisor or administrator. If, after contacting the appropriate supervisor or administrator, the individual is not satisfied with the outcome, they may file a Complaint Form. Service complaints escalating to this level should be submitted in writing (a Complaint Form is available via the OCC website) so that the appropriate administrator can investigate the complaint and respond.

Most complaints, grievances or disciplinary matters should be resolved at the campus level; this is the quickest and most successful way of resolving issues involving a California Community College (CCC). Students are encouraged to work through the campus complaint process first before escalating issues to any of the following resources. Issues that are not resolved at the campus level may be presented:

- To the Accrediting Commission for Community and Junior Colleges (ACCJC) at www.accjc.org/complaint-process if a complaint is associated with the institution’s compliance with academic program quality and accrediting standards. ACCJC is the agency that accredits the academic programs of the California Community Colleges.
- To the CCC Chancellor’s Office by completing a Web form if the complaint does not concern CCC’s compliance with academic program quality and accrediting standards.
- If the complaint involves unlawful discrimination, to the Chancellor’s Office website at www.cccco.edu/ChancellorsOffice/Divisions/Legal/Discrimination/tabid/294/Default.aspx
- If the complaint involves unlawful discrimination, to the Chancellor’s Office Complaint Form site at www.cccco.edu/ChancellorsOffice/ComplaintForm.aspx

**Sexual Misconduct**

Sexual Misconduct comprises a broad range of unwelcome behaviors focused on sex and/or gender that may or may not be sexual in nature. Any intercourse or other intentional sexual touching or activity without the other person’s consent is Sexual Assault. Sexual Misconduct encompasses Sexual Harassment, Sexual Assault, Sexual Exploitation, or Gender-based Harassment, which is a form of Harassment based on gender identity, gender expression, or non-conformity with gender
stereotypes. Sexual Misconduct may also encompass acts of a sexual nature, including acts of Sexual Stalking, Domestic Violence, and Dating Violence, intimidation, or for Retaliation following an incident where alleged Sexual Misconduct has occurred. Sexual Misconduct can occur between strangers or acquaintances, or people who know each other well, including between people involved in an intimate or sexual relationship, can be committed by anyone regardless of gender identity, and can occur between people of the same or different sex or gender.

Sexual Misconduct is a form of Sex Discrimination which violates Title VII of the Federal Civil Rights Act of 1964 as amended; Title IX of the Education Amendments of 1972; California state law; and the Coast Community College District Board policies. If you have questions regarding the behaviors of sexual misconduct or if you would like to discuss your concern with an administrator, please contact the Associate Dean, Title IX & Student Relations at (714) 432-5930, the Associate Dean of Student Health Services (CONFIDENTIAL) at (714) 432-5026 or visit the OCC website for the College’s complete policy on Sexual Misconduct at www.orangecoastcollege.edu/student_services/sexual-misconduct

Student Classifications
Students are classified as follows:

Freshman — A student who has completed fewer than 30 units
Sophomore — A student who has completed 30 or more units
Part-time — A student carrying fewer than 12 units per semester (for Summer session, fewer than 6 units)
Full-time — A student carrying 12 or more units per semester (for Summer session, 6 or more units)

Enrollment Status for Reporting Purposes

Full-time — A student carrying 12 or more units per semester (for Summer session, 6 or more units)
Half-time — A student carrying 6 to 11.99 units per semester (for Summer session, 3 to 5.99 units)
Less Than Half-time — A student carrying .5 to 5.99 units per semester (for Summer session, .5 to 2.99 units)

Student Code of Conduct

Students enrolled at Orange Coast College assume an obligation to conduct themselves in accordance with the laws of the State of California, the California Education Code, and the policies and procedures of the Coast Community College District. The Student Code of Conduct has been established by the Coast Community College District Board of Trustees to provide notice to students of the type of conduct that is expected of each student. Being under the influence of drugs and/or alcohol or the existence of other mental impairment does not diminish or excuse a violation of the Code of Conduct.

- Academic misconduct
- Alcohol
- Assault/battery
- Bias
- Continued misconduct or repeat violation
- Dating violence
- Destruction of property
- Discrimination
- Dishonesty
- Disorderly or lewd conduct
- Disruption of educational process
- Disruptive behavior
- Disturbing the peace
- Drugs
- Endangering welfare of others
- Failure to appear
- Failure to comply or identify
- Failure to obtain permits
- Failure to repay debts or return District property
- False report of emergency
- Fighting
- Forgery
- Fraud
- Gambling
- Harassment/bullying
- Hateful behavior
- Hazing
- Infliction of mental harm
- Library materials (defacing, theft, etc.)
- Misrepresentation
- Misuse of identification
- Physical abuse
- Possession of stolen property
- Possession of weapons
- Public intoxication
- Serious injury or death
- Sexual harassment
- Sexual misconduct
- Smoking
- Stalking
- Theft or abuse of District computers or electronic resources
- Theft or conversion of property
- Threat of sexual assault or sexual assault
- Trespass and unauthorized possession
- Unauthorized tape recording
- Unauthorized use of course or copyrighted materials
- Unauthorized use of District keys
- Unauthorized use of electronic devices
- Unauthorized use of property or services
- Unreasonable demands
- Violation of computer usage policy
- Violation of driving regulations
- Violation of health and safety regulations
- Violation of law
- Violation of posted district rules

Copies of the Coast Community College District Student Code of Conduct and Disciplinary Procedures which includes complete definitions of the above violations are available in the Office of the Dean of Student Services and on the Coast Community College District website (under BP5500 & Administrative Procedures 5500).

Student Due Process Procedure

If charges are brought against a student by another student or by a representative of the College, that student should get information about the College’s due process procedure from the Dean of Student Services Office. The due process procedure guarantees fair and reasonable treatment of all concerned parties. OCC is bound by the laws of State of California, the California Education Code and the policies and procedures of the Coast Community College District.

Student Responsibility & Campus Communication

OCC makes every effort to communicate important information in a timely manner. In an effort to minimize costs, OCC utilizes the Coast Community College District issued student email and targeted announcements posted in students’ MyOCC portals as the official means of communication. Students are expected to check their MyOCC and student email account on a regular basis for important information about registration, grades, holds and deadlines. Students are responsible for being aware of state-mandated and College deadlines, and should verify all transactions.
Study Load

The average student carries a 15 unit full academic load during a semester at Orange Coast College. This load requires most students to spend 40-45 hours each week preparing for and attending classes. The College recommends that entering freshmen carrying a full academic load (15 or more units) plan to work no more than 12-16 hours each week. Students who have a poor high school record — below a “C” average — probably should work no more than 8-8 hours each week.

No OCC student may carry more than 19 units during a semester, 9 units during summer, or 6 units during intersession without the permission of the OCC Dean of Counseling Services. This maximum applies to the combination of all units in which the student enrolls per semester/term in the Coast Community Colleges (Orange Coast, Golden West and Coastline).

Transcript Requests

Orange Coast College has retained Credentials, Inc. to accept transcript orders online via a secure website. Official transcripts must be ordered online. OCC does not accept transcript orders through the mail.

Current students may access the Credentials, Inc. service through their MyOCC account. Former students may access the online service at www.credentials-inc.com/tplus/?ALUMTRO001250.

Students on campus will have access to computers for online ordering in Watson Hall, the Computing Center, and the Library.

The first two transcripts and/or verification of record are provided free. Each additional transcript or verification of record costs $5.

For more information, including fees for expedited processing, please visit www.orangecoastcollege.edu/enrollment/records/Pages/Transcripts.aspx.

Please note that OCC does not offer same day transcript service.

Veterans, Active Duty Military, and Credit for Military Training

Orange Coast College is approved for training veterans under all applicable laws. The College helps veterans by cooperating with the Veterans Administration and the California State Department of Veterans Affairs. OCC establishes policies and programs for educating veterans and active-duty military personnel.

Under Title 5, Section 55024, members of the service called to active duty during a semester in which they are enrolled, may petition to withdraw under special circumstances. The withdrawal will be posted as “MW”- Military Withdrawal on the student’s transcript and will be non-punitive, which means that it will not count in the student’s grade point average nor will it count towards academic or progress probation/disqualification. Students with orders to report during a semester in which they are enrolled should contact Veterans Services on the first floor of Watson Hall for the appropriate petition form.

OCC recognizes and grants academic credit to veterans for eligible military service and training credit completed in the armed forces (refer to the Alternate Methods of Study policies on pages 24-25 of this catalog for more detailed information).
Graduation Requirements

Associate Degree (AA, AS)
Orange Coast College awards the Associate Degree to students who have met all the requirements for graduation. OCC offers the Associate in Arts and the Associate in Science Degrees. Check with your counselor to determine which degree you should complete.

In accordance with law and with rules and regulations of the Board of Governors of the California Community Colleges and the Board of Trustees of the Coast Community College District, the requirements for the degree of Associate in Arts or Associate in Science include the following:

1. **UNIT REQUIREMENT:** 60 UNITS, with at least a 2.0 grade point average. At least 12 of the units must be earned at OCC, with a minimum of one course taken for a letter grade. At least 3 units in an advanced course from the program must be completed at OCC. A student must be enrolled at the time of application for graduation. Units earned at an accredited college or university on a credit/no credit basis will be counted toward the degree requirements of the college, to a maximum of 15 units.

2. **MAJOR REQUIREMENT:** Complete the AA or AS major requirements as detailed in the Degree and Certificate section of this catalog.

3. **MATHEMATICS REQUIREMENT:** Place at the Math A100 level (or higher) on the math placement test administered by the OCC Assessment Center or successfully complete (grade of “C” or better or “pass”) one of the following: Psychology A160, or any math course except Math A005, Math A008, Math A010, Math A020, and Math A220. Electronics Technology A047, Machine Technology A121, or Technology A040 will not fulfill this requirement.

4. **GENERAL EDUCATION REQUIREMENT:** Students may choose to complete Option 1 (OCC AA/AS GE), Option 2 (CSU GE), or Option 3 (IGETC) to satisfy the general education requirements. For details on each general education pattern, see pages 39-45.

5. **GLOBAL AND MULTICULTURAL REQUIREMENT (Required for AA degree only):** Some of the courses listed in this requirement can also be used to meet General Education Requirements. Courses that are repeatable for credit can only be used once in this area. Select one or more courses from the following totaling 3 units:
   *Denotes courses that fulfill CSU GE Breadth and/or IGETC requirements. See pages 42-45 for more information.

Associate Degree for Transfer (AA-T, AS-T)
The Student Transfer Achievement Reform Act (Senate Bill 1440, codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” an established program of at least 60 required semester units.

The following is required for all AA-T or AS-T degrees:
1. Minimum of 60 CSU-transferable semester units.
2. Minimum GPA of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors require a higher GPA. Consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in the major as detailed in the Degree and Certificate section of this catalog. All courses in the major must be completed with a grade of C or better.
4. Certified completion of the California State University General Education-Breadth pattern (CSU General Education Breadth — Option 2) OR the Intersegmental General Education Transfer Curriculum (IGETC — Option 3).

Certificate Awards
Orange Coast College offers two types of certificate awards in career programs designed to prepare the graduate to enter a particular field of employment.

1. **Certificate of Achievement:** Requires 18 or more units in an approved program. Certificates of Achievement are not automatically awarded. A petition must be filed in Enrollment Services at the beginning of the semester in which the student will be completing his or her final requirements. Forms are also available online. Petitioning periods are listed below.

2. **Certificate of Specialization:** Approved programs of less than 18 units. Certificates of Specialization are not awarded automatically. Petitions are submitted to the division office of each specific program. The procedures for each division will vary (please call for details.) Most division offices prefer that students complete all of the required courses and then provide a copy of the transcript. Some divisions will allow applications for Certificates of Specialization prior to finishing. Certificates of Specialization are not printed on official academic transcripts.
A list of certificate programs and requirements can be found in the Degree and Certificate section of this catalog. Check with a counselor to determine the requirements for completion.

Continuous Attendance and Catalog Rights

For awarding of a degree or certificate, students may follow the catalog requirements that were in effect for the academic year when their attendance at Orange Coast College began or follow the catalog requirements in effect during subsequent years of attendance, provided that continuous enrollment has been maintained. Continuous enrollment is defined as enrollment in a course at Orange Coast College for at least one semester in a calendar year. The student must received a grade of A, B, C, D, F, P, W, I, or IP for the course.

The Academic Petition Council may authorize or require substitutions for discontinued courses.

Catalog rights do not apply to the certification of general education for transfer. Students must follow the general education pattern in effect when they petition for certification. Courses used for certification must be on the approved list at the time they are taken.

Minimum Grade Requirement

In order to be awarded a degree or certificate, students are required to obtain a grade of “C” or better in all program-required courses.

Petition for Graduation

Degrees and certificates are not automatically awarded. A petition must be filed at the Enrollment Center on the first floor of Watson Hall at the beginning of the semester in which the student completes the final requirements. Forms are also available online at www.orangecoastcollege.edu/enrollment/Pages/Graduation.aspx.

Petitioning periods are as follows:

- Summer — July 1 through August 1
- Fall — September 1 through November 1
- Spring — January 2 through March 1

Requirements for Additional Associate Degrees

1. Students are not permitted to acquire duplicate associate degrees in the same major from another college within the Coast Community College District.

2. General Education requirements earned for one associate degree may be applied toward an additional associate degree.

3. A student who holds a degree from any regionally accredited institution may earn an additional associate degree in a specific major.

4. A candidate for an additional associate degree must complete the requirements for a separate major at Orange Coast College, including an additional 12 or more major-related units of credit at Orange Coast College beyond the requirements for the prior or additional degree.

5. A student must complete all the required courses listed in the current catalog and general education.

6. A student may obtain an associate degree for transfer (AA-T/AS-T) and an associate degree (AA/AS) in a different major without an additional 12 units of coursework.

7. A student may obtain an associate degree for transfer (AA-T/AS-T) and an associate degree (AA/AS) in the same major without an additional 12 units of coursework.

Waiver of Associate Degree and Certificate Requirements

Students wishing to substitute or waive courses which satisfy the Associate Degree or Certificate of Achievement requirements must see a counselor and petition the Academic Petition Council. Counselors are located on the third floor of Watson Hall.
Associate in Science General Education 2017-2018: Option 1
(Orange Coast College General Education)

Orange Coast College grants the degree of Associate in Science. Below are general education requirements for the AS degree.

For additional information regarding earning an Associate in Science Degree, please see the Graduation Requirements on page 36-37. Only one Associate in Science degree will be awarded to a student by OCC.

Complete a minimum of 18 units distributed among the following. One course may not be used to meet two separate requirements.

**AREA A: ENGLISH COMMUNICATION**
Six semester units (or eight quarter units) to include one course from A1 and one course from A2.

- **A1** English Composition
  - English A100, with a grade of “C” or better

- **A2** Communication and Analytical Thinking
  - Business A139
  - Communication Studies A100, A110, A220
  - Computer Science A115
  - English A101 or A101H, A102 or A102H, A109
  - Philosophy A150, A155
  - Philosophy/Mathematics A220
  - Psychology A160, A270

**AREA B: PHYSICAL AND BIOLOGICAL SCIENCES**
Three semester units (or four quarter units).

- Anthropology A100 or A100H, A102, A105, A110, A150, A187, A280, A285
- Communication Studies A155, A165
- Economics A100, A110, A170, A175
- Ethnic Studies A100, A150, A190
- Gender Studies A100, A120, A130, A150, A165, A187
- Geography A100 or A100H, A150, A160, A185
- American Studies A100
- Anthropology A100 or A100H, A102, A105, A110, A150, A187, A190, A280, A285
- Communication Studies A155, A165
- Economics A100, A110, A170, A175
- Ethnic Studies A100, A150, A190
- Gender Studies A100, A120, A130, A150, A165, A187
- Geography A100 or A100H, A150, A160, A185

**AREA C: ARTS AND HUMANITIES**
Six semester units (or eight quarter units) to include at least one course from C1 and one course from C2.

- **C1** Arts
  - Architectural Technology A290 or A290H
  - Art A100 or A100H, A101 or A101H, A102, A103, A104, A107, A108, A110, A120 or A120H, A125, A141, A142, A145, A147, A150, A263, A269
  - Digital Media Arts and Design A150, A181
  - Film & Television A100, A103, A110, A150
  - Humanities A100
  - Interior Design A180, A190
  - Music A100, A105, A115, A139, A143, A180
  - Photography A101, A120 or A120H, A123, A130
  - Theatre Arts A100, A101, A105, A106, A110, A170

- **C2** Humanities
  - Anthropology A100
  - Communication Studies A110, A120, A150
  - English A119, A141 or A141H, A143 or A143H, A147 or A147H, A148 or A148H, A150 or A150H, A151 or A151H, A152 or A152H, A156 or A156H, A160 or A160H, A161 or A161H, A170 or A170H, A172, A173 or A173H, A176 or A176H, A181 or A181H, A187 or A187H, A270 or A270H, A275 or A275H
  - Ethnic Studies A100, A150
  - Foreign Language - Any course numbered A160 - A285H
  - Gender Studies A187
  - History A100, A101, A110, A115, A128, A145, A150, A161 or A161H, A162 or A162H, A170 or A170H, A175 or A175H, A176, A179, A180 or A180H, A185 or A185H, A187, A190, A195, A197, A198
  - Human Development A180
  - Political Science A101, A110, A180, A180H, A185
  - Philosophy A100 or A100H, A165, A185, A220, A260
  - Sociology A100 or A100H, A105, A110, A185 or A185H, A190

**AREA D: SOCIAL AND BEHAVIORAL SCIENCES**
Three semester units (or four quarter units).

- American Studies A100
- Anthropology A100 or A100H, A102, A105, A110, A150, A187, A190, A280, A285
- Communication Studies A155, A165
- Economics A100, A110, A170, A175
- Ethnic Studies A100, A150, A190
- Gender Studies A100, A120, A130, A150, A165, A187
- Geography A100 or A100H, A150, A160, A185
- Health Education A122
- History A100, A101, A115, A128, A141, A142, A145, A161 or A161H, A162 or A162H, A170 or A170H, A175 or A175H, A179, A180 or A180H, A185 or A185H, A187, A190, A195, A197, A198
- Human Development A180
- Political Science A101, A110, A180, A180H, A185
- Psychology A100 or A100H, A165, A185, A220, A260
- Sociology A100 or A100H, A105, A110, A185 or A185H, A190
**Associate in Arts General Education 2017-2018: Option 1**

Orange Coast College grants the degree of Associate in Arts. Below are OCC's general education requirements for the AA degree.

For additional information regarding earning an Associate in Arts Degree, please see the Graduation Requirements on pages 36-37. Only one Associate in Arts Degree will be awarded to a student by OCC.

Complete a minimum of 28 units distributed among the following. One course may not be used to meet two separate requirements.

### AREA A: ENGLISH LANGUAGE

**COMMUNICATION AND ANALYTICAL THINKING:** Students will be able to read, write, listen, and speak competently while demonstrating critical/analytical thinking skills. Six semester units (or 8-10 quarter units) to include English A100 and one course from Group 2. It is strongly recommended that students begin the composition requirement within their first 12 units of coursework.

1. **Composition**
   - English A100 with a grade of "C" or better

2. **Communication and Analytical Thinking**
   - Business A139
   - Communication Studies A100, A110, A120, A150
   - A180, A220
   - Digital Media Arts and Design A181
   - Electronic Technology A407
   - English A101 or A101H, A102 or A102H, A105, A109
   - Machine Technology A121
   - Any Math course A100 or higher
   - Philosophy A150, A155
   - Psychology A160, A270
   - Technology A402

### AREA B: PHYSICAL AND BIOLOGICAL SCIENCES; SCIENTIFIC INQUIRY; LIFE SCIENCE:

Students will develop skill sets associated with the arts and humanities by analyzing aesthetic qualities, evaluating and developing rational arguments, identifying cultural and historical influences, and engaging in artistic expression. A minimum of three semester units (or four-five quarter units) to include one course from Group One and one course from Group Two.

1. **Theory**
   - Architectural Technology A105, A115, A171, A205, A290, A296
   - Art A100 or A100H, A101 or A101H, A102, A103, A104, A107, A108
   - Communication Studies A120, A180
   - Dance A160, A170, A200
   - Digital Media Arts and Design A150
   - English A119, any literature course A141 through A285
   - Film & Television A100, A103, A150
   - Foreign Language - any course numbered A160 through A285H
   - History A150, A180 or A185H, A185 or A185H
   - Humanities A100, A101H
   - Interior Design A180, A190
   - Music A100, A105, A139, A143, A180
   - Philosophy A100, A115, A118, A120, A150, A165, A185
   - Photography A101, A130
   - Religious Studies A100, A110, A115, A120, A130, A140, A150, A180
   - Theater Arts A100, A101, A105

2. **Active Participation**
   - Art A110, A115, A120 or A120H, A125, A141, A142, A145, A147, A150, A263, A265
   - Communication Studies A110, A120, A150
   - Construction Technology A116
   - Digital Media Arts and Design A181
   - English A119, A121, A122, A124, A126, A127, A135
   - Film & Television A110

### AREA C: ARTS AND HUMANITIES:

Students will develop skill sets associated with the arts and humanities by analyzing aesthetic qualities, evaluating and developing rational arguments, identifying cultural and historical influences, and engaging in artistic expression. A minimum of three semester units (or four-five quarter units) to include one course from Group One and one course from Group Two.

1. **U.S. History and Constitution and American Ideals**
   - Political Science A180 or A180H AND one of the following courses: History A170 or A170H or A175 or A175H

2. **Social and Economic Institutions**
   - Anthropology A100 or A100H, A102, A105, A110, A130, A280, A285
   - Economics A100, A170, A175
   - Ethnic Studies A100, A150, A190
   - Gender Studies A100, A120, A130, A150, A165, A185
   - Geography A100 or A100H, A150, A185
   - History A101, A140, A141, A142, A145, A161 or A161H, A162 or A162H, A176, A180 or A180H, A185 or A185H, A187, A195, A198
   - Political Science A105, A150, A255
   - Political Science A101, A110, A185
   - Sociology A100 or A100H, A150, A185 or A185H, A190

3. **Behavioral Science**
   - Anthropology A187
   - Health Education A220
   - Human Development A180
   - Psychology A100 or A100H, A130, A220, A260

### AREA D: SOCIAL AND BEHAVIORAL SCIENCE:

Students will use the theoretical and methodological principles of the social and behavioral sciences to explain and evaluate institutions, groups, and individuals across social, economic, and global contexts of historical periods. A minimum of 12 semester units (or 15-18 quarter units) to include two courses from Group One, and one course each from Group Two and Group Three.

1. **Life Skills, Life-long Learning, AND SELF DEVELOPMENT:**
   - Accounting A100
   - Allied Health A130
   - Anthropology A105
   - Business A100, A120, A125
   - Communication Studies A100, A155, A170
   - Computer & High Technology A100
   - Computer Information Systems A100, A111
   - Economics A110
   - Emergency Medical Technology A100
   - Fashion A170
   - Food & Nutrition A136, A140, A170, A185
Health Education A100, A111, A112, A122, A136, A270, A271
Human Development A190
Interior Design A100
Kinesiology A270
Leadership Studies A180, A200
Marketing A100, A110
Library A100
Philosophy A120
Psychology A110, A140, A165, A200, A215
Religious Studies A120
Sociology A105, A110

2. Activity
A minimum of one unit of Kinesiology, Dance, or Marine Activities (must be an activity course).
## Associate Degree General Education 2017-2018: Option 2
(California State University General Education)

To earn a Bachelor’s degree from the California State University, each student must complete 48-51 semester units in general education. Nine to twelve of these units must be taken as upper division course work after transfer. Orange Coast College will certify the extent to which the lower-division General Education Breadth Requirements have been met for students meeting the following A-E pattern. Students seeking certification must complete at least 12 of these units at OCC.

### IMPORTANT NOTE:
Courses on this list are approved for the academic term in which a course is approved for the specific academic term. Students wishing to use a course to meet a CSU General Education Breadth requirement must be sure that the course is approved for a specific academic term. Students seeking GE transfer certification are eligible for a Certificate of Achievement award.

### AREA A: COMMUNICATION IN THE ENGLISH LANGUAGE AND CRITICAL THINKING
Nine semester units (or 12-15 quarter units) including at least one course from each sub-area with a grade of “C” or better.

AMERICAN INSTITUTIONS REQUIREMENT (Not part of CSU General Education Breadth. May be completed prior to transfer.)

In addition to the General Education Requirements listed above, all students must complete coursework in American History and Constitution for graduation from CSU. Completion of History A170 or A170H, A175 or A175H, in Area D6 and Political Science A180 or A180H in Area D8 will fulfill this requirement.
**Associate Degree General Education 2017-2018: Option 3 (IGETC)**

Completion of the Intersegmental General Education Transfer Curriculum (IGETC) will satisfy the lower division general education requirements of either the California State University or the University of California system. The IGETC should be completed in its entirety before transferring or the student may be subject to the general education requirements of the campus to which they have been admitted.

Students seeking GE transfer certification are eligible for a Certificate of Achievement award.

All courses must be completed with grades of “C” or better. There are limits to the number of units that can be taken P/NP.

Courses used to meet IGETC requirements must be at least three semester units or four quarter units.

**IMPORTANT NOTE:** Courses on this list are approved for a specific academic term. Students wishing to use courses to meet an IGETC requirement must be sure that the course is approved for the academic term in which it is taken. **THIS LIST IS VALID ONLY FOR COURSES TAKEN FALL 2017 THROUGH SUMMER 2018.** For courses taken prior to Fall 2017, students should check the master list which shows the dates that courses were added or deleted since the original list was published in 1991. This list is available in the Counseling Center or Transfer Center in Watson Hall.

**AREA 1:** ENGLISH COMMUNICATION

CSU: Three courses (one from each group). Nine semester units (or 12-15 quarter units).

UC: Two courses (one from Group A and one from Group B). Six semester units (or eight to 10 quarter units).

**Group 1A:** English Composition

English A100

**Group 1B:** Critical Thinking - English Composition

English A101 or A101H, A102 or A102H, A109

Philosophy A150

**Group 1C:** Oral Communication (CSU ONLY)

Communication Studies A110

**AREA 2:** MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING

One course. At least three semester units (or four to five quarter units).

Psychology A160

**AREA 3:** ARTS AND HUMANITIES

Three courses, with at least one course from Group A and one from Group B. Nine semester units (or 12-15 quarter units).

**Group 3A:** Arts

Architectural Technology A290 or A290H, A296 or A296H

Marine Science A100 or A100H, A100 & A100L or A100H & A100M or A100 & A100M or A100H or A100L or A180 or A180L & A180L

Psychology A250

**Group 5C:** Laboratory Activity

One of the courses taken in Group A or B must include a lab. Lab courses are underlined.

**LANGUAGE OTHER THAN ENGLISH (UC ONLY)**

A. Complete two years of a single high school foreign language with grades of “C” or better (high school transcripts must be on file at OCC), OR

B. Complete Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Vietnamese A180 or Spanish A160 and A180. Advanced courses will validate this requirement, OR

C. Earn a satisfactory score on one of the following (results must be on file at OCC):

2. College Board Advanced Placement Examination in a language other than English (score: 3 or better)

3. International Baccalaureate Higher Level Examination in language other than English (score: 5 or better)

4. An achievement test administered by a college or university (score: proficiency equivalent to at least two years of high school language).

5. A passing grade on the international O Level or A Level exam in a language other than English.

OR

D. Complete, with grades of “C” or better, two years of formal schooling at the sixth grade level or higher in an institution where the language of instruction is not English (documentation must be on file at OCC).

E. Complete a Defense Language Institute course in a language other than English with a grade of “C” or better (documentation must be on file with Admissions and Records).

AMERICAN INSTITUTIONS REQUIREMENT
(Not part of IGETC. May be completed prior to transfer.)

CSU has an American Institutions requirement that is separate from IGETC. Courses used to meet the CSU requirement can be double counted in Area 3 or 4. To meet the CSU requirement, students should take Political Science A180 or A180H AND one of the following courses: History A170, A170H, A175, A175H.

UC requires the completion of a college course or courses with a grade of “C” or better OR a one-year course in high school in U.S. history or a half-year course in U.S. history and a half-year course in American government with grades of “C” or better (UCLA requires grades of “B”). UCSB requires the completion of a college course. If you are using college coursework to satisfy this requirement, check the appropriate UC catalog to determine which course(s) to take.

NOTE: Transfer credit for some courses may be limited by the University of California. Please see the UC Transferable Course List available in the Counseling Center or Transfer Center, or the Transfer Center home page on the Internet for these limitations.
Transfer Information

This section of the catalog is designed to help students plan an academic program for transfer to a four-year college or university. It includes information about the transfer process as well as general education. Please refer to www.assist.org for lower division major requirements to the CSU and UC systems.

Since transfer requirements change frequently, students should meet with a counselor regularly to plan an academic program which will assure a smooth transition to the transfer institution of their choice.

Four-year colleges and universities often make changes in their requirements. The requirements listed in this section were updated at the time of publication; however, changes may have occurred after publication. Current Transfer Curriculum Guides and official articulation agreements are available in the Transfer Center, the Counseling Center, and on the Internet.

Transfer to a Four-Year College or University

Orange Coast College provides the first two years of a four-year college or university program. Students enrolled in a transfer program will complete most of their general education and lower division major requirements before transferring. Students who are planning to transfer to a four-year college or university should meet with a counselor in the Counseling Center in Watson Hall to develop a Student Educational Plan, which will identify the courses needed to transfer.

Transfer Center

The Transfer Center, in Watson Hall, provides information and assistance to students who are preparing to transfer to four-year colleges and universities. Representatives from four-year schools are available in the Transfer Center to meet with students individually and provide information about their programs, requirements and procedures. The Center maintains a complete resource library containing college catalogs and other information on transfer programs. The Center also provides applications for CSU, UC and several independent colleges and universities, as well as offering assistance in the four-year campus application process. The Transfer Center sponsors a Transfer Day in the fall semester with representatives on campus from over 80 colleges and universities from both California and out-of-state. College fairs are held each semester with representatives from Southern California colleges and universities providing information to potential students. Transfer-planning workshops are offered throughout the academic year. Organized tours to various four-year campuses are also available through the Transfer Center each semester.

Transfer Center Web Page

The Transfer Center Web page on the Internet is a rich source of information for potential transfer students. Information at this site includes: a listing of scheduled events and college representative visits, transfer course requirements, articulation agreements, transfer planning guides, ratings and evaluations of colleges, student financial aid resources, and college search engines. There is also a complete application center which allows students to apply to colleges throughout the country electronically. The site can be reached at www.orangecoastcollege.edu/transfer

ASSIST

ASSIST (Articulation System Stimulating Interinstitutional Student Transfer) is a Web-based student transfer information system which contains data about how courses taken at California community colleges can be applied when transferring to a University of California or California State University campus. ASSIST has been designated as the official repository of articulation for California’s public colleges and universities, and therefore provides the most accurate and up-to-date information available.

It includes information such as:

- UC Transferable Courses - courses from California community colleges that transfer to all University of California campuses.
- CSU Transferable Courses - courses from California community colleges that transfer to any CSU campus for credit.
- CSU General Education Breadth Courses - courses from California community colleges that can be used to satisfy CSU General Education Breadth requirements.
- IGETC (intersegmental General Education Transfer Curriculum) Courses - courses from California community colleges that apply to the IGETC requirements.
- Articulation Agreements - These agreements between a particular California community college and a four-year institution identify comparable lower division courses between the two institutions. These agreements are designed to help students prepare for transfer into a particular major at a specific institution.

ASSIST can be accessed at www.assist.org

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students
attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change, and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the www.assist.org for specific information on C-ID course designations. Counselors always can help students interpret or explain this information.

Transferability of Courses
Many courses offered at Orange Coast College will transfer to meet general education, major or elective requirements at four-year colleges and universities. All courses numbered A100 or above will transfer to CALIFORNIA STATE UNIVERSITY.

Courses which are transferable to the UNIVERSITY OF CALIFORNIA will be designated in the Courses section of the catalog with a UC at the end of the course description. Some of the courses which are transferable to the University of California have credit limitations. Check the UC Transferable Course List to determine these limitations. This list is available in the Counseling Center and the Transfer Center.

Independent and out-of-state colleges and universities usually accept most courses which are transferable to the University of California, and many of the courses acceptable at CSU. Articulation agreements are available for many colleges in the Transfer Center website.

Transfer Opportunity Program (TOP)
Historically, underrepresented students (African Americans, Latinos and Native Americans) have made up a small percentage of transfer students. The Transfer Opportunity Program at Orange Coast College seeks to increase the pool of eligible underrepresented students and close the gap between minority and majority transfer students. TOP is designed to assist historically underrepresented students transfer to four-year colleges and universities. The primary goal of the program is to retain these students and increase the probability of their transfer. Through the program, these students are provided with support services including a college success course, information workshops, personal advisement and counseling, tutoring and group study sessions. For more information on joining TOP, contact 714-432-5792.

Transfer Student Course Requirements
A student can transfer from Orange Coast College to a four-year college or university as a junior without loss of time or credits by completing the following:

1. Lower Division Major Requirements:
These courses should be completed before transferring. They provide background and preparation in order to concentrate on the major beginning in the junior year. Course requirements for specific majors and schools are listed in the Transfer Curriculum Guides. These Guides are available in the Counseling Center and Transfer Center in Watson Hall.

2. General Education Requirements:
These are the courses required of everyone to obtain a degree regardless of major. They are designed to provide students with the knowledge, skills and understanding which will enable them to function as intelligent and creative members of the community. Courses in writing, critical thinking, mathematics, sciences, arts and humanities, and the social sciences are included in general education.

3. Electives:
These are transferable courses of choice taken in addition to courses for the major and general education requirements.

Lower Division Major Requirements
Most majors at four-year colleges and universities require the completion of one or more lower division courses as preparation for upper division coursework. Orange Coast College offers courses to meet the lower division requirements for most majors at most four-year schools.

Transfer Curriculum Guides are available that list the requirements for specific majors at UC Berkeley, UC Irvine, UC Los Angeles, UC San Diego, UC Santa Barbara, CSU Fullerton, CSU Long Beach, Cal Poly Pomona, San Diego State, San Francisco State, Cal Poly San Luis Obispo, Chapman and USC. Additional schools are included on most of the Guides. The Guides are available in the Counseling Center, the Transfer Center and on the Transfer Center website at www.orangecoastcollege.edu/transfer.

Students should check the catalog of the college they wish to transfer to and meet with their counselor for additional information about major programs and requirements.

The courses listed below are required for the major at most four-year schools; however, many colleges require additional coursework to complete the lower division major requirements. The course information given below has been edited for catalog publication purposes and may not accurately reflect recent changes or total course requirements for particular programs or schools.

Advertising
Communication Studies A180
Additional coursework may be required in Communications, Economics, Marketing and/or Political Science.

Anthropology
Anthropology A100 (or A100H), A185/A185L, A280
Additional coursework may be required in Biology, Chemistry, Computer Science and/or Physics.

Architecture/Landscape Architecture
Architecture A105, A110, A115, A180, A185, A205, A215
Additional coursework may be required in Architecture, Art, Drafting, Engineering, English, Mathematics and/or Physics. Landscape Architecture requires coursework in Horticulture.

Art
Art A100 (or A100H), A101 (or A101H), A110, A111, A120 (or A120H)
Additional coursework may be required in Art, Film and/or Photography

Biology
Biology A180 (or A180H), A185*, Chemistry A180, A185, A220/A221, A225/A226, Physics A130, A135, Math A180 (or A180H), A185 (or A185H)
Additional coursework may be required in Biology and/or Mathematics. Some schools will accept Physics A120 & A125 instead of A130 & A135.

Business (CSU)
Accounting A101, A102, Business A110, Economics A170, A175, Computer Information Systems A111, Math A115 or A155, Math A140, Math A160
Additional coursework may be required in Accounting, Business, Computer Science, Mathematics and/or Philosophy. CSU Fullerton requires Accounting A101 in addition to A101 & A102. CSULB requires Math A140 and A155.
Business (UC and Independent)
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Chemistry
Chemistry A180, A185, A220/A221, A225/ A226, Mathematics A180(or A180H), A185(or A185H), A280(or A280H), Physics A185, A280, A285.
Additional coursework may be required in Biology, Chemistry and/or Mathematics.

Child Development
Human Development A180.
Additional coursework may be required in Biology, Early Childhood, Food and Nutrition, Human Development, Psychology and/or Sociology.

Computer Science
See Transfer Curriculum Guide for requirements.

Criminal Justice and Law
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Dance
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Economics
Economics A170, A175, Mathematics A180 (or A180H), A185 (or A185H).
Additional coursework may be required in Accounting, Business and/or Mathematics.

Engineering
See Transfer Curriculum Guide for requirements.

English
English A100, A101 (or A101H), A270, A275.
Additional coursework may be required in Communications, English, Foreign Language, History, Philosophy and/or Speech.

Environmental Studies
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Family and Consumer Science
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Film
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Food Science and Nutrition
See Transfer Curriculum Guide for requirements.

Foreign Languages
Foreign Language through A285H.

Forestry/Natural Resources Management
Biology A180, A185 or A182/A182L & A183/ A183L, Chemistry A180, Mathematics A180 (or A180H).
Additional coursework may be required in Anthropology, Biology, Computer Science, Chemistry, Ecology, Economics, Geology, History, Mathematics, Physics and/or Political Science.

Geography
Geography A180 (or A180H), A185.
Additional coursework may be required in Biology, Chemistry, Economics, Geography, Marine Science, Mathematics and/or Political Science.

Geology
Chemistry A180, A185, Geology A110, A185/ A185L, Mathematics A180 (or A180H), A185 (or A185H), Physics A185, A280, A285.
Additional coursework may be required in Biology, Chemistry, Geology and/or Mathematics.

Health Sciences
See Transfer Curriculum Guide for requirements.

History
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Horticulture
Additional coursework may be required in Biology, Business, Chemistry, Computer Science and/or Mathematics.

Hotel and Food Service Management
Accounting A101, A102, Computer Science A111, Culinary Arts/Food Service Management/Hospitality, Travel & Tourism A100, Economics A170, A175.
Additional coursework may be required in Biology, Business, Chemistry, Culinary Arts, Food and Nutrition, Food Service Management, Mathematics, Philosophy, Psychology.

Sociology and/or Speech.

Interior Design
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Kinesiology
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Journalism
Communication Studies A100, Journalism A110.
Additional coursework may be required in Computer Information Systems, Economics, Film and/or Photography.

Liberal Studies
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Marine Science/Oceanography
Biology A180, A185 or A182/A182L & A183/ A183L, Chemistry A180, A185, Mathematics A180(or A180H), A185(or A185H), Physics A130, A135.
Additional coursework may be required in Biology, Chemistry, Computer Science, Geology, Marine Science and/or Mathematics.

Mathematics
Mathematics A180 (or A180H), A185 (or A185H, A280 (or A280H), A285 (or A285H).
Additional coursework may be required in Biology, Chemistry, Computer Science, Mathematics and/or Physics.

Music
Music A180, A185, A280, A285
Majors must demonstrate keyboard proficiency. Additional coursework may be required in Foreign Language and/or Music.

Philosophy
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Physics/Astronomy
Mathematics A180 (or A180H), A185 (or A185H), A280 (or A280H), A285 (or A285H).
Additional coursework may be required in Astronomy, Chemistry, Computer Science and/or Mathematics.

Political Science
Political Science A180 (or A180H), A185.
Additional coursework may be required in
Computer Science, Economics, History, Mathematics and/or Political Science.

Public Relations
Communication Studies A100, Journalism A110
Additional coursework may be required in Computer Information Systems, Economics, Film, Marketing, Photography and/or Political Science.

Religious Studies
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Social Ecology
Mathematics A160 (or A160H), Psychology A100 (or A100H), A280, Sociology A100 (or A100H)

Social Science
See Transfer Curriculum Guide for requirements.

Social Work
Mathematics A160 (or A160H), Psychology A100 (or A100H), Sociology A100 (or A100H)
Additional coursework may be required in Anthropology, Economics, History, Philosophy, Political Science, Psychology, Sociology and/or Speech.

Speech and Communicative Disorders
For UC, see www.assist.org to obtain updated course list. Independent colleges are listed. Private colleges link on the transfer web page.

Teaching
Students wishing to teach in the public schools in California must obtain the appropriate credential. Both the Multiple Subjects Credential and the Single Subject Credential require the completion of specific coursework. The completion of a teaching credential program usually requires five years of college. Most of the lower division coursework required for these programs is offered at OCC.

Technology
See Transfer Curriculum Guide for requirements.

Theatre Arts
Theatre Arts A106, A107
Additional coursework is required in Theatre Arts.

Certification of General Education for Transfer to UC or CSU
Upon a student’s request, Orange Coast College will verify the completion of lower division general education requirements for transfer to the University of California (Intersegmental General Education Transfer Curriculum) or the California State University (either the CSU General Education Breadth Requirements or the Intersegmental General Education Transfer Curriculum). Students who transfer without certification will have to meet the general education requirements of the specific UC or CSU campus to which they are transferring. Meeting these requirements usually necessitates taking additional courses.

Both CSU General Education Breadth and the IGETC should be completed in their entirety prior to transfer. Students can request partial certification of CSU General Education Breadth sub-areas if all requirements within the sub-area are met. Students using the IGETC who are missing no more than two courses prior to matriculation at a four-year institution may request partial certification during any term except in the final term prior to graduation from the four-year institution.

Students who have taken courses at other colleges can have these courses “passed along” in the certification process. OCC will certify courses taken at other California community colleges and CSU in the areas designated by the offering college. Courses taken at California four-year colleges or out-of-state two- or four-year colleges will be certified if they are equivalent to courses on the IGETC or CSU General Education Breadth list taught at any of the California community colleges. Courses from foreign institutions cannot be used in the certification process.

Students requesting CSU General Education Breadth certification must complete at least 12 of the 39 required units at OCC.

OCC will certify courses only once. Certification is not automatic and must be requested after the completion of the last term, prior to transfer. This request should be made in the Enrollment Center in Watson Hall when final transcripts are sent to UC or CSU. Courses taken at other colleges after a student has left OCC will not be certified.

A course used in the certification process must be on either the IGETC or the CSU General Education Breadth list during the term in which it is taken. If a course is taken before it is approved for inclusion on the list, it cannot be certified. Similarly, a course which is taken after it has been removed from the list cannot be certified.

OCC will also certify the completion of the CSU American Institutions Requirement for students following either IGETC or CSU General Education Breadth.

Admission Procedures for Four-Year Colleges and Universities
Students should take the following steps in applying for admission:

1. Submit an application during the filing period. Do not send it early, as it will not be accepted before the initial filing date; sending it early will only delay processing.

2. If entrance exams (SAT, ACT) are required, register for them as soon as possible and at least six months in advance of transfer. Registration forms are available from the Assessment Center located in Watson Hall. Most four-year schools do not require entrance exams for transfer students.

3. Have the OCC Records Office send a copy of your Orange Coast College transcript to the transfer college as requested. Four-year colleges and universities will also require transcripts of coursework completed at all other educational institutions. Students must contact each school attended and request that official transcript be sent directly.

CALLIFORNIA STATE UNIVERSITY
California State University has 23 campuses located throughout the state. While each campus within the system has its own unique geographic and curricular character, all campuses offer undergraduate and graduate instruction for professional and occupational goals, as well as broad liberal education. The CSU offers more than 1,500 bachelor’s and master’s degrees in some 200 subject areas. Campuses are located at Bakersfield, Channel Islands, Chico, Dominguez Hills, Fresno, Fullerton, Hayward, Humboldt, Long Beach, Los Angeles, Monterey Bay, Northridge, Pomona (Cal Poly), Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo (Cal Poly), San Marcos, Sonoma, Stanislaus, and Vallejo (California Maritime Academy).

California State University – Admission Requirements for Transfers
Students who transfer with 59 or fewer transferable semester units are considered lower-division transfer students.

Students who transfer with 60 or more transferable semester units are considered upper-division transfer students.
Lower Division Transfer Admission Requirements
You are eligible if you:

1. Have a college GPA of 2.0 or better in all transferable units attempted.
2. Are in good standing at the last college or university attended.
3. Meet the admission requirements for a first-time freshman or have successfully completed necessary courses to make up the deficiencies you had in high school if you did not complete the 15-unit pattern of college preparatory subjects.
4. Meet the eligibility index (GPA and SAT/ACT scores) required for a freshman.
5. Some campuses may require the completion of English composition and general education math.
6. Many campuses do not admit lower-division transfers.

Upper Division Transfer Admission Requirements
You are eligible for admission if you:

1. Have a college GPA of 2.0 or better (2.4 for non-California residents) in all transferable coursework.
2. Are in good standing at the last college attended.
3. Have completed or will complete prior to transfer at least 30 semester units of courses equivalent to general education requirements with a grade of C or better in each course. The 30 units must include the general education requirements in communication in the English language (English composition, oral communication and critical thinking) and one course of at least three units in college-level mathematics.

General Education Requirements for California State University
To earn a bachelor’s degree from the California State University, each student must complete a program of general education. Orange Coast College offers two general education programs which will enable students to meet the lower division general education requirements for all CSU campuses prior to transfer. Students can complete either the Intersegmental General Education Transfer Curriculum (IGETC) for CSU or the CSU General Education breadth Requirements (OCC General Education Option 2). Students transferring to a specific CSU campus also can meet the general education requirements of that campus.

CSU General Education Breadth Requirements
See the Graduation Requirements section of the Catalog for specific courses which meet these requirements.

A. English Language Learning and Critical Thinking - 9 units
B. Scientific Inquiry and Quantitative Reasoning - 9 units
C. Arts and Humanities - 9 units
D. Social Sciences - 9 units
E. Life-Long Learning and Self Development - 3 units

California State University has an American Institutions requirement which can be satisfied prior to transfer by taking an American History course and a course in Political Science 180 or 180H in Area D.

Intersegmental General Education Transfer Curriculum (IGETC) for CSU
See the Graduation Requirements section of the Catalog for specific courses which meet these requirements.

1. English Communication - 9 units
2. Mathematical Concepts - 3 units
3. Arts and Humanities - 9 units
4. Social and Behavioral Science 9 units
5. Physical and Biological Sciences - 7-9 Units

California State University in addition has an American Institutions requirement which can be satisfied prior to transfer by taking Political Science A180 or A180H and one of the following courses: History A100, A170, A170H, A175, A175H.

The IGETC should be completed in its entirety prior to transfer. Students who are missing no more than two courses prior to matriculation at a four-year institution may request partial certification during any term except in the final term prior to graduation from the four-year institution.

UNIVERSITY OF CALIFORNIA
The University of California has 10 campuses located throughout the state. Each campus within the system has its own unique geographic and academic character. The university offers bachelor’s, master’s and doctoral degrees in a variety of subject areas. Campuses of the university are located at Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, San Francisco (Schools of Medicine, Dentistry and Pharmacy), Santa Barbara and Santa Cruz.

University of California – Admission Requirements
Students planning to transfer to the University of California must follow the requirements listed below:

1. Applicants eligible for admission to the University as freshmen, meaning they satisfied the Subject, Scholarship, and Examination Requirements or were defined by the university during their senior year as Eligible in the Local Context (ELC), are eligible to transfer after they have a “C” (2.0) average in their transferable college coursework.
2. Applicants who met the Scholarship Requirement but did not satisfy the A-G subject requirements must take transferable college courses in the missing high school subjects to be eligible to transfer.
3. Applicants not eligible for admission to the University as freshmen because they did not meet the Scholarship Requirement must:
   A. Complete 60 semester units of transferable college work with a grade point average of at least 2.4. Most campuses and majors require higher grade point averages.
   B. Complete a course pattern requirement to include:
      1. Two transferable college courses (three semester or four to five quarter units each) in English Composition;
      2. One transferable college course (three semester or four to five quarter units each) in mathematical concepts and quantitative reasoning; and
      3. Four transferable college courses (three semester or four to five quarter units each) chosen from at least two of the following subject areas: the Arts and Humanities; the Social and Behavioral Sciences; and the Physical and Biological Sciences.

Community College Honors Transfer Program - UCI
The Community College Honors Transfer Program gives students priority consideration for admission to University of California, Irvine. Students in this program may use the UCI Library and attend selected cultural activities on UCI’s campus. Students wishing to participate in this program must first apply to and be accepted into the OCC Honors Program. Additional information about this program is available.
Transfer Information

UC Davis - Transfer Admission Guarantee (TAG)
The UC Davis Transfer Admission Guarantee guarantees admission to UC Davis for students completing all program requirements. TAG students receive priority admission to UCD. The TAG is a formal written agreement between UC Davis, OCC and the student which outlines the courses and GPA required before transferring. It can be written after completion of 30 semester units of transferable coursework.

UC Irvine - Transfer Admission Guarantee (TAG)
UC Irvine’s Transfer Admission Guarantee offers provisional admission to well-qualified students in most majors. OCC students must meet with a UCI representative in the Transfer Center for a review of their qualifications. Qualified applicants will be offered preliminary provisional admission to UCI and provided with recommendations for coursework that should be completed prior to transfer. Participants in this program must have a GPA designated in all transferable coursework.

UCLA - Transfer Alliance Program (TAP)
The Transfer Alliance Program with UC Los Angeles gives students priority consideration for admission to UCLA’s College of Letters and Science (except for the Communications Studies major). Students participating in TAP learn more about UCLA through meetings with UCLA counselors, faculty and students. TAP students may use the UCLA Library and participate in cultural and athletic events on the UCLA campus. Students wishing to participate in the program first must be accepted into the OCC Honors Program.

UC Merced - Transfer Admission Guarantee (TAG)
UC Merced offers students who have completed all of their coursework at a California community college the opportunity to have guaranteed admission into their major at UC Merced. For more information please visit the Transfer Center.

UC Riverside - Transfer Admission Guarantee (TAG)
Students participating in the Transfer Admission Guarantee with UC Riverside are guaranteed admission. Students who want to participate in this program must visit the UCR website for more details. UCR also has an honors transfer program called the Honors Alliance for Riverside Transfers (HART). Participants in HART must first apply and be accepted into the OCC Honors Program.

UC Santa Barbara - Transfer Admission Guarantee (TAG)
UC Santa Barbara has established a Transfer Admission Guarantee which guarantees admission for fall terms. The TAG includes most majors in both the College of Letters and Science and the College of Engineering. To see if they qualify, students must make an appointment in the OCC Transfer Center.

UC Santa Cruz - Transfer Admission Guarantee (TAG)
UC Santa Cruz’s Transfer Admission Guarantee provides students with the opportunity to have their academic records reviewed in advance of the regular application process. Those who are approved for TAG know their admission to UCSC is guaranteed for the following fall; they won’t have to wait until spring to learn their admission decision.

General Education Requirements for the University of California
To earn a bachelor's degree from the University of California, each student must complete a program of general education. To meet the general education requirements of the university, students can complete either the Intersegmental General Education Transfer Curriculum (IGETC) or individual campus general education requirements. OCC strongly recommends that students follow the IGETC rather than the individual campus requirements as this will provide more flexibility when applying to transfer. IGETC should not be used for the following: Business Administration, Chemistry, Environmental Design and Natural Resources at UC Berkeley, Nursing at UCLA, Revell and Roosevelt College at UCSD, Engineering at all UC campuses, and other high-unit majors at UC campuses (e.g. biological and physical sciences). Students who began at a UC campus and who intend to transfer back to the same campus cannot use IGETC. Some UC campuses do not allow students who began at another UC campus to use IGETC.

Students in the above categories should follow the General Education requirements of the UC campus they are transferring to.

Intersegmental General Education Transfer Curriculum (IGETC) for UC
See the Graduation Requirements section of the Catalog for specific courses which meet these requirements.
1. English Communication - six units
2. Mathematical Concepts - three units
3. Arts and Humanities - nine units
4. Social and Behavioral Sciences - nine units
5. Physical and Biological Sciences - seven to nine Units
6. Language Other Than English - zero to five units

The IGETC should be completed in its entirety prior to transfer. Students who are missing no more than 2 courses prior to matriculation at a four year institution may request partial certification during any term except in the final term prior to graduation from the four year institution.

Individual Campus General Education Requirements
Each campus of the university has its own general education requirements. Students transferring to a specific UC campus can meet the general education requirements of that campus rather than follow the IGETC.

Orange Coast College has articulated individual general education requirements with several UC campuses.

Independent and Out-of-State Colleges and Universities
In addition to state supported colleges and universities in California, there are many outstanding independent institutions in the state. There are also many colleges, both private and public, located throughout the United States which Orange Coast College students can transfer to. Each of these institutions has its own unique requirements for admission. In order to determine eligibility, students should visit the school's website and consult with their counselor.
General Education
Requirements for Independent and Out-of-State Colleges and Universities

Orange Coast College has articulated general education requirements with many colleges and universities located in California. Copies of these agreements can be found on MyOCC.

MyOCC is your one-stop website that connects you to the Online Class Schedule, Registration, as well as many other features. You can also access your Coast Community College District student email account which is used for all official forms of communication from the College.

You can log into MyOCC from any computer with an internet connection and web browser (Chrome/Internet Explorer 7/Firefox). MyOCC works on PC and Mac computers.
STEP ONE: Go to MyCoast.cccd.edu
Enter your user name
(New users will receive their user name once their application has been processed.
Enter your temporary Password (Your Date-of-Birth in MMDDYY format, i.e. February 1, 1989 would be entered as 020189).

STEP TWO: It will say “password expired.” Create a new password.

STEP THREE: Submit your email address and validate the email address to ensure the password reset functionality.

STEP FOUR: Click on Student Tab, then click “Registration Status and Checklist.” For more information, see the MyOCC reference guide on the OCC website. Enrollment Center >”MyOCC Reference Guide”.

Degree & Certificate Programs

ACCOUNTING

CERTIFICATE OF ACHIEVEMENT

The Accounting certificate program contains coursework in financial and managerial accounting, computerized accounting, and intermediate, tax, and cost accounting. Completing the program will provide students with the skills necessary for employment in a variety of accounting positions. Career opportunities include: accounts payable/receivable specialist, cost accountant, disbursement specialist, full charge bookkeeper, general ledger specialist, junior accountant, payroll specialist, senior accountant, and tax staff.

Program Outcomes

1. Demonstrate various activities performed in the accounting function of industry, apply comprehensive accounting skills, utilize technical knowledge, and display ethical behaviors and practices.
2. Demonstrate technical knowledge of accounting related topics that provide major course transfer to a four-year institution.

ASSOCIATE IN SCIENCE DEGREE

Complete the Accounting Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

Entry-Level Accounting

CERTIFICATE OF SPECIALIZATION

This certificate, issued through the Business and Computing Division, provides students with basic accounting and computer accounting coursework. Completion of the certificate will enable students to apply for entry-level positions in accounting.

Program Outcomes

1. Demonstrate knowledge of an accounting process by performing appropriate accounting functions manually or by utilizing G/L software.
2. Define and apply the different concepts of cost used to assist managers in making business decisions by performing profitability and cost analysis.

COST ACCOUNTING COMPETENCY

CERTIFICATE OF SPECIALIZATION

This certificate, issued through the Business and Computing Division, provides students with basic accounting and computer accounting coursework focusing on cost accounting. Completion of the certificate will enable students to apply for entry-level positions in the preparation of business tax returns.

Program Outcome

1. Demonstrate generally accepted accounting practices in the area of cost accounting using various forms of technology.

ANTHROPOLOGY

The Anthropology Program is a comprehensive program with opportunities to experience all four of the primary fields of research within the discipline. Our objective is to apply theory and offer hands-on experience to enable the student to gain a broad perspective of the diversity of interests that can be acquired by pursuing a degree in Anthropology.

ANTHROPOLOGY

ASSOCIATE IN ARTS DEGREE

Program Outcome

1. Differentiate the biological concept of race from the social and political concept of race and discuss their impact on human populations.
2. Explain the importance of genetic principles and bio-molecular studies in the interpretation of the fossil record and identify different forms of hominin fossils.

3. Compare and contract anthropology with other social sciences and describe anthropological fieldwork methodologies.

### Course Units

#### Core Courses - Complete ten (10) units from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultural Anthropology / Honors ANTH A100 / A100H</td>
<td>3</td>
</tr>
<tr>
<td>Physical Anthropology ANTH A185 / A185H</td>
<td>3</td>
</tr>
<tr>
<td>Physical Anthropology Lab ANTH A185L</td>
<td>1</td>
</tr>
<tr>
<td>Introduction to Archaeology ANTH A280</td>
<td>3</td>
</tr>
</tbody>
</table>

**Subtotal 10**

#### Restricted Electives - Complete a minimum of nine (9) units from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Native American ANTH A102</td>
<td>3</td>
</tr>
<tr>
<td>Anthropology of Nonverbal Behavior ANTH A105</td>

</tbody>
</table>

**Subtotal 9**

**Minimum Program Major Units 19**

**AA General Education Option 1, 2, or 3 Varies**

Transferable electives as needed to satisfy unit requirement **Varies**

**Total Degree Units 60**

### ANTHROPOLOGY

#### ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Anthropology for Transfer Degree are well positioned to complete a Bachelor’s Degree in a major within the California State University system with 60 units of upper-division coursework. Students who complete the Anthropology AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

**Program Outcomes**

1. Differentiate the biological concept of race from the social and political concept of race and discuss their impact on human populations.

2. Explain the importance of genetic principles and bio-molecular studies in the interpretation of the fossil record and identify different forms of hominin fossils.

3. Compare and contrast anthropology with other social sciences and describe anthropological fieldwork methodologies, emphasizing participant observation, interviewing strategies, and related ethical issues.

4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

### Course Units

#### Core Courses:

<td>Ethnic Groups of the United States: Their Histories HIST A150</td>
<td>3</td>
</tr>
<tr>
<td>Introduction to Sociology / Honors SOC A100 / A100H</td>
<td>3</td>
</tr>
</tbody>
</table>

**Subtotal 3**

**Program Major Units 18-22**

**CSU or IGETC for CSU 37-39**

Transferable electives as needed to satisfy unit requirement **Varies**

**Total Degree Units 60**

*Lecture and applicable lab course must both be taken to fulfill area credit.*
ARCHITECTURAL TECHNOLOGY

Mission Statement
The OCC Architectural Technology Program endeavors to empower students to lead productive and creative professional lives in the context of Architecture and Environmental Design.

Program Description
The Architectural Technology Program offers courses in design, building materials, construction documents, design visualization and graphics, computer-assisted design, building information modeling and fabrication. Our comprehensive program provides students with the discipline and critical thinking skills necessary to transfer to a broad range of universities and the training and technical skills to gain employment with the many and varied firms in Southern California that hire our graduates. Former California Architects Board President, Christine Lampert, AIA, rates our program as one of the top community college programs in the state. OCC’s Architecture program has a long history of successful graduates and our current students continue to excel as indicated by winning design awards, high transfer rates, and becoming valued members of the professional community.

ARCHITECTURE

ASSOCIATE IN SCIENCE DEGREE
The Architecture Associate in Science degree provides courses to help develop students understanding of the concepts, skills and competencies necessary for further study in the field. The program prepares students in the areas of critical thinking, design, and visual communication. Students who are interested in transfer to a university professional program in Architecture and/or related Environmental Design should contact an OCC counselor for assistance in additional course preparation.

Program Outcome
1. Student will be able to demonstrate critical thinking, design, and visual communication as related to architecture.

Minimum Program Major Units: 18

AA General Education Option 1, 2, or 3 Varies

Transferable electives as needed to satisfy unit requirement Varies

Total Degree Units: 60
The Associate in Arts for Transfer Degree educates students on the history of art and its function as a global language. Courses are designed to foster an understanding of visual communication through study in context, culture, social, political, economic and religious conditions in different historical eras.

Program Outcomes
1. Read, write, interpret and understand the major movements and concepts in art history.
2. Conduct original research in the history of art.
3. Understand the significance and application of art historical styles, Cultures, artist and relevant vocabulary in art and design.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

### Course Units

#### Core Courses:
- Survey of Western Art: Pre-History to Gothic / Honors ART A100 / A100H 3
- Survey of Western Art: Renaissance to Modern / Honors ART A101 / A101H 3
- Beginning Drawing / Honors ART A120 / A120H 3

**Subtotal 3-4**

#### List B - Select one (1) course:
- Color and Design: Two-Dimensional ART A110 3
- Life Drawing 1 ART A121 3
- Perspective Drawing ART A125 3
- Painting 2 ART A131 3
- Sculpture 1 ART A141 3
- Ceramics 1 ART A150 3
- Ceramics 2 ART A151 3
- Printmaking 1 ART A170 3
- Printmaking 2 ART A171 3
- Screen Process Printing ART A175 3
- Watercolor ART A263 3
- Typography 1 DMAD A115 3
- Introduction to Computer Graphics DMAD A181 3
- Graphic Design DMAD A182 3
- Introduction to Photography / Honors PHOT A120 / A120H 3
- Personal Expression PHOT A222 3
- Art Photography PHOT A283 4

**Subtotal 3-4**

List C - Select one course from the following list (3-5 units) OR any course from List A or B not previously taken:
- Cultural Anthropology / Honors ANTH A100 / A100H 3
- Introduction to Linguistics ANTH A190 3
- History of Architecture 1 / Honors ARCH A290 / A290H 3
- History of Architecture 2 / Honors ARCH A296 / A296H 3
- Introduction to Art ART A107 3
- Women in Art ART A108 3
- Public Speaking CMST A110 3
- Appreciation of Dance DANC A200 3
- Introduction to Creative Writing ENG 119 3
- Contemporary Ethnic America ETHS A100 3
- History and Appreciation of the Cinema FILM A100 3
- Elementary French 1 FREN A180 5
- Elementary German 1 GRMN A180 5
- Afro-American History HIST A101 3
- Ethnic Groups of the United States: Their Histories HIST A150 3
- History of the United States to 1876 / Honors HIST A170 / A170H 3
- History of the United States Since 1876 / Honors HIST A175 / A175H 3
- Introduction to the Humanities HUM A100 3
- Elementary Italian 1 ITAL A180 5
- Elementary Japanese 1 JAPN A180 5
- History and Appreciation of Music MUS A100 3

- Elementary Spanish 1 / Honors SPAN A180 / A180H 5
- Introduction to Theatre THEA A100 3
- Elementary Vietnamese 1 VIET A180 5

**Subtotal 3-5**

#### Program Major Units
- Total Degree Units 60

**CSU or IGETC for CSU 37-39**
**Transferable electives as needed to satisfy unit requirement Varies**

### ART SERVICES

**CERTIFICATE OF SPECIALIZATION**

This certificate is designed to prepare students seeking careers as exhibition designers and museum and gallery professionals. The training program includes consideration of the total visual presentation, design, and production of exhibitions and public & media promotions in cultural institutions such as museums and galleries. The program also includes training in the handling, storage and cartage of cultural objects. Basic gallery practices in archiving, registration processes and related art management techniques are covered. Students are encouraged to work toward an Associate of Arts degree to accompany this certificate. In addition, students with a BA or MA/MFA in Studio Art or Art History could use this certificate to enhance their marketable skills in the field.

**Program Outcomes**
1. Exhibit skills in Exhibition Design and Museum & Gallery management.
2. Create a portfolio of accomplishments in Exhibition Design and Curating including a prospectus for an exhibition of the student’s own design and curation.
3. Show competence in the skills associated with handling Artworks for shipping, transportation and exhibiting as well as basic understanding of museum protocols regarding registration and archiving techniques.

### CERAMICS

#### CERTIFICATE OF SPECIALIZATION

The Ceramics certificate covers the interaction of clay and glaze, studio organization and maintenance, and industrial specialization. This program is intended to provide the necessary tools for a student to perform at basic levels within the ceramic community. Career opportunities include quality control and/or product manager at a ceramic studio, and ceramics instruction.

#### Program Outcomes

1. Students will demonstrate extensive ceramic knowledge.
2. Students will be employable at entry-level in the ceramics industry.

### NARRATIVE ILLUSTRATION

#### CERTIFICATE OF ACHIEVEMENT

The Narrative Illustration option places its emphasis on a great variety of drawing and painting courses. The diversity of its curriculum may lead the student into career alternatives, such as illustration for books, including children’s literature, magazines, entertainment publications, editorial illustration and corporate brochures. The emphasis is on hand made creations that can stand on their own but also be adapted to electronic media.

#### Program Outcomes

1. Create a series of illustrations in a variety of mediums demonstrating techniques and applications of current hands-on illustration techniques.
2. Demonstrate skill development in drawing, perspective, and various paint mediums.
3. Create a portfolio utilizing multiple design techniques for the purpose of gaining employment and/or acceptance to an art college or university for advanced learning.

ASSOCIATE IN SCIENCE DEGREE

Complete the Narrative Illustration Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree may require more than 60 units for completion, depending on electives chosen.

STUDIO ARTS

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Studio Arts for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Studio Arts AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The program will provide an opportunity to develop all the skills necessary to be successful in the field of art. Students build confidence in their abilities and the quality of their professional portfolios. They participate in rigorous problem solving and conceptual assignments to develop critical thinking, creative problem solving and aesthetic understanding skills. This major introduces students to foundation, history and technical knowledge of many facets of Art.

Program Outcomes

1. Display competence in the use of tools, materials and concepts by completing a portfolio of original art and design projects.
2. Demonstrate ability to evaluate works of art and design through critical discussion and written assignments.
3. Demonstrate an understanding of the contribution of art and design to human experience.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

ASTRONOMY

ASSOCIATE IN SCIENCE

Upon completion of the requirements for the Associate in Science Degree in Astronomy, students will be prepared to transfer to CSU/UC and obtain a baccalaureate degree in the following majors: astronomy, astrophysics, or physics. This degree is also a stepping stone toward research internships, entry-level opportunities within the field, e.g., observatory and planetarium operations, and provides a solid foundation for pursuing an advanced degree.

The department strongly recommends that all declared Astronomy majors complete the following courses prior to transfer: Computer Science A122 (Programming Concepts/Method 1), Math A185/A185H (Calculus 2), Math A280/A280H (Calculus 3), Math A285/A285H (Linear Algebra and Differential Equations), Physics A280 (Calculus-Based Electricity and Magnetism), and Physics A285 (Calculus-Based Modern Physics).

Program Outcomes

1. Describe the constituents of the Universe and the relevant physical processes underlying their behavior.
2. Become familiar with the methods of observational astronomy and the analysis of data.

Continued on next page
ASTRONOMY AS DEGREE (CONTINUED)

3. Develop the necessary knowledge and skills to analyze evidence and evaluate claims as related to astronomy.

4. Be prepared for admission to California State University/University of California schools in astronomy/astrophysics.

ATHLETICS

CERTIFICATE OF ACHIEVEMENT

This Certificate of Achievement is designed for students who wish to participate in intercollegiate athletics at Orange Coast College and works towards completing lower division general education. It provides student athletes the opportunity to develop skills related to leadership, teamwork, collaboration, and personal responsibility within a team environment. Students who complete this certificate will have demonstrated excellence in lower division general education coursework and in intercollegiate athletic courses.

Program Outcomes

1. Be academically eligible to continue their athletic participation at a four-year institution
2. Gain transferable life skills related to teamwork, collaboration, dedication, and completion

AVIATION MAINTENANCE TECHNOLOGY

The Aviation Maintenance Technology program is divided into five areas: Airframe, Powerplant, Airframe and Powerplant, Avionics, and Helicopters.

The Aviation Maintenance Technology fields are of continuing growth and opportunity. The opportunities vary from field to field depending on the population’s need for travel, business, and pleasure. Overall, the opportunities and availability outlooks are good to excellent. Each program prepares students in a specific area of aviation maintenance and will enable them to seek entry-level or higher levels of employment for positions such as: aircraft technician, aircraft inspector, aircraft mechanic, airframe and/or powerplant mechanic, airframe and/or powerplant technician, aviation mechanic, avionics technician, engine overhaul mechanic, FAA repair station technician, general aviation maintenance mechanic, and helicopter mechanic.

Mission Statement

The Aircraft Maintenance Technology program mission, following counsel of local community and industry leaders, is to provide quality instruction to promote student success with comprehensive training for those interested in entering the aviation maintenance profession and for professionals in the aviation maintenance field striving to improve their knowledge and skills in the areas comprising of Airframe, Powerplant, Avionics and Helicopter Maintenance.

Note: Although the courses within the department’s degrees and certificates are sequenced, they may be started at any time.

AVIONICS

CERTIFICATE OF SPECIALIZATION

The Avionics program is designed to prepare students for entry-level positions as installation, maintenance, and repair technicians for avionic equipment in private, corporate, and commercial aircraft.

The aircraft industry is quickly evolving its level of sophisticated navigational and communications systems to include microprocessor-based systems in all areas of the airplane. This requires a new competent work force capable in the state-of-the-art technology of the future.

This two-semester certificate program combines theory and laboratory practices with hands-on application in actual aircraft. Upon completion, the student will be ready for employment in this fast growing and exciting field.

Program Outcomes

1. Have the necessary skills and training for AVIONICS proficiency which may be required for employment.
2. Be able to improve or develop additional proficiencies required for professional growth or advancement in their current employment. All qualification training and tests are prescribed and follow the guide of the Federal Aviation.

HELICOPTER THEORY AND MAINTENANCE

CERTIFICATE OF SPECIALIZATION

This program provides students with the general knowledge of rotary wing development, technology, construction, and a general survey of the helicopter industry. This program also provides a good understanding of the helicopter type aircraft to interested individuals, technicians, and pilots.

Program Outcomes

1. Have the necessary skills and training for HELICOPTER MAINTENANCE proficiency which may be required for employment.

2. Be able to improve or develop additional proficiencies required for professional growth or advancement in their current employment. All qualification training and tests are prescribed and follow the guide of the Federal Aviation.

AIRFRAME

CERTIFICATE OF ACHIEVEMENT

This program provides training for the student who desires to be an Airframe Technician. The training received enables the technician to return to service an airplane, related part, and appliance after performing, supervising or inspecting its maintenance or alterations. This Certificate of Achievement can be acquired in two semesters, one intersession, and one summer school session.

This certificate would enable students to achieve employment at local aircraft manufacturing and repair facilities.

Program Outcomes

1. Have the necessary skills and training for proficiency in taking written, oral and practical exams for AIRFRAME certification which may be required for employment.

2. Be able to improve or develop additional proficiencies required for professional growth or advancement in their current employment. All qualification training and tests are prescribed and follow the guide of the Federal Aviation.

Completion of the above enables the student to take the FAA Airframe written examination.

ASSOCIATE IN SCIENCE DEGREE

Complete the Airframe Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

AIRFRAME AND POWERPLANT

CERTIFICATE OF ACHIEVEMENT

This program provides students with the technical skills and systems analysis necessary for entry-level positions as Airframe and Powerplant Certificated Mechanics in the aviation industry, such as airframe inspection, powerplant inspection, maintenance, and return-to-flight status of all types of U.S. Certificated aircraft.

Trained technicians are also successful in related fields of aircraft manufacturing, electronics, hydraulics, pneumatics, welding, sheet metal, quality control, civil and military defense. Additionally, students who have followed this program may earn an engineering degree at any one of several four-year institutions.

Program Outcomes

1. Have the necessary skills and training for proficiency in taking written, oral and practical exams for AIRFRAME & POWERPLANT certification which may be required for employment.

2. Be able to improve or develop additional proficiencies required for professional growth or advancement in their current employment. All qualification training and tests are prescribed and follow the guide of the Federal Aviation.

Program approved by the Federal Aviation Administration (FAA).

Completion of the above enables the student to take the FAA Airframe & Powerplant written examinations.

ASSOCIATE IN SCIENCE DEGREE

Complete the Airframe and Powerplant Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. 

Note: this AS degree requires 81 units for completion.

AVIATION SCIENCE

In order to attain licensing as a pilot, students are required to satisfy aeronautical experience requirements as outlined in applicable subparts of the Federal Aviation Regulations (FAR). The majority of this experience must be accumulated in actual aircraft. Flight training is necessary for students to meet the specific requirements of FAR 61.109 (Private Pilot), FAR 61.65 (Instrument) and FAR 61.129 (Commercial) licensing. Flight time and Instructor fees are billed separately from ground school courses. In all APT Flight Lab classes, fees are $125 per hour for primary training aircraft, $155 per hour for complex training aircraft, and flight instructor fees are $60 per hour in college owned aircraft. Minimum cost to meet the requirements of FAR 61.109 in college owned aircraft is approximately $5500. However, most students require training beyond the minimum hours required in FAR 61.109, which increases total cost. Aircraft and instructor fees are subject to change.

Program approved by the Federal Aviation Administration (FAA).

Completion of the above enables the student to take the FAA Powerplant written examination.
College owned aircraft are currently being used for training under flight labs APT A120, APT A121, APT A122, APT A123 and APT A124. Total cost to meet the minimum requirements of FAR 61.65 is approximately $8000. Most students require training beyond the minimum hours required of FAR 61.65. This will increase total cost. Fees are subject to change. Estimated cost to meet the minimum aeronautical experience requirements of FAR 61.129 is $21,000. Aircraft and instructor fees are subject to change. At the completion of APT A120, (35 hours), APT A121, (74 hours), APT A122, (120 hours), APT A123 (variable hours), and APT A124 (variable hours) students should have acquired the 250 minimum hours of total flight time required for licensing as a commercial pilot. Total program cost is approximately $34,000.

FAA Certified Advanced Aviation Training Devices (AATD) may be used to accrue aeronautical experience requirements of FAR 61.109, FAR 61.65, and FAR 61.129. Costs for students to use college-owned AATD's will be $60 per hour and flight instructor fees are $60 per hour. Prices for AATD's and instructor fees are subject to change. The amount of aeronautical experience the FAA will accept in AATD's will be dependent on the airmen certificate sought. Refer to FAR 61.109, FAR 61.65, and FAR 61.129 for more information regarding the approved usage of AATD's for aeronautical experience.

Flight training is conducted in accordance with an FAA approved part 141 syllabus provided by the vendor. Veteran students using GI Bill Education Benefits are limited to a maximum amount of flight and ground training hours. Training expenses incurred beyond the maximum approved hours will be at the student's expense. Refer to the program requirements as outlined in the course syllabus.

All flight lab students are required to obtain a second-class medical certificate in order to qualify for flight lab participation and program certification.

Additional costs include but are not limited to, second-class medical certificate, pilot supplies, program materials, airport badge, no show fees and check-rides. These fees are not included in the total program cost and must be paid separately by the student.

All APT courses are financial aid eligible and VA benefit eligible if the student is enrolled with Aviation Science as their declared program of study (major).

All students, including VA benefit eligible students, are responsible to complete scheduled flight times. Students that fail to “show” for a scheduled flight time assume all fees incurred with the “no show” designation, and will be responsible for fees owed to the scheduled flight time provider.

For additional information regarding Aviation Pilot Training courses, contact the instructor or Division Dean of Technology (714) 432-5194. For additional information regarding Veterans Administration benefits contact the Veterans Services Office at (714) 432-0202 ext. 26376.

---

**AVIATION SCIENCE**

**CERTIFICATE OF ACHIEVEMENT**

This program of study academically prepares men and women of all ages for entry into the world of commercial aviation. In addition to airline flying many positions are available worldwide for trained commercial pilots. Businesses large and small hire corporate pilots for executive transport. Government agencies, both federal and state, hire commercial pilots for law enforcement, land management, wildlife management and staff logistics. Pilots are also in demand for fire suppression, emergency medical transportation and charter.

The curriculum is designed for students with no flying experience. Courses will systematically prepare individuals academically for the certificates and ratings required to operate aircraft as a commercial pilot. In addition, flight lab courses are offered as suggested electives enabling the student to complete all aspects of their training under the auspices of the college and to accrue the flight hours necessary for licensing as a commercial pilot.

The course of study can be tailored to individual requirements. The small business owner who only needs to use an aircraft for personal transportation can end their training with the 2 and preparation for the Instrument rating. A student seeking a career as a professional pilot would progress through the curriculum to earn a Commercial Pilot Certificate of Specialization along with a Turbine Transition Skill Certificate. All training is conducted in accordance labs are conducted in accordance with an approved FAR Part 141 syllabus.

**Program Outcomes**

1. Develop the analytical and critical thinking skills necessary for completion of flight training and successful completion of federally administered written examinations for licensing as pilots.

2. Develop the analytical and critical thinking skills necessary for completion of aviation ground school academic courses giving them the background knowledge necessary to enter the air transportation industry as professionals in non-flying occupations.

ASSOCIATE IN SCIENCE DEGREE

Complete the Aviation Science Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

PROFESSIONAL UPGRADE CERTIFICATES

The following Professional Upgrade Certificates are intended for the advanced student or the employed aerospace professional who desires advanced or recurrent training in a specific area. Certificates may be obtained from the Technology Division office by bringing in official records showing the successful completion of required courses.

AIRLINE TRANSPORT PILOT

CERTIFICATE OF SPECIALIZATION

The Airline Transport Pilot certificate of specialization covers those areas of aeronautical knowledge required under Federal Aviation Regulation 61.155 for the FAA Airline Transport Pilot Certificate. Courses are also intended to satisfy the knowledge requirements for students who are pursuing careers as aircraft dispatchers.

Program Outcomes
1. Students will develop the analytical and critical thinking skills necessary for completion of flight training and successful completion of federally administered knowledge exams for licensing as pilots.

Course Units
Aerodynamics APT A138 3
Airline Transport Pilot Ground School APT A145 3
Human Factors and Crew Resource Management APT A192 3
Total Units 9

COMMERCIAL PILOT

CERTIFICATE OF SPECIALIZATION

A program of study that helps prepare a pilot, already in possession of a Private Pilot license flight instruction to meet the licensing requirements as a Commercial Pilot as well as preparing the student for the Commercial Pilot Knowledge Test. This course meets the aeronautical knowledge requirements of Federal Aviation Regulation (FAR) Part 61.125

Program Outcomes
1. Develop the analytical and critical thinking skills necessary for completion of flight training and successful completion of federally administered written examinations for licensing as pilots.
2. Develop the critical thinking and analytical thinking skills necessary for completion of academic courses giving them the knowledge necessary to enter the air transportation industry.

Course Units
Aerodynamics APT A138 3
Commercial Pilot Aviation Ground School APT A139 3
Advanced Aircraft and Engines APT A146 3
Basic Air Transportation APT A180 3
Total Units 12

Commercial Pilot Suggested Electives:
Commercial Pilot Flight Lab APT A122 2
Advanced Commercial Pilot Flight Lab APT A124 1

FLIGHT OPERATIONS

CERTIFICATE OF SPECIALIZATION

The Flight Operations Certificate of Specialization covers basic flight theory, advanced meteorology, airport and airline economics and management, advanced aircraft systems and aircraft navigation. Courses are intended to provide knowledge in topics which will allow the student to enter the work force in the field of flight operations. Careers include aircraft dispatch, aircraft and aircrew scheduling, airport operations and Fixed Base Operations.

Program Outcomes:
1. Develop critical and analytical thinking skills necessary for completion of federally administered knowledge tests.

Course Units
Introduction to Airport Operations APT A110 3
Introduction to Flight Operations APT A115 3
Private Pilot Aviation Ground School APT A130 5
Airline Transport Pilot Ground School APT A145 3

**INSTRUMENT PILOT**

**CERTIFICATE OF SPECIALIZATION**

A program of study that helps prepare a pilot, already in possession of a Private Pilot license flight instruction to meet the licensing requirements as an Instrument Rated Pilot. This course meets the aeronautical knowledge requirements of Federal Aviation Regulation (FAR) Part 61.65(b).

**Program Outcomes**

1. Develop the critical and analytical thinking skills necessary for completion of instrument flight training and successful completion of federally administered practical and knowledge tests for the instrument rating.

**PRIVATE PILOT**

**CERTIFICATE OF SPECIALIZATION**

Private pilot training is the entry point to the exciting world of aviation. Private pilots are licensed to fly for personal pleasure and enjoyment. This course of study meets the aeronautical knowledge requirements of Federal Aviation Regulation (FAR) Part 61.105.

**Program Outcomes**

1. Students will develop the analytical and critical thinking skills necessary for completion of federally administered practical and knowledge tests.

**BIOLOGY**

**ASSOCIATE IN SCIENCE DEGREE**

The Biological Associate of Science degree is intended to instill a desire in our students to learn more about the biological sciences, encourage critical thinking about how life functions in the natural world, and help students become scientifically literate citizens who can make informed decisions about biologically related issues.
ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Students graduating with an Associate in Science in Biology for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Biology AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

This curriculum is designed to allow students to study a range of biological topics in cell and molecular biology, survey the diversity of organisms on our planet, and receive additional STEM preparation. The coursework prepares students to employ the scientific method, think critically and apply reasoning skills to analyze real world situations. All students receiving the AS-T degree in Biology should be fully prepared for transfer to a California State University and have the foundation needed to pursue a baccalaureate degree to prepare for careers as biologists in fields such as research, industry and education. The requirements for the degree include two semesters of biology courses, two semesters of chemistry, two semesters physics and one semester of mathematics. It is strongly recommended that biology majors take an additional mathematics class and two semesters of organic chemistry in addition to the degree requirements, however this cannot be included as a requirement due to unit limitations.

Program Outcomes

1. Use the scientific method to design, carry out, summarize, and evaluate tests of biological hypotheses using modern laboratory equipment.
2. Describe the biological processes that occur within or among organisms (e.g., protein synthesis, cell-to-cell communication, genetic transmission, digestion, reproduction, nutrient flow through an ecosystem).
3. Describe the variations observed in organisms and explain how populations have evolved through time.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

FINANCE

CERTIFICATE OF SPECIALIZATION

The Certificate of Specialization of Finance is designed to develop analytic and critical thinking skills in the financial area in businesses. Courses emphasize financial accounting, securities, financial and investment management.

Program Outcomes

1. Function effectively in an entry-level or training position in a brokerage firm or the Treasurer or Investment Department in a small to mid-size enterprise.
2. Effectively apply and utilize the accounting and financial principles and techniques they have learned in a business environment or at a four-year college business administration program.
3. Determine the viability of security and capital investments.

CARDIOVASCULAR TECHNOLOGY

Cardiovascular technology is an allied health profession concerned with the diagnosis and treatment of patients with heart and blood vessel disease. The cardiovascular technologist performs tests at the request of a physician to obtain information about that patient’s heart and blood vessel anatomy and function so the physician can make a diagnosis. The profession of cardiovascular technology includes three areas of diagnostic evaluation: 1) invasive cardiovascular technology (diagnosis of heart disease by cardiac catheterization), 2) noninvasive cardiovascular technology (diagnosis of heart disease by cardiac ultrasound, exercise, and electrocardiographic testing), and 3) noninvasive peripheral vascular study (diagnosis of blood vessel disease using ultrasound testing).
The Cardiovascular Technology program provides the necessary classroom and clinical courses to allow graduates to work as noninvasive cardiovascular technologists.

Specifically, the program objectives include:

1. Graduate qualified ECG technologists.
2. Graduate qualified noninvasive cardiovascular technologists who obtain RDCS within two years of completing the program and who are qualified in all noninvasive tests.
3. Provide an adequate number of graduates to meet the need for employees within the community.

During the first year of the program, students learn basic medical sciences and noninvasive cardiovascular tests including electrocardiography (ECG), exercise testing, Holter monitoring, pacemaker evaluation and continuous cardiac monitoring. Students may exit the program after the first year and obtain a Certificate of Achievement as an Electrocardiography Technician. With this certificate, graduates may obtain employment as an ECG technician, stress testing technician, Holter monitor technician, pacemaker technician and/or monitor (telemetry) technician.

Students wishing to complete the two-year program must complete the first year courses and the general education for the Associate in Science degree. Graduates of the Noninvasive Cardiovascular Technology program option may obtain employment as a cardiovascular technologist performing all noninvasive tests, particularly cardiac ultrasound or echocardiography. Additionally, graduates may perform limited cerebrovascular ultrasound tests.

The Cardiovascular Technology program is fully accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP).

**Program Admission**

Allied Health A010 course – application and orientation.

The student must complete the General Education requirements for an Associate in Science Degree and the program prerequisites prior to acceptance to the program.

---

**ELECTROCARDIOGRAPHY TECHNICIAN CERTIFICATE OF ACHIEVEMENT**

Completion of this certificate will allow students to pursue career opportunities as Holter monitor technicians, ECG technicians, monitor (telemetry) technicians, pacemaker technicians, and stress testing technicians.

**Program Outcomes**

1. Be prepared for entry-level employment as a professional and competent Cardiovascular Technologist to meet the needs of the local health care community.

CHEMISTRY

ASSOCIATE IN SCIENCE DEGREE

The Chemistry Associate of Science degree is intended to instill a desire in our students to learn more about chemistry through scientific study, encourage critical thinking about how chemistry impacts the natural world, and help students become scientifically literate citizens who can make informed decisions about chemistry-related issues.

Program Outcomes

1. Students will be able to understand and apply the Scientific Method, including the abilities to demonstrate critical thinking skills, and to draw sound conclusions from collected data and observations.
2. Students will demonstrate content knowledge about chemistry, including knowledge of basic chemical terminology and an understanding of fundamental concepts in chemistry.
3. Students will be able to use appropriate laboratory techniques, equipment, and instruments proficiently. Skills to be mastered shall be determined by the chemistry faculty.

COMMUNICATION STUDIES

COMMUNICATIONS STUDIES

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Communications for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Communications Studies AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Orange Coast College Associate in Arts in Communication Studies for transfer program provides students with communication skills that they can apply in personal, professional and global contexts. In these courses students will learn to improve their oral and written communication skills in the areas of critical thinking, organization, analysis, argumentation and presentation of information. Students will learn to improve their verbal and non-verbal interpersonal communication skills in the areas of listening, perception, self-concept, conflict resolution, intercultural and gender communication. These skills are developed in Communication Studies A100, A105, A110, A150, A165, A170, A180, A220 and A240.

Program Outcomes

1. Provide students with communication skills that they can apply in personal, professional, and global contexts.

MASS COMMUNICATIONS/MEDIA STUDIES

ASSOCIATE IN ARTS DEGREE

The Orange Coast College Associate in Arts in Mass Communication/Media Studies provides students with skills to understand the role of media institutions, analyze and create media texts, and evaluate the mass media landscape from a cultural, economic, and rhetorical perspective.

Program Outcomes

1. Students will be able to access, analyze, evaluate and create media texts.
2. Students will be able to understand the historical, economic, cultural, and aesthetic influences on media industries and media institutions.

Course Units

Core Courses:
- Introduction to Mass Communications CMST A180 3
- Media Literacy CMST A240 3
- News Writing and Reporting JOUR A110 3

Subtotal 9

BUSINESS APPLICATION DEVELOPMENT

CERTIFICATE OF ACHIEVEMENT

Designed to provide a good foundation for students who are interested in developing computer applications. Students may choose courses in a number of areas to develop a general understanding of the field or they may choose to study a particular specialization or two in greater depth. In today's dynamic and changing technological environment, continuous professional upgrading is a requirement.

Program Outcomes

1. Students will be prepared for employment in entry-level positions in the computer and information systems industries.

Course Units

- Financial Accounting ACCT A101 4
- Introduction to Computer Info Systems CIS A111 3
- Introduction to C# .NET Programming* CS A140 4
- Or Introduction to VB .NET Programming* CS A142 4
- Or Java Programming 1* CS A170 4
- Finite Math with Applications MATH A155 4
- Or Calculus 1 / Honors MATH A180 4
- Or Business Calculus MATH A140 4

ASSOCIATE IN SCIENCE DEGREE
Complete the Business Application Development Certificate of Achievement and
the Associate in Science graduation requirements as outlined in the Graduation
Requirements section of the catalog.

BUSINESS INFORMATION WORKER

CERTIFICATE OF SPECIALIZATION
Completion of this certificate, issued through the Business and Computing Division,
will prepare students for entry-level employment in business environments using
Microsoft Office Applications. All courses must be completed at Orange Coast
College.

Program Outcomes
1. Use a computer operating system and computer applications for word
   processing, electronic spreadsheet creation, database management,
   multimedia presentations, and electronic personal management with
   competence.
2. Achieve personal development and responsibility for entering the job market.

Course Units
- Business English BUS A138 3
- Beginning Computer Keyboarding 1 CS A000 1.5
- Keyboarding Speed and Accuracy CS A091 1.5
- Beginning Computer Keyboarding 2 CS A092 1.5

ASSOCIATE IN SCIENCE DEGREE
Complete the Computer Information Systems Certificate of Achievement and
the Associate in Science graduation requirements as outlined in the Graduation
Requirements section of the catalog.

COMPUTER INFORMATION SYSTEMS

CERTIFICATE OF ACHIEVEMENT
This program will meet major requirements for the Associate in Science degree but
has not been articulated with any particular four-year institution. Students should
not expect that they will necessarily meet the lower-division requirements at specific
colleges or universities. Students should consult a counselor for specific transfer
information.

This option provides the student with the lower-division transfer courses for some of
the business oriented majors. Students are advised to check course transferability
with an Orange Coast College counselor prior to enrolling in CIS courses.

Program Outcomes
1. Students will be prepared for employment in entry-level positions in the
   computer and information systems industries.

Course Units
- Financial Accounting ACCT A101 4
- Managerial Accounting ACCT A102 4

  Calculus 1 MATH A180 4

Total Units 32
COMPUTER PROGRAMMING

CERTIFICATE OF ACHIEVEMENT

This certificate is designed to provide the student with comprehensive grounding in the theory and practice of modern computer programming. Based on the recommendations of the Association of Computing Machinery, the Computer Programming Certificate prepares students to work as entry-level programmers. Students should not expect that they will necessarily meet the lower division requirements at specific colleges or universities. Students should consult the Transfer Information section of this catalog for specific transfer information.

Program Outcome

1. Based on the recommendations of the Association for Computing Machinery, the Computer Programming Certificate prepares students to work as entry-level programmers, or used to fulfill some of the requirements for transfer to a Computer Science program at a four-year university.

---

**CONSTRUCTION TECHNOLOGY**

The Construction Technology program has courses that can be divided into two major areas of emphasis: Residential Trades and Construction Management. Due to the vast diversity of occupations and areas of specialization within the construction industry and recognizing that individual student needs will be as diverse, a Certificate of Achievement can be designed that satisfies those specific needs. Completion of a certificate program satisfies the major requirement for the Associate in Science degree. Certificates of Achievement and Specialization can be completed in one to two semesters.

**CONCRETE & MASONRY**

**CERTIFICATE OF SPECIALIZATION**

1. Demonstrate the knowledge, skills and experience to identify, assess, and participate in many entry-level construction trades.
2. Be prepared to work in the construction field in positions including, but not limited to work areas such as inspection, management, and as hands-on skilled tradespeople.

**Course** | **Units**
--- | ---
Building Code and Law  CNST  A195  3
Concrete Construction  CNST  A210  5
Masonry Construction  CNST  A260  5

Total Units 13

**FINE WOODWORKING**

**CERTIFICATE OF SPECIALIZATION**

The southern California region is home to more than 100 businesses that have fine woodworking and design, construction, repair, sales and instrument tuning as the primary focus of the business. Labor market data shows a clear need for competent new professional makers, designers, repair staff, and sales professionals to fill staffing positions created as small companies grow and medium to large companies expand.

**Program Outcomes**

1. Be prepared for a position or career in the fine woodworking and affiliated trade.

**Course** | **Units**
--- | ---
Cabinet Making  CNST  A114  4
Furniture Making and Design  CNST  A116  4

### CULINARY ARTS

#### BAKING AND PASTRY — BASIC

**CERTIFICATE OF SPECIALIZATION**

The requirements for the Certificate of Specialization in Baking and Pastry Arts provide students with the fundamental knowledge of baking science required of bakers and pastry cooks. Students will gain hand-on knowledge of classic and contemporary patisserie and baking processes. Course work is designed for students that desire a career as a baker or pastry cook.

**Program Outcome**

1. Students will be prepared for entry-level employment as professional and competent bakers, pastry cooks, or pastry entrepreneurs and meet the needs of retail and wholesale baking and pastry establishments.

**Required Prerequisite:**

- **Sanitation and Safety**  
  FSM A160  3

ASSOCIATE IN SCIENCE DEGREE

Complete the Advanced Baking and Pastry Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

CULINARY ARTS — BASIC

CERTIFICATE OF ACHIEVEMENT

The requirements for the Certificate of Achievement in Basic Culinary Arts provide students with the basics in the methods and chemistry of cooking. Instruction and practice covering the fundamental techniques of cooking. Program elements include practical application of lecture theory in a commercial kitchen environment. Safe and proper use of culinary tools and equipment elements of professionalism and sanitary work habits are covered in detail throughout the program.

The Culinary Arts Department provides students with Associates Degrees in Culinary Arts, Occupational Certificates, and career and technical education. The department serves the economic and workforce development needs of the local community and is committed to student success.

Program Outcome

1. Students will be prepared for entry-level employment in a commercial kitchen.

ADVANCED CULINARY ARTS

CERTIFICATE OF ACHIEVEMENT

This program is accredited by the American Culinary Federation Accrediting Commission. The requirements for the Certificate of Achievement in Advanced Culinary Arts include coursework covering a solid foundational knowledge of the restaurant and hospitality industry. Students will prepare food for dining guests in the school’s Captain’s Table Restaurant. The coursework will help to prepare students who are interested in a professional career in the Culinary Arts.

Program Outcome

1. Students will be prepared for employment as professional and competent culinarians.

ASSOCIATE IN SCIENCE DEGREE

Complete the Culinary Arts Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree requires 69-72 units for completion.

CULINOLOGY® AND FOOD SCIENCE

Culinology®, as defined by the Research Chefs’ Association, is the blending of the culinary arts and the science of food. Students completing this certificate will have career opportunities in food manufacturing, chain restaurants, hotels, ingredient supply houses, consulting and academia, new product development, sales, marketing, manufacturing, distribution, and the media.

The corporate headquarters of several restaurant chains as well as large and small food manufacturers are located in the southern California area. Opportunities exist for persons trained in culinary arts and food science to find interesting and rewarding careers with these companies.

LEVEL 1 — CULINARY FOOD SCIENCE ASSISTANT

CERTIFICATE OF ACHIEVEMENT

Orange Coast College’s Culinary and Food Sciences Assistant program is designed for students who are interested in working as assistants in the following fields: food research and development, product development, recipe development, product duplication, quality assurance, sensory, or flavor chemistry.

Program Outcomes

1. Graduates will be competent entry-level Culinary and Food Science assistants meeting the employment needs of the community and be able to communicate and work effectively with Chefs, Food Scientist and clientele.

2. Communicate and work effectively with Chefs, Food Scientists, and clientele.

LEVEL 2 CULINOLOGY® — PROFESSIONAL LEVEL

ASSOCIATE IN SCIENCE DEGREE

This Culinology® Level 2 option is articulated with the Food Science and Technology, Culinology® track in the Department of Human Nutrition and Food Science at Cal Poly Pomona. The coursework has received approval from the Research Chefs’ Association. Students must complete both Level 1 and 2 and meet the Associate in Science degree requirements. Students should certify their General Education coursework before transfer.

The Research Chefs’ Association suggests that students take additional Culinary Arts courses such as CA 255, Advanced Garde Manger and CA 265 Ala Minute Continental Cooking to enhance their culinary skills.

Program Outcomes

1. Be competent entry-level Culinary and Food Science assistants meeting the employment needs of the community.

2. Communicate and work effectively with Chefs, Food Scientists, and clientele.

3. Be able to transfer to selected colleges in Culinology®.

4. Culinology® students should obtain materials from the Transfer Center for complete details on transferable courses.

DANCE

PILATES/DANCE CONDITIONING INSTRUCTOR

CERTIFICATE OF ACHIEVEMENT

The Pilates/Dance Conditioning Instructor Certificate of Achievement prepares the student to teach in a privately owned dance, fitness or Pilates studio, recreational facility, or health club. The student takes theory and technique courses on Pilates apparatus taught by Pilates certified specialists and learns methods to determine appropriate conditioning programs for people of all ages and physical conditions. To prepare the student for employment, instruction uses both classroom work with a variety of instructional methods (lecture, lab/demonstration, independent and group projects), and internship experiences in dance and fitness facilities.

Program Outcomes

1. Demonstrate and/or identify beginning through advanced Pilates exercises for mat and apparatus.
2. Describe the basic principles of Pilates and explain their relevance to a Pilates program.
3. Design a lesson plan for a Pilates mat and apparatus class.
4. Teach a Pilates class using appropriate cueing and demonstration.
5. Identify common alignment problems and describe proper modifications and/or solutions.

Program prerequisite: Current First Aid/CPR certification

DANCE INSTRUCTOR

CERTIFICATE OF ACHIEVEMENT

The Dance certificate program trains students for positions in the commercial and artistic areas of dance. Graduates of the program would be qualified as instructors with an emphasis in one of the following: ballet, modern, jazz, tap and world dance forms in private studios, recreation or other community dance programs. The Dance Department also recommends that students complete their General Education Requirements for an Associate Degree.

Students are able to apply principles of movement and creativity to all forms of dance, demonstrate skills of instructing dance to communicate through movement and words, and apply information learned in other disciplines to the art form of dance.

Instruction will utilize both classroom work, using a variety of instructional methods (lecture, lab/demonstration, independent and group projects), and internship experiences in business/industry to prepare the student for job requirements.

Program Outcomes

1. Demonstrate knowledge of proper alignment, use of turnout and ability to apply alignment corrections in a teaching situation.
2. Communicate effectively through movement and words.
3. Successfully design and write a lesson plan appropriate to the level and age of the target students.
4. Construct and teach a dance phrase in a particular style: modern dance, ballet, tap, jazz, hip hop or world dance.
5. Incorporate three learning modes and an exercise “progression” in teaching methodology.
6. Correctly count and set tempo in duple and triple meter for a live dance accompanist or for recorded music.
7. Teach a technique or creative movement dance class for children or adults.

Program prerequisite: Current First Aid/CPR certification

Degree & Certificate Programs

WORLD DANCE

CERTIFICATE OF ACHIEVEMENT

The Dance certificate program trains students for positions in the commercial and artistic areas of dance. Graduates of the program would be qualified as instructors in private studios, recreation or other community dance programs, and act as consultants, lecturers, or performers with an emphasis on the world dance forms, primarily Mid-Eastern, Flamenco, Spanish Classical, East Indian, or African. The Dance Department also recommends that students complete their General Education Requirements for an Associate Degree.

Students are able to apply principles of movement and creativity to all forms of dance, demonstrate skills of instructing dance to communicate through movement and words, and apply information learned in other disciplines to the art form of dance.

Instruction will utilize both classroom work, using a variety of instructional methods (lecture, lab/demonstration, independent and group projects) and internship experiences in business/industry to prepare the student for job requirements.

Program Outcomes

1. Demonstrate effective movement principles and the elements of space, shape, energy and rhythm/time.
2. Perform at least one of the following world dance forms with appropriate vocabulary skills and styling at an intermediate/advanced level: Flamenco, Classical Indian Dance, African Dance, Middle Eastern Dance, and Latin Dance.
3. Demonstrate proficiency in vocabulary, traditions, and cultural knowledge for three or more World Dance forms studied at OCC.
4. Communicate effectively through movement and words.
5. Demonstrate skills required to work in commercial or artistic areas of world dance.

Complete the World Dance Certificate of Achievement and Associate in Arts graduation requirements as outlined in the Graduation Requirements section of the catalog.

DANCE

ASSOCIATE IN ARTS DEGREE

The degree provides students with a foundation in the theory, technique, and the aesthetics of the art of dance. This is fulfilled through a comprehensive program of dance study in areas of core techniques, contemporary and commercial styles, choreography, performance, and world dance forms. Students will demonstrate proficiency through accurate technical execution, performance skills, research papers, essays, and choreographic works. Program assessment is measured by public performances, program completion, transferability, and periodic program review. Students qualify to pursue a variety of dance-related careers and advanced degree options.

Program Outcome

1. Develop an understanding and appreciation of the art of dance and its relevance to the multicultural world we live in.
2. Acquire the dance technical skills necessary to transfer to a university program or similar advanced dance study program.
3. Implement critical thinking skills and kinesthetic awareness in their observation, analysis, and interpretation of dance performances on stage or in media.

4. Develop dance composition and performance skills necessary to successfully transfer to a university program or similar advanced dance study program.

DENTAL ASSISTING

CERTIFICATE OF ACHIEVEMENT

Dental assisting is a challenging field requiring skills in chairside assisting, which includes manual dexterity, dental radiology, preventive therapy, patient management, receptionist duties, expanded functions and office management.

Qualified dental assistants find employment opportunities in a variety of settings such as private dental offices, specialty practices, federal or state dental programs and dental schools.

The Dental Assisting program is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of approval. The commission is a specialized accrediting body recognized by the United States Department of Education.

The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The program is also approved by the State of California Department of Consumer Affairs, Dental Board of California, 2005 Evergreen Street, Suite 1550, Sacramento, CA 95815.

RDA functions are taught to laboratory competency and clinical competency where applicable. A list of laboratory and clinical competencies are available upon request.

Program application process is accomplished by taking program prerequisite, Allied Health A010. This short-term course is mandatory for all prospective program applicants. See current class schedule for specific course meeting times. The Dental Assisting Registered program starts only in the fall semester of every school year. This program is a sequential program. All fall semester courses must be taken concurrently in the fall semester. All spring semester courses must be taken concurrently in the spring semester.

Program Outcomes

1. The outcome of the program is to meet the needs of the local health care community by preparing students for employment as a professional and competent registered dental assistant.

ASSOCIATE IN SCIENCE DEGREE

Complete the Dental Assisting - Registered Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.
DIAGNOSTIC MEDICAL SONOGRAPHY

ASSOCIATE IN SCIENCE DEGREE

Diagnostic Medical Sonography is a medical imaging modality using high frequency sound to create images of specific areas of the body from which pathology may be diagnosed. A competent Sonographer must have a thorough knowledge of cross sectional anatomy and pathology, as well as the skills to manipulate a wide variety of sophisticated instruments. This is a Commission on Accreditation of Allied Health Education Programs (CAAHEP).

In addition to completion of the prerequisite and required courses below, this program requires completion of the Associate in Science General Education as listed in the catalog.

ALH A120 Human Diseases may be taken prior to program start.

Program Admission

Allied Health 010 course – application and orientation.

Students must complete Associate in Science degree graduation requirements and the program prerequisites prior to acceptance to the program.

Program Outcomes

1. The outcome of the program is to prepare students as competent Diagnostic Medical Sonographers for employment in the imaging field as professionals to meet community needs, and apply the concept of life-long learning through professional growth activities.

DIGITAL MEDIA ARTS AND DESIGN

GRAPHIC DESIGN

CERTIFICATE OF ACHIEVEMENT

This program presents a concentrated course of study in the field of digital media arts and design. Concept development and the generation of a portfolio suitable for job applications or transfer to a degree program is a major focus in each of the core courses.

Courses emphasize the process and problem-solving in conjunction with visual design issues. DMAD courses provide broad-based entry level training for a variety of industries. Students are introduced to a broad range of media, including 2-D and 3-D design, animation, illustration, painting, branding, publications, posters, print advertisements, website graphics, billboards and product packaging, as well as strategies and the techniques required to incorporate these areas into print, and online.

Along with the required courses, it is strongly encouraged that students participate in an Internship and enroll in DMAD A202 in your third or fourth semester.

Program Outcomes

1. Demonstrate skill in design utilizing industry standard graphics software.
2. Demonstrate techniques in digital lettering and typography.
3. Prepare digital files for printing.

94
4. Create a portfolio utilizing a variety of design techniques for the purpose of gaining employment and/or acceptance to an art college or university.

- Application of Color Theory
- Product Illustration 1
- Life Drawing
- Painting 1
- Story Illustration Techniques
- Printmaking 1
- Cartooning 1
- Introduction to Business
- Introduction to Entrepreneurship
- Introduction to Web Page Design
- Introduction to Dreamweaver
- Web Page Design 2
- Introduction to JavaScript
- Internship
- 3-D Computer Graphics Animation
- Video Workshop
- Digital Film and Video Editing
- Introduction to Humanities
- Principles of Advertising
- Introduction to Photography / Honors
- Introduction to Digital Photography
- Art Photography

**UX DESIGN**

**CERTIFICATE OF ACHIEVEMENT**
The UX design certificate has two pathways and is designed to prepare the student for an entry level position in UX and web design or the animation design industry. Students will gain the knowledge and skills needed to create original digital art used to integrate research, psychology, text, images, animation, video, and other content into effective web designs, interface designs, or 2D and 3D animations.

Digital Media Arts and Design is an important sector of the economy and industry is eager to find qualified candidates who not only understand practical knowledge of UX design principle for the web and animation, but also know how to collaborate with fellow designers, stakeholders, clients.

Along with the required courses, it is strongly encouraged that students participate in an internship and enroll in DMAD A202 in their third or fourth semester. Additionally, the department strongly recommends that students complete PSYC A100 and MATH or PSYC A160 in their elective coursework, all of which fulfill general education requirements.

**Program Outcomes**
1. Demonstrate skill in design utilizing industry standard UX, web, and animation design software.
2. Design and create website and mobile application projects and prototypes, that demonstrate knowledge of design for different screens, user interface design, and best practices in typography, design and navigation.
3. Demonstrate proficiency in the basic skills of digital animation.

**Courses**
- Color and Design: Two-Dimensional
- Beginning Drawing / Honors

ASSOCIATE IN SCIENCE DEGREE

Complete the UX Design Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Economics for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Economics AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate Arts in Economics for Transfer (AA-T) focuses on fundamental principles and models in both microeconomics and macroeconomics. In Microeconomics, students examine the nature of optimal producer and consumer decisions, the structure of markets, and the application of optimal decision making to classic problems in microeconomics. This may include tax incidence, market failures, international trade, price controls, and market efficiency. In Macroeconomics, students examine economic concepts and principles as applied to markets, national income, unemployment, inflation, economic growth, fiscal and monetary policy, banking, the Federal Reserve System, and international economics. Additionally, students who choose the Associate in Arts in Economics for Transfer (AA-T) degree become literate in the language of economics: calculus and statistics. Crucial concepts of differentiation, integration, optimization, probability, and statistical inference are learned. These mathematical tools serve as the foundation for upper division economic analysis.

Program Outcome

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

Program Major Units 20-21

CSU or IGETC for CSU 37-39

Transferable electives to satisfy unit requirement Varies

Total Degree Units 60
EDUCATION

EARLY CHILDHOOD EDUCATION AND ADMINISTRATION

Coursework in the Early Childhood Education Department emphasizes the theoretical and practical knowledge needed for working with culturally diverse children birth through age eight. The department offers a variety of certificates and degrees depending on age groups and needs of children. The various certificate and degree programs provide developmentally-based courses designed to teach students how to provide competent care and interactions for children.

EARLY CHILDHOOD EDUCATION

ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Students graduating with an Associate in Science in Early Childhood Education for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Early Childhood Education AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Mission of this program is to grant students an AS-T degree in Early Childhood Education with 24 units in the major and prepares students to transfer to a CSU. This degree gives students priority admission to a local CSU campus, in a similar major, with junior status. Students are encouraged to also complete additional units to earn an ECE Certificate of Achievement.

Program Outcome

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

**ASSOCIATE IN SCIENCE DEGREE**

Complete the Preschool Teacher Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

**EARLY CHILDHOOD ADMINISTRATION**

**CERTIFICATE OF ACHIEVEMENT**

Students who already have Early Childhood certificates may qualify to become directors or administrators of early childhood centers by earning this Early Childhood Administration certificate.

**Program Outcome**

1. The objective of the program is to meet the needs of the local child care programs by preparing students for entry-level employment as a professional and competent child care director.

**Required Prerequisites:**

- Early Childhood Education Certificate of Achievement Infant/Toddler Teacher
- Or Early Childhood Education Certificate of Achievement Preschool Teacher

**ELEMENTARY EDUCATION**

**ELEMENTARY TEACHER EDUCATION**

**ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)**

Students graduating with an Associate in Arts in Elementary Teacher Education for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Elementary Teacher Education AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate in Arts degree for Transfer (AA-T) in Elementary Teacher Education is designed for prospective California State University (CSU) transfer students who are
preparing for careers as Elementary School Teachers. Completion of a Bachelor’s degree in Liberal Studies prepares students to apply to approved teacher education programs leading to a credential to teach in elementary, self-contained classrooms. The Liberal Studies major and aligned AA-T Elementary Teacher Education curriculum provides depth and breadth of subject matter content typically taught in Kindergarten through sixth grade classroom settings in California. Students who plan to enter a California Commission on Teacher Credentialing (CCTC) approved program leading to a preliminary Multiple Subject Credential are required to demonstrate subject matter competency.

Program Outcome

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

ELECTRONICS TECHNOLOGY

The Electronics Engineering Technology Program at Orange Coast College prepares students for employment and career advancement in the diverse fields and industries that apply electrical and electronic technologies.

ELECTRO-MECHANICAL TECHNICIAN

CERTIFICATE OF SPECIALIZATION

This Certificate reviews mathematics, arithmetic through trigonometry, in a conceptual, tactile, manner that, helps the student realize the real-world, workplace, value of developing these skills. Training is: interactive, project-based, hands-on, and in a contextual environment that emulates real-world experience.

Program Outcomes

1. Inculcates the desire to study Science, Technology, Engineering and Mathematics (STEM) related courses.
2. Empowers the student by developing time management and study skills that increase productivity both on campus and in the workplace.
3. Develops the fundamentals skills for electro-mechanical production technicians: mechanics, electronic assembly, and computer skills.
4. Prepare the student to take the CompTIA A+ Computer Technician certification exam.

ELECTRONICS RELIABILITY TECHNICIAN

CERTIFICATE OF ACHIEVEMENT

The Electronics Reliability Technician Certificate of Achievement prepares students for entry-level employment by developing the fundamentals skills for a technician’s knowledge base: electricity, electronics, computer hardware, mechanics, robotics, assembly and test instruments. Training is: interactive, project based, hands on, and in a contextual environment that emulates real world experience.

Program Outcome

1. Develop the fundamental skills for a technician’s knowledge base: electricity, electronics, computer hardware, mechanics, robotics, assembly and test instruments.

Required Prerequisites:
Electro-Mechanical Technician Certificate of Specialization

ASSOCIATE IN SCIENCE DEGREE

Complete the Electronics Engineering Technician Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

INDUSTRIAL AUTOMATION TECHNICIAN

CERTIFICATE OF ACHIEVEMENT

The Industrial Automation Technician has level 2 (sub-assembly) diagnostic skills. The student will learn how to: install, configure, modify, diagnose, and repair automation control systems. Industry sectors that employ industrial automation technicians in the greater Orange County region include: 1) fabrication & manufacturing, robotic arms, CNC, automated assembly, inventory control, elevator lifts, pharmaceuticals, medical instruments and medical products, and 2) process control, traffic & transportation, food processing, water treatment, power distribution, chemical reﬁnery, oil & gas reﬁneries, climate control, building automation and security systems.

Program Outcomes

1. Perform entry-level maintenance, calibration, and diagnostic procedures on control systems.
2. Transfer to the International Society for Automation CCST (Certified Control Systems Technician) training program.
3. Transfer to the Fanuc Robotics CERT (Certified Electronic Robotics Technician) training program.
4. Transfer to 4-year Engineering Technology programs.

Required Prerequisites:
Electronics Reliability Certificate of Achievement

ASSOCIATE IN SCIENCE DEGREE

Complete the Industrial Automation Technician Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree requires 63-64 units for completion.
EMERGENCY MEDICAL SERVICES

CERTIFICATE OF SPECIALIZATION

EMS certification is required to work for an ambulance service or in an emergency department and may be required for lifeguards, ski patrol and fire fighters. The EMS provides the care necessary to preserve life and to prevent disability among the acutely ill and the seriously injured and assist and communicate with other healthcare providers with a higher scope of practice.

The EMS must have basic knowledge of anatomy and physiology, medical terminology and sterile techniques. The course of study emphasizes treating traumatic injuries and medical emergencies, as well as treating minor disorders and emotional problems. Specialized areas include obstetrical and pediatric emergencies and extricating entrapped persons. Special emphasis is placed on proper patient moving techniques and transport to definitive and appropriate medical care.

Successful completion of the EMS course qualifies the student to sit for the National Registry of Emergency Medical Technicians’ certifying examination, and therefore obtain EMS certification in any California County.

Program Outcomes

1. The graduate of the Emergency Medical Services program will be prepared for entry-level employment as a professional and competent Emergency Medical Technician and meet the needs of the local health care community.

2. The EMS certification course is a prerequisite for paramedic training. Job opportunities are good.

Program Recommended Preparation:

Emergency Medical Responder EMS A100 3

Required Prerequisites:

### ENGLISH

#### ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in English for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the English AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The English program provides a core curriculum that instills critical thinking tools (including literary theories and terminology) for both practicing and studying writing, knowledge of historical and aesthetic contexts, and appreciation of geographic and cultural diversity. This background serves all English majors whether their emphasis at the CSU level will ultimately be the study of literature, rhetoric and non-fiction writing, or creative writing. The English program recognizes that all these areas of the major inform one another.

All the required courses in the program foster strong writing skills and are crucial in developing the proficiency and knowledge necessary for students who will ultimately use the major for teaching at the K-12 or community college level, literary scholarship at the graduate level, entering the legal professions, for creative writing, or for non-fiction essay writing in literary, business, and scientific journals.

**Program Outcome**

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

Total Degree Units 60

FAMILY AND CONSUMER SCIENCES

ASSOCIATE IN SCIENCE DEGREE

Students with degrees in Family and Consumer Sciences can be employed as consumer affairs specialists, family life educators, and education program specialists in business, industry, government, and cooperative extension. Students who want to teach Family and Consumer Science courses in middle and high schools should complete this degree and transfer to CSU and complete the requirements for a single subjects teaching credential.

Most of the courses in this program have been articulated with CSULB. Students should consult the Transfer Information section of this catalog for specific transfer information.

Program Outcome

1. Graduates will possess the necessary skills for employment as consumer affairs specialists, family life educators, or education program specialists. In addition, graduates are prepared for transfer as an FCS major to selected colleges.

Course Units
- Clothing Design and Selection FASH A170 3
- Applied Color and Design Theory FASH/ID A175 3
- Principles of Clothing Construction 1 FASH A180 3
- Nutrition FN A170 3
- Principles of Food FN A180 3
- Life Management FCS A180 3
- Sanitation and Safety FSM A160 3
- Child Growth and Development HMDV A180 3
- Fundamentals of Interior Design ID A100 3

FASHION

Five Certificate of Achievement and Associate in Science options are available through the Fashion Department: 1) Apparel Construction, 2) Design, 3) Display and Visual Presentation, 4) Fashion Merchandising, and 5) Production/Product Development. Completion of these programs prepares students for careers in the fashion industry and in related businesses. Students may also transfer to programs at four-year colleges. Additionally, the department offers a Certificate of Specialization in Industrial Sewing.

INDUSTRIAL SEWING

CERTIFICATE OF SPECIALIZATION

The courses in this certificate provide short-term training in the areas of clothing construction and the use of high-speed industrial sewing equipment. The certificate can be completed in one to two semesters. The program offers a self-paced open entry, open exit lab that allows for enrollment throughout the semester. Employment possibilities include apparel construction and textile product assembly careers.

Program Outcomes

1. The outcome of the program is to prepare students for entry-level employment as a competent professional in the field of clothing construction and the use of high-speed sewing equipment and meet the needs of the local fashion industry.

Course Units
- Sewing Lab FASH A050 0.5-2
- Beginning Clothing Techniques FASH A100 3
- Industrial Sewing Techniques FASH A102 2
- Fundamental Principles of Clothing Construction 1 FASH A180 3
- Fundamental Principles of Clothing Construction 2 FASH A183 3

Total Units 11.5-13

Industrial Sewing Suggested Electives:
- Alterations FASH A137 2
- Internship Academy-Level 2 ITRN A392 1-4

APPAREL CONSTRUCTION

CERTIFICATE OF ACHIEVEMENT

Completion of the Apparel Construction certificate program prepares students for careers in the fashion industry and in related businesses.

Program Outcomes

1. The outcome of the program is to prepare students for entry-level employment as a competent professional in the fields of garment construction, alterations, patternmaking, tailoring, alterations, and dressmaking and meet the needs of the local fashion industry.

Continued on next page
ASSOCIATE IN SCIENCE DEGREE

Complete the Fashion Apparel Construction Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree may require 62.5 units for completion, depending on course selection in the major.

DISPLAY AND VISUAL PRESENTATION

CERTIFICATE OF ACHIEVEMENT

This certificate is designed to prepare students seeking careers as display and station designers, exhibition designers, and retail display specialists. The training program includes consideration of the total visual presentation design process, including store planning, service promotion mix applied to retailers, wholesalers (trade show), corporate display, visual identity, and exhibits in cultural and production businesses. Students are encouraged to work toward an Associate in Science degree.

Program Outcomes

1. Produce a digital presentation of a specific retail venue, illustrating continuity of theme through physical appearance, room settings, signage, merchandise, and website presentation.
2. Create the packaging for a product that will include product graphics and design, the merchandising concept for the retail venue, and an initial event or promotion to launch the product.

ASSOCIATE IN SCIENCE DEGREE

Complete the Display and Visual Presentation Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

FASHION MERCHANDISING

CERTIFICATE OF ACHIEVEMENT

Completion of the Fashion Merchandising certificate program prepares students for careers in the fashion industry and in related businesses.

Program Outcomes

1. The outcome of the program is to prepare students for entry-level employment as a professional and competent fashion merchandiser in the fields of retail management, retail buying, special events and promotions, visual merchandising, image/fashion consulting, and public relations.

ASSOCIATE IN SCIENCE DEGREE

Complete the Production/Product Development Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree may require 61 units for completion, depending on course selection in the major.

PRODUCTION/PRODUCT DEVELOPMENT

CERTIFICATE OF ACHIEVEMENT

Program Outcomes

1. The outcome of the program is to prepare students for entry-level employment in the fields of patternmaking, sample-making, technical design, sourcing management, production management, quality control supervising, grading, marker making, costing/spec production, pre-production merchandising and meet the needs of the local fashion industry.

ASSOCIATE IN SCIENCE DEGREE

Complete the Production/Product Development Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree requires 61.5 units for completion.
**FILM & TELEVISION**

**CERTIFICATE OF ACHIEVEMENT**

The Film & Television program at OCC is designed to give the student two years of extensive theory and technical experience training in the basic skills required for employment in the film & television industries.

### Program Outcomes

1. The Film & Television program offers a Certificate of Achievement that, when completed, gives the student the basic skills required for entry-level employment in the film, video, television, multi-media and entertainment industries in the areas of producing, directing, camera operation, lighting, sound and editing.

**FILM, TELEVISION AND ELECTRONIC MEDIA**

**ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)**

The Film, Television, and Electronic Media Associate in Science Degree for Transfer (AS-T), is designed to give the student extensive theory and technical experience training in the basic skills required to enter a baccalaureate degree program in Film & Television programs at CSU schools such as California State Universities Fullerton, Long Beach and Northridge or employment in the film/video industry.

Students graduating with an Associate in Science in Early Childhood Education for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Early Childhood Education AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

### Program Outcomes

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

FOOD SERVICE MANAGEMENT — COMMERCIAL

CATERING

CERTIFICATE OF ACHIEVEMENT

Students who complete the Catering certificate will be trained to operate a catering business, whether it is a business conducted on premises or off premises. Those enrolling in this program will learn about organization and management, menu pricing, selling, advertising and promotion, and preparing and serving food, as well as cost accountability, a most important factor in operating a catering service successfully. Students will be employable in the catering departments of hotels and restaurants and will be knowledgeable enough to reasonably decide about opening their own catering business. Opportunities for employment in this field are excellent.

Program Outcome

1. The outcome of the program is to prepare students for professional positions within the industry and to provide the foundation skills for owning and operating their own catering business. Meets the needs of the local catering community.

RESTAURANT SUPERVISION

CERTIFICATE OF ACHIEVEMENT

Students completing this certificate are qualified to manage food service operations in commercial establishments, such as restaurants and hotels. Restaurant management is an attractive profession which has been described a number of ways by those who are active in it, including such accolades as glamorous, well-paying, creative, challenging, and filled with excitement. One employment estimate shows a need for more than 250,000 additional employees annually. The future of restaurant management holds promise for individuals willing to devote their talents to this lively career.

SPANISH

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Spanish for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Spanish AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate in Arts in Spanish for Transfer degree is an excellent way to develop communicative skills as well as analytical and critical thinking. It can provide a basis for understanding culture, and therefore, prepare graduates for many careers in a multicultural world. The ability to communicate and interact with others is more and more vital with growing global interdependence and technological connectivity. Students in the Associate in Arts in Spanish for Transfer Degree (AA-T) can develop careers in areas such as: education, diplomatic services, anthropology, economics, political science, literature, sociology, and linguistics. While teaching has traditionally been the principal area of employment, other careers, such as interpreting, translating, research, public relations, international commerce, tourism, and publishing are possible.

The department offers courses from the beginning to intermediate levels. All courses are designed to develop the student's listening comprehension, speaking, reading and writing skills, as well as to provide a general overview of Spanish-speaking civilizations and cultures.

Program Outcomes
1. Recognize and produce the Spanish language in the four primary areas of communication: listening, speaking, reading, and writing.
2. Demonstrate a better understanding and appreciation of the cultures related to the Spanish language by comparing and contrasting them with the student's own culture(s).
3. Use current technologies to further develop language and cultural competencies.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Geography for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Geography AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain...
Degree & Certificate Programs

**GEOLOGY**

**EARTH SCIENCE**

ASSOCIATE IN SCIENCE DEGREE

This Associate in Sciences Degree is designed to introduce the student to the multidisciplinary field of Earth Science. Students who complete this degree will be prepared for further study in Earth Science or related disciplines, for transfer to B.A./B.S. programs in Earth Science, or as preparation to teach Earth Science at a primary or secondary grade level. This degree requires a total of 21 units of which 13 units are in required courses. An additional 8 units must be chosen from the list of restricted electives.

**Program Outcomes**

1. Students will be able to demonstrate an understanding of how the scientific method is used to explore topics in earth science and geology.
2. Students will be able to apply earth science/geology concepts to better understand current issues of environmental and/or geologic concern.
3. Students will be able to demonstrate concept mastery.

GEOLOGY

ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Students graduating with an Associate in Science in Geology for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Geology AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate in Science in Geology for transfer Degree focuses on an understanding of internal processes responsible for the formation of the Earth from a scientific perspective. Students choosing this degree program will study a range of natural science concepts including plate tectonics, climate change, and the evolution of the dynamic planet Earth. This degree employs the scientific method to understand the formation of the Earth, including how volcanoes and mountain building events change the geography and ecosystems of the Earth. Students will explore geologic time as it relates to the origins, and evolution of life through the fossil record.

An understanding of the formation of economically important mineral and fossil fuel resources is an important aspect of the degree program. Portions of the course work will focus on the diverse California geologic setting and coastal development. Completion of the Associate in Science in Geology for transfer Degree will provide students with a well-rounded understanding of human impacts on the globe and the ways geologic hazards such as earthquakes, floods, and landslides impact human development.

The coursework prepares students to think critically and apply reasoning skills to analyze real world situations. It is strongly recommended that all geology majors take courses in physics and biology in addition to the degree requirements, but this cannot be included as a requirement due to unit limitations.

Program Outcomes

1. Apply the scientific method to solve geological problems.
2. Summarize geologic time, explain the geologic time scale and its scientific basis, recount the milestone events in Earth history, and understand the basics of common dating methods.
3. Express the role of the geology in everyday life, appreciate the extent of human impact on Earth systems and environments, and understand the processes that create natural hazards, and the strategies that minimize their impact on society.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

GLOBAL STUDIES

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Global Studies for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Global Studies AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

Global Studies is an interdisciplinary course of study that provides students with an understanding of political, cultural, environmental and economic processes and their implications. The program introduces students to the study of global issues and perspectives while providing methodological tools and techniques for analyzing them at multiple scales (local, regional and global). Students will develop the skills for analyzing the impacts of globalization by applying diverse perspectives to current global issues.

By critically analyzing a variety of case studies, students will be prepared to participate in an interconnected environment and continue their studies in a variety of fields.

Program Outcomes

1. Students will demonstrate knowledge of the historical evolution of globalization, the interconnectedness of economic, political and environmental processes and its positive and negative consequences.
2. Students will apply knowledge to propose policies to address an issue of globalization.
3. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

HEALTH EDUCATION

HEALTH SCIENCE

ASSOCIATE IN ARTS DEGREE

This program will introduce students to health, including personal health and public health. Students can choose from a variety of courses that will increase their knowledge and understanding of the biopsychosocial model of health to be able to make personal choices that reduce their risk of disease. Students will also understand health from a public health view and be able to analyze global health issues and the impact of environment, socioeconomics, politics, and culture on health and health systems. Although not an Associate Degree for Transfer (AD-T), this Associate of Arts will prepare students to transfer to CSU Fullerton.

Program Outcomes

1. Students will understand how the body functions and how behavioral choices impact health.

2. Students will be able to analyze global health issues and identify the impact of environment, socioeconomics, politics, and culture on health and health systems.

3. Students will prepare for transfer to local CSUs, i.e., CSU Fullerton.

PUBLIC HEALTH SCIENCE

ASSOCIATE IN SCIENCE DEGREE FOR
TRANSFER (AS-T)

Students graduating with an Associate in Science in Public Health Science for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Public Health Science AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate in Science in Public Health Science for Transfer focuses on an understanding of the health of populations. This degree is designed to prepare students in the study of public health science and provide comprehensive preparation for upper-division work. Students choosing this degree program will study a range of topics related to human health and disease including: core functions and disciplines of public health; human anatomy and physiology; diseases and their causes, including risk factor; distributions of diseases; primary prevention strategies; and behavior-change theory and application. Students will be gain understanding of the biopsychosocial basis for health and healthy populations. Further they will be able to understand and assess the burden of disease on the health of populations, including the impact of environmental exposures; use of data to support evidence based practices; develop and deliver health programs and interventions that are based on behavior frameworks; and evaluate health programs and initiatives for effectiveness. Public Health Science bridges the gap between scientific discoveries and the application of this knowledge to improve the quality of life.

Program Outcomes

1. Students will be able to assess the burden of disease on the health of populations, including the impact of environmental exposures,

2. Students will be able to develop and deliver health programs and interventions that are based on behavior frameworks, and evaluate health programs and initiatives for effectiveness.

3. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

HISTORY

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)
Students graduating with an Associate in Arts in History for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the History AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

Lower-division history courses taken at Orange Coast College will introduce students to the broad sweep of historical events both within the United States and across the world and help them better understand the role of cause and effect and the interaction of continuity and change in the unfolding of history. Students will refine their ability to read and analyze historical courses and to use them appropriately in developing valid historical arguments. The most obvious application of a bachelor's degree in history is to prepare individuals to teach, pursue historical research, or work in museums. In addition, the insights into the human experience and the skills gained through the study of history - to think clearly and analytically and to communicate effectively both in writing and orally - are excellent preparation for careers in many fields including law, public service, and business.

Program Outcome
1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

*Course may not be used to fulfill List B (Area 1) if already used to fulfill List A.

HORTICULTURE
The Horticulture program prepares students for many attractively paying positions in the nursery industry. These positions include those in production and sales, interior plantscaping, landscape design, and construction and maintenance.

Students may take one or more courses from the program to learn about horticulture for its own sake and for theirs, or they may take the courses required for the Certificate of Achievement in Horticulture. Either option is an introduction to natural beauty. The courses have been designed both for full-time students planning to enter the horticulture field and for those people working in one of the many interesting areas of horticulture who wish to expand their horticultural knowledge. Most classes are conducted during convenient evening hours to allow working students to study for a new career and those with jobs in the field of Horticulture to upgrade their skills.

The Horticulture Department boasts excellent facilities, including a well-equipped classroom building set in beautifully landscaped grounds. The grounds themselves have been planted with a large collection of trees, shrubs, ground covers, and vines, and they serve as a laboratory for many of the classes. A nursery with over 6,000 square feet of greenhouse space and 4,000 square feet of shade structures round out this marvelous facility on the Orange Coast College campus.
BASIC LANDSCAPE DESIGN

CERTIFICATE OF SPECIALIZATION

The Basic Landscape Horticulture certificate program is intended for those students who are limited by time constraints to a one-year program. Graduates with this certificate can find employment at the basic or entry level in grounds maintenance or as a park worker, gardener, or landscape designer.

Program Outcome

1. Communicate basic horticulture concepts to clients, contractors, and public agencies.

INTERMEDIATE LANDSCAPE DESIGN AND LANDSCAPE SPECIALIST

CERTIFICATE OF SPECIALIZATION

The Intermediate Landscape Design and Construction certificate program trains students to work in the field of landscape design/build. The curriculum provides studies in design, construction, history, basic horticulture, topics that help a student obtain employment in the field, and provide foundational training towards becoming licensed landscape contractors and related specialties.

Program Outcome

1. Solve landscape challenges through the design/build process that provides basic human comfort and livability, and meet client functional and financial needs.

ADVANCED LANDSCAPE DESIGN AND LANDSCAPE SPECIALIST

CERTIFICATE OF SPECIALIZATION

Successful work in landscape design requires a comprehensive, multidisciplinary education in aspects of horticulture, design, and more. Without requiring prior background, the Landscape Design Certificate program provides entry-level skills for those seeking employment in the landscaping field or continuing education for landscapers, florists/nursery growers, architects, contractors, and anyone interested in a broader range of knowledge in this area. The courses enable you to develop aesthetic sensitivity and environmental awareness, a thorough knowledge of historical precedent, a defensible and defensible design methodology, the technical knowledge and skills necessary to compete effectively for jobs, and a comprehensive portfolio.

Program Outcome

1. Solve landscape challenges through the design/build process that provides basic human comfort and livability, and meet client functional and financial needs.

RETROFITTING CALIFORNIA URBAN GARDENS

CERTIFICATE OF SPECIALIZATION

The Retrofitting California Urban Gardens Certificate of Specialization, is designed to provide formal training for individuals interested in transforming the landscape into a water-wise sustainable garden. This program provides students with entry-level working knowledge of the skills and resources they will need to design various sustainable landscapes upon completion of the certificate.

Program Outcome

1. Students will demonstrate areas of critical thinking, design, and visual communication for entry-level employment as a landscape/garden designer that will have a strong background in sustainability as well as the ability to pursue industry certifications.

HORTICULTURE

CERTIFICATE OF ACHIEVEMENT

Upon completion of the Horticulture Program students will have the knowledge, skills and experience to work with plant material in multiple applications and
multiple fields in the Landscaping and Nursery industries. Students will be qualified for careers in Landscape Design, Landscape Contracting, Landscape Maintenance, Arboriculture, Nursery practices, and Irrigation and Water Management.

**Program Outcomes**

1. Use knowledge of various plant materials to better design and maintain an outdoor garden or landscape.
2. Describe man’s relationship with plants for food and environmental enhancement.
3. Describe current sustainability issues in Southern California and how good horticultural practices will improve long term sustainability.
4. Use knowledge of a particular chosen plant, greenhouse systems and propagation practices to successfully produce a healthy crop by a target date.
5. Use knowledge of site conditions, drafting skills, client needs, and various plant and building materials to solve a design problem.

**HOSPITALITY, TRAVEL AND TOURISM**

The Hotel, Travel & Tourism programs at Orange Coast College are designed for employment or career advancement within the hospitality industry. Whether an individual is a novice or currently employed, these programs strengthen the opportunity for success within the fastest growing industries in Southern California.

Career opportunities abound as growth of the hospitality industry continues throughout the United States and the world requiring trained individuals to fill the multitude of varied positions. Students may choose individual courses, certification in areas of specialization, as well as, completion of an Associate in Science Degree.

The Hotel, Travel & Tourism, and Spa Management programs at Orange Coast College use materials from the Educational Institute of the American Hotel & Lodging Association, the world leader in hospitality education and training. Students who successfully complete these courses earn globally recognized certificates from the American Hotel & Lodging Association in addition to college credits applicable toward a Certificate or Associate Degree at Orange Coast College.

At least 50% of all Airline, Hotel, Spa, Meeting/Event, Travel & Tourism coursework must be completed at Orange Coast College.

Students are encouraged to complete the requirements for an Associate in Science degree; graduation requirements can be found in the college catalog. With additional coursework, students can prepare for a Bachelor’s Degree in this field. For more department information, call 714-432-5835 x6 or visit the School of Hospitality website at www.orangecoastcollege.edu.

Note: Curriculum may be adjusted to meet the needs of students with extensive industry related experience. Evening and weekend courses are available.

**AIRLINE TRAVEL CAREERS**

**AIRLINE TRAVEL MANAGEMENT**

**CERTIFICATE OF ACHIEVEMENT**

This program prepares students for ground operations and airport management. Ground operations involves all aspects of aircraft handling at the airport as well as aircraft movement around the aerodrome. Managers are at the center of the airport. They are the decision-makers and policy-makers for airports. They create jobs and manage each airport department. The job is multi-faceted and vital to aviation safety. Airports are often one of the largest employers in a local area.

Corporate aviation is one of the largest growing entities within the aviation community. The corporate side of aviation has flourished, with an increased demand for larger aircraft and “Third Crew” member responsibilities and placements.

*Continued on next page*
AIRLINE TRAVEL MANAGEMENT CAREERS
CERTIFICATE OF ACHIEVEMENT (CONTINUED)

Program Outcome

1. The outcome for the Certificate of Achievement is to prepare students for employment in all levels of corporate and retail aviation including: flight attendant, ground operations, airport management, guest service agents, and other airline careers.

ASSOCIATE IN SCIENCE DEGREE

Complete the Flight Attendant and Airline Travel Careers Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree requires a minimum of 61 units for completion.

FLIGHT ATTENDANT AND AIRLINE TRAVEL CAREERS

CERTIFICATE OF ACHIEVEMENT

This program prepares men and women of all ages for the highly competitive flight attendant, or a customer service career in the airline and travel industry. Courses include airline, airport, and travel terminology codes, hiring qualifications, communication skills, appearance and image standards, written employment skills and oral interviewing techniques and strategies to set yourself apart. Students work on campus, and with community and charity events to enhance their public contact experience considered valuable for flight attendants and careers in the travel industry.
**HOTEL MANAGEMENT**

**FRONT OFFICE SPECIALIST**

**CERTIFICATE OF ACHIEVEMENT**

These courses have been recommended by industry to provide essential preparation to supervise and manage within operational areas in a hotel. Courses have been organized to provide understanding of techniques and knowledge necessary in developing effective leadership and decision-making skills and successful communication among all departments contributing to positive guest experiences. The curriculum was developed with guidance from an advisory council of hospitality professionals who rank skills and knowledge required in the hospitality industry. Upon completion of the program there are employment opportunities with competitive salary.

**Program Outcome**

1. The outcome for the certificate of achievement is to prepare students for employment within the front office and operational support areas of a hotel.

The popularity of spas in the U.S. has increased dramatically over the past few years and shows no signs of slowing. According to a recent international Spa Association study, the spa industry generated over $12.7 billion in revenue in 2015. Each year, more spas are being opened across the country creating new jobs for spa professionals.

Orange Coast College is one of the first community college’s to offer Spa Education. The greater Orange County area is thriving with spas and our program is in a unique position to provide students access to numerous world-class resorts and spas – right in our own back yard.

Coursework in the program provides comprehensive business education and industry input to create a well-rounded educational experience for career success in the Spa market. You will acquire business and management strategies, desirable skills for successful day-to-day operations, combined with long-range strategies necessary for growth and profitability.

With increasing integration of spas in the hotel, resort, medical, healthcare, and tourism industries, spa management professionals are in demand. Our graduates will have the knowledge and skills needed to become leaders in the spa industry.

**Program Outcome**

1. The outcome of this certificate of achievement is to prepare students for employment as a supervisor, manager, director or owner in the spa industry.

ASSOCIATE IN SCIENCE DEGREE

Complete the Travel Specialist Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog. Note: this AS degree requires a minimum of 70 units for completion.

INTERIOR DESIGN

The Interior Design Program at Orange Coast College is dedicated to helping students develop their fullest potential in academic, professional and personal skills, preparing them for a rewarding career in design. This exceptional, multi-level program, developed by educators and industry professionals, promotes an interdisciplinary, equal opportunity education committed to building confident, responsible and socially aware individuals who will contribute to quality of life through interior design. The OCC Interior Design Program Mission is achieved through the following sequential tri-level curriculum.

LEVEL 1 — INTERIOR MERCHANDISING

CERTIFICATE OF ACHIEVEMENT

The Interior Merchandising certificate prepares students for employment in retail furnishings and merchandising with a working knowledge of the design process, principles and elements of design, materials and products, and application of color theories.

Program Outcome

1. To prepare students for entry-level employment in retail furnishing and merchandising and to prepare students for the Level 2 - Interior Design Assistant in Science Degree.

LEVEL 2 — INTERIOR DESIGN ASSISTANT

ASSOCIATE IN SCIENCE DEGREE

The Level 2 Interior Design Assistant degree furthers the process of education by offering additional knowledge in design history, space planning, drafting, illustration, computer applications, selection and specification of materials and products, lighting, construction documents, building codes, business/professional practices, plus internship and portfolio development. Course information is applied to both residential and commercial design.

Program Outcomes

1. To prepare students for entry-level employment as an interior design assistant to a professional interior designer. In addition, the outcome of this level is for students to progress to Level 3 – Interior Design Professional Level and/or for transfer.

Required Prerequisites:
Level 1 Interior Merchandising Certificate of Achievement

JOURNALISM

ASSOCIATE IN ARTS DEGREE

Students graduating with an Associate of Arts degree in Journalism will be prepared to enter the workforce in an entry level capacity without transfer to a four-year university. Students will gain skills in newswriting, feature writing, editing, design, photography, multimedia producing and editorial design making.

Program Outcome

1. The student will be able to write a balanced news article on deadline in traditional journalistic style incorporating interviewing skills, analyzing information and presenting a complete, balanced story.
2. Students will demonstrate an ability to write, edit and produce all aspects of the bi-weekly campus newspaper Coast Report, including an understanding of design, photography use and editing peer's articles.
3. Students will be able to evaluate online media and distinguish between mainstream, traditional media and news promoting a philosophy or one-sided agenda. They will also be able to evaluate blogs and social media.
4. Students will demonstrate the ability to use visual journalism to tell a story.

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Journalism for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the CSU system with 60 units of upper-division coursework. Students who complete the Journalism AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Department of Journalism at Orange Coast College is a comprehensive program with offerings ranging from beginning journalism instruction to state-of-the-art multimedia production. Our mission is to use theory and practice to help how journalists report and write for a variety of publications and understand the value of a free press in America. We strive to help students achieve an AA or AS or transfer to other institutions of higher learning and be prepared for the opportunities that may exist. The department also operates a weekly student newspaper, the Coast Report, the website www.coastreportonline.com, and regularly posts a variety of multimedia productions. Classes are open to students of all majors.

The Journalism AA-T degree directly aligns with many of the department’s goals and objectives: achieving an AA and transferring to an institution of higher education. It is also designed to give students a broad perspective on the options exist. The department also operates a weekly student newspaper, the Coast Report, the website www.coastreportonline.com, and regularly posts a variety of multimedia productions. Classes are open to students of all majors. The Journalism AA-T degree is designed to give students a broad perspective on the options they might select at the 4-year level and help prepare them for their transfer goals. They will also be prepared to work on any campus publication or website with journalistic confidence and experience.

Program Outcomes

1. Analyze a complete newspaper and understand why stories were chosen for inclusion.
2. Find and pitch both news and feature stories.
3. Conduct numerous interviews to obtain factual information.
4. Write a complete story using proper structure, style and grammar, and have the story published in the newspaper or online.
5. Assess their own strengths, weaknesses, and omissions in writing news and feature stories or taking photographs for publication and be able to adjust future performance in light of their self-assessments.
6. Collaborate in developing, designing, and completing a multi-media project and post it to the web.
7. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

ATHLETICS TRAINING

CERTIFICATE OF ACHIEVEMENT

The Athletic Training Certificate provides an educational and practical foundation for students interested in athletic training, physical therapy, physical therapy assistant and physical therapy aide. The Athletic Training Certificate objective is to enable students to develop a strong foundation in the kinesiology and athletic training. The theoretical knowledge, laboratory, and clinical experience skills acquired by students in this program will also enhance their general understanding in the fitness and physical therapy industry. The required courses are a cross section of required courses in nearby athletic training curricula.

Since curriculum requirements may vary amongst institutions, it is imperative that students entering OCC’s certificate in Athletic Training meet with a counselor at the start of their academic career.

Program Outcome

1. Students will have the knowledge, skills and experience necessary to be well qualified applicants undergraduate athletic training programs.

Course Units
Required Courses:
- First Aid and CPR HLED A112 2
- Sports Medicine KIN A273 3
- Athletic Taping/Modal KIN A274 3
- Sports Medicine Practicum Level 1 KIN A275 2-4
- Sports Medicine Practicum Level 2 KIN A276 2-4

FITNESS SPECIALIST

CERTIFICATE OF ACHIEVEMENT

This program provides students with theory necessary to be effective in the health fitness industry (health clubs, corporate fitness, etc.). Students in this program will learn scientific principles of exercise and physical conditioning, techniques for the measurement of human performance, and methods for establishing healthy nutritional patterns.

Program Outcomes:

1. Students will have the knowledge, skills & experience necessary to assess an individual’s level of physical fitness and design appropriate exercise programming to improve physical fitness.
2. Students will be qualified for careers as fitness instructors, exercise testing technicians, strength coaches, or personal fitness trainers.
3. Develops a strong understanding of the business aspects of personal training, including effective practices, professional ethics, marketing, record keeping, and communication.

Subtotal 3-5

Total Units 19-22

ASSOCIATE IN SCIENCE DEGREE

Complete the Fitness Specialist Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.
KINESIOLOGY

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Kinesiology for Transfer Degree are well positioned to complete a Bachelor's Degree in Kinesiology within the CSU system with 60 units of upper-division coursework. Students who complete the Kinesiology AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

Program Outcomes
1. Identify and describe major concepts, theoretical principles, empirical findings, and historical trends in kinesiology.
2. Know, comprehend, and apply scientific principles to movement, exercise, and sport, including the demonstration of knowledge and skill in fitness activities, aquatics, combatives, individual sports, and/or team sports.
3. Analyze and evaluate how anatomical and physiological systems impact human movement.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

LEADERSHIP STUDIES

CERTIFICATE OF SPECIALIZATION

The goal of this program is to enhance individual and organizational effectiveness. Students will develop personal leadership skills, study ethical dimensions of leadership, understand how leadership affects people, organizations, and society, and articulate and apply their own philosophy of leadership in their careers and lives.

Program Outcomes
1. Function effectively in a leadership role using the skills, principles, and tools they have acquired.
2. Apply the leadership principles they have learned in their personal and/or organizational lives.
3. Distinguish between the qualities of effective and ineffective leaders.

**MANAGEMENT AND LEADERSHIP STUDIES**

**CERTIFICATE OF ACHIEVEMENT**

The Management and Leadership Studies certificate program is designed to build and/or upgrade skills in leading and managing people while enhancing individual and organizational effectiveness within the workplace. Courses emphasize leading, organizing, planning, communicating, training, and controlling.

**Program Outcomes**

1. Function effectively in a leadership or management role using the skills, principles, and tools they have acquired.
2. Apply the leadership and management principles they have learned in their personal and/or organizational lives.
3. Distinguish between the qualities of effective and ineffective leaders and managers.
4. Analyze the ethical dimensions of effective leaders and managers in everyday conduct and decision making.
5. Demonstrate effective written and/or oral skills.

MANUFACTURING TECHNOLOGY

OCC’s Manufacturing Technology program is designed to train students for entry-level positions as machine operators. Additionally, both beginning students and working machinists can build on their skill and knowledge by completing the requirements for one of the advanced certificates.

The Manufacturing Technology program is divided into four areas: Machinist, Computer Numerical Control (CNC) Operator, CNC Programmer, and Tool Maker.

All four programs follow sequential plans which spin off from the core machinist program. After completing the machinist program in two semesters, the student can take the classes required for one of the more advanced certificates.

The student who completes the machinist program also satisfies the major requirements for the Associate in Science degree.

CNC OPERATOR

CERTIFICATE OF SPECIALIZATION

This Professional Upgrade Certificate is designed for students who are already machinists. Before starting on this plan you should be able to set up and operate both conventional lathes and mills. You should be able to read blueprints and use all common machine shop measuring tools. If you have a deficiency in these areas, please refer back to the basic machining courses found in the Machinist certificate.

Program Outcome

1. Set-up and operate CNC Lathes and Milling Machines.
CNC PROGRAMMER

CERTIFICATE OF SPECIALIZATION

This Professional Upgrade Certificate is designed to upgrade the skills and knowledge of the machinist or the CNC machine operator to the level of the CNC machine programmer. If you are a machinist and have minimal experience with CNC machines or machine language programming, you will first want to complete the CNC operator upgrade certificate. If you have both machining experience and CNC experience, the software used for the Machine Technology A133 and A134 courses provide excellent experiences in computer-assisted CNC programming. All of our programming courses require the use of a personal computer. If you have no computer experience, we strongly suggest you enroll in a basic computer use course first (Computer & High Technology A100 or Computer Information Systems A100).

Program Outcome
1. Write part machine programs for controlling CNC lathes and milling machines.

MACHINIST

CERTIFICATE OF ACHIEVEMENT

The Machinist certificate program trains students for positions as entry-level operators, which often are the first manufacturing jobs for industrial employees. This certificate program provides the skill and knowledge necessary for job candidates to become successful wage earners. This program also comprises the core courses for the more advanced certificates.

Program Outcomes
1. Machine precision manufactured parts using conventional lathes and milling machines and perform necessary measurements.

ASSOCIATE IN SCIENCE DEGREE

Complete the Machinist Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.
CNC MACHINE PROGRAMMER

CERTIFICATE OF ACHIEVEMENT

The CNC Machine Programmer certificate includes courses designed to upgrade the skills and knowledge of the machinist or the CNC machine operator to the level of the CNC machine programmer. If you are a machinist and have minimal experience with CNC machines or machine language programming, you will first want to complete the CNC Machine Operator Professional Upgrade Certificate. If you have both machining experience and CNC experience, the software used for the Machine Technology A133 and A134 courses provides excellent experiences in computer-assisted CNC programming. All of our programming courses require the use of a personal-type computer. If you have no computer experience, we strongly suggest you enroll in a basic computer use type course first (Computer & High Technology A100 or Computer Information Systems A100).

Program Outcome

1. Write part machine programs for controlling CNC lathes and milling machines.

TOOLING

CERTIFICATE OF ACHIEVEMENT

Earning the Tooling certificate upgrades the skills of the machinist to the point required for profitable employment as an entry-level tool maker, a die maker, or a mold maker. As well as other subjects that must be learned by the beginning tool maker, the Tooling certificate program includes courses in metallurgy, tool and cutter grinding, and welding tooling.

Program Outcome

1. Manufacture precision tooling for Dies, Molds, and Prototype tooling.

ASSOCIATE IN SCIENCE DEGREE

Complete the Tooling Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

MARINE SCIENCE

MARINE SCIENCE

ASSOCIATE IN SCIENCE DEGREE

Upon completion of the requirements for the Associate in Science Degree in Marine Science, students will have a broad introduction to the academic study of marine science and will have a strong background for upper division work in marine science or related fields, such as earth and environmental sciences.

The Marine Science major requires completion of a minimum of 18 program major units, 11 of which are required core units. The additional 7 units must be taken from additional marine science courses and a list of restricted related electives. The department strongly recommends that all declared Marine Science majors work with counseling to select electives that will best prepare them for their intended transfer institution.

Program Outcomes

1. Describe how the ocean influences and is influenced by terrestrial, atmospheric, geological and biological processes.
2. Describe how the physical and chemical properties of water molecules affect the way that the ocean is structured and how the large scale movement of this water in waves, currents and tides influences oceanographic processes.
3. Describe the diversity of life in the ocean.
4. Identify how humans have influenced the ocean (chemically, physically and biologically) and explain the potential challenges associated with those changes.

MATH

ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Students graduating with an Associate in Science in Math for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Math AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

Program Outcomes

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

MEDICAL ASSISTING

CCMA ELIGIBLE PROGRAM

CERTIFICATE OF ACHIEVEMENT

The Medical Assisting program includes specific business and clinical courses that prepare students for employment as clinical and/or administrative assistants in medical offices, clinics, or in related medical and business fields. The coursework can be completed in two semesters, and includes on-the-job experience in a medical office or ambulatory care center.

Orange Coast College is accredited by the Accreditation Commission of Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges (WASC). Such accreditation permits graduates of this program to take the California Certified Medical Assistant examination (CCMA) immediately upon graduation. The California Certifying Board for Medical Assistants has been administering the CCMA exam since 1990. CCMA is one of three Boards that is recognized by the Medical Board of California. The medical assisting profession is highly diversified, and the work is challenging and personally rewarding. Employment opportunities are excellent in the expanding health care field.

Program Admission

Allied Health 010 course – application and orientation

Program Outcome

1. The graduates of the program will be prepared for entry-level employment as a professional and competent Medical Assistant to meet the needs of the local health care community.

Required Prerequisites:

All prerequisite courses must be completed prior to admission into the program.

- Allied Health ALH A010 .5
- Medical Terminology ALH A111 3
- Introduction to Anatomy & Physiology BIOL A221 4

MUSIC

Because Orange County is close to the heart of the television, movie, and recording industries, OCC answers a real need to train performing musicians and sound technicians, as well as composers, teachers, and music-store owners and salespeople.

Our music industry programs are designed to give the serious music student the theory, applied training, and performing experience needed for success in the field they choose. Traditional music courses are integrated with music-industry courses to provide comprehensive programs.

To increase their chances of enjoying long and satisfying careers in a highly competitive industry, we encourage our students to become proficient in a wide variety of musical styles, and to be aware of the many career alternatives open to them.
BUSINESS EMPLOYEE

CERTIFICATE OF ACHIEVEMENT

This program will prepare students for employment in music stores, record shops, and other commercial music activities. Many opportunities in the business of music are available to students with a broad general knowledge of how this segment of the music industry functions in addition to traditional musical skills.

Program Outcomes

1. Demonstrate knowledge of basic requirements of vocalists, guitarists and pianists
2. Working Knowledge of basic studio techniques and equipment applications
3. Prepare and deliver an effective sales presentation for a product or service.
4. Organize, develop and prepare a written professional sales presentation for a product or service.

MIDI APPLICATIONS

CERTIFICATE OF ACHIEVEMENT

This program is designed for the musician or computer professional who wants a concentrated course of study in the field of computer music. Courses are designed to emphasize the practical application of MIDI (Musical Instrument Digital Interface).

Program Outcomes

1. Create and perform musical compositions utilizing a standard scoring program.
2. Create musical compositions utilizing standard music production programs that demonstrate competency in the following techniques: looping, sequencing, editing, and virtual synthesis.
3. Demonstrate applications of studio recording techniques.

NEURODIAGNOSTIC TECHNOLOGY

NEURODIAGNOSTIC TECHNOLOGY

ASSOCIATE IN SCIENCE DEGREE

Neurodiagnostic Technology is an allied health specialty for diagnosing patients with neurological disorders such as epilepsy, stroke, coma, multiple sclerosis, and many others. A competent Neurodiagnostic Technologist has knowledge of the nervous system and knows how to properly operate many types of sophisticated instruments. Neurodiagnostic Technologists are employed in hospitals, clinics, physicians’ offices, university medical centers and research centers.

Orange Coast College’s Neurodiagnostic Technologist program provides theory and clinical experience in Electroencephalography (EEG) and in Evoked Potential (BAEP, PVEP, SSEP) testing as well as an introduction to other neurological testing procedures. Some of the testing procedures include Nerve Conduction Studies (NCS), Long-term Monitoring (LTM) for Epilepsy, Intraoperative Neurophysiological Monitoring (IONM), Transcranial Doppler (TCD) Studies, and more.

The Commission on Accreditation of Allied Health Education Programs (CAAHEP) has accredited this NDT Program. The program meets the eligibility requirements to take the EEG and EP exams of the American Board of Registration in Electroencephalographic and Evoked Potential Technologists (ABRET).

The program can be completed in approximately 22 months (4 semesters and 1 summer). Completion of the program earns an Associate in Science Degree in Neurodiagnostic Technology. A new group of students begins this program in the fall semester of even years.

Program Admission

1. Allied Health 010 course – application and orientation
2. The student must complete Associate in Science degree General Education requirements and the program prerequisites prior to acceptance into the program.

Program Outcome

1. The goal of the program is to meet the needs of the local health care community by preparing students for entry level employment as a professional and competent Neurodiagnostic technologist.

NUTRITION AND DIETETICS

DIETETIC TECHNICIAN

ASSOCIATE IN SCIENCE DEGREE

Students completing this program are prepared to join the dietetic team in various nutritional aspects of health care. Graduates from this program are employed by acute care, long term care, and rehabilitation hospitals, as well as by community agencies that provide education in nutrition. Completion of the following courses, along with the Associate Degree program at Orange Coast College qualifies the student to sit for the National Dietetic Technician Registration exam. Students are highly encouraged to become a member of the Academy of Nutrition and Dietetics.

Upon successful completion of these courses (with grade of “C” or better), the program requirements, and the General Education Requirements, students will receive a Letter of Verification from the program director confirming that all requirements of the program have been met. Students will then be eligible to take the National Registration Exam administered by the Commission on Dietetic Registration.
This program has been granted full accreditation by the Accreditation Council for Education in Nutrition and Dietetics, of the Academy of Nutrition and Dietetics, 120 S. Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 800-877-1600 x5400, www.eatrightacend.org/ACEND.

It is recommended that the student complete at least 15-17 units of general education requirements prior to entering the program.

Program Outcomes

1. Demonstrate competent entry-level skills of a Dietetic Technician in order to meet the employment needs of the community.
2. Communicate and work effectively with an interdisciplinary workforce and clientele of the community.
3. Participate in personal growth and lifelong learning activities

NUTRITION AND DIETETICS

ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Students graduating with an Associate in Science in Nutrition and Dietetics for Transfer Degree are well positioned to complete a Bachelor's Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Nutrition and Dietetics AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

This degree provides students with the foundational knowledge and common core of lower division courses required to transfer and pursue a baccalaureate degree in nutrition/dietetics to further prepare for careers as a registered dietitian nutritionist (RDN). There are many career opportunities for dietitians. They work in a variety of settings such as hospitals, long-term care facilities, school districts, community organizations, and corporations.

Program Outcomes

1. Evaluate scientific concepts of nutrition related to the functioning of nutrients in the basic life process.
2. Demonstrate basic food science principles and food preparation techniques.
3. Apply chemistry and biology concepts to determine the effects of nutrients on the human body.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

Course Units

NUTRITION AND FITNESS EDUCATION

CERTIFICATE OF ACHIEVEMENT

Students who graduate from this program are prepared for entry-level positions in the booming health and fitness industry, encompassing weight control clinics, sports medicine clinics, health clubs and gyms, corporate fitness and wellness centers, fitness and nutrition programs in schools, and community agencies concerned with health, fitness and nutrition education.

Students in this program will be able to advise clients on normal nutrition, weight control and improved performance by working with other nutrition professionals. The fitness industry is experiencing rapid growth and has a growing demand for trained fitness and nutrition educators. The employment outlook is excellent.

Program Outcome

1. Graduates will be competent entry-level Nutrition and Fitness professionals meeting the employment needs of the community.

PHILOSOPHY

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Philosophy for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Philosophy AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Associate in Arts in Philosophy for Transfer degree focuses on a critical analysis of philosophical history, ideas, and concepts as well the development of analytical, critical thinking, writing, and reading skills. Students choosing this major will study a range of Philosophical subjects including metaphysics, epistemology, logic, and ethics. In addition, students will learn how to identify philosophical principles and concepts, critically analyze texts, and generate proper arguments. Completion of this major will provide students with a well-rounded understanding of Philosophy and equip them with the skills of a philosopher.

Program Outcomes
1. Articulate and critically evaluate philosophical arguments and theories.
2. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

PHOTOGRAPHY

PHOTOGRAPHY — STILL

CERTIFICATE OF ACHIEVEMENT

Anyone with an interest in photography, whether beginner, advanced amateur or professional, will find a course or program within the photography program that will teach them new skills and/or prepare them for a career in photography.

The OCC Photography program is intended to prepare students for employment in a number of specialization areas within the field of professional photography. The student, after completing the first year foundation courses, may elect to take advanced courses in art, commercial, advertising illustration, portraiture, architectural, fashion, or documentary photography, color management, digital work flow, and business practices for photographers.

In addition to courses intended to train photographers, the program also includes several black and white and digital classes for professional photographers who wish to learn new skills and/or for those who are interested in careers as photographic digital technicians.

Program Outcomes
1. Demonstrate competence in the technical skills of photography.
2. Demonstrate the ability to evaluate photographic aesthetic strategies.
3. Create photographs that illustrate a critical understanding of visual language.

DIGITAL SLR PHOTOGRAPHY AND VIDEOGRAPHY TECHNICIAN

CERTIFICATE OF ACHIEVEMENT

The Digital SLR Photography and Videography Certificate program is a Career Technical Ed specialty, designed for the student who wants a concentrated course of study in the field of photography coupled with video production. It has been designed to prepare students for entry-level employment as both a photographer and videographer. Students will be educated in the use of DSLR cameras, storytelling, event documentation, lighting, sound, postproduction and business practices. The first 19 units give the student a strong foundation, while the 6 elective units allow students to “customize” the certificate to their unique needs.

Program Outcome

1. Students will be able to demonstrate competence as both a photographer and a videographer, and show a critical understanding of visual language.

POLITICAL SCIENCE

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Political Science for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Political Science AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The Political Science Department facilitates the success of general education students and political science majors by offering lower division courses in each of the sub-fields: American government, international relations, comparative politics, public law, and political theory. Political Science classes emphasize the importance of an informed citizenry, seek to instill the ability to analyze political phenomena in
a critical way, and develop the communication skills to convey those analyses to others.

**Program Outcomes**

1. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

**Total Degree Units** 60

**PHYSICS**

**ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)**

Students graduating with an Associate in Science in Physics for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Physics AS-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

It is strongly recommended that all Physics majors take a course in differential equations in addition to the degree requirements, but this cannot be included as a requirement due to unit limitations.

**Program Outcomes**

1. Identify and describe major concepts and theoretical principles as applied to physics.
2. Apply appropriate physical laws and mathematical techniques to analyze various physical situations.
3. Perform various scientific experiments and to analyze data to check agreement with theoretical predictions.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

**POLYSOMNOGRAPHIC TECHNOLOGY**

**ASSOCIATE IN SCIENCE DEGREE**

Polysomnographic (PSG) Technology is an allied health specialty for the diagnosis and treatment of disorders of sleep and daytime alertness. The range of sleep disorders is varied but includes common disorders such as narcolepsy, sleep apnea, insomnias and many others. PSG technologists operate a variety of sophisticated electronic monitoring devices which record brain activity (EEG), muscle and eye movement, respiration, blood oxygen and other physiological events. Technologists are also involved in evaluation of various treatment methods.

PSG technologists are employed in Sleep Disorders Centers which can be located in medical centers, hospitals or clinic/office settings. The PSG program offers instruction which includes lectures, laboratory experience on campus, clinical experience at accredited sleep centers and physician lectures.

As a CAAHEP-accredited PSG Program, this course of instruction meets the eligibility requirements to take the PSG exam of the Board of Registration in Polysomnographic Technologists (BRPT) and The Medical Board of California Licensure as a “Registered Polysomnographic Technologist”.

**Continued on next page**
POLYSOMNOGRAPHIC TECHNOLOGY AS DEGREE (CONTINUED)

Graduates from OCC’s Neurodiagnostic Technology or Respiratory Care programs may complete the PSG degree program with one additional year of study, as many courses from these programs are directly related to Polysomnography (see the Neurodiagnostic Technology and/or Respiratory Care sections of this catalog for more information). Students without these backgrounds can complete the AS degree in Polysomnographic Technology within two years. This program will accept new students to begin in the fall semester of odd years.

Program Admission

1. Allied Health 010 course – application and orientation
2. The student must complete Associate in Science degree General Education requirements and the program prerequisites prior to acceptance into the program.

Program Outcomes

1. The goal of the program is to meet the needs of the local health care community by preparing students for entry level employment as a professional and competent Polysomnographic Technologist.

PROFESSIONAL MARINER

CERTIFICATE OF ACHIEVEMENT

Curriculum includes career path identification and job search preparation in the maritime industry, maritime environment, seamanship, marine safety, boat handling, navigation, and boat maintenance. In addition to lecture, most courses include hands-on practical exercises.

Students must be able to swim 50 yards and tread water for 10 minutes. Previous boating experience is advantageous but not required. Facility fees will be charged.

Program Outcomes

1. Communicate verbally and in writing in a clear manner and with correct nautical protocol.
2. Identify maritime career paths along with required U.S. Coast Guard licensing requirements.
3. Demonstrate safe operation and maintenance of vessels.
4. Demonstrate prevention and safety response in First Aid, Personal Survival and Social Responsibility at sea, as well as fire prevention and response.

PSYCHOLOGY

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Psychology for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Psychology AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

The field of psychology addresses the scientific study of behavior and mental processes of humans and animals. Learning more about human behavior through scientific research methods is the focus of many psychologists, while other psychologists apply principles of psychology in areas such as psychotherapy, applied behavioral analysis, and industrial/organizational psychology. This psychology program offers a comprehensive view of psychology by offering a variety of courses that will support transfer in psychology, while providing a foundational understanding of the discipline of psychology, the methods psychologists use to learn about behavior, and applications of psychological information to the world around us.

Program Outcomes

1. Identify and describe major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
2. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

RADIOLOGIC TECHNOLOGY — DIAGNOSTIC

ASSOCIATE IN SCIENCE DEGREE

The Radiologic Technologist captures images of human anatomy utilizing digital, x-ray film, or video for diagnostic use by a radiologist or other medical specialist. Graduates of the program are eligible for examination by the American Registry of Radiologic Technologists. Successful applicants have the right to use the title “Registered Radiologic Technologist” (RT)(R)(ARRT). In order to practice in California, the R.T. must also apply for licensure by the Department of Health Services in Sacramento. Completion of the Associate in Science degree program qualifies the student for eligibility for the state C.R.T. Examination. A bachelor degree program has been articulated with CSU Northridge. The Orange Coast College Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 900, Chicago, IL 60606-2901, Tel: (312) 704-5300, Fax: (312) 704-5304 and approved by the California Department of Public Health and is affiliated with numerous hospitals in Orange County. Classrooms are well equipped and include on-campus energized x-ray laboratories.

Program application process is accomplished by taking program prerequisite, Allied Health A010. This short-term course is mandatory for all prospective program applicants. The Radiologic Technology program starts only in the fall semester of every school year.

The Radiologic Technology program is a full-time (two years including one summer session and two intersessions) program. Successful program completion requires the following: 1) completion of all required radiologic technology courses as outlined in catalog, 2) completion of approximately 1850 clinical hours, and 3) completion of all requirements for an Associate in Science degree as required by Orange Coast College. These specific program completion requirements must be satisfied within the two-year time frame of the Radiologic Technology program. Eligibility for the post program state and registry examinations is dependent upon meeting these requirements.

This program requires the student to participate in clinical experience concurrent with classroom courses. Clinical responsibilities will be arranged by the Radiologic Technology faculty and will include evening and/or weekend assignments. The student receives no salary for this clinical experience but will receive course credit toward program completion. Clinical sites will be within a 30 mile radius of the school and transportation is the responsibility of the student and may include parking fees.

Radiologic Technology is a rapidly expanding allied health profession.

Program Admission:

1. Allied Health A010 course - application and orientation.
2. The student must complete the general education requirements for an Associate in Science Degree requirements and the program prerequisites prior to acceptance to the program.

Program Outcomes

1. Students will be clinically competent and ready to begin a successful career in the Radiologic Sciences.
2. Students will be able to demonstrate professional and ethical behaviors.
3. Students will exhibit the communication skills necessary to effectively perform the duties of a Radiographer in a variety of health care environments.
4. Students will demonstrate independent critical thinking skills to solve clinical practice related problems to optimize diagnostic outcomes.

REAL ESTATE

REAL ESTATE — BROKER

CERTIFICATE OF ACHIEVEMENT

Students who complete the Real Estate-Broker Certificate of Achievement are equipped with immediately marketable skills and also the coursework necessary to sit for the California Real Estate Broker's Examination.

Program Outcomes

1. Function effectively in an entry-level real estate position using the skills, principles, and tools they have acquired.
2. Communicate effectively in personal organizational and real estate environments.
3. Apply the real estate principles they have learned to effectively facilitate real estate transactions in a variety of settings.
4. Be prepared to sit for the California Real Estate Broker's Exam.

ASSOCIATE IN SCIENCE DEGREE

Complete the Real Estate Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

REAL ESTATE — SALESPERSON

CERTIFICATE OF SPECIALIZATION

This program is designed for those individuals interested in pursuing a career in real estate. Real Estate Salesperson license requirements: Real Estate A110 and A130 are required courses, plus one other real estate elective. All three are required to take the state exam. Check with the California Department of Real Estate for any additional requirements and forms.

Program Outcomes

1. Function effectively in an entry-level real estate position using the skills, principles, and tools they have acquired.
2. Apply the real estate principles they have learned to effectively facilitate real estate transactions in a variety of settings.

RELIGIOUS STUDIES

CERTIFICATE OF SPECIALIZATION

The Religious Studies program at Orange Coast College is designed to give students a broad introduction to the academic study of religion. Students working towards an Associate in Arts degree will find Religious Studies courses can be used for some General Education requirements. Students transferring to Religious Studies programs at four-year colleges will have a strong background for upper division work in the field.

Program Outcomes

1. Students will be able to explain various dimensions of religion, describe a methodology for studying religion, and be able to describe and compare some beliefs and practices of two or more religions.

RESPIRATORY CARE

ASSOCIATE IN SCIENCE DEGREE

Respiratory Care is an allied health specialty dealing with the diagnosis, treatment, and management of patients with acute and chronic diseases affecting the pulmonary system. Respiratory Care Practitioners/Respiratory Therapists work in all areas within the hospital, especially within the critical care areas with patients who are in a life-threatening phase of their illness. Additionally, some Respiratory Care Practitioners/Respiratory Therapists work with home care agencies to treat patients in their homes. Duties include analysis of pulmonary functions and arterial blood gases, life support ventilation, CPR, assessment of pulmonary status, airway care, plus other related duties. Specialties in Respiratory Care include adult critical care, neonatal and pediatric critical care, pulmonary function testing, home care and rehabilitation, management, and education.

The Respiratory Care program at Orange Coast College is a two-year Associate in Science Degree program beginning each fall semester. Courses within the program include lectures, skills application of procedures and techniques in a laboratory setting on campus, and approximately 1000 hours of clinical practice. Clinical practice is within area hospitals performing the latest procedures in medicine. There is also a series including discussions with physicians.

The Respiratory Care program at Orange Coast College is fully accredited. Program graduates are eligible for California legal certification (licensure) (RCP), along with Certification (CRT) and Registered Respiratory Therapist (RRT) by the National Board for Respiratory Care. The employment outlook for Respiratory Care Practitioners/Respiratory Therapists is good throughout the United States.

Fully accredited Respiratory Therapist Program by the Commission on Accreditation of Allied Health Education Programs: www.coarc.com

State License: Legally Certified Respiratory Care Practitioner by Respiratory Care Board of California. National Credential: CRT, RRT, CRRT, CPFT, by the National Board for Respiratory Care (NBRC)

Program Admission:

1. Allied Health A010 course – application and orientation.
2. The student must complete the general education requirements for
Mathematics and English composition for the Associate in Science Degree and the program prerequisites prior to acceptance to the program. Program requires successful completion of a comprehensive national exam for graduation.

Program Outcome

1. To prepare students as competent Respiratory Care Practitioners.

AS Degree GE must be complete by the end of year two fall semester.

POLYSOMNOGRAPHY CROSS-TRAINING OPTION

This option is recommended for Respiratory Care graduates who would like to cross-train as Polysomnographic Technologists. Upon completing the cross-training courses, students will earn an additional AS in Polysomnography.

Program Option Prerequisite:

Respiratory Care Associate in Science Degree

SOCILOGY

ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students graduating with an Associate in Arts in Sociology for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Sociology AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

Continued on next page
SOCIOLOGY AA-T DEGREE (CONTINUED)

The Sociology program provides students with a core curriculum that instills the knowledge, skills, and practices of sociological content, theory, and methodology. In addition to helping students meet general education and core requirements for transfer to an upper-level Sociology program or to fulfill co-curricular requirements for other disciplines, the courses are also designed to help students understand the structure, processes, and functions of society, the key theoretical approaches and insights that inform sociology, and the role of social theory and research methods in understanding society. Further, the program seeks to foster critical and systemic thinking and increase self-knowledge and awareness of the diversity of the human condition.

Program Outcomes

1. Use one of the three main sociological perspectives to explain the development of a social inequality.
2. Describe the advantages and disadvantages of various sociological methods.
3. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

SPEECH-LANGUAGE PATHOLOGY ASSISTANT

ASSOCIATE IN SCIENCE DEGREE

The Speech-Language Pathology Assistant program will provide the community with professionally trained personnel to assist the speech pathologist in this specialized field and to provide services in multiple settings to a diverse population in the administration of therapeutic and screening services. Employment opportunities include jobs as speech-language pathology assistants in educational institutes, hospitals, private offices, and rehabilitation centers. State of California Department of Consumer Affairs, Speech-Language Pathology and Audiology Board approved for licensure.

Program Admission

1. Allied Health A010 course – application and orientation.
2. The student must complete the general education requirements for Mathematics and English composition for the Associate in Science Degree and the program prerequisites prior to acceptance to the program.

Program Outcome

1. Graduates of the program will be competent Speech-Language Pathology Assistants meeting the employment needs of the community and participating in professional growth activities.

**THEATRE ARTS**

**ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)**

Students graduating with an Associate in Arts in Theatre Arts for Transfer Degree are well positioned to complete a Bachelor’s Degree in a similar major within the California State University system with 60 units of upper-division coursework. Students who complete the Theatre Arts AA-T degree are guaranteed admission to the CSU system, but not to a particular campus or major. Students must maintain a minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum 2.0 is required for CSU admission, some majors may require a higher GPA. Please consult a counselor for more information.

**Program Outcomes**

1. Understand and demonstrate the fundamental performance and technical production processes for the theatre arts.
2. Demonstrate knowledge of the historical and cultural dimensions of theatre, including the works of leading playwrights, actors, directors, and designers, past and present.
3. Develop a clear understanding of the interaction between script, actor, and audience and the areas of scenery, lighting, sound and costume.
4. Students will be eligible and prepared for admission (SB 1440 and Education Code 66746) to California State University system schools.

WELDING TECHNOLOGY

Welding Technology is the application of the art and science of joining metals. Welding technologists have important roles in the fabrication and construction of nuclear and fossil fuel power plants, heavy equipment, agricultural machinery, petro-chemical plants, bridges, buildings, floating and underwater vessels, automobiles, appliances, and projects for national security. Specifically anything involving metals, from miniature electronic devices to sophisticated space projects, will require the skills of the expert welding technologist. These highly skilled members of the technological team apply practical working knowledge of welding processes, welding metallurgy and welding code standards in solving problems of welding design and production. The OCC Welding Department is licensed to qualify (certify) welders to code standards. All qualification training and tests are prescribed and follow the guide of the American National Standard Institute (ANSI) codes requirements.

WELDING TECHNOLOGY CERTIFICATE OF ACHIEVEMENT

The Certificate of Achievement program in Welding Technology is for those who desire advanced knowledge of welding for employment as welding technicians, welding inspectors, welding engineers, welding supervisors, and advanced welders. Students also completing the required general education requirements and electives may earn the Associate in Science degree. In addition, many OCC welding courses are transferable and can be used by those students who are interested in the welding engineering degree program at Ohio State University. Whatever the case, a person’s chances for the job of their choice are much higher when they have the technical background as evidenced by earning our Certificate of Achievement in welding.

Program Outcomes

1. Acquire the necessary skills training for proficiency in taking a welding qualification test for certification which may be required for employment.
2. Improve or develop additional proficiencies required for professional growth or advancement in their current employment.

ASSOCIATE IN SCIENCE DEGREE

Complete the Welding Certificate of Achievement and the Associate in Science graduation requirements as outlined in the Graduation Requirements section of the catalog.

WELD TESTING CERTIFICATES

The Weld Testing Certificates of Specialization will be awarded upon successful completion of a proficiency test for each identified level (e.g., Level I, II, etc.) within a category of welding (i.e., SMAW, FCAW, GTAW, GMAW or Pipe). The indicated Weld Testing class must be repeated for each type of certificate received. Higher levels of certification will potentially lead to better paying jobs within the industry.

BASIC WELDING (SMAW)

SKILL CERTIFICATE

This program certifies mastery of basic Shielded Metal Arc Welding (SMAW) Levels I, II, III, or IV.

Program Outcome

1. Acquire the necessary skills training for proficiency required for employment.
INTERMEDIATE WELDING (SMAW)

SKILL CERTIFICATE
This program certifies mastery of intermediate Shielded Metal Arc Welding (SMAW) Levels V or VI.

Program Outcome
1. Acquire the necessary skills training for proficiency in taking a welding qualification test for certification which may be required for employment.

ADVANCED 2 WELDING (FCAW)

CERTIFICATE OF SPECIALIZATION
This Certificate of Specialization certifies mastery of second level advanced welding in Flux-Cored Arc Welding (FCAW) Levels V, VI, VII, VIII, or IX.

Students are required to obtain a grade of “C” or better in all required courses.

Program Outcomes
1. Acquire the necessary skills training for proficiency in taking a welding qualification test for certification which may be required for employment.
2. Improve or develop additional proficiencies required for professional growth or advancement in their current employment.

Total Units 9.5-11.5

ORBITAL WELDING

CERTIFICATE OF SPECIALIZATION
Students completing the Certificate of Specialization in Orbital Welding will be prepared for entry-level employment in the piping industry.

Program Outcome
1. Perform welds on pipe or tubing using orbital welding equipment to the standards of AWS and ASME Code.
COURSE DESCRIPTIONS

Transfer Courses

All courses numbered A100 or higher are transferable to the California State Universities (CSU).

Courses that are transferable to the University of California are designated ‘UC.’ Some of these courses have limits on the amount of credit that is granted. See the UC Transferable Course List available in the Counseling Center or Transfer Center for these limitations.

Honors Courses

All courses designated with an “H”, or an “M” in the case of lab courses, are honors courses. Students should be advised that honors courses cover more rigorous content and require additional out-of-class assignments.

ACCOUNTING

Accounting A100 — Accounting for Small Business — 3 units
Accounting for small businesses in services and retail. The course includes basic accounting procedures, preparation and analysis of financial statements, banking, payroll processing, and forms. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Accounting A101 — Financial Accounting — 4 units
Fundamentals of financial accounting relating to corporations. Application of widely used accounting theory and practice for both service and merchandise enterprises. Preparation and analysis of financial statements. This course may also be offered online. Lecture. Transfer Credit: CSU. UC. C-ID ACCT 110.

Accounting A102 — Managerial Accounting — 4 units
Prerequisite: Accounting A101.
Introduction to management’s use of accounting information for planning, control, and decision-making within an organization. Covers both traditional and contemporary topics, including product costing, overhead, budgeting, cash flow, financial statement analysis, and decision-making tools. This course may also be offered online. Lecture. Transfer Credit: CSU. UC. C-ID ACCT 120.

Accounting A110 — Accounting Information Systems 1 — 3 units
Prerequisite: Accounting A100 or A101.
Introductory course to accounting information systems which applies accounting principles using general ledger and spreadsheet software. Designed to develop employable accounting analysis skills; evaluate and compare commercial software; and analyze financial reporting. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Accounting A111 — Individual Income Tax — 3 units
Introduction to federal income taxation theory and practice as applied to individuals. Covers gross income, business and personal deductions, exemptions, tax credits, property transactions, and tax computation. Includes individuals and group problem-solving and tax return preparation. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

Accounting A112 — Accounting with QuickBooks — 2 units
Prerequisite: Accounting A100 or A101.
QuickBooks is a complete computerized accounting system for small businesses. Topics include a review of basic accounting concepts, preparation of business reports and graphs, and the creation of a company using QuickBooks accounting. Covers creation and operation of a detailed accounting system for new and existing businesses. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Accounting A114 — Volunteer Income Tax Assistance (VITA) — 1 unit
Advisory: Accounting A111.
This hands on course provides training and an experiential service learning opportunity in the preparation of federal and state individual income tax returns. After attending training and review classes and passing the IRS and state individual income tax exams, student volunteers will provide free tax assistance to qualifying community residents. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Accounting A116 — Business Taxation — 3 units
Prerequisite: Accounting A100 or A101.
Advisory: Accounting A111.
Topics will include rules related to the organization, life, and dissolution of corporations, partnerships, S-corporations, and LLCs. Tax research and planning issues are considered. Lecture. This course may also be offered online. Transfer Credit: CSU.

Accounting A118 — Accounting Ethics — 4 units
Prerequisite: Accounting A100 or A101.
Designed to expose students to a comprehensive coverage of ethical and professional issues encountered by accounting professionals. Prepares students to meet part of the ethics requirement for becoming a Certified Public Accountant in the State of California. Primarily focuses on ethics pertaining to the Accounting profession. Study of the ethical framework includes the American Institute of Certified Public Accountants (AICPA) Code of Professional Ethics, Audit Responsibilities and Accounting Fraud, Legal and Regulatory Obligations, Earnings Quality, Corporate Governance, and International Financial Reporting. Lecture. Transfer Credit: CSU.

Accounting A119 — Payroll — 3 units
Prerequisite: Accounting A100 or A101.
Creation of a payroll cycle, recording of payroll information, payroll transmittal and verification with Output reports that reflect both Federal and State of California’s laws and policies. Prepares students for FPC Designation Exam. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Accounting A199 — Current Topics in Accounting — 1-4 units
Course covers topics currently receiving attention in the Accounting industry. Units vary according to the topic selected, semester offered, and the number of meetings scheduled. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU.

Accounting A210 — Cost Accounting — 3 units
Prerequisite: Accounting A102.
Covers cost accounting concepts and practices. Includes the determination, analysis, and control of product costs (materials, labor, and overhead) through traditional and advanced costing systems. Other managerial tools such as budgeting and break-even analysis and cost accounting on government contracts are also considered. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Accounting A212 — Intermediate Accounting 1 — 3 units
Prerequisite: Accounting A101
Financial accounting theory and practice. Reviews and builds upon concepts learned in earlier financial accounting courses. Emphasizes preparation and analysis of more complex accounting issues for financial statements of corporations, including the underlying principles involved. Lecture. Transfer Credit: CSU.

Accounting A213 — Intermediate Accounting 2 — 3 units
Prerequisite: Accounting A101
Financial accounting theory and practice. Reviews and builds upon concepts learned in earlier financial accounting courses. Emphasizes preparation and analysis of more complex accounting issues for financial statements of corporations, including the underlying principles involved. Lecture. Transfer Credit: CSU.

Accounting A215 — Governmental Accounting — 3 units
Prerequisite: Accounting A100 or Accounting A101.
This course covers fund accounting, budget and control issues, revenue and expense recognition, and issues of reporting for governmental agencies. Many of the topics covered may be used to prepare for portions of the CPA exam. This course may also be offered online. Lecture. Transfer Credit: CSU.

Accounting A216 — Not-for-Profit Accounting — 3 units
Prerequisite: Accounting A100, A101
A course utilizing the theory and fundamentals of accounting for and the administration of not-for-profit organizations and governmental entities. Application of accounting principles for both not-for-profit organizations and government entities. Preparation and analysis of various financial statements and introduction to the required not-for-profit federal, state and local tax filings. This course may also be offered online. Lecture. Transfer Credit: CSU.

Transfer Credit: CSU.
Airline and Travel Careers A117 — Aviation Management — 3 units
This course is designed for students interested in management and operations in travel. Preparation for demands of schedules, Official Airline Guide, federal agencies, airport operations, airline deregulation, mergers and acquisitions. Study of management practices in the travel industry with innovative insight into the processes behind running successful airline and airport operations. Examine the concepts of Crew Resource Management (CRM), Human Factors and decision-making. The role of crew supervision, training, leadership styles and management oversight will be studied in both single and multi crew aircraft situations. This course may also be offered online. Lecture. Transfer Credit: CSU.

Airline and Travel Careers A119 — Travel Safety Inflight and Ground — 1.5 units
Travel safety and security to include ground and in-flight equipment, passenger psychology, airport security, federal regulations, safety precautions while traveling, anti-terrorism and hijacking discussion. This course may also be offered online. Lecture. Transfer Credit: CSU.

Airline and Travel Careers A120 — Airline Service Excellence — 1.5 units
Examines the priority of customer service and satisfaction in the airline industry. Students will investigate how airlines differentiate service to be competitive and will use their findings to develop a personal approach to customer care. Lecture. Transfer Credit: CSU.

Airline and Travel Careers A136 — Corporate/Contract Flight Attendant — 1.5 units
This course provides hands-on training needed to qualify as a Corporate (Third Crewmember) Flight Attendant. Instruction will follow strict FAA guidelines required for Part 91 and Part 135 Code of Federal Regulations; indoctrination training, general emergency training, aircraft ground and differences training, including competency checks and testing. Lecture. Transfer Credit: CSU.

Airline and Travel Careers A137 — Operations, Terminology, and Safety — 3 units
Preparation for stringent demands of airline travel career training and FAA exams to include industry terminology, airline codes, schedules, Official Airline Guide, federal agencies, airport operations, history, airline deregulation, mergers and acquisitions and their effects. This course examines travel safety and security. Topics include safety regulations of the Federal Aviation Administration, the Department of Transportation and airlines themselves. This course may also be offered online. Lecture. Transfer Credit: CSU.

Airline and Travel Careers A139 — Flight Attendant Qualifications and Opportunities — 3 units
Prerequisite: Airline and Travel Careers A137
This course provides hands-on training to qualify as a Flight Attendant for both Commercial and Corporate structure. Instruction will follow strict FAA guidelines; indoctrination training, general emergency training, aircraft ground and differences training, including competency checks and testing. Identify flight attendant and inflight service team qualifications and opportunities for employment including base stations, responsibilities, salary schedule, and benefits. Examine the priority of customer service and satisfaction in the airline industry. Students will study standards to current performance, public opinion, and service principles. They will investigate how airlines differentiate service to be competitive and will use their findings to develop a personal approach to customer care. This course may also be offered online. Lecture. Transfer Credit: CSU.

Airline Health A101 — Health Occupations — 5 units
Introduction to the allied health careers and programs at Orange Coast College including presentations of each allied health program and School of Allied Health Professions application. Required for admission to most allied health programs. This course may also be offered online. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Airline Health A111 — Medical Terminology — 3 units
Advisory: Biology A221.
Development of a medical vocabulary emphasizing building of terms utilizing prefixes, combining forms and suffixes. Includes symptomatic, therapeutic, diagnostic, operative and related diagnostic testing terms. Students learn the meaning & spelling of medical terms with application of terms to comprehend medical record documents. This course may also be offered online. Lecture. Transfer Credit: CSU.

Airline Health A112 — Introduction to Autism Spectrum Disorders and Applied Behavioral Analysis — 2 units
This course will provide an overview of the foundations of Autism Spectrum Disorders in children. Applied Behavioral Analysis treatment, and evidence-based intervention for treatment. This will include collecting Antecedent-Behavior-Consequence ABC data, and learning operations to increase/strengthen behavior and weaken/decrease behavior. Lecture. Transfer Credit: CSU.

Airline Health A115 — Patient Care — 2.5 units
Prerequisite: Allied Health A111 or concurrent enrollment; non-native speakers must complete English as a Second Language A151 (exemption based on assessment results).
This course must be taken within six months prior to first clinical entry. Content includes orientation to clinical setting including communication, legal & ethical issues, healthcare finance, patient care techniques, CPR, (AED level), blood borne pathogen training, MSDS, HPAA training, body mechanics for patient ambulation, emergency interventions, medical asepsis, aspects of death & dying and employment as a healthcare professional. Lecture, Lab. Transfer Credit: CSU.

Airline Health A120 — Human Diseases — 2 units
Advisory: Allied Health A111 and Biology A221.
The study of disease processes and diseases affecting each body system. Includes etiology, pathophysiologic mechanisms, methods of diagnosis, manifestations, and treatment of each disease. Recent completion of human anatomy and physiology is recommended before attempting this class. Lecture. Transfer Credit: CSU.

Allied Health A130 — Applied Pharmacology — 3 units
Advisory: Biology A221.
Basic principles of pharmacology; drug classifications; methods and routes of administration; legal aspects of drug administration; pharmacokinetics; action, indication, contraindication, hazards, metabolism, and excretion. Use of drugs in the treatment of various disease processes and body systems. Lecture. Transfer Credit: CSU.

Allied Health A199 — Current Issues in Allied Health — .5 units
This course deals with current issues in the allied health profession. Topics vary. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

ANTHROPOLOGY

Anthropology A100 — Cultural Anthropology — 3 units
The analysis of social structure, family, kinship, belief, and rite. The determinants of culture and personality. The social analysis of three societies. The methods and perspectives of anthropology. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ANTH 120.

Anthropology A100H — Honors Cultural Anthropology — 3 units
Same as Anthropology A100.

Anthropology A102 — Native American — 3 units
An introduction to the development of Native American cultures prior to the introduction of European Civilization in the Western Hemisphere, the cultural conflicts generated by the European invasion and the position of Native American life in contemporary America. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Anthropology A105 — Anthropology of Nonverbal Behavior — 3 units
An analysis and individual awareness of nonverbal behavior in human interaction with emphasis on Western cultural patterns. Attention is given to the various levels of segments of nonverbal human interaction, including gesture, spatiality, body postures, and expression laughter. Foundations and developmental patterns of nonverbal dimensions are explored. Same as Sociology A105. Students completing Anthropology A105 may not receive credit for Sociology A105. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.
Anthropology A110 — Comparative Cultures — 3 units
An examination of the cultural similarities and differences that exist in the major areas of the world. Non-western societies will be compared and contrasted with one another and with western societies. Employees in multinational companies, general education students, and anthropology majors will benefit from this course. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Anthropology A185 — Physical Anthropology — 3 units
As an introductory survey course, the class will cover three major areas in particular: 1) evolutionary theory, 2) the theories of human origin and evolution based upon comparative anatomy, biochemical studies and the fossil record, and 3) the origin and evolution of human culture and social organizations as revealed by the archaeological record and biochemical variations in modern humans, individual adaptations and growth and development studies. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ANTH 110.

Anthropology A185L — Physical Anthropology Laboratory — 1 unit
Prerequisite: Anthropology A185 or concurrent enrollment.
This course covers laboratory exercises on human genetics, comparative primate anatomy, morphological characteristics of hominin fossils, and techniques of forensic anthropology. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC. C-ID ANTH 115L.

Anthropology A187 — Introduction to Primate Studies — 3 units
This is an introductory course that will explore the evolution of primate behavior and morphology, with special attention to nonhuman primates. The course will enhance the understanding of human evolution by emphasizing nonhuman primate research. Topics include primate taxonomic classifications, social behaviors, foraging behavior, mating behavior, cognition, conservation, fossil record, and ecological conditions. Students will be introduced to the scientific method and behavioral observation methods. This course may include a zoo trip. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Anthropology A280 — Introduction to Archaeology — 3 units
Advisory: English A100. A study of the basic principles of archaeological research and cultural evolution based on technological change. Artifact types, site composition, and dating techniques are discussed as they relate to the various cultures both prehistoric and historic in the Old and New World. The cultural evolution of humans is then traced using artifact assemblages as the key to understanding cultural growth. Lecture. Transfer Credit: CSU, UC.

ARCHITECTURAL TECHNOLOGY

Architectural Technology A101 — Introduction to Environmental Sustainability — 1 unit
This course is an overview to environmental sustainability and will provide a fundamental understanding of the cultural, man-made and natural factors involved in creating ecological balance and ethical stewardship of natural resources. Focus will be on the building and design related aspects of sustainability. This course may also be offered online. Lecture. Transfer Credit: CSU.

Architectural Technology A102 — Introduction to Environmental Studies — 3 units
This course is designed to present an overview of the environmental studies field to students from multiple disciplines. A basic understanding of issues related to the environmental components of air, soil and water; historic development of ecological issues; economic, political, and cultural concepts; regulations, and technology will be presented. An overview of career opportunities and paths within the environmental industry will also be covered. Lecture. Transfer Credit: CSU.

Architectural Technology A105 — Architectural Drawing and Design Visualization 1 — 2 units
This introductory course in architectural visualization techniques will focus on how to communicate a three-dimensional design using a two-dimensional medium. Subjects and techniques presented will include orthographic projection, parallaxes, plan views, elevations, sections, basic perspective drawing, rendering materials and tonal values, and an introduction to SketchUp and hand modeling. Lecture, non-laboratory. Transfer Credit: CSU.

Architectural Technology A110 — Introduction to Architecture — 2 units
This introductory course explores the professional and academic aspects of architecture and related professions. Lectures will include licensing, educational choices, history, practice, design, theory, structures, and personal goal setting; guest speakers and an office visit will give students a firsthand chance to observe multiple sides of the profession. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Architectural Technology A110H — Introduction to Architecture Honors — 2 units
This introductory course explores the professional and academic aspects of architecture and related professions. Lectures will include licensing, educational choices, history, practice, design, theory, structures, and personal goal setting; guest speakers and an office visit will give students a firsthand chance to observe multiple sides of the profession. Lecture. Transfer Credit: CSU, UC.

Architectural Technology A115 — Architectural Design and Theory 1 — 4 units
Advisory: Architectural Technology A105. This beginning architectural design course includes the perceptual and physical study of three dimensional design theories, principles and compositional techniques used in the creation and manipulation of architectural form, space, and light. Focus will be on fundamental design skills and will progress to a complete architectural design project using models, drawings, and graphics to study and communicate the design. Lecture, Lab. Transfer Credit: CSU, UC.

Architectural Technology A141 — Introduction to Resource Management and Zero Waste — 3 units
This course introduces the principles of recycling, resource management, and zero waste. An overview of the cultural aspects of waste and recycling, legislation and regulations related to resource management and recycling, and sources of waste resources will be presented and explained. The course covers an overview of careers and occupations in environmental resource recovery management and includes observational visits to local industries. Lecture. Transfer Credit: CSU.

Architectural Technology A142 — Culture and Zero Waste — 3 units
Providing an overview of “throw away” culture, this course explores the economic motivations behind consumerism and how to develop ways to reach Zero Waste environmental goals. Issues covered include environmental waste assessment, environmental advocacy, consumer laws and mindsets, governmental policies, outreach, and youth campaigns. Students will examine a wide range of current environmental practices and will develop the skills and knowledge to pursue careers related to recycling and resource management. Lecture. Transfer Credit: CSU.

Architectural Technology A143 — Resource Management and Zero Waste for Communities — 3 units
This course will identify how resource management and zero waste policies and programs are developed within a community, what type of planning and facilities are needed, and how to finance the systems. Students will also learn business recycling tools, best practices for proposals and contracts, enforcement options, design for resource recovery parks, performance reporting and financial records; Extended Producer Responsibility and Local Producer Responsibility policies, and development of local markets and uses. Lecture. Transfer Credit: CSU.
Architectural Technology A144 — Resource Management and Zero Waste for Business — 3 units
This course will include a global overview of environmental resource management standards and provide hands-on knowledge and application tools for students to assess and propose resource management strategies for regional businesses, industries, and institutions. Studies and activities will include zero waste program design, implementation strategies, waste reduction and resource management practices, market and economic drivers and incentives, and regulatory policies. Case studies and projects will focus on local practices and community networking. Lecture. Transfer Credit: CSU.

Architectural Technology A150 — CAD 2-D for Architecture — 2 units
This course introduces Computer Aided Drafting (CAD) as used to produce 2-dimensional architectural drawings. PCs with Autodesk Architecture and/or AutoCAD will be used and instruction will focus on computer drawing a simple project to include the following drawing types: floor plan, site plan, elevation, and enlarged section details. Students should have basic knowledge of computer operation and file management. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A155 — BIM 1 for Architecture — 2 units
This course introduces Building Information Modeling (BIM) as used to produce a 3-dimensional architectural model with detailed construction information. PCs with Autodesk Revit, ArchiCAD, or Microstation will be used and instruction will focus on computer modeling a simple project and extracting construction documentation. Students should have basic knowledge of computer operation and file management. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A156 — BIM 2 for Architecture — 2 units
Advisory: Architecture Technology A155 (BIM 1) or comparable skills with BIM as determined by instructor.
This course utilizes Building Information Modeling (BIM) as used to produce a 3-dimensional architectural model with detailed construction information. PCs with Autodesk Revit, ArchiCAD or Microstation will be used and instruction will focus on modeling an intermediate/advanced project and utilizing advanced features of BIM. Students should have basic knowledge of BIM as well as construction. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A157 — BIM Structural/NEP — 2 units
Advisory: Architecture Technology A156 This course introduces Building Information Modeling (BIM) as used to add Structural, Mechanical, Electrical, and Plumbing information to a 3-dimensional architectural model. PCs with Autodesk Revit will be used and instruction will focus on coordinating one or more discipline with an architectural model. Students should have basic knowledge of BIM as well as construction. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A158 — BIM Project Management — 2 units
Advisory: Architecture Technology A157. This course introduces Building Information Modeling (BIM) in conjunction with Project Management software in order to coordinate and manage construction information for a 3-dimensional building model. PCs with Autodesk Revit and Navisworks will be used and instruction will focus on coordination, scheduling, and cost estimating. Students should have basic knowledge of BIM as well as construction. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A160 — 3-D Modeling: SketchUp 1 — 2 units
This course introduces SketchUp 3-D Modeling as used for architectural design visualization. Computers with SketchUp Pro will be used and instruction will focus on computer modeling a rectilinear design and exporting images and animation for design presentation. Students should have basic knowledge of computers and file management. This course may also be offered online. Lecture, non-lecture. Transfer Credit: CSU.

Architectural Technology A162 — 3-D Modeling: Rhino 1 — 2 units
This course introduces 3-D Modeling for architectural design visualization using Rhino or 3-D Studio Max software. Hands-on instruction will focus on digitally modeling a design with rectilinear and non-rectilinear geometry and exporting images for design presentation. Students should have basic knowledge of computers and file management. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A163 — 3-D Modeling: 3-D Modeling: Rhino 2 — 2 units
Advisory: Architectural Technology A162
This course introduces fundamental skills of coding and 3-D computational design using Rhino software with additional plug-ins. Hands-on instruction will focus on parametrically modeling and testing design variations with rectilinear and non-rectilinear geometry, including preparing files for fabrication and presentation. Students should have basic knowledge of 3-D modeling. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A165 — Presentation Graphics — 2 units
This course is for architecture/design students who want to improve their graphic communication skills. Emphasis is on improving personal presentations and portfolios using Adobe Creative Suite: Photoshop, Illustrator, In-design, and/or Acrobat. Students should have knowledge of computer operation and file management and projects to bring in. Lecture, non-lecture. Transfer Credit: CSU.

Architectural Technology A167 — Presentation Video — 1 unit
This course is for architecture/design students and professionals who want to use digital video to present creative projects. Emphasis will be on narrative story-telling and communicating a message using Windows Moviemaker or Apple Movie. Students should have knowledge of computer operation and file management and provide a USB drive. Lecture, non-lecture. Transfer Credit: CSU.

Architectural Technology A170 — Introduction to Design Fabrication — 1 unit
This is a limited introduction to computer-assisted fabrication for architecture and custom construction and will cover shop safety and simple operations. Students will have the opportunity to use Computer Numeric Controls (CNC) and laser tools. Lecture, non-lecture. Transfer Credit: CSU.

Architectural Technology A171 — Design Fabrication 1 — 2 units
This course introduces digital fabrication techniques for architecture and design, including shop safety. Emphasis is given to design iteration and fabricating basic projects using computer-assisted equipment (laser cutters, CNC routers, robotics, 3-D printers and scanners, etc.). Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A172 — Design Fabrication 2 — 2 units
Advisory: Architectural Technology A171.
This intermediate/advanced course is on digital fabrication techniques for architecture and construction and will include shop safety. Focus is on independent project construction using computer-driven equipment (CNC, laser cutters, 3-D printers, etc.) Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A180 — Architectural Construction Documents — 4 units
Advisory: Architectural Technology A105, and A155.
A basic course focusing on representation skills as applied to digital and physical construction models and documents for a wood frame structure. Further emphasis is on architectural symbols and conventions, specifications, building codes, products, materials, equipment, and the development of a student-designed structure. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A185 — Environmental Design Systems — 4 units
Advisory: Architectural Technology A108.
This intermediate design course focuses on the environmental, cultural, and physical forces that affect architecture. Students will research and utilize design approaches and building components/systems that respond to human needs and the natural and built environments. Study topics will include site design and cultural context, environmental/climate responsive approaches to design, maintaining structural design integrity, incorporating life safety and access, and ecologically minded approaches to design. Lecture, non-lecture. Transfer Credit: CSU.

Architectural Technology A190 — Environmental Studies Practicum — 1.5-2.5 units
Advisory: Architecture Technology A141, A142, A143, A144.
This course provides environmental studies students with a practicum cooperatively planned by a public or non-profit agency and environmental studies faculty. The focus is on providing students with an opportunity to apply environmental studies theory and zero waste applications in a realistic work setting and includes preparation and assistance in locating internship opportunities that may take place locally, nationally, or internationally. Lecture, 60-120 hours field study. Transfer Credit: CSU.

Architectural Technology A196 — Green Building Codes — 1.5 units
A complete analysis of the California Green Building Code, Special local Green Building ordinances are also covered along with a comparison of the International Green Building Code. Same as Construction Technology A196; students completing Architecture A196 may not receive credit for Construction Technology A196. Lecture. Transfer Credit: CSU.

Architectural Technology A197 — California Energy Code — 1.5 units
A complete analysis of the California Energy Code. Special local Energy Code ordinances are also covered along with a comparison of the International Energy Code. Explanation of the State’s energy and compliance forms. Same as Construction Technology A197; students completing Architecture A197 may not receive credit for Construction Technology A197. Lecture. Transfer Credit: CSU.
Architectural Technology A199 — Current Topics in Architecture — 5-4 units
Current topics in Architecture may include cultural topics as well as architectural technology topics and could rotate through a variety of topics, such as field studies, design/build projects, design drawing studies, and construction drawing studies. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A201 — Design/Build 1 for Architecture — 2 units
This learn-by-doing course involves the design and construction of a transportable structure. Students will work in teams with an instructor. Projects will vary and are likely to involve off-campus assembly. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A201H — Design/Build 1 for Architecture Honors — 2 units
This learn-by-doing course involves the design and construction of a transportable structure. Students will work in teams with an instructor. Projects will vary and are likely to involve off-campus assembly. Lab. Transfer Credit: CSU.

Architectural Technology A202 — Design/Build 2 for Architecture — 4 units
Advisory: Architectural Technology A180.
This learn-by-doing course involves the design and construction of a structure or interior project. Students will work in teams with an instructor. Projects will vary and are likely to involve off-campus assembly. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A202H — Design/Build 2 for Architecture Honors — 4 units
Advisory: Architectural Technology A180.
This learn-by-doing course involves the design and construction of a structure or interior project. Students will work in teams with an instructor. Projects will vary and are likely to involve off-campus assembly. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A205 — Architectural Drawing and Design Visualization 2 — 3 units
Advisory: Architectural Technology A105.
This advanced course builds on a basic understanding of design communication and adds complexity and design intention to two- and three-dimensional visual design communication skills. A continuation of Architecture A105, this advanced studio builds on a basic understanding of design communication, strengthening complexity and design intention in two and three-dimensional visualization techniques; including freehand sketching, graphic conventions, modeling, perspective and orthographic drawings, shade/shadow, color rendering, graphic presentations, and portfolio development. Lecture, Lab. Transfer Credit: CSU, UC.

Architectural Technology A210 — Environmental Design Field Studies — 2 units
The course is an active, on-site study of Architecture, Design, and Planning with an emphasis on sustainable environmental practices. Areas to be studied will be optimized based on the offered location site and will include a study of architectural design, planning and development patterns, analysis of resources, sustainable building techniques, sustainable lifestyle practices and culture, and may include design and/or construction of an improvement project. Students will participate in project-based learning opportunities and community service (where possible) and a multi-night field trip or travel abroad will be required. Lecture, Field study. Transfer Credit: CSU.

Architectural Technology A215 — Architectural Drawing and Design Theory 2 — 4 units
Advisory: Architectural Technology A115.
This intermediate architectural design course teaches theories, principles, methods, and means to the creation of architectural space by manipulation of form, space, and light. Focus is on the critical consideration and communication of spatial sequence and organization, composition, hierarchy, structure, and meaning as an expression of human, aesthetic, and environmental determinants. Lecture, Lab. Transfer Credit: CSU, UC.

Architectural Technology A220 — Building Materials and Systems — 4 units
Advisory: Architectural Technology A180.
This advanced course focuses on the materials, building systems, design, and construction methods used for non-residential construction. The course will include field studies and hands-on projects that explore the principles and properties of various building materials and systems and sustainable considerations. Lecture, Lab. Transfer Credit: CSU.

Architectural Technology A225 — Land and Building Development — 3 units
A general survey of land development principles and procedures used prior to the actual construction of structures. Site analysis and planning, mapping, regulatory controls, obtaining entitlements, grading, road and street design, utility systems, principles of real property value, and project financing will be covered. Same as Construction Technology A225. Students completing Architectural Technology A225 may not receive credit for Construction Technology A225. Lecture. Transfer Credit: CSU.

Architectural Technology A230 — Architectural Design and Theory 3 — 5 units
Prerequisite: Architectural Technology A215.
Advisory: Architectural Technology A205.
This advanced architectural design course is a continuation of Arch A215, dealing with theories, principles, methods and means used in the creation of architectural space by manipulation of form, space & light in an urban context. Focus is on the conceptual design process of establishing and challenging design criteria, communication and editing of design narrative, and portfolio development. Lecture, Lab. Transfer Credit: CSU, UC.

Architectural Technology A230H — Architectural Design and Theory 3 Honors — 5 units
Prerequisite: Architectural Technology A215.
Advisory: Architectural Technology A205.
This advanced architectural design course is a continuation of Arch A215, dealing with theories, principles, methods and means used in the creation of architectural space by manipulation of form, space & light in an urban context. Focus is on the conceptual design process of establishing and challenging design criteria, communication and editing of design narrative, and portfolio development. Lecture, Lab. Transfer Credit: CSU, UC.

Architectural Technology A250 — Building Codes and Standards — 2 units
Introduction to the codes and standards prevalent in the Southern California area. Concentration is on Title 24 and Americans With Disabilities Act regulations, and the Uniform Building Code and local enforcement. Code will be applied to building design. Lecture. Transfer Credit: CSU.

Architectural Technology A290 — History of Architecture 1 — 3 units
The class is an introductory study of the development of architecture and urban environments from primitive shelters through the Early Baroque. The lectures and presentations focus on environments, architects, people of influence, and architectural movements of significance. Emphasis is placed on socio-political, economic, technological, and cultural influences in the evolution of architectural history. Lecture. Transfer Credit: CSU, UC.

Architectural Technology A290H — History of Architecture 1 Honors — 3 units
The class is an introductory study of the development of architecture and urban environments from primitive shelters through the Early Baroque. The lectures and presentations focus on environments, architects, people of influence, and architectural movements of significance. Emphasis is placed on socio-political, economic, technological, and cultural influences in the evolution of architectural history. Lecture. Transfer Credit: CSU, UC.

Architectural Technology A296 — History of Architecture 2 — 3 units
Introductory study of the history of world architecture and urbanism from the late 17th century to the present. Lectures and presentations focus on the architecture of various regions and historical periods, highlighting architects, buildings and environments of significance. Special emphasis is placed on the architecture of the 20th century and socio-political, economical, technological, cultural and global influences in the evolution of architecture. Lecture. Transfer Credit: CSU, UC.

Architectural Technology A296H — History of Architecture 2 Honors — 3 units
Introductory study of the history of world architecture and urbanism from the late 17th century to the present. Lectures and presentations focus on the architecture of various regions and historical periods, highlighting architects, buildings and environments of significance. Special emphasis is placed on the architecture of the 20th century and socio-political, economical, technological, cultural and global influences in the evolution of architecture. Lecture. Transfer Credit: CSU, UC.

ART

Art A100 — Survey of Western Art from Prehistory Through Gothic — 3 units
This course provides an overview of western art and architecture from prehistory through the medieval period. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A100H — Survey of Western Art from Prehistory Through Gothic Honors — 3 units
This course provides an overview of western art and architecture from prehistory through the medieval period. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A101 — Survey of Western Art from Renaissance to Modern — 3 units
This course provides an overview of art and architecture from the Renaissance to the contemporary period. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
Art A101H — Survey of Western Art from Renaissance to Modern Times — 3 units
This course provides an overview of art and architecture from the Renaissance to the Contemporary period. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A102 — Survey of Modern and Contemporary Art — 3 units
This course provides an overview of modern and contemporary art and architecture from the late 19th century to the present. Lecture. Transfer Credit: CSU, UC.

Art A103 — Survey of Asian Art — 3 units
This course provides a select overview of art and architecture from India, Southeast Asia, China, Korea, and Japan from pre-history to modern times. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Art A107 — Introduction to Art — 3 units
This course provides a general introduction to art that offers a look at works of art through the study of theory, terminology, themes, design principles, media, techniques, with an introduction to the visual arts across time and diverse cultures. Topics will include drawing, painting, sculpture, film arts, printmaking, and architecture. Gallery/museum visits are required. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A108 — Women in Art — 3 units
Women artists and the image of women in art from the Paleolithic period to the present day. Art criticism, the feminist art movement, and the status of contemporary women artists. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A109 — Ancient Greek Art and Architecture — 3 units
A study of Ancient Greek art and architecture beginning with prehistory and ending with the Hellenistic period. This course will relate artistic styles and major developments with the social and political events of the period. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Art A110 — Color and Design: Two-Dimensional — 3 units
Introduction to the concepts, applications, and historical references related to two-dimensional art and composition, including the study of the basic principles and elements of line, shape, texture, value, color and spatial illusion. Development of a visual vocabulary for creative expression through lecture presentations, studio projects, problem solving, and written assignments. Required for art majors and certificate programs. Lecture, Lab. Transfer Credit: CSU, UC.

Art A111 — Color and Design: Three-Dimensional — 3 units
Introduction to the concepts, applications, and historical references related to three-dimensional design and spatial composition, including the study of the elements and organizing principles of design as they apply to three-dimensional space and form. Development of a visual vocabulary for creative expression through lecture presentations and use of appropriate materials for non-representational three-dimensional studio projects. Required for art majors and recommended for certificate programs. Lecture, Lab. Transfer Credit: CSU, UC. C-ID ARTS 100.

Art A114 — Art of the Ancient Americas — 3 units
Advisory: English A100.
Survey of visual culture within the historical context of select ancient civilizations in Mexico, Central America, and South America up to European contact. Lecture. Transfer Credit: CSU, UC.

Art A115 — Art of Africa, Oceania, and Indigenous North America — 3 units
Advisory: English A100.
Survey of visual culture within select regions in Africa, Oceania, and Indigenous North America. Lecture. Transfer Credit: CSU, UC.

Art A116 — Furniture Making and Design — 4 units
The basic rules of furniture design and production with emphasis in wood selection, hand tool use, and a review of woodworking machinery. Advanced students will design and build more complex furniture pieces using more advanced techniques. Same as Construction A116. Students completing Art A116 may not receive credit for Construction A116. Lecture. Transfer Credit: CSU, UC.

Art A118 — Product Illustration 1 — 2 units
For the beginner through semi-professional levels of drawing skill. Principles of line, shade, shadow, highlight, reflection, color, materials and graphic presentation. Sketching and rendering using various media and papers. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Art A119 — Product Illustration 2 — 2 units
Prerequisite: Art A118.
Continuation of Product Illustration 1 to include more detailed renderings. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Art A120 — Beginning Drawing — 3 units
Introduction to principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. Focus on perceptually based drawing, observational skills, technical abilities, and creative responses to materials and subject matter. Lecture, Lab. Transfer Credit: CSU, UC.

Art A120H — Beginning Drawing Honors — 3 units
Introduction to principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. Focus on perceptually based drawing, observational skills, technical abilities, and creative responses to materials and subject matter. Lecture, Lab. C-ID ARTS 100. Transfer Credit: CSU, UC. C-ID ARTS 110.

Art A121 — Life Drawing 1 — 3 units
Prerequisite: Art A120 or A120H.
Figure drawing from the nude model. The study of volumes, foreshortening, structure, anatomy, and composition of the human form. Required of art majors. Lecture, Lab. Transfer Credit: CSU, UC. C-ID ARTS 200.

Art A122 — Human Anatomy for Artists — 3 units
Advisory: Art A120.
A drawing and study course using the human figure as a model. Emphasis will be on human anatomy and how it relates to drawing the figure. This course is recommended for art majors. Lecture, Lab. Transfer Credit: CSU, UC.

Art A124 — Advanced Drawing — 3 units
Prerequisite: Art A120.
Designed as a continuation of Art A120, the emphasis will be to advance the artistic concepts, style, and creative expression for intermediate and advanced students using a variety of drawing mediums, techniques and methodologies. Lecture, Lab. Transfer Credit: CSU, UC. C-ID ARTS 205.

Art A125 — Perspective Drawing — 3 units
Drawing of three-dimensional objects using perspective as a tool. Emphasis on fundamentals and different procedures used. Emphasizes methods which are directly related to the artist’s needs including short-cuts. Recommended for art majors and certificate programs. Lecture, Lab. Transfer Credit: CSU, UC.

Art A130 — Painting 1 — 3 units
Prerequisite: Art A110 and A120.
Introduction to the basic craft of painting focusing on the examination of selected materials, perceptual skills, and techniques used to explore elemental and theoretical design practices while rendering landscape, still life, and figurative compositions. Lecture, Lab. Transfer Credit: CSU, UC. C-ID ARTS 210.

Art A131 — Painting 2 — 3 units
Prerequisite: Art A130.
A continuation of Art A130 with emphasis on personal expression. Alternate painting mediums introduced. Lecture, Lab. Transfer Credit: CSU, UC.

Art A132 — Painting 3 — 3 units
Advisory: Art A131.
A continuation of Art 131 with emphasis on personal expression in one painting style and methodology. Conceptual approaches and theme development will be taught. Transfer Credit: CSU. Lecture, Lab. Transfer Credit: CSU, UC.

Art A133 — Painting 4 — 3 units
Advisory: Art A132.
A continuation of student painting and conceptual skills with emphasis on materials of painting production and their application to the practice of painting. Advisory: Art A132. Lecture. Lab. Transfer Credit: CSU, UC.

Art A141 — Sculpture 1 — 3 units
Introduction to three-dimensional sculptural principles, techniques, and concepts utilized in a wide range of materials and practices. Various sculptural methods are practiced with attention to creative self-expression and historical context. Exploration of sculptural material and concepts, technical experiences may include modeling, casting and fabricating with sculptural media. Lecture, Lab. Transfer Credit: CSU, UC.

Art A142 — Life Sculpture 1 — 3 units
Prerequisite: Art A110.
Exploration of figurative sculpture from the human model. Emphasizing anatomical structure and expression. Experiences will include armature building, clay modeling, kiln firing, glazing and staining of the finished sculpture. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Art A143 — Story Illustration Techniques — 3 units
Prerequisite: Art A121.
Advisory: Art A120.
Principles of illustration applied to various drawing and painting media. Imaginative application of theories and techniques that produce original illustrations with clear communication of concept. Lecture, Lab. Transfer Credit: CSU.
Art A144 — Illustration 2 — Sequential Illustration — 3 units
Prerequisite: Art A143 or concurrent enrollment.
Sequential Illustration with an emphasis on advanced visual storytelling techniques and the development of a personal style. Application of principles of concept, character and background design. Lecture, Lab. Transfer Credit: CSU.

Art A145 — Exhibition Design 1 — 3 units
Includes the solving of design problems related to gallery and museum exhibits. Emphasis on spatial planning, crowd flow and thematic presentation based on curatorial criteria. Development of skills related to art handling, lighting and signage development. Development of skills for framing, pedestal construction and model making for exhibition presentation. Recommended for all visual art and architecture students. Lecture, Lab. Transfer Credit: CSU.

Art A147 — Jewelry 1 — 3 units
Introduction to a wide range of methods, techniques, and materials used to create jewelry and small-scale metal artwork and objects. Includes examination of the history and contemporary practices of jewelry making and small metal casting / fabrication with a global cultural perspective. Lecture, Lab. Transfer Credit: CSU.

Art A148 — World History of Ceramics — 3 units
Advisory: Completion of any level ceramics course or concurrent enrollment.
The World History of Ceramics provides us with a foundation of information dating as far back as the Old Stone Age, commonly known as the Paleolithic era.
Most every culture has produced some type of fired clay object, ranging from utilitarian ware, religious icons, musical instruments, play toys and wall coverings in the form of life. The tactile versatility, permanence and historical significance are all reasons why ceramics should be considered a phenomenon. This course will cover the evolution of clay and the production of pottery made by early man, Greek, Islamic, Pre-Columbian and Asian cultures right up to the time of Post Modern ceramics. Lecture. Transfer Credit: CSU.

Art A150 — Ceramics 1 — 3 units
Introduction to ceramics materials, concepts, and processes including basic design principles, creative development, hand-building, throwing, glaze techniques, firing and ceramic terminology. The course covers aesthetics and creative development of clay objects examining historical, contemporary, and personal modes of expression across cultures. Various glazing and firing techniques will include Stoneware, Porcelain and Earthenware. Transfer Credit: CSU, UC. Lecture, Lab. Transfer Credit: CSU, UC.

Art A151 — Ceramics 2 — 3 units
Prerequisite: Art A150.
Students will be introduced to the Potter’s Wheel and to various wheel thrown techniques. Students will be familiarized with functional Ceramics, studio organization and advanced technical language. The study of selected historic and contemporary information will be covered. Lecture, Lab. Transfer Credit: CSU, UC.

Art A152 — Intermediate Ceramic Design — 3 units
Prerequisite: Art A151.
This third semester ceramics course is an exploration in surface, form, and researching the interface of clay and glaze. Combinations of various forming techniques in handbuilding and wheel thrown form will be executed. Lecture, Lab. Transfer Credit: CSU.

Art A153 — Ceramics and Its Narrative — 3 units
Prerequisite: Art A152.
A formal, critical look at ceramics through its social, political, and contemporary historical value. Students will design objects that are narrative driven. Lecture, Lab. Transfer Credit: CSU.

Art A162 — Applied Arts 1 — 3 units
Prerequisite: Art A111.
Beginning applied arts/crafts. Traditional and contemporary concepts and processes will be explored with emphasis on design principles in the development and fabrication of aesthetic forms based on function. The student will work with paper, fiber, wood, and metal to create unique works of art and function. Lecture, Lab. Transfer Credit: CSU.

Art A170 — Printmaking 1 — 3 units
Introduction to contemporary practices and aesthetics of printmaking. Formal elements and techniques using a broad range of materials and processes including: relief (linocut, woodcut), intaglio (drypoint, etching, collograph), lithography, and monoprinting. Lecture, Lab. Transfer Credit: CSU, UC.

Art A171 — Printmaking 2 — 3 units
Prerequisite: Art A170.
Further development of formal, technical, and conceptual skills in printmaking. Emphasis on color printing and combinations of print techniques as well as development of personal handling of the media. Rotating concentration of specific print processes such as intaglio, relief and planographic Lecture, Lab. Transfer Credit: CSU, UC.

Art A172 — Applied Arts 2 — 3 units
Prerequisite: Art A162.
Intermediate Applied Arts/Crafts. A more advanced approach to traditional and contemporary concepts and processes in the craft field that continues to build an education in functional art and design. More advanced techniques and sophisticated approaches to self-expression within the craft field will be explored. Emphasis will continue to be placed on the application of design principles to the development of aesthetic functional forms that are expressive and meet the needs of the assignments. The aim of this course is to help students realize the potential of their creative concepts and continue to develop the skills necessary to make these concepts into tangible forms based on function. Further emphasis will be placed on the current permeable boundaries between fine arts and crafts disciplines. The course also hopes to instill the desire to further explore and engage in the crafts as a vehicle for artistic expression. Lecture, Lab. Transfer Credit: CSU, UC.

Art A175 — Screen Process Printing 1 — 3 units
Theory and practice of screen process printing; construction of the screen, techniques of photo stencil making, color registration, and printing on various surfaces pertinent to fine art and commercial application. Emphasis on execution of original designs and understanding of contemporary applications. Lecture, Lab. Transfer Credit: CSU.

Art A176 — Screen Process Printing 2 — 3 units
Prerequisite: Art A115.
A screen printing course for artists and the art student. Theory and practice of screen-process printing; techniques of stencil making, registration, and printing on various surfaces pertinent to fine art and commercial application. Lecture, Lab. Transfer Credit: CSU.

Art A180 — Professional Studies — 2.5 units
An exploration and identification of areas of employment and professional activity in art making. Presentation techniques including a portfolio of art work, personal artistic statement, and critiques and reports reflecting an understanding of the information presented through guest lectures, films and field trips. Lab. Transfer Credit: CSU.

Art A220 — Figure Composition — 3 units
Prerequisite: Art A121.
An advanced drawing and painting course. The primary focus is pictorial composition. Creative solutions to the posed model situations are emphasized. Design of the picture plane using traditional compositional devices will be taught. Examples from old master art reproductions and their art history will be an integral part of the class. Lecture, Lab. Transfer Credit: CSU, UC.

Art A235 — Experimental Painting — 3 units
Advisory: Art A110.
Exploration and presentation of painting using contemporary mixed media and materials in non-traditional contexts for the purpose of developing individual expressive directions. Experimentation with various painting supports and non-traditional media. Lecture, Lab. Transfer Credit: CSU, UC.

Art A236 — Life Painting 1 — 3 units
Prerequisite: Art A121.
A course in figure painting using the live model. Various painting media and analysis of light, shade, and color will be covered. May be taken for grades or on a pass/ no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Art A237 — Life Painting 2 — 3 units
Prerequisite: Art A236.
An intermediate course and a continuation of A236 with emphasis on visual devices used by artists in a variety of styles. An additional emphasis on personal expression, painting style, and methodology. Lecture, Lab. Transfer Credit: CSU, UC.

Art A241 — Sculpture 2 — 3 units
Prerequisite: Art A236.
Advanced study in the creative use of techniques and materials of sculpture with an emphasis on metal manipulation, mold making and casting, additive sculpture, and assemblage as performed in fine and applied arts. Focus is on portfolio building for career or transfer. Lecture, Lab. Transfer Credit: CSU, UC.

Art A242 — Advanced Sculpture
New Media — 3 units
Prerequisite: Art A241.
Advanced study in the creative use of techniques and materials of sculpture with an emphasis on new digital and physical techniques and concepts in sculpture including public art, performance, installation, and sculpture in the entertainment industry. Lecture, Lab. Transfer Credit: CSU.
Art A244 — Metal Casting and Forming — 3 units
Prerequisite: Art A141.
An introduction to various processes in metalworking for sculpture and industry. Activities will include direct and indirect techniques of developing wax models to be used in the lost wax metal casting process. Students will design unique sculptural forms which will be cast in metal using either plaster investment or ceramic shell molds. Students will fabricate metal forms using techniques of forging and forming. Course emphasis will be placed on the safe and proper use of hand and power tools and upon a variety of foundry and metal-forming practices such as: mold making, opus and gating systems, mold de waxing, metal pouring procedures, forging, fastening, cold finishing, metal finishing, and coloring techniques Lecture, Lab. Transfer Credit: CSU.

Art A245 — Exhibition Design 2 — 3 units
Prerequisite: Art A145.
Continued coursework in the solving of design problems related to gallery and museum exhibits. Emphasis on spatial planning, crowd flow and thematic presentation based on curatorial criteria. Development of skills related to art handling, lighting and signage graphics, development of skills for framing, pedestal construction and model making for exhibition presentation. Assignment of specific responsibilities in design and management Recommended for all visual art and architecture students. Lecture, Lab. Transfer Credit: CSU.

Art A247 — Jewelry 2 — 3 units
Prerequisite: Art A147.
Further development of hand wrought jewelry fabrication techniques to include explorations in casting, hollow form construction, linking devices and lapidary. Emphasis will also be on individual. Lecture, Lab. Transfer Credit: CSU.

Art A263 — Watercolor 1 — 3 units
Advisory: Art A110.
Watercolor, gouache, and ink wash painting as used in fine art, illustration, graphic novels and architectural renderings. Lecture, Lab. Transfer Credit: CSU, UC.

Art A269 — Cartooning 1 — 3 units
A basic course in cartooning for students interested in learning how to cartoon without any previous formal art training. Lecture, Lab. Transfer Credit: CSU, UC.

Art A270 — Cartooning 2 — 3 units
Prerequisite: Art A269.
A continuation of Cartooning 1 with an emphasis on developing drawing skills, story idea interpretation, and a professional approach to cartooning. Lecture, Lab. Transfer Credit: CSU.

Art A286 — Book Arts — 2 units
An exploration into historical and modern approaches in the making, construction and binding of artist's books. Preliminary exercise and experiments with different types of bindings will lead the student to a final project in book form. Lecture, Lab. Transfer Credit: CSU, UC.

ASTRONOMY

Astronomy A100 — Introduction to Astronomy — 3 units
Introduction to the origin, evolution and structure of the solar system, stars, galaxies and the Universe. Milestones in the science of astronomy from ancient times to the space age. Historical development of astronomical ideas leading to current models. Special focus on the latest discoveries from both ground and space-based instruments. Consideration of current controversies in astronomy and the future of astronomical research. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Astronomy A100H — Introduction to Astronomy Honors — 3 units
Introduction to the origin, evolution and structure of the solar system, stars, galaxies and the Universe. Milestones in the science of astronomy from ancient times to the space age. Historical development of astronomical ideas leading to current models. Special focus on the latest discoveries from both ground and space-based instruments. Consideration of current controversies in astronomy and the future of astronomical research. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Astronomy A100L — Introduction to Astronomy Laboratory — 1 unit
Prerequisite: Astronomy A100 or concurrent enrollment. A laboratory course designed for non-science majors. It will provide practical experience with the scientific method through outdoor astronomical observations and indoor analysis of experimental data. May be taken for grades or on a pass/no-pass basis. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Astronomy A100M — Introduction to Astronomy Laboratory Honors — 1 unit
Prerequisite: Astronomy A100H or concurrent enrollment. A laboratory course designed for non-science majors. It will provide practical experience with the scientific method through outdoor astronomical observations and indoor analysis of experimental data. May be taken for grades or on a pass/no-pass basis. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Astronomy A101 — Planetary Astronomy — 3 units
An introduction to the current solar system. A comparative study will be made of the planets and their satellites, dwarf planets, asteroids, and interplanetary debris. An overview of the formation, evolution and structure of the solar nebula will be presented. Current topics on interplanetary missions, extrasolar planets, and extraterrestrial life will be discussed. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Astronomy A102 — Stellar Astronomy — 3 units
A detailed study of the formation, structure, and evolution of the sun and stars, including an overview of binary systems, variable stars, supernovae, white dwarfs, neutron stars, black holes, and other stellar phenomena. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Astronomy A103 — Cosmology — 3 units
An introduction to the origin and evolution of the Universe with emphasis on the cosmological models. Types of galaxies and their distribution in the universe, gravitational lensing, dark matter, and dark energy will be examined. An overview of particle physics and special and general relativity will be included. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Astronomy A200 — Introduction to Astrophysics — 3 units
Prerequisites: Physics A130 or Physics A185 and Math A180.
An introduction to astrophysics for science students. Emphasis on applying physical principles to gain a qualitative understanding of astrophysical phenomena. Topics covered include celestial mechanics; electromagnetic radiation; spectroscopy; stellar structure, evolution, and remnants; galaxies; and cosmology. Lecture. Transfer Credit: CSU, UC.

ATHLETICS

Formerly Physical Education
Also see Kinesiology

INTERCOLLEGIATE CONDITIONING

Athletics A109 — Sports Conditioning — .5-.25 units
Formerly Physical Education A109
This course is designed to develop fundamental skills and techniques specifically for athletic competition. Workouts and drills are held on athletic fields and in the fitness facilities. Lecture, Lab. Transfer Credit: CSU, UC.

Athletics A110 — Athletic Team Training — .5-.5 units
Formerly Physical Education A110
Course designed for students who are interested in improving their skills for competitive athletic performance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Athletics A120 — Fitness for Performance — .5-.25 units
Formerly Physical Education A120
Designed to enhance all components of physical fitness: muscular strength and endurance, cardio-respiratory endurance, flexibility, and reduce body fat while reducing the risk of injury by using a variety of fitness regimens in order to improve performance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

ATHLETICS — INTERCOLLEGIATE COED

Athletics A222 — Pep Squad — 3 units
Formerly Physical Education A222
Practice, participation and competition on cheer, dance and stunt teams for OCC. Includes development of skills, both individual and group, for successful public performance. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.
ATHLETICS — INTERCOLLEGIATE MEN

Athletics A250 — Baseball Team — 3 units
Formerly Physical Education A250
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A251 — Basketball Team — Men's — 3 units
Formerly Physical Education A251
This course is for students who have successfully auditioned for the OCC Intercollegiate Men's basketball team; eligibility auditions will be held during the first week of class. May be taken for grades or on a pass, no-pass basis. Students may enroll in this course four times. Lab. Transfer Credit: CSU, UC.

Athletics A252 — Crew Team — Men's — 3 units
Formerly Physical Education A252
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A253 — Cross Country Team — Men's — 3 units
Formerly Physical Education A253
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A254 — Football Team — 3 units
Formerly Physical Education A254
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A255 — Golf Team — Men's — 3 units
Formerly Physical Education A221
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A257 — Soccer Team — Men's — 3 units
Formerly Physical Education A257
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A258 — Swimming Team — Men's — 3 units
Formerly Physical Education A258
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A259 — Tennis Team — Men's — 3 units
Formerly Physical Education A259
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A260 — Track and Field Team — Men's — 3 units
Formerly Physical Education A260
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A261 — Volleyball Team — Men's — 3 units
Formerly Physical Education A261
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

ATHLETICS — INTERCOLLEGIATE WOMEN

Athletics A235 — Basketball Team — Women's — 3 units
Formerly Physical Education A235
This course is for students who have successfully auditioned for the OCC Intercollegiate Women's basketball team; eligibility auditions will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Students may enroll in this course four times. Lab. Transfer Credit: CSU, UC.

Athletics A236 — Cross Country Team — Women's — 3 units
Formerly Physical Education A236
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A238 — Crew Team — Women's — 3 units
Formerly Physical Education A238
Prerequisite: Crew fundamentals. Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A239 — Golf Team — Women's — 3 units
Formerly Physical Education A239
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A240 — Soccer Team — Women's — 3 units
Formerly Physical Education A240
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A241 — Fastpitch Team — 3 units
Formerly Physical Education A241
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

Athletics A242 — Swimming Team — Women's — 3 units
Formerly Physical Education A242
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Athletics A243 — Tennis Team — Women's — 3 units
Formerly Physical Education A243
Eligibility audition will be held during the first week of class. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

ATHLETICS — INTERCOLLEGIATE WOMEN

ATHLETICS — INTERCOLLEGIATE MEN

ATHLETICS — INTERCOLLEGIATE WOMEN

ATHLETICS — INTERCOLLEGIATE WOMEN

AVIATION MAINTENANCE TECHNOLOGY

(Formerly Aviation Technology)

Aviation Maintenance Technology A140 — Helicopter Theory and Operations — 3 units
Rotary wing aircraft development, technology, and construction. Federal Aviation Administration (FAA) requirements for operation and maintenance. Survey of helicopter industry. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Aviation Maintenance Technology A150 — General Maintenance Records — FAA — 4 units
Mechanic's privileges & limitations, maintenance forms and records, non-destructive testing, precision measurement, record keeping and ground operations. Lecture. Lab. Transfer Credit: CSU, UC.

Aviation Maintenance Technology A151 — General Electricity — FAA — 3 units
Aircraft basic electricity, basic troubleshooting, and aircraft batteries. Lecture. Lab. Transfer Credit: CSU, UC.

Aviation Maintenance Technology A152 — General Airframe and Powerplant Fuel Systems — FAA — 2 units
Theory of fuel systems and lines and fittings. Practical experience in repair, check, service, overhaul, testing, and troubleshooting of fuel systems and system component parts. Lecture. Lab. Transfer Credit: CSU, UC.

Aviation Maintenance Technology A153 — General Materials, Processes, and Welding — FAA — 3 units
Materials used in aircraft, cleaning of parts, hardware and other fastener identification, and aircraft welding. Lecture. Lab. Transfer Credit: CSU, UC.
Aviation Maintenance Technology A154 — General Weight and Balance, Math and Physics — FAA — 3 units

Theory and practical experience in a variety of aircraft math, physics, and weight and balance calculations, and varied problems. Practical experience in weight and balance of aircraft. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A155 — General Blueprint Reading and Drafting — FAA — 2 units

Fundamental theory of aviation blueprints and drafting. Practical experience in blueprint reading, drawing, sketches of repairs, alterations, schematics, and varied uses of graphs and charts. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A160 — Airframe and Powerplant Electricity — FAA — 6 units

Advisory: Aviation Maintenance Technology A151.

Fundamental theory relating to aircraft electrical systems, ice and rain, and fire protection systems. Practical experience in disassembly, repair, overhaul, inspection, testing of electrical components and systems. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A161 — Airframe Sheet Metal and Composite Structural Repair — FAA — 5.5 units

Advisory: Aviation Maintenance Technology A153.

Fundamental theory relating to aircraft structures. Practical experience in sheet metal, composites, wood, riveting, fabric, inspection, and painting. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A162 — Airframe Assembly and Rigging, Pneumatics and Environmental Control Systems — FAA — 3 units

Advisory: Aviation Maintenance Technology A153.

Fundamental theory of assembly, cabin control systems, and rigging. Practical experience in rigging, assembly, disassembly, repair, overhaul, testing, inspection, and operation of component parts. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A163 — Airframe Hydraulics and Landing Gear — FAA — 4.5 units

Advisory: Aviation Maintenance Technology A150 and A152.

Fundamental theory of hydraulic, pneumatic, and landing gear systems. Practical experience in disassembly, repair, overhaul, test, inspection, and operation of component parts. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A170 — Powerplant Reciprocating Engines -FAA — 6 units

Advisory: Aviation Maintenance Technology A150 and A153.

Fundamental theory of aircraft reciprocating engines. Practical experience in overhauling, repair, assembly, testing, and troubleshooting various powerplants. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A171 — Powerplant Fuel Metering, Exhaust and Induction Systems -FAA — 4 units

Advisory: Aviation Maintenance Technology A152.

Aircraft reciprocating engine fuel metering, induction, cooling, and exhaust systems. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A172 — Powerplant Propeller and Lubricating Systems — FAA — 4 units

Advisory: Aviation Maintenance Technology A170.

Fundamental theory of propellers and lubrication system components. Practical experience in overhauling, repairing, testing, and troubleshooting different types of systems and components. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A173 — Powerplant Gas Turbine Engines — FAA — 6 units

Advisory: Aviation Maintenance Technology A150 and A153.

Fundamental theory and overhaul of turbine engines, starting systems, and system components. Practical experience in disassembly, repair, overhaul, inspection, and testing of turbine engines and components. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A174 — Powerplant Ignition Systems — FAA — 2.5 units

Advisory: Aviation Maintenance Technology A151.

Fundamental theory of ignition systems and practical experience in disassembly, repair, overhaul, inspection, and testing of ignition components. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A180 — Airframe and Powerplant Instrumentation — FAA — 2.5 units

A survey and limited practical experience of basic instrumentation systems used in private, corporate, and commercial aircraft. Included are aircraft nomenclature, acronyms, and use of computer-based training systems. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A181 — Airframe Communication and Navigation Systems — FAA — 2 units

Advisory: Aviation Maintenance Technology A180.

Survey of avionic systems used in navigation and communication and use of computer-based flight management systems, flight deck orientation, and theory of flight. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A182 — Avionics Installation Principles — 4 units

Advisory: Aviation Maintenance Technology A151.

Schematic reading, use of multimeter, Series and parallel circuits. Avionics terminology, system interfacing, Avionics install standard practices. Diagnostic test equipment and fault finding logic tree techniques to a systems level. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A183 — Avionics Installation and Troubleshooting — 4 units

Advisory: Aviation Maintenance Technology A182.

A course in aircraft radio navigational and communication systems. Bench test, installation and ramp test of transmitter and receiver systems and their operating principles. Systems include VHF Comm, VOR, ILS, and Transponder. Students are required to bring hand tools. Lecture, Lab. Transfer Credit: CSU.

Aviation Maintenance Technology A188 — G.R.O.L. and Avionics Rules and Regulations — 1.5 units

Aviation Maintenance Technology A290 — Helicopter Maintenance — 4 units

Maintenance of helicopters, helicopter rotor systems, power trains, unique system features, instrumentation, and design construction. Practical experience in disassembling, inspection, repair, assembly, testing, and troubleshooting a variety of helicopters and system components. Lecture, Lab. Transfer Credit: CSU.

**AVIATION SCIENCE**

In order to attain licensing as a pilot, students are required to satisfy aeronautical experience requirements as outlined in applicable subparts of the Federal Aviation Regulations (FAR). The majority of this experience must be accumulated in actual aircraft. Flight training is necessary for students to meet the specific requirements of FAR 61.109 (Private Pilot), FAR 61.65 (Instrument) and FAR 61.129 (Commercial) licensing. Flight time and instructor fees are billed separately from ground school courses. In all APT Flight Lab classes, fees are $125 per hour for primary training aircraft, $155 per hour for complex training aircraft, and flight instructor fees are $60 per hour in college owned aircraft. Minimum cost to meet the requirements of FAR 61.109 in college owned aircraft is approximately $5500. However, most students require training beyond the minimum required in FAR 61.109, which increases total cost. Aircraft and instructor fees are subject to change.

College owned aircraft are currently being used for training under flight labs APT A120, APT A121, APT A122, APT A123 and APT A124. Total cost to meet the minimum requirements of FAR 61.65 is approximately $8000. Most students require training beyond the minimum hours required of FAR 61.65. This will increase total cost. Fees are subject to change. Estimated cost to meet the minimum aeronautical experience requirements of FAR 61.129 is $21,000. Aircraft and instructor fees are subject to change. At the completion of APT A120, (35 hours), APT A121, (40 hours), APT A122, (120 hours), APT A123 (variable hours), and APT A124 (variable hours) students should have acquired the 250 minimum hours of total flight time required for licensing as a commercial pilot. Total program cost is approximately $54,000.

FAA Certified Advanced Aviation Training Devices (AATD) may be used to accrue aeronautical experience requirements of FAR 61.109, FAR 61.65, and FAR 61.129. Costs for students to use college-owned AATD's will be $60 per hour and flight instructor fees are $60 per hour. Prices for AATD's and instructor fees are subject to change. The amount of aeronautical experience the FAA will accept in AATD's will be dependent on the airmen certificate sought. Refer to FAR 61.109, FAR 61.65, and FAR 61.129 for more information regarding the approved usage of AATD's for aeronautical experience.

Flight training is conducted in accordance with an FAA approved part 141 syllabus provided by the vendor. Veteran students using GI Bill Education Benefits are limited to a maximum amount of flight and ground training hours. Training expenses incurred beyond the maximum approved hours will be at the student’s expense. Refer to the program requirements as outlined in the course syllabus.

All flight lab students are required to obtain a second-class medical certificate in order to qualify for flight lab participation and program certification.

Additional costs include but are not limited to, second-class medical certificate, pilot supplies, program materials, airport badge, no show fees and check-rides. These fees are not included in the total program cost and must be paid separately by the student.
Aviation Pilot Training A120 — Private Pilot Flight Lab — 1 unit
The student will receive training in the maneuvers and procedures necessary to meet the standards contained in the FAA Commercial Pilot Practical Test Standards. Additionally, the student will receive training in safety awareness, crew resource management, and aeronautical decision-making. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A121 — Instrument Pilot Flight Lab — 1 unit
The student will receive training in the maneuvers and procedures necessary to meet the standards contained in the FAA Instrument Rating Practical Test Standards. Additionally, the student will receive training in safety awareness, crew resource management, and aeronautical decision-making. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A122 — Commercial Pilot Flight Lab — 1 unit
The student will receive training in the maneuvers and procedures necessary to meet the standards contained in the FAA Commercial Pilot Practical Test Standards. Additionally, the student will receive training in safety awareness, crew resource management, and aeronautical decision-making. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A123 — Private Pilot Advanced Flight Lab — 1 unit
Flight training in selected areas for the purpose of gaining proficiency in required pilot operations for various certificates and ratings. In addition, flight lab courses allow the student to accrue the necessary flight hours for certification and licensing as a commercial, instrument pilot. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A124 — Advanced Commercial Pilot Flight Lab — 1 unit
Prerequisite: Course entry requires written approval by Aviation Pilot Training lead instructor and Division Dean. The student will receive training in the maneuvers and procedures necessary to meet the standards contained in the FAA Commercial Pilot Practical Test Standards. Additionally, the student will receive training in safety awareness, crew resource management, and aeronautical decision-making. At the successful completion of this course the student will have gained the aeronautical experience necessary to attain the addition of a Commercial Rating for the Private Pilot Certificate. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A125 — Introduction to Flight Operations — 3 units
This course provides an introduction to airline and corporate flight operations and management to include the economic structure of the airlines, airline organization and management, forecasting, scheduling, marketing, and fleet selection. In addition, corporate flight operations and the impact of general aviation on the nation’s air transportation system are explored. The course also introduces the student to the world of flight operations management to include dispatch, crew scheduling, airborne scheduling and flight following. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A126 — Multi-Engine Aircraft Operations Lab — 1 unit
The student will receive training in the maneuvers and procedures necessary to meet the standards contained in the Commercial Practical Test Standards Airplane Multi-Engine Land. Additionally, the student will receive training in safety awareness, crew resource management, and aeronautical decision-making. This course is offered on a pass/no-pass basis only. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Lab. Transfer Credit: CSU.

Aviation Pilot Training A127 — Introduction to Unmanned Aircraft Systems — 3 units
This course provides an overview of Unmanned Aircraft Systems (UAS). Topics include the development and history of UAS, current and upcoming operational regulations, airspace classifications, sources of weather, loading and performance, radio communications, airport operations, maintenance and inspection procedures, industry and societal implications, career outlooks, ethical considerations, and basic components required to operate a UAS. The course will also introduce hands-on UAS flight and operation practices through PC-based simulation. All training is conducted in accordance with Federal Aviation Regulations (FAR) Part 107. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A130 — Private Pilot Flight Lab — 1 unit
Prerequisite: ESL score of 51/55 or higher. Entry level course for commercial pilot training program. Covers basic aerodynamics, aircraft performance, Federal Aviation Regulations, aviation weather factors and cross country navigation procedures. Provides introductory material on radio navigation, radio communications procedures, human factors and aviation safety. Meets the preparation requirements for the FAA Private Pilot computerized knowledge examination. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A131 — Introduction to Unmanned Aircraft Systems — 3 units
This course provides an overview of Unmanned Aircraft Systems (UAS). Topics include the development and history of UAS, current and upcoming operational regulations, airspace classifications, sources of weather, loading and performance, radio communications, airport operations, maintenance and inspection procedures, industry and societal implications, career outlooks, ethical considerations, and basic components required to operate a UAS. The course will also introduce hands-on UAS flight and operation practices through PC-based simulation. All training is conducted in accordance with Federal Aviation Regulations (FAR) Part 107. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A132 — Aviation Navigation — 3 units
Prerequisite: Aviation Pilot Training A130 or current Private Pilot Certificate. This advisory will be validated in class during the first week of the course. The course provides academic background for pilots preparing for the FAA Commercial Pilot license and FAA Instrument rating. The course will cover basic visual navigation, instrument navigation, use of Global Positioning Systems and an introduction to Flight Management Computers. Current Private Pilot Certificate will be verified by the instructor at the first class meeting. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A133 — Aviation—Meteorology — 3 units
Entry level course for commercial pilot training program. This course will cover the forces which generate and affect weather, weather systems, aviation weather services and cross country weather planning procedures. The course will also provide detailed material on aviation weather hazards and aviation meteorological reports. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A134 — Instrument Pilot Flight Lab — 1 unit
Prerequisite: Aviation Pilot Training A130 or current Private Pilot Certificate. This advisory will be validated in class during the first week of the course. The course provides academic background for Private Pilots preparing for the FAA Instrument Rating. Covers principles of instrument flight, aircraft performance, Federal Aviation Regulations, aviation weather factors and IFR cross country navigation procedures. Provides material on Instrument Approach Procedures, IFR operational procedures, human factors and aviation safety. All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61. All flight training labs are conducted in accordance with an approved FAR Part 141 syllabus. Meets the preparation requirements for the FAA Instrument rating computerized knowledge examination. Current Private Pilot Certificate will be verified by the instructor at the first class meeting. Lecture. Transfer Credit: CSU.
Aviation Pilot Training A138 — Aerodynamics — 3 units
Course covers the basic principles of flight theory in both low and high speed regimes. Airflow theory, airfoil design, high lift devices, induced and parasitic drag, stall patterns, climb and sink performance, thrust and power, control & stability in the subsonic, transonic, and supersonic conditions. Extensive discussion of stall/spin aerodynamics and recovery techniques. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A139 — Commercial Pilot Aviation Ground School — 3 units
Prerequisite: Aviation Pilot Training A130 or current Private Pilot Certificate with Instrument rating.
Provides academic background for Private Pilots preparing for the FAA Commercial Pilot license. Covers transport category aircraft performance considerations, advanced weight and balance, multi-engine aerodynamics, and Federal Aviation Regulations applicable to Commercial pilots. Meets the preparation requirements for the FAA Commercial Pilot computerized knowledge examination. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A140 — Flight Instructor Ground School — 3 units
Prerequisite: Aviation Pilot Training A139.
All training is conducted in accordance with Federal Aviation Regulation (FAR) Part 61 and Part 141. Students satisfying the pilot certificate prerequisite must present proof to the instructor during the first week of the course. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A141 — Instrument Flight Simulator Lab — 2 units
Course provides simulator instruction to be given concurrent with instrument flight lessons contained in APT A134. Course provides preparation for the Federal Aviation Agency (FAA) practical examination for the Instrument Rating. This course is offered on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU.

Aviation Pilot Training A145 — Airline Transport Pilot Ground School — 3 units
Prerequisite: Aviation Pilot Training A130.
Advisory: Aviation Pilot Training A139.
Advanced course for pilots or aircraft dispatchers with emphasis on turbine aircraft performance, aerodynamics and systems. Course covers all major turboprop and jet systems, along with such topics as crew coordination (CRM), high-altitude weather, high speed aerodynamics, and preparing for ground and flight training. Course also covers explanations of turbine aircraft terminology and procedures. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A146 — Advanced Aircraft and Engines — 3 units
Advisory: Aviation Pilot Training A130.
Advanced course which prepares pilots or aircraft dispatchers for the Airline Transport Pilot FAA knowledge test. Course covers those areas of aeronautical knowledge defined under Federal Aviation Regulation Part 61.155 with an emphasis on aircraft loading, weight and balance, use of charts, graphs, tables, formulas and computations, and their effect on aircraft performance.
Lecture. Transfer Credit: CSU.

Aviation Pilot Training A180 — Basic Air Transportation — 3 units
Provides an analysis of the airline industry by providing historical background information on the evolution of the United States air transportation system along with a current analysis of the airlines, air traffic control system, business aviation and general aviation. The goal is to prepare students for entry into the airline industry through an analysis of market factors that influence airline operations as well as fleet planning, route planning, strategic planning and labor issues. Lecture. Transfer Credit: CSU.

Aviation Pilot Training A192 — Human Factors and Crew Resource Management — 3 units
Course encompasses a wide range of knowledge, skills and attitudes including communications, situational awareness, problem solving, decision making, and teamwork; together with the entire attendant sub-disciplines which each of these areas entails. CRM can be defined as a management system which makes optimum use of all available resources — equipment, procedures and people — to promote flight safety and enhance the efficiency of flight operations. This course may also be offered online. Lecture. Transfer Credit: CSU.

Biology A100 — Introduction to Biology — 4 units
A general study of life processes with emphasis on biological chemistry, cells, molecular biology, heredity, ecology, evolution, and the diversity of life. Suitable as a general education elective for the non-science major. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU, UC.

Biology A100H — Introduction to Biology Honors — 4 units
A general study of life processes with emphasis on biological chemistry, cells, molecular biology, heredity, ecology, evolution, and the diversity of life. Suitable as a general education elective for the non-science major. Lecture, Lab. Transfer Credit: CSU, UC.

Biology A101 — The Biology of Cooking — 3 units
Ever wondered why grilled meat tastes so good? Why merigues are made with egg whites and not egg yolks? Why tomatoes are considered a fruit instead of a vegetable? These questions (and more) will be answered in demonstration-filled classes as we use the reagents of the kitchen to teach the basic principles of biology and the scientific method. Lecture. Transfer Credit: CSU, UC.

Biology A114 — Basic Microbiology — 2 units
Microbiology as applied to disease, treatment, immunity and the environment. Introduction to history, theory, and techniques of microbiology as applied to microbial nutrition, disease, immunity, control and the environment. Lecture, Lab. Transfer Credit: CSU, UC.

Biology A115 — Introduction to the Biology of Animals — 3 units
Introduces the diversity and biology of animals in a manner appropriate for students who have little to no background in science. Topics include an introduction to the anatomy, physiology, ecology, evolutionary biology, systematics, life history, and cell biology of animals. Suitable as a non-lab general education elective for the non-science major. Lecture. Transfer Credit: CSU.

Biology A125 — Human Biology — 3 units
A transferable general education biology course for students not majoring in the life sciences. Emphasis on relationships of biology to human beings with emphasis on molecular genetics, heredity, major body systems, disease, and human interactions with the environment. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Biology A172 — Nature of Birds — 2 units
An introductory course to bird identification, their life, and their habitats. Emphasis will be on the physical characteristics of birds, how birds evolved, their classification, diet, behavior, reproduction strategies, flight mechanics, migration patterns, and characteristics of their natural habitat. There will be at least four field trips. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Biology A180 — Cell & Molecular Biology — 4 units
Formerly Biology A181
Prerequisite: Chemistry A130 or higher, or concurrent enrollment in Chemistry A180 or higher. Chemistry A180 qualifying exam does not substitute for Chemistry A130 prerequisite or Chemistry A180 Co-requisite. Non-native speaking students must be eligible to enter English as a Second Language A031 or A035.
Designed for the major in the biological sciences and pre-health profession majors. Emphasizing central concepts of biology, including biochemistry, cell biology, membrane dynamics, molecular genetics, classical genetics, and biotechnology. Transfer Credit: CSU, UC. Lecture, Lab, C-ID BIOL 190.

Biology A182 — Zoology — 3 units
Co-requisite: Biology A182L
Prerequisite: Math A030.
Includes basic aspects of phylogeny, morphology, physiology and behavior of vertebrate and invertebrate animals. Emphasizes comparing the variety of mechanisms animals have evolved to solve common biological problems. Lecture. Transfer Credit: CSU, UC. C-ID BIOL 150.

Biology A182L — Zoology Lab — 1 unit
Prerequisite: Biology A182, or concurrent enrollment.
Advisory: Biology A180 or any college-level Biology or Chemistry course.
A laboratory course emphasizing animal phylogeny, anatomy, and physiology using representative types. Field trip required. Lecture. Transfer Credit: CSU, UC. C-ID BIOL 150.

Biology A183 — Botany — 3 units
Prerequisite: Math A030.
Includes the dynamics of plants and their processes with particular emphasis on the structure and function of living plants. Lecture. Transfer Credit: CSU, UC. C-ID BIOL 155.

Biology A183L — Botany Lab — 1 unit
Prerequisite: A183, or concurrent enrollment and Math A030.
A course in the dynamics of plants and their processes with particular emphasis on the structure and function of plants. Field trip required. Lab. Transfer Credit: CSU, UC. C-ID BIOL 155.
Biology A281 — Biochemistry — 2 units
Prerequisite: Biology A180 and Chemistry A220.
An introduction to the chemistry of biology. This course is designed to satisfy transfer requirements for some biology majors. Lecture. Transfer Credit: CSU, UC.

Biology A220 — General Microbiology — 5 units
Fundamentals of bacteriology, mycology, protozoology, and virology. Includes food, water and medical microbiology, factors in resistance, infection, and disease. Human normal flora and the immune response are included. Microbial ecology, genetics, and bioenergetics are covered. Recommended for biological science majors. Lecture, Lab. Transfer Credit: CSU, UC. C-ID BIOL 140.

Biology A221 — Anatomy—Physiology — 4 units
Anatomy and physiology as a combined discipline. Designed for Career and Certificate Programs. Suitable as a general education elective for the non-science major. Lecture, Lab. Transfer Credit: CSU, UC. C-ID BIOL 110B.

Biology A225 — Human Physiology — 5 units
Prerequisite: Chemistry A220 or A130 or equivalent. Advisory: Biology A220 or A221.
A course designed to satisfy pre-nursing, allied health, kinesiology, and other health-related majors. Lecture, Lab. Transfer Credit: CSU, UC. C-ID BIOL 120B.

Biology A226 — General Zoology — 5 units
Prerequisite: Biology A221 or A222 or equivalent.
This course is designed to satisfy requirements for pre-nursing, physical therapy and physical education majors. Lecture, Lab. Transfer Credit: CSU, UC. C-ID BIOL 120B.

Biology A233 — Genetics — 4 units
Prerequisite: Biology A180 and Chemistry A180 or higher.
This course covers the principles of Mendelian inheritance, gene transmission in prokaryotes and eukaryotes; recombination and mutation; gene regulation, replication, and expression; cell division; and biochemical genetics. Additional emphasis is placed on problem solving. Lecture. Transfer Credit: CSU, UC.

BROADCASTING ARTS

Broadcasting Arts A100 — Broadcast Journalism — 3 units
An overview of television news, broadcast production, and writing. Practical in-studio experience with on-air news reporting and on-camera interview techniques. Lecture. Transfer Credit: CSU.

BUSINESS

Business A100 — Introduction to Business — 3 units
A survey of the many dimensions of business with a focus on careers: organization, management, marketing, legal aspects, international business, business climate, financial operations, the banking system, and investments. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID BUS 110.

Business A100H — Introduction to Business Honors — 3 units
A survey of the many dimensions of business with a focus on careers: organization, management, marketing, legal aspects, international business, business climate, financial operations, the banking system, and investments. Lecture. Transfer Credit: CSU, UC. C-ID BUS 110.

Business A110 — Business Law — 3 units
Focuses on the legal and regulatory environment of business and management, including the legal system and methods of resolving disputes. The court system, trials and appeals, the Constitution, crimes and torts, contracts, product liability, employment, antitrust, law and ethics, corporate social responsibility, stakeholder relationships, ethical decision making, sole proprietorships, partnerships, limited partnerships, limited liability partnerships, limited liability companies, corporations, corporate structure and governance and international perspectives will be examined. Case studies will be presented. This course may also be offered online. Transfer Credit: CSU, UC.Lecture. Transfer Credit: CSU, UC.

Business A118 — Introduction to International Business — 3 units
Provides an overview of international business. Explores political, financial, and legal environments of selected countries and their impacts on firms’ international business activities. Emphasis is given to business practices and comparative cultural topics. This course may also be offered online. Lecture. Transfer Credit: CSU.
Cardiovascular Technology A100 — Introduction to Electrophysiology — 3 units
Prerequisite: Allied Health A111 and Cardiovascular Technology A160.
Introduction to basic electrophysiology of the heart, including anatomy and physiology of the heart, normal and abnormal cardiac rhythms, and the use of electrocardiography. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A130 — Introduction to Invasive Cardiology — 3 units
Prerequisite: Cardiovascular Technology A160.
Introduction to the concepts of catheterization, primarily for diagnosis of coronary artery disease. Includes hemodynamics, cardiovascular radiologic safety, aortic and right ventricular catheterization, and contrast used for catheterization. Catheterization techniques, drug pharmacology used in the procedures and complications of catheterization. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A150 — Advanced Electrophysiology — 2 units
Prerequisite: Cardiovascular Technology A100.
Advanced procedures in electrophysiologic testing, including stress testing, Holter monitoring, and pacemakers. Advanced arrhythmias, including ventricular conduction disturbances, effects of drugs, electrolyte imbalances, myocardial infarction, and cardiac pharmacology. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A160 — Cardiac Anatomy/Pathophysiology — 3 units
Prerequisite: Allied Health A111 and Biology A221.
Cardiac anatomy, physiology, and pathology. Includes cardiovascular structures, hemodynamics, cardiac output and blood pressure, coronary artery disease, myocardial infarction, valvular diseases, infectious diseases, cancer tumors and myopathies, and congenital heart disease. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A170 — ECG Clinical Experience — 5 units
Prerequisite: Allied Health A115 and Cardiovascular Technology A160.
Assigned clinical practice within a health care facility in areas of routine ECG testing, stress testing, monitor technician, Holter monitoring, and pacemaker evaluation. Offered on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU.

Cardiovascular Technology A190 — Introduction to Sonography and Imaging Physics — 3 units
Prerequisite: Cardiovascular Technology A160.
Introduction to ultrasound physics & instrumentation for cardiac and vascular imaging, visualized on 2-dimensional and 3-dimensional ultrasound imaging. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A200 — Introduction to Cardioangiography — 3 units
Prerequisite: Cardiovascular Technology A160.
Basic concepts of cardiovascular imaging, including correct views on M-mode, 2D, and Doppler. Recognition of specific echocardiographic patterns and abnormalities. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A205 — Introduction to Echocardiography Lab — 1 unit
Co-requisite: Cardiovascular Technology A200.
Skill development in using echocardiographic imaging equipment, machine adjustments, and obtaining correct views on M-mode, 2-dimensional, Doppler and color flow echocardiograms under direct supervision. Includes exercises in recognition of cardiac anatomy and pathology found in diagnostic ultrasound images evaluation for cardiac function. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A210 — Echocardiography Clinical Lab 1 — 5 units
Prerequisite: Cardiovascular Technology A160.
Experience in echocardiography in a clinical facility to include conferences or lectures by physicians, cardiologists, and cardiac patients presenting to diagnostic findings. Offered on a pass/no-pass basis only. 24 hours clinical, 18 hours discussion/seminar. Transfer Credit: CSU.

Cardiovascular Technology A220 — Ultrasound Sonographic Physics and Instrumentation — 3.5 units
Prerequisite: Cardiovascular Technology A130.
The study of physical principles and instrumentation of diagnostic medical sonography, echocardiography, vascular ultrasound and peripheral vascular ultrasound. It includes sonographic equipment design, ristrumenation and sonographic imaging application. Lecture. Lab. Transfer Credit: CSU.

Cardiovascular Technology A240 — Invasive Cardiology Clinical Lab 1 — 5 units
Co-requisite: Cardiovascular Technology A130.
Clinical practice within a cardiac catheterization laboratory to include performances of patient monitoring, data collection, and recognition of anatomical and hemodynamic abnormalities for coronary artery disease. Course includes one hour of discussion-seminar with physician lecturers each week. Offered on a pass/no-pass basis only. 25 hours clinical. Transfer Credit: CSU.

Cardiovascular Technology A250 — Advanced Echocardiography — 3 units
Prerequisite: Cardiovascular Technology A200 and A205.
Advanced theory, equipment, and procedures in echocardiography, including Doppler, color flow Doppler in adults, pediatric and fetal echocardiography. Further development of technical skills and evaluation of diagnosis states using exercise stress, TEE, pharmacological stress, and contrast echocardiographic studies. Lecture. Transfer Credit: CSU.

Cardiovascular Technology A255 — Advanced Echocardiography Lab — 1 unit
Prerequisite: Cardiovascular Technology A200 and A205.
Co-requisite: Cardiovascular Technology A250.
Skill development in advanced echocardiographic techniques under direct supervision. Includes spectral Doppler, color flow Doppler, pediatric, stress/ pharmacological stress, TEE, and further evaluation of adult echocardiography. Computer lab modules for advanced echocardiographic techniques and Registry Exam Review, Lab. Transfer Credit: CSU.

Cardiovascular Technology A260 — Cerebrovascular and Peripheral Ultrasound — 2.5 units
Prerequisite: Cardiovascular Technology A200.
Diagnosis and scanning techniques in the evaluation of cerebrovascular disease by ultrasound and Doppler testing. Includes normal anatomy and physiology of the cerebrovascular, ultrasound instrumentation, and examination techniques relating to pathologies. Lecture, Lab. Transfer Credit: CSU.
CHEMISTRY

Chemistry A020 — Problem Solving in Organic Chemistry 1 — 1 unit
Prerequisite: Chemistry A185
Co-requisite: Chemistry A220
This course covers problem-solving skills and strategies that enhance success in Chemistry A220. Topics include problems in organic chemical structure, nomenclature, reactions and reaction mechanisms. Lecture. Not applicable to AA/AS degree.

Chemistry A025 — Problem Solving in Organic Chemistry 2 — 1 unit
Prerequisite: Chemistry A220
Co-requisite: Chemistry A225
This course covers problem-solving skills and strategies that enhance success in Chemistry A225. Topics include problems in organic chemical structure, nomenclature, reactions and reaction mechanisms. Lecture. Not applicable to AA/AS degree.

Chemistry A100 — Principles of Chemistry — 3 units
Non-mathematical chemistry for students not majoring in science. Emphasis on relationship of chemistry to the human body with particular attention to drugs of all kinds, food, metabolism, cancer and environmental contaminants. Includes concepts of structure of matter, bonding, acid-base chemistry, organic chemistry and thermodynamics. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Chemistry A110 — Introduction to Chemistry — 5 units
Prerequisite: Mathematics A010 or higher with grade of ‘C’ or better.
An introduction to the basic principles of inorganic, organic and biochemistry. Not intended for students planning to take Chemistry A180 or A130. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID CHEM 102.

Chemistry A130 — Preparation for General Chemistry — 4 units
Prerequisite: Mathematics A030 or higher (or appropriate placement).
Advisory: Eligibility for English as a Second Language A160 or English A089.
Introduction to the principles, calculations, and laboratory techniques of chemistry for students planning to take Chemistry A180. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Chemistry A180 — General Chemistry A — 5 units
Prerequisite: Math A030 or higher with grade of ‘C’ or better, and Chemistry A130 or higher (or appropriate placement) with grade of ‘C’ or better based on chemistry assessment plus one year of high school chemistry.
Safety prerequisite: English as a Second Language students must be eligible to enter English as a Second Language A031 and English as a Second Language A035.
This course studies gases, solutions, reactions, bonding theories, acid-base, and redox theory. Lecture, Lab. Transfer Credit: CSU, UC. C-ID CHEM 110.

Chemistry A185 — General Chemistry B — 5 units
Prerequisite: Chemistry A180 with grade of ‘C’ or better.
Study of non-ideal solutions, chemical equilibria, thermodynamics, kinetics and nuclear chemistry. Lecture, Lab. Transfer Credit: CSU, UC.

Chemistry A220 — Organic Chemistry A — 3 units
Prerequisite: Chemistry A185 with grade of ‘C’ or better.
A study of organic compounds and their reactions from the standpoint of structure, mechanisms and kinetics. Introduction to spectroscopic methods of identification. Lecture. Transfer Credit: CSU, UC. C-ID CHEM 150.

Chemistry A220L — Organic Chemistry Laboratory A — 2 units
Formerly Chemistry A221
Prerequisite: Chemistry A185.
Theory and techniques of separation, purification, synthesis and analysis of organic compounds including instrumental methods of chromatography and spectroscopy. Lecture, Lab. Transfer Credit: CSU, UC. C-ID CHEM 150.

Chemistry A225 — Organic Chemistry B — 3 units
Prerequisite: Chemistry A220.
Further study of the structures, reactions, mechanisms and kinetics of organic compounds. Introduction to biologically important compounds and natural products. Lecture. Transfer Credit: CSU, UC.

Chemistry A225L — Organic Chemistry Laboratory B — 2 units
Formerly Chemistry A226
Prerequisite: Chemistry A220L.
Further applications of laboratory theory and techniques in the synthesis and analysis of organic compounds including instrumental methods of chromatography and spectroscopy. Includes the separation and analysis of some biologically important compounds. Lecture, Lab. Transfer Credit: CSU, UC.

CHINESE

Chinese A180 — Elementary Chinese 1 — 5 units
The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Mandarin Chinese, with an introduction to cultures related to the Chinese language. This course is equivalent to two years of high school Chinese. Lecture. Transfer Credit: CSU, UC.

Chinese A185 — Elementary Chinese 2 — 5 units
Prerequisite: Chinese A180.
Continuation of Chinese A180 with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the Chinese language. This course is equivalent to three years of high school Chinese with a grade of ‘C’ or better. Lecture. Transfer Credit: CSU, UC.

COMMUNICATION STUDIES

Communication Studies A100 — Interpersonal Communication — 3 units
Formerly Speech Communications A100
Teaches effective communication skills through the study of self-concept, listening, perception, language usage, persuasion, and nonverbal communication. Emphasis is on developing and applying good communications skills and overcoming the barriers to effective communication. Writing and speaking skills are emphasized and evaluated. Lecture. Transfer Credit: CSU, UC. C-ID COMM 130.

Communication Studies A105 — Intrapersonal Communications — 3 units
Formerly Speech Communications A105
Designed to teach students effective communication processes with and about oneself. Emphasis is on developing a greater self-awareness and self-esteem by studying cognitive science, whole brain learning, language and symbolic processing, perception, and nonverbal communication skills. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Communication Studies A110 — Public Speaking — 3 units
Formerly Speech Communications A110
Designed to teach students how to overcome stage fright and to develop organizational, research, and delivery skills. Students will learn to outline, write, and deliver various types of speeches. An emphasis is placed on speaking, listening, and critical thinking skills. Lecture. Transfer Credit: CSU, UC.

Communication Studies A120 — Reader’s Theater and Oral Interpretation — 3 units
Formerly Speech Communications A120
Explores the oldest performance tradition, storytelling, and focuses on the principles and methods of effective oral interpretation. Through analysis of poetry, plays and stories, in both individual and group performance, the student will learn to edit and construct a script, and to perform successfully. Lecture. Transfer Credit: CSU, UC.

Communication Studies A150 — Forensics Workshop — 1-4 units
Advisory: Communication Studies A110 or A220.
Formerly Speech Communications A150
Speech competition in debate, extemporaneous, impromptu, persuasive speaking, informative speaking, reader’s theatre, and interpretation events. May be taken for 1, 2, 3 or 4 units depending on the number of hours and the number of events and tournaments in which the student participates. Lecture, Lab. Transfer Credit: CSU. C-ID COMM 168B.
Communication Studies A155 — Intercultural Communications — 3 units

Formerly Speech Communications A155
The study, practice, and application of communication theories as they relate to different cultural, subcultural, ethnic, and racial groups. Emphasis on interpersonal effectiveness, including skills in nonverbal processing, assessment of different cultural interactional patterns, and the reduction of racism and ethnocentrism. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID COMM 150.

Communication Studies A165 — Men, Women, and Communication — 3 units

Formerly Speech Communications A165
Major issues will be addressed regarding communication behaviors and communication conflicts between men and women of all gender orientations. Study will focus on problem analysis specific to gender self-awareness, gender conflict and how gender is communicated and constructed in our daily lives. Same as Gender Studies A165. Students completing Communication Studies A165 may not receive credit for Gender Studies A165. Lecture. Transfer Credit: CSU.

Communication Studies A170 — Nonverbal Communication — 3 units

Formerly Speech Communications A170
The analysis and application of nonverbal cues and their effect on interpersonal and intercultural communication. Emphasis is on developing effective communication skills as they relate to physical appearance and dress, body movement, face and eye communication, vocal cues which accompany spoken words, and the use of environment and space. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Communication Studies A180 — Introduction to Mass Communications — 3 units

Formerly Mass Communications A100
A survey of major mass mediums and their influence on the artistic and cultural expression of contemporary society. Appreciate the aesthetics of and evaluate radio, television, film, print media, and Internet. Advertising, PR, media law and ethics are covered. Students learn analytical skills to help become critical consumers/developers of media. Lecture. Transfer Credit: CSU, UC, C-ID JOUR 100.

Communication Studies A185 — Public Relations — 3 units

Formerly Mass Communications A140
Advisory: English A100.
Introduction to the basic principles, components, and techniques of effective public relations. Topics include publicity and promotion, advertising, media and community relations, and approaches to problem solving. Same as Business A185. Students completing Communication Studies A185 may not receive credit for Business A185. Lecture. Transfer Credit: CSU.

Communication Studies A220 — Essentials of Argumentation — 3 units

Formerly Speech Communications A130
Theory and practice of argumentation and persuasion with emphasis on critical thinking skills as they apply in listening, speaking, and writing. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID COMM 120.

Communication Studies A240 — Media Literacy — 3 units

An introduction to the critical consumption of media. Focuses on ability to access, analyze, & evaluate media messages. Develop tools to evaluate credibility, truth & accuracy through critical examination of news, opinion, advertising, PR, entertainment, and social media. Explore political/ economic/social contexts of media production & consumption. May be offered online. Lecture. Transfer Credit: CSU.

Computer and High Technology A100 — Computer Use in Technology — 3 units

An introduction to the current state of computer hardware and software technology for the student enrolled in technical courses. An overview for the person who wants to understand computers and automation in industry. Not a programming course. Lecture. Transfer Credit: CSU.

Computer Information Systems A090 — Beginning Computer Keyboarding 1 — 1.5 units

The student will develop basic keyboarding skills on a computer keyboard using correct stroking techniques on letter, number, and symbol keys. Emphasis on developing accuracy and speed. No credit will be given to students who can already type 30 words per minute. This course may also be offered online. Offered on a pass/no-pass basis only. Lecture, Lab.

Computer Information Systems A091 — Keyboarding Speed and Accuracy — 1.5 units

Prerequisite: Computer Information Systems A090.
Development of keyboarding skill on a microcomputer for students who know how to type by touch. Speed and accuracy development using a variety of learning aids and software for diagnostic, prescriptive drills. May be taken concurrently with another typing course if desired. Offered on a pass/no-pass basis only. This course may also be offered online. Lecture, Lab.

Computer Information Systems A092 — Beginning Computer Keyboarding 2 — 1.5 units

Prerequisite: Computer Information Systems A090.
Keyboarding on the computer for students who can type by touch control and know alphabetic, numeric, and symbolic keys presented in Computer Information Systems A090. Emphasis on speed and accuracy on straight copy material, introduction to MS Word, formatting of memos, personal letters, business letters, one-page reports, and simple tables. This course may also be offered online. Offered on a pass/no-pass basis only. Lecture, Lab.

Computer Information Systems A093 — Beginning Computer Keyboarding 3 — 1.5 units

Prerequisite: Computer Information Systems A090.
Keyboarding on the computer for students who can type by touch control. Emphasis on word processing, spreadsheets, multimedia presentations, Internet, and social networking tools. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. Offered on a pass/no-pass basis only. Lecture, Lab.

Computer Information Systems A100 — Introduction to Computer Applications — 3 units

Advisory: Computer Information Systems A090 or equivalent.
Introductory computer course for MS Windows and applications. Students learn about the computer operating system and software applications for word processing, spreadsheets, multimedia presentations, Internet, and social networking tools. Provides preparation for students seeking MOS certification. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Computer Information Systems A106 — Introduction to Linux: LPI Certification Preparation — 3 units

Advisory: Computer Information Systems A110.
This course provides an overview of the Linux operating system through the basic administration level. The student will be introduced to the configuration of Linux software and hardware, User and Group creation and management, process management, Linux rights and security. This course prepares the student for the Linux Professional Institute Linux Server Professional Server Certification. This course may be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A110 — PC Concepts: A+ Certification Preparation — 4 units

Introduces the hardware and operating system concepts of a personal computer and the broad range of hardware and software technologies. Provides preparation for students seeking A+ Certification sponsored by the Computing Technology Industry Association and certifies the competency of entry-level technicians in the computer industry. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A111 — Introduction to Computer Information Systems — 3 units

Introductory course in the applications of information systems in business. Students will learn about Information Systems, hardware and software components, networks, ethics and security issues, e-commerce, and web page design. Use of spreadsheet and database management software to create computer-based solutions to business problems. Meets the lower division computer requirement for business majors at some CSU and UC campuses. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU, UC, C-ID BUS 140.

Computer Information Systems A112 — Educational Applications of Technology — 2 units

Provides the student with the educational applications of technology, including multimedia, Internet skills, graphics, research, video, audio, presentation and computer skills, basic networking processes, downloads, software resources, basic troubleshooting skills, digital cameras, scanners, and basic hardware and software evaluations. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A123 — Web Page Design 1 — 2 units

This course will provide a practical understanding of the HTML tags to design a web page. Notepad and other software tools will be used to teach text formatting commands, background formatting, hyperlinks, e-mail links, tables, forms, image maps, and style sheets. Students will also learn to insert various types of images, videos, and sound files into a web page. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A128 — Introduction to Dreamweaver — 2 units

Advisory: Computer Information Systems A123.
Students will use the Dreamweaver program to effectively create, manage and maintain web sites. Students will work in an environment that includes visual and code editing tools. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.
Course Descriptions

Computer Information Systems A129 — Web Page Design 2 — 2 units
Advisory: Computer Information Systems A123.
This course covers creating and using Cascading Style Sheets for formatting web pages. Intended for students who know how to create web pages using HTML.
This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A132 — Business Multimedia and Graphics — 2 units
The student will use Adobe Studio MX and Adobe Photoshop to create, modify, implement and manage web pages and sites that utilize multimedia interactivity and graphics for personal, business and educational use. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A133 — PowerPoint — 1 unit
Demonstrates how proven, effective presentation techniques can blend with the technology of computer-generated graphics to create dynamic, colorful, and exciting multimedia presentations. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

Computer Information Systems A134 — Excel 1 — 2 units
Topics include spreadsheet concepts, model building, formula development, formula functions, charts, and list functions. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. Same as Business A134. Students completing Computer Information Systems A134 may not receive credit for Business A134. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

Computer Information Systems A135 — Introduction to Microsoft Access — 2 units
An introductory course in database management using Microsoft Access. Concepts include creating and managing tables, query techniques, creating forms and reports, and integrating Access with other programs. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A137 — Microsoft Outlook — 2 units
The basics of communicating by e-mail. Students will use basic computer concepts for learning Microsoft Outlook. Other topics include the use of the calendar, weather, management of contacts, tasks, notes, appointments, mail merge, scheduling, integrating Outlook with other applications, and working in the cloud. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A149 — Office Procedures — 2 units
Advisory: Computer Information Systems A092.
Personal qualities and office skills required of an office assistant in a high tech, multicultural labor force. Office applications generated with Microsoft Office, enhanced verbal and written communications skills, reprographics, telephone and mail procedures, records management, time and stress management, office ethics, and career planning. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A160 — Introduction to UAS Automation — 4 units
Advisory: Computer Information Systems A090 or A100 or A111 or Computer Science A122.
This course introduces students to the automation of Unmanned Aircraft Systems (UAS), including UAS flight control, camera and video capturing, telemetry data analysis and mission management. Throughout the semester, students will work in teams to plan, design and automate Unmanned Aircraft System missions by learning and using Software Development Kits (SDKs) of industry leading UAS providers. UAS projects will include behaviors such as path-following, random roam, obstacle avoidance and telemetry data collection and analysis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A162 — Fundamentals of Information Security — 3 units
Advisory: Computer Information Systems A110 or A191.
This course provides the fundamental knowledge necessary for a student to become proficient in the field of information Security. This course will prepare the student for a wide variety of security responsibilities. The curriculum covers a wide range of security concepts, including: General Security Concepts, Communication Security, Infrastructure Security, Basics of Cryptography, and Operational and Organizational Security. This course covers CompTIA’s Security+ content and provides preparation for students seeking the CompTIA Security+ Certification. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A163 — Windows Desktop Administration — 3 units
Advisory: Computer Information Systems A110.
Provides a study of the procedures necessary to work in operating Windows desktop operating systems. Students will learn to install, deploy, and upgrade the Windows operating system, including ensuring hardware and software compatibility, configure pre-installation and post-installation system settings, security features, network connectivity applications and mobile computing. Students will also be able to maintain systems, including monitoring for and resolving performance and reliability issues. Will help prepare students for the Microsoft Certified IT Professional (MCITP) exams. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A171 — Introduction to JavaScript — 2 units
Advisory: Computer Information Systems A123.
For students who already know how to create Web pages using HTML, this course introduces the fundamentals of JavaScript, a scripting language used to create interactive Web pages. Students will create dynamic Web pages using dialog boxes, forms, menus, rollover buttons, and image manipulation. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A176 — Database Design and Data Warehousing — 3 units
Advisory: Computer Information Systems A162 or equivalent.
Covers the terminology, technology and software used to design and implement a Microsoft SQL Server database. Student will learn to design, create and maintain a database to handle LOB (Line of Business) and DW (Data Warehousing) applications. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A177 — Business Intelligence and Data Mining — 3 units
Advisory: Computer Information Systems A176 or equivalent.
Covers the terminology, technology and software used to build a data warehouse model and prepare that model for data mining. Students will learn how to design and process a data warehouse database using SSIS (SQL Server Integration Services), and format a cube in SSAS (SQL Server Analysis Services) in preparation for data mining operations. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A191 — Network and Communications Technologies — 4 units
Advisory: Computer Information Systems A110.
Provides an introduction to an overview of the field of networking, data communications and connectivity, with an emphasis on terminology, hardware, and software associated with the various components of a network. Provides preparation for students seeking the Network + Certification. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A192 — Network Systems Administration — 3 units
Covers terminology, technology, topologies and software used in the Microsoft Windows network. Students will learn to create user accounts, implement different levels of security, apply diagnostics and back up and maintain the software. Will help prepare students for Certified IT Professional (MCITP) exams. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A193 — Network Infrastructure Administration — 3 units
Advisory: Computer Information Systems A191.
Provides students with knowledge required to setup, configure, and support network infrastructures using the TCP/IP protocol. Topics include IP addresses, point-to-point tunneling protocols, DNS and DHCP services. Will help prepare students for the Certified IT Professional (MCITP) exams. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A194 — Network Directory Services Administration — 3 units
Advisory: Computer Information Systems A191.
Provides a study of the procedures necessary to plan, implement, and troubleshoot directory service infrastructures, including forests and domains, DNS, site topology and replication, and directory strategies. Will help prepare students for Certified IT Professional (MCITP) exams. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.
Computer Information Systems A196 — Network Enterprise Administration — 4 units
Advisory: Computer Information Systems A192.
This course will prepare students for the role of “Enterprise Administrator.” The Enterprise Administration will be responsible for the management of the overall Windows server environment and architecture. The Enterprise Administrator translates business goals into technology decisions and designs mid-range to long-term strategies. The Enterprise Administrator will also be responsible for infrastructure design and global configuration changes. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

Computer Information Systems A197 — Introduction to Networking (Cisco 1) — 3 units
Advisory: Computer Information Systems A191.
Introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. This course provides preparation for students seeking the Cisco CCENT/CCNA Certification. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU. C-ID ITIS 156.

Computer Information Systems A198 — Routing and Switching Essentials (Cisco 2) — 3 units
Advisory: Computer Information Systems A197.
Describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. This course covers Cisco’s CCNA content and provides preparation for students seeking the Cisco CCNA Certification. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A199 — Current Topics in Computer Applications — 1-4 units
Covers topics currently receiving attention in the computer industry. Units vary according to topic selected, semester offered, and the number of meetings scheduled. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A223 — Front-End Development 1 — 2 units
Advisory: Computer Information Systems A129 and A171.
For students who already know how to create web pages using HTML, and understand JavaScript, this course covers advanced features of Front-End development. Topics include closures, advanced JavaScript OOP patterns, utilizing jQuery, manipulating Document Object Model (DOM), and writing AJAX scripts. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A227 — Front-End Development 2 — 2 units
Advisory: Computer Information Systems A223.
For students with advanced JavaScript knowledge. The course will cover the latest technology to build complex Web apps. Topics include TypeScrip foundations and AngularJS 2. This course may also be offered online. Lecture. Transfer Credit: CSU.

Computer Information Systems A232 — Digital Video for Business: Adobe Premiere Pro — 3 units
Advisory: Computer Information Systems A100.
Using Adobe Premiere Pro, Photoshop and After Effects students will acquire practical and current knowledge to acquire, modify and implement digital video, audio, multimedia and graphics for business, educational personal use. Includes: video, audio and digital acquisition methods, hardware and software evaluation and output to varied media. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU.

Computer Information Systems A234 — Excel 2 — 2 units
Advisory: Computer Information Systems A134 or Business A134.
Create templates and macros using Visual Basic for Applications to automate Excel tasks, formula auditing, data validation, complex problem solving, importing data, routing changes, PivotCharts, PivotTables, and trendlines. Provides preparation for students seeking Microsoft Office Specialist (MOS) certification. Same as Business A234. Students completing Computer Information Systems A234 may not receive credit for Business A234. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Computer Information Systems A261 — Fundamentals of Wireless Networking — 3 units
Advisory: Computer Information Systems A197 and A198.
This course provides a comprehensive introduction to the Internet of Things (IoT) — the network of physical objects or “things” embedded with electronics, software, sensors and connectivity to enable it to achieve greater value and service by exchanging data with the manufacturer, operator and/or other connected devices. Each thing is uniquely identifiable through its embedded computing system but is able to interoperate within the existing Internet infrastructure. This course will prepare students to install, configure and maintain these devices. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Lab. Transfer Credit: CSU.

Computer Information Systems A265 — Enterprise Router Configurations 1 — 3 units
Advisory: Computer Information Systems A198.
The course focuses on advanced installation, configuration, and troubleshooting routers. Students will be introduced to routing protocols using Juniper Networks routing platforms. Students develop real-world case studies. Significant time will be allocated for hands-on experience. Provides preparation for students seeking Juniper certification. This course may be offered online. Lecture. Lab. Transfer Credit: CSU.

Computer Information Systems A267 — Scaling Networks (Cisco 3) — 3 units
Advisory: Computer Information Systems A198.
Describes the architecture, components, and operations of routers and switches in a large and complex network. Students learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure, troubleshoot network devices and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network. This course provides preparation for students seeking the Cisco CCENT/CCNA Certification. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A268 — Connecting Networks (Cisco 4) — 3 units
Advisory: Computer Information Systems A198.
Discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and LAN technologies to meet network requirements. Students learn how to configure and troubleshoot network devices and resolve common issues with data link protocols. Students also develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network. This course provides preparation for students seeking the Cisco CCENT/CCNA Certification. This course may be offered online. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Lab. Transfer Credit: CSU.

Computer Information Systems A280 — Information and Storage Management — 3 units
The course provides a comprehensive introduction to information storage technology which enables students to make more informed decisions in an increasingly complex IT environment. It builds a strong understanding of underlying storage technologies and prepares students to install, configure and maintain these devices. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.
Computer Information Systems A290 — Small/ Home Office: Case Study 1 — 3 units
Advisory: Computer Information Systems A191 or A261.
This course focuses on developing projects related to small business/home office environments. Students will learn about business continuity, disaster recovery, and security. They will also examine various tools and technologies used in small businesses/home offices. This course may be offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A286 — Visual Basic.NET Programming — 4 units
Advisory: Computer Information Systems A100 or A111.
Students will learn the concepts and capabilities of Visual Basic.NET. This course covers the basics of Visual Basic.NET, including syntax, data types, and control structures. Students will also learn how to create Windows Forms applications. This course is offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A285 — Computer Science A170 — Java Programming 1 — 4 units
Advisory: Computer Information Systems A090 or A100 or A111.
This course covers the fundamentals of Java programming, including syntax, data types, control structures, and object-oriented programming. Students will also learn how to create simple applications using Java. This course is offered online. Lecture, Lab. Transfer Credit: CSU, UC. C-ID COMP 132.

Computer Science A170 — Computer Science A220 — Software Engineering — 4 units
Prerequisite: Computer Information Systems A100 or A111.
This course focuses on software engineering practices and principles. Students will learn how to design, develop, and test software systems. They will also learn how to use version control systems and project management tools. This course is offered online. Lecture, Lab. Transfer Credit: CSU, UC.

Computer Information Systems A191 — Cloud and Management — 3 units
VMware, vSphere: Installation, Configuration, and Management — 3 units
Advisory: Computer Information Systems A110 or A191.
This course covers the basics of VMware ESXi installation, configuration, and management. Students will learn how to install and configure ESXi, create and manage virtual machines, and manage storage resources. This course is offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Information Systems A131 — Programming Concepts and Methodology 1 — 3 units
Advisory: Computer Information Systems A090 or A100 or A111.
This course introduces the basic concepts and principles of computer science. Students will learn about data types, control structures, and algorithms. This course is offered online. Lecture, Lab. Transfer Credit: CSU, UC. C-ID COMP 122.

Computer Science A132 — Programming Concepts and Methodology 2 — 4 units
Prerequisite: Computer Science A122.
This course continues the study of computer science concepts and principles. Students will learn about object-oriented programming, data structures, and algorithms. This course is offered online. Lecture, Lab. Transfer Credit: CSU, UC. C-ID COMP 132.

Computer Science A140 — Introduction to Programming — 3 units
Advisory: Computer Information Systems A090 or A100 or A111.
This course introduces the basics of programming, including syntax, data types, and control structures. Students will also learn how to create simple applications using programming languages. This course is offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Science A142 — Programming Language 1 — 4 units
Prerequisite: Computer Science A131 or A140 or A142 or A170.
This course covers the fundamentals of programming languages. Students will learn about data types, control structures, and algorithms. This course is offered online. Lecture, Lab. Transfer Credit: CSU.

Computer Science A170 — Java Programming 1 — 4 units
Prerequisite: Computer Information Systems A090 or A100 or A111.
This course introduces the Java programming language. Students will learn about syntax, data types, control structures, and object-oriented programming. This course is offered online. Lecture, Lab. Transfer Credit: CSU, UC. C-ID COMP 142.
Computer Science A250 — C++ Programming Language 2 — 4 units
Prerequisite: Computer Science A150.
Second course in ANSI/ISO Standard C++ programming language. Topics include sorting and searching, data structures, operator overloading, memory management, exception handling, name scope management, polymorphism, templates, STL containers, STL algorithm and iterators, GUI relational database and functional programming. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Computer Science A257 — Boolean Algebra and Logic — 3 units
Prerequisite: Computer Science A122 or A131 or A140 or A150 or A170.
An introduction to the discrete structures used in Computer Science. Graphics covered include basic logic, proof techniques, relations, Boolean algebra, logic gates, languages and grammars, finite-state machines, and Turing machines. Lecture. Transfer Credit: CSU.

Computer Science A262 — Discrete Structures — 3 units
Prerequisite: Computer Science A122 or A131 or A140 or A150 or A170.
An introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: Functions, relations and sets; basic logic; proof techniques; basics of counting, graphs and trees; and discrete probability. Lecture. Lab. Transfer Credit: CSU, UC C-ID COMP 152.

Computer Science A272 — Java Programming 2 — 4 units
Prerequisite: Computer Science A170.
A second course in Java programming language. Topics include object-oriented design, inheritance, interfaces, abstract classes, I/O & exceptions, generics, regular expressions, networking, databases, web applications, GUI construction, graphics and multimedia, Java collections, data structures, and multithreading. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Computer Science A273 — Mobile Application Development in Android — 4 units
Prerequisite: Computer Science A250 or Computer Science A272.
This course covers how to develop applications for smartphones and tablets with the Android open-source platform. Topics include the Model-View-Controller architecture, designing and handling user input, defining activity layouts, application events, displaying images, managing navigation and core device features, such as GPS, accelerometers and touch gestures. Students will leverage and expand their Java programming knowledge to build mobile applications from start to finish. Lecture, Lab. Transfer Credit: CSU.

Computer Science A280 — Current Topics in Computing — 1-4 units
Course covers topics currently receiving attention by the computer industry. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

CONSTRUCTION TECHNOLOGY

Construction Technology A100 — Principles of Construction — 1.5 units
An introductory course to construction covering, hand and power tools, building code development and applications, blueprints, license and contract law, jobsite safety and construction trades. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Construction Technology A112 — Stair Framing — 2.5 units
Topics of instruction include stair design, building codes, calculations, layout and construction. Practical instruction is given in the use of tools and materials through construction laboratory work. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU.

Construction Technology A114 — Cabinet Making — 4 units
Introduction to wood as a building material. Instruction to basic wood and machine tools to bring forth the structural and visual potential of the material. The basic skill set includes two-dimensional design and drawing concept development, furniture history, and studio practices. Two items are selected by the staff as a platform for skill mastery demonstration. Lecture. Lab. Transfer Credit: CSU.

Construction Technology A116 — Furniture Making and Design — 4 units
The basic rules of furniture design and production with emphasis on wood selection, hand tool use, and a review of woodworking machinery. Advanced students will design and build more complex furniture pieces using more advanced techniques. Same as Art A116. Students completing Construction A116 may not receive credit for Art A116. Lecture. Lab. Transfer Credit: CSU.

Construction Technology A125 — Additions and Remodeling — 5 units
An introductory course to the fundamentals of residential remodeling and additions. Topics of instruction include: planning and design, blueprint reading, permit process, and building codes. Practical instruction is given in the use of tools and materials through hands on laboratory work. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU.

Construction Technology A126 — Steel String Guitar Making and Design I — 4 units
This course teaches the theories, design, methods, and means of building a steel string acoustic guitar. Focus is on the primary aspects of guitar design and the structural elements. Students will also learn the more intricate details involving the process of guitar making and finishing strategies. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A127 — Steel String Guitar Making and Design II — 4 units
Prerequisite: Construction Technology A126. Students will learn advanced theories, designs, methods, and means of building a steel string acoustic guitar. The focus is on detail aspects of the building process and instrument performance properties. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A150 — Electronics for Electricians — 4 units
Introduction to basic DC and AC circuits and electronic devices. Covers history of electronics, basic electricity, math, circuit theory, circuit components, digital electronics, schematics, test equipment. Labs will cover practical applications of all covered topics. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A154 — Residential Drywall and Taping — 1.5 units
The study of various aspects of interior drywall, including layout and installation of drywall, corner bead and bullnose trim. Students will learn how to estimate drywall projects. They will tape the interior of a house using hand tools. Students will be introduced to professional tools such as Bazooka™, 7 & 12 inch boxes, corner angles and corner finishers, mud runners and hand tools, texture application using a 10 gallon texture sprayer and smaller hoppers. Students will apply several different textures such as knockdown, orange peel, splatter and roller finish. Patch and drywall repair to match existing finishes. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A155 — Structured Wiring Installation — 2 units
Advisory: Construction Technology A275.
Wiring for interior low voltage systems, including layout and construction methods, code requirements, both sizing and installation standards, emphasis on material conservation practices and compliance with the National Electrical Code. Lecture. Lab. Transfer Credit: CSU.

Construction Technology A156 — National Electrical Code — 2 units
This course is designed to provide those currently working in the electrical field with training that will keep them current with NEC standards that are updated every three years. Hours earned in this course may be applied toward the mandatory 32 hours of training required for license renewal. Lecture. Transfer Credit: CSU.

Construction Technology A157 — Photovoltaic System Installation — 4 units
Presents principles of Photovoltaic Systems and incorporates hands-on activities for all topics. Solar Energy fundamentals and applications, electricity and safety basics, PV modules, system components, system sizing, electrical design, mechanical design and performance analysis and troubleshooting. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A158 — Photovoltaic System Installation 2 — 4 units
Prerequisite: Construction Technology A157.
Continuation of Photovoltaic Systems principles. Incorporates hands-on activities for all topics, Solar Energy fundamentals and applications, electricity and safety basics, PV modules, system components, system sizing, electrical design, mechanical design and performance analysis and troubleshooting. Lecture, Lab. Transfer Credit: CSU.

Construction Technology A161 — Solar Water and Pool Heating Installation — 4 units

Construction Technology A165 — Construction Safety/CAL OSHA — 3 units
Regulations related to general construction safety. Meets the requirements and follows the guidelines for 30-hour OSHA Construction Outreach Training. U.S. Department of Labor cards will be issued upon successful completion of this course. Lecture. Transfer Credit: CSU.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A170</td>
<td>Introduction to Construction</td>
<td>3</td>
<td>Fundamentals of the construction industry; terminology and procedures; an overview of trades, skills, and processes. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A190</td>
<td>Building Construction 1</td>
<td>5</td>
<td>Technical and practical experience to complete floor and wall framing of a house including underpinning, wall layout, and wall construction up to the ceiling joists. Estimating of materials, basic surveying, and concrete foundation formwork are also covered. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A195</td>
<td>Blueprint Reading and Drafting</td>
<td>4</td>
<td>Develop blueprint reading and drafting skills in all aspects of residential construction to acquire a realistic understanding of prints and sketches as a means of communication in construction. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A196</td>
<td>Concrete Construction</td>
<td>5</td>
<td>Concrete flatwork and foundations, hands-on surveying, forming and finishing concrete, poured-in-place reinforced concrete, concrete stairs, estimating concrete. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A211</td>
<td>Decorative Concrete</td>
<td>3</td>
<td>An introductory course in decorative concrete. Topics covered include: stamped concrete, decorative borders, staining, stencils, engraving, polishing, and overlays. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A220</td>
<td>Construction Estimating</td>
<td>3</td>
<td>Construction estimating including bid preparation, material quantity take-off and analysis, subcontractor bids, bidding practices and final bid form compilation and submittal. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A225</td>
<td>Land and Building Development</td>
<td>3</td>
<td>A general survey of land development principles and procedures used prior to the actual construction of structures. Site analysis and planning, regulatory controls, obtaining entitlements, grading, road and street designs, utility systems, principles of real property, and project financing will be covered. Same as Architectural Technology A225. Students completing Construction Technology A225 may not receive credit for Architectural Technology A225. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A230</td>
<td>Construction Inspection</td>
<td>3</td>
<td>Inspection procedures and techniques of testing. A study of the various building code requirements in the International Residential Code and Title 24 of the California State Code. Plans, specifications, earthwork, grading foundations, concrete and framing are covered. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A235</td>
<td>Contractor's Business Practice</td>
<td>3</td>
<td>Fundamentals of the construction industry; terminology and procedures; an overview of its trades, skills, and processes. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A240</td>
<td>Specialty Trades</td>
<td>5</td>
<td>This course covers interior and exterior building finishes and stairs, including layout fabrication and installation of stairs; an introduction to framing for door and window installation including hardware; interior and exterior millwork; molding; and interior drywall and exterior siding, stucco plastering. Building codes are included. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A250</td>
<td>Construction Supervision and Project Management</td>
<td>3</td>
<td>The combination of designing, estimating, contracting, financing and building must be understood and practiced. Leadership in this field means being responsible for many people, their work and their safety. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A260</td>
<td>Masonry Construction</td>
<td>5</td>
<td>Covers masonry materials, construction and blueprint reading with estimating, construction masonry block walls, paving, veneering, brick and stone pavilions, brick walls and planter boxes, stucco over masonry. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A270</td>
<td>Contractor's License Law</td>
<td>1.5</td>
<td>Preparation for the California State Contractor Examination in any classification. Includes state license law, civil code, civil procedure, labor law, contract law, and asbestos regulations. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A275</td>
<td>Residential Electrical Wiring</td>
<td>5</td>
<td>Wiring for interior electrical systems including layout and construction methods, code requirements, both sitting and installation standards, emphasis on material conservative practices, and compliance with the National Electrical Code. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A285</td>
<td>Residential Steel Frame Construction</td>
<td>5</td>
<td>A comprehensive hands-on course that covers the fundamentals of utilizing light frame steel for residential framing in place of wood. Raised floor construction, wall framing and braced roof fabrication and installation including applicable building codes, blueprint reading, estimating, and inspections are covered. Lecture, Lab. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A290</td>
<td>Construction Contracts and Specifications</td>
<td>3</td>
<td>Prerequisite: Management level in construction. A study of construction contracts and their administration, elements of contract law, contract documents, AIA general and supplementary conditions, competitive bidding, bonding and insurance, unions and wage rates, specifications. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A295</td>
<td>Construction Law</td>
<td>1.5</td>
<td>Introduces new students to college services and facilities, academic policies and procedures, and support services available to students. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>A300</td>
<td>Counseling A100 Introduction to College</td>
<td>1</td>
<td>Introduces new students to college services and facilities, academic policies and procedures, and support services available to students. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.</td>
</tr>

</table>
Counseling A101 — New Horizons for Adults Returning to College — 1 unit
An orientation course designed to assist adults re-entering academic life. Orientation to O.C.C. and higher education will be offered. Topics will include career development, life change, study skills, time management, life transitions, job skills, self-esteem, assertion, and communication skills. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Counseling A104 — Career and Life Planning: A Holistic Approach — 3 units
In depth career and life planning. Designed primarily for students uncertain about educational-occupational plans. Standpoint, tests of interests, personality characteristics, and values are utilized to develop a systemic approach to career and life development. This course emphasizes the importance of taking personal responsibility for one’s educational, career and personal decisions. Emphasis on achieving through work and life balance. This course may also be offered online. Lecture. Transfer Credit: CSU.

Counseling A105 — Strategies for College Success — 3 units
Formerly Counseling A102
This is a course designed to integrate personal growth, critical and creative thinking, problem solving and academic and career success. Topics include study techniques, orientation to higher education and resources, life skills, academic planning, and personal development. For all students wishing to improve their success in college. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Counseling A107 — Chicana/o & Latina/o Experience in Higher Education — 3 units
Advisory: English A099
Counseling practices will be applied to explore factors that contribute to a successful experience in higher education for Chicana/o and Latina/o students. An examination of the educational experience of the Chicana/o and Latina/o community in the United States. Emphasis on understanding the background of Chicana/o and Latina/o students in relation to current educational conditions and trends. Lecture. Transfer Credit: CSU, UC.

Counseling A107H — Chicana/o & Latina/o Experience in Higher Education Honors — 3 units
Advisory: English A099
Counseling practices will be applied to explore factors that contribute to a successful experience in higher education for Chicana/o and Latina/o students. An examination of the educational experience of the Chicana/o and Latina/o community in the United States. Emphasis on understanding the background of Chicana/o and Latina/o students in relation to current educational conditions and trends. Lecture. Transfer Credit: CSU.

Counseling A109 — Developing and Understanding Happiness — 3 units
Study of current research and the practical application of research to attain sustainable increases in well-being in order to live a fulfilling life. Will explore such questions as: What is happiness? How do we measure it? What is the evolutionary significance of positive emotion? Topics include the role of happiness, love, spirituality, relationships, forgiveness, and mindfulness. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Counseling A110 — Applied Stress Management — 2 units
This course is designed to respond to the need to understand and manage personal stress. Symptom identification and management techniques will be emphasized. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Counseling A120 — Career Decision Making — Accelerated — 2 units
An accelerated class designed for students who are uncertain about their educational-occupational plans. Career inventories are used along with non-test data to evaluate occupational choices. This course may also be offered online. Offered on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Counseling A135 — Principles of Effective Parenting — 3 units
Designed for students who are interested in improving parenting skills and promoting healthy functioning in the context of all relationships. The course focuses on developing healthier interpersonal relationships that ultimately increase self-awareness and self-esteem which are essential to effective parenting and personal success. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Counseling A170 — College Major Search — 1 unit
This course is designed to facilitate a student’s exploration and selection of a college major. Students will examine and apply a decision-making process in identifying their academic interests and develop an educational plan based on a major selection. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

Counseling A199 — Topics in Counseling — 5-3 units
Present, discuss, and study personal development issues. Introduce student to campus resources. Topics will change each semester. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

CULINARY ARTS

Culinary Arts A100 — Introduction to the Hospitality Industry — 3 units
Overview of the hospitality industry, its history and interrelationships of hotel, restaurant, travel and leisure industries. Economic and social influences of leisure. Emphasis on attitude required of a person seeking a position in the industry. Same as Food Service Management A100 and Hospitality, Travel & Tourism A100. Students completing Culinary Arts A100 may not receive credit for Food Service Management A100 or Hospitality, Travel & Tourism A100. This course may also be offered online. Lecture. Transfer Credit: CSU.

Culinary Arts A120 — Culinary Principles 1 — 3 units
Prerequisite: Food Service Management A160.
Fundamentals of food preparation and cookery, emphasizing quality standards of production and the basic cooking methods as used in the modern commercial kitchen. Laboratory work includes knife skill, vegetable cuts, preparation of vegetables, soups, stocks, and sauces. High standards of professionalism, sanitation, and proper work habits will also be emphasized. Class requires purchase of a set of knives. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A122 — Culinary Principles 2 — 3 units
Prerequisite: Culinary Arts A120.
Focus on the basic cooking methods as they apply to the major cuts of beef, veal, lamb, pork, poultry, and seafood. Portion control and proper boning techniques will be demonstrated and practiced. Quality standards of food presentation and achieved proper flavor through the correct application of the principles and processes of modern cookery will be practiced. High standards of professionalism, sanitation, and proper work habits will also be emphasized. Course requires purchase of a set of knives. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A124 — Principles of Baking 1 — 2 units
Prerequisite: Food Service Management A160.
Study the fundamentals of baking, including ingredient composition and function, preparation and evaluation of yeast, roll-in yeast, and quick breads, biscuits and muffins, cookies, sheet doughs, and westerns. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A126 — Principles of Baking 2 — 2 units
Prerequisite: Culinary Arts A124.
Advanced course in pastry arts production, including puff pastry, foam cakes, classical European tortes, pastry fillings, merengues, cake decorating, chocolate handling, glazes, icings, tarts, and pate a choux. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A131 — Principles of Artisan Bread — 3 units
Prerequisite: Culinary Arts A124.
Study in fundamentals of bread development. Analysis of ingredient composition and function of natural and manufactured yeasts as it interacts with pre-ferments, leavins, sourdough rye, and straight doughs. Bakers’ percentages and recipe conversions will be examined with international weight standards. Students will be required to follow hospitality department dress standards. Field trips required. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A149 — Pantry — 2 units
Prerequisite: Food Service Management A160.
Methods of pantry and breakfast preparation, including proper use of cook’s knife, preparation and presentation of salad and salad dressings, proper vegetable and fruit cuts, and vegetable and fruit identification. Basic cooking methods applied in breakfast service will be covered. Students will also learn to use standardized recipes and practice quantity food preparation. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A170 — Culinary Team Competition — 1-4 units
Prerequisite: Culinary Arts A120, A124, A149.
Team members are selected through an application process arranged by the Program Coordinator for Culinary Arts. Students will participate in weekly and bi-weekly practice sessions and ultimately compete in the American Culinary Federation’s Student Team Competition. Lecture. Lab. Transfer Credit: CSU.
Culinary Arts A215 — Directed Practice for Culinary Arts 1 — 2 units
Prerequisite: Culinary Arts A120, A124, and A149.
Advisory: Culinary Arts A122.
This is a directed practice opportunity for Culinary Arts which includes practical training in the OCC cafeteria operation. Students will rotate through the major areas in the kitchen in supervised settings. Students will be required to follow Culinary Department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A226 — Principles of Pastry Arts — 3 units
Prerequisite: Culinary Arts A126.
Advanced course of pastry arts emphasizing chocolate artistry and confections, sugar work, marzipan, and decorated cakes. Students will also learn applications of cutout, stencils, and molds for decorated plated desserts and specialty cakes. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Culinary Arts A236 — Directed Practice for Baking and Pastry 1 — 2 units
Prerequisite: Culinary Arts A124.
Advisory: Culinary Arts A126.
A directed opportunity for on-the-job baking and pastry training that includes practical training at OCC bakery in quantity bakery production. Students will be required to follow dress standards and company policies of conduct, set by the facility in which they are working. TB clearance required. Six hours of seminar, 120 work hours arranged. Transfer Credit: CSU.
Dance A113 — Pointe Work — 1-2 units
Advisory: Intermediate-level ballet technique.
A course teaching the technique and movement skills needed to perform classical ballet on “pointe.” Includes preparation and care of pointe shoes. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A115 — Yoga for Dancers — .5-2 units
Using traditional yoga postures and breathing techniques, this course is designed for the needs of the training dancer. Yoga postures to increase strength and flexibility, as well as restorative postures will be taught in order to bring about improvement in the execution of dance movements. Instruction at the beginning, intermediate, and intermediate/advanced levels is offered. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A116 — Latin Dance Styles 1 — .5-2 units
This course is designed to teach Latin dance styles, including the following dances: cha-cha, merengue, tango, and salsa. Styling, rhythm, and partnering will be taught, as well as the cultural and historical background on the evolution of these dance forms. This course offers instruction at the beginning, low intermediate, intermediate, and high intermediate levels. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A117 — American Social Dance Styles — .5-2 units
This course is designed to teach American social dance styles, including the following dances: footwork, waltz, swing, and Lindy hop. Styling, rhythm, and partnering will be taught, as well as the cultural and historical background on the evolution of these dance forms. This course offers instruction at the beginning and intermediate levels. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A118 — Dance Workout for the Maturing Body — 1-2 units
Using a basic dance workout combined with dance conditioning exercises, this course will consider the fitness and wellness needs in the maturing body. Coordination, efficient posture, an ease in body alignment, range of motion, strengthening of muscles, breathing, and improvement in functional movement will be addressed. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A119 — Kinesiology for Dance — 3 units
This course is designed to introduce students to the basic principles of kinesiology focusing on the key body joints including the spine, shoulder, hip, knee, ankle, and foot. It addresses the specific needs of dancers and Pilates students. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Dance A120 — Jazz Dance 1 — .5-2 units
A technique course in the study of various jazz styles. Emphasizes the use of energy, rhythm, improvisation while emphasizing body control, alignment, use of weight changes and quality within a jazz dance movement vocabulary. Instruction at the beginning level. Students should be prepared to participate at the first class meeting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A121 — Jazz Dance 2 — .5-2 units
Advisory: Dance A120 or successful audition.
A technique course in the study of various jazz styles. Emphasizes the use of energy, rhythm, improvisation while emphasizing body control, alignment, use of weight changes and quality within a jazz dance movement vocabulary. Instruction at the intermediate level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A125 — Tap 1 — .5-2 units
Tap dance techniques based on the style known as rhythm tap emphasizing fundamental skills and rhythms, time steps, flash footwork, short combinations, and styling. Instruction at the beginning level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A126 — Tap 2 — .5-2 units
Advisory: Dance A125 or successful audition.
Tap dance techniques based on the style known as rhythm tap emphasizing fundamental skills and rhythms, time steps, flash footwork, short combinations, and styling. Instruction at the intermediate level. Course may be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A129 — Pilates Methodology — 3 units
Prerequisite: Intermediate to advanced level skills in Pilates technique. This prerequisite will be validated during the first week of the course.
Designed for Pilates students to learn how to teach classes in Pilates techniques and dance conditioning for adults or teens in a variety of settings. This class covers assessment, goal setting, lesson plans, communication, cueing, precautions, and modifications for Pilates clients. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A130 — Mid-Eastern Dance 1 — .5-2 units
A technique course emphasizing the social and stage dances from the region designated as the Near and Middle East. Incorporates choreography, improvisation, movement vocabulary and styling, and finger cymbal playing. Instruction at the beginning and intermediate levels. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A133 — Introduction to World Dance — .5-2 units
This is an introductory level course designed to survey dances of selected world dance cultures. Through movement experiences and lecture/discussion, students will gain the movement technique and understanding necessary to perform the selected dances. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A135 — Flamenco Dance 1 — .5-2 units
A technique course in the study of various dance forms and rhythms in flamenco dance. Emphasizes proper alignment, rhythm, footwork and arm work within a flamenco dance movement form. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A137 — Classical Dance of India — .5-2 units
A beginning level course that teaches the footwork, gestures, movement, music and history of Bharata Natyam dance style from Southern India. Includes lectures and field trips to introduce students to Indian culture and rituals. For dancers and non-dancers. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A138 — African Dance and Drumming 1 — .5-2 units
A movement course in focusing on the learning of traditional and contemporary dances of various African cultures, especially those of Nigeria and Ghana. Students will learn the fundamental elements of dance and song forms including polyrhythms, “call and response” (drummer/dancer/singer), integration of movement to live drumming, as well as information about the integral link between dance and the social/religious aspects of African cultures. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A139 — Gyrokinesis — .5-2 units
Designed for beginning level students, this course will present an introduction to Gyrokinesis, an important component of the Julius Horvath Method. The entire body is worked through fluid exercises focusing on the natural directions of spinal movements and joint articulations. The course will involve participatory labs and skills demonstrations. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A140 — Folk Dance — .5-2 units
Emphasis on the knowledge of folk dance and the background which shapes the origins, themes and style of the dance. Fundamental elements of dance, rhythms and information about the link between dance and its cultural background. One particular culture will be focused on each semester. Topics may include folk dances from South America, North America, Europe, the Middle East and Asia. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Dance A143 — Jazz Dance 3 — 2 units
Advisory: Dance A121 or successful audition.
This course offers jazz dance instruction for dancers at the high intermediate level. It includes thorough warm up exercises, technique, vocabulary skills and concepts to prepare the body as an instrument of expression in Jazz dance, with emphasis on lyrical and contemporary techniques. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A144 — Ballet 3 — 2 units
Advisory: Dance A111 or successful audition.
A technique course on classical ballet, emphasizing movement skills at the barre, in center floor and traveling patterns. Instruction is at the high intermediate level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A145 — Modern Dance 3 — 2 units
Advisory: Dance A102 or successful audition.
This course offers modern dance instruction for dancers at the high intermediate level. It includes thorough warm up exercises, technique, vocabulary skills and concepts to prepare the body as an instrument of expression in modern dance, with emphasis on Nikolais, Horton and contemporary techniques. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Dance A146 — Tap 3 — 1 unit
Advisory: Dance A126 or successful audition.
This course offers tap dance instruction at the high intermediate level, teaching techniques based on the style known as rhythm tap, emphasizing toe, heel, ground, syncopated footwork, fundamental skills and rhythms, time steps, short combinations, and styling. Students should be prepared to participate at the first class meeting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.
Dance A147 — Flamenco Dance 2 — 5.2 units  
Prerequisite: Successful audition. This prerequisite will be validated in class during the first week of the course. A technique course in the study of various dance forms and rhythms in flamenco dance. Emphasizes proper alignment, rhythm, footwork and arm work within a flamenco dance movement form at an intermediate and advanced level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A148 — Mid-Eastern Dance 2 — 5.2 units  
Prerequisite: Successful audition. This prerequisite will be validated in class during the first week of the course. A technique course emphasizing the social and stage dances from the region known as the Near and Middle East. Incorporates choreography, improvisation, movement vocabulary and styling, and finger cymbal playing. Instruction at the intermediate/advanced levels are offered. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A149 — Hip-Hop Dance 1 — 5-2 units  
Instruction in the movement vocabulary and technical skills that are needed for the dance style known as Hip-Hop. Explores the use of space, energy, rhythm, and improvisation while emphasizing body control, alignment, balance, and use of weight changes. Instruction at the beginning and intermediate levels. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

Dance A150 — Dance Improvisation 1 — 1 unit  
Directed exploration of dance movements including use of space, dynamics and rhythm as expressed through individual movement vocabulary. Designed for all levels. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

Dance A151 — Pilates as a Profession — 1 unit  
For students planning a career in Pilates, including Pilates-related career options, and resumes, contracts, fees, insurance and other aspects of Pilates as a business. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

Dance A152 — Pilates Apparatus and Mat Work Level 1 — 1-2 units  
A beginning level course emphasizing alignment and corrective work based on exercises and concepts developed by Joseph H. Pilates using apparatus and mat work. Focus is on improved body alignment, strength, flexibility, control, coordination, and breathing. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A153 — Pilates Apparatus and Mat Work Level 2 — 1-2 units  
An intermediate course emphasizing alignment and corrective work based on exercises and concepts developed by Joseph H. Pilates using apparatus and mat work. Focus is on improved body alignment, strength, flexibility, control, coordination, and breathing. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A154 — Latin Dance Styles 2 — 1 unit  
Prerequisite: Dance A116. An intermediate course in Latin dance styles designed to teach intermediate patterns and choreography of merengue, bachata, and salsa, and/or other Latin dances. Course will emphasize basic lifts and dips, styling, partnering, rhythm, cultural background material and choreography. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A155 — African Dance and Drumming 2 — 1 unit  
Prerequisite: Dance A138. This intermediate level African dance course focuses on traditional African dances, drumming and songs from Guinea, West Africa. Each class is accompanied by live drumming, an integral, dynamic support to African dance. Additionally, students will study Afro-Haitian and/or Afro Cuban dances, songs and drumming. The course includes information about the integral link between dance and the social/religious aspects of African culture. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A159 — Hip-Hop Dance 2 — 1 unit  
Prerequisite: Dance A149. Instruction in the movement vocabulary and technical skills that are needed for the dance style known as Hip-Hop. Explores the use of space, energy, rhythm, and improvisation while emphasizing body control, alignment, balance, and use of weight changes. The focus of this course will be on the use of space, turns, axial improvisation and choreography. Instruction is at the intermediate level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A160 — Dance Composition/Choreography 1 — 3 units  
Advisory: Intermediate to Advanced technique levels in modern dance, jazz, or ballet. A composition course for dancers with intermediate to advanced technique levels in modern dance, jazz or ballet. This course emphasizes basic skills in dance composition, problem solving and exploration of dance elements: space, shape, time and energy. Students will learn to analyze choreography, create short dance studies and learned established choreographers through a variety of assignments. Students should be prepared to dance the first day. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A162 — Dance Composition/Choreography 2 — 3 units  
Prerequisite: Dance A160. This skill level will be validated in class during the first week of the course. Advisory: Intermediate to Advanced technique levels in modern dance, jazz, or ballet. A composition course designed for dancers with intermediate and advanced technique levels in modern dance, ballet and jazz. This course explores dance composition elements: space, shape, time and energy. Methods for crafting movement phrases and short dances. Through a variety of assignments students will learn how to develop themes and motifs, choose music, direct rehearsals, collaborate and learn about established choreographers and their work. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A165 — Latin Dance Styles 3 — 1 unit  
An Intermediate/Advanced course in Latin Dance Styles designed to teach intermediate/advanced patterns and choreography of Cha-Cha, Tango, Salsa and/or other Latin Dances. The course will emphasize intermediate lifts and dips, styling, partnering, complex rhythm patterns and choreography. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Dance A166 — African Dance & Drumming 3 — 1 unit  
This intermediate/advanced level African dance course focuses on traditional and ritual West African dances, drumming, rhythms and songs from Guinea ("Kokalele"), Senegal ("Susu") and Burkina Faso ("Fologolo") and/or others. Each class is accompanied by live drumming, an integral, dynamic support to African dance. Additionally, students will create and perform short group compositions, "village dances" based on vocabulary and rhythms. The course includes information about the integral link between dance and the social/religious aspects of African culture. May be taken for grade or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Dance A169 — Hip-Hop Dance 3 — 1 unit  
Advisory: Dance A149. Instruction in the movement vocabulary and technical skills that are needed for the dance style known as Hip-Hop. Explores the use of space, energy, rhythm and improvisation while emphasizing body control, alignment, balance, and use of weight changes. This course will focus on further developing the understanding of movement vocabulary, dynamics, performance techniques, and choreographic principles related to the dance style known as Hip-Hop. Instruction is at the intermediate/advanced level. May be taken for grades or on a pass-no pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A170 — Music for Dancers — 2 units  
Assists the dancer-choreographer (non-musician) in building a knowledge of the fundamentals of music through the limited study of music theory, notation and instrumentation. The course is designed to present the development of music and dance in historical perspective, to develop through listening an awareness of the musical literature available, to train dancer and musician to work together through development of a common vocabulary and a working knowledge of each other’s craft. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Dance A171 — Modern Dance Basics — 2 units  
This course is designed for students with no previous modern dance experience. It will focus on basic modern dance techniques: alignment, articulations of the spine and extremities, floor exercises, movement vocabulary, creative exercises and explorations of space, time, energy and weight/gravity — in order to prepare the body as an instrument of expression. Modern dance is a barefoot dance style that began in the United States in the early 1930’s as a rebellion against ballet’s upright torso, ethereal lines and literal storytelling themes. This course will continue the modern dance tradition of exploring abstract, structured dance movement, incorporating artistic concepts and personal expression. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A172 — Ballet Basics — 2 units  
A course designed for students without previous knowledge of ballet. This course introduces movement principles and concepts of classical ballet technique. Attention is focused on correct body alignment of the spine, the proper use of “turn out” at the hip and the correct placement and use of feet. The course presents basic ballet terminology, barre, ballet stretches, center floor and traveling patterns. Instruction is at the most basic level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.
**Dance A173 — Jazz Dance Basics — 2 units**
A technique course in the study of jazz dance basics. Emphasizes the use of energy, rhythm, body control, alignment, use of weight changes, coordination and dynamics within a jazz dance movement vocabulary. Instruction at the basic level. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

**Dance A174 — Tap Dance Basics — 1 unit**
This tap dance course is designed for students with no previous tap dance experience. It will focus on basic rhythm exercises, music listening, tap dance techniques and tap history. Emphasis will be placed on correct execution of tap dance rudiments, coordination, shifts of weight, basic time steps, short combinations, and styling. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Dance A191 — Classical Technique and Variation Workshop — 1-2 units**
Advisory: Intermediate level ballet technique.
This course is designed to offer classical technique and variations of a selected period and style for the intermediate and advanced ballet dancer. Students should be prepared to participate at the first class meeting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Dance A199 — Current Dance Topics — .5-3 units**
Movement and lecture/discussion of topics and issues of current interest in dance. May be repeated with different topics. May be taken for grades or on a pass/no-pass basis. Lecture. Lab. Transfer Credit: CSU, UC.

**Dance A200 — Appreciation of Dance — 3 units**
Designed for students to view dance of all styles from a global perspective. Emphasis is on the basic components (space, energy, musical accompaniment, movement vocabulary, style) characteristic of classical ballet, contemporary, world dance, and entertainment dance forms. The student will attend a minimum of two live dance performances. Expense for tickets is the student’s responsibility. May be taken for grades or on a pass/no-pass basis. This course may be offered online. Lecture. Transfer Credit: CSU, UC.

**Dance A201 — Rehearsal and Performance 1 — 1 unit**
Co-requisite: Dance A211 and an OCC technique class in modern dance, jazz, ballet, or the dance style being used by the choreographer. Students may not enroll in this class without instructor approval.
Structured dance rehearsal time on stage in the theatre for a large ensemble choreography, including spacing rehearsals, lighting rehearsals, dress rehearsals, culminating in main stage performances in the OCC student dance concert. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A202 — Rehearsal and Performance 2 — 1 unit**
Co-requisite: Dance A212 and an OCC technique class in modern dance, jazz, ballet, or the dance style being used by the choreographer. Students may not enroll in this class without instructor approval.
Structured dance rehearsal time on stage in the theatre for a small group choreography, including spacing rehearsals, lighting rehearsals, dress rehearsals, culminating in main stage performances in the OCC student dance concert. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A203 — Performing Dance Ensemble 1 — 3 units**
Performing Dance Ensemble provides an opportunity for intermediate and advanced level dancers to improve their performing skills in structured rehearsal time, culminating in performances for public schools and the community. Intermediate dance skills are required in jazz or ballet or modern or tap or world dance forms. This skill level will be validated in class during the first week of the course or by the recommendation of the instructor. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A204 — Rehearsal and Performance 3 — 1 unit**
Prerequisite: Dance A202.
Students may not enroll in this class without instructor approval. Structured dance rehearsal time on stage in the theatre for a choreography created by an OCC faculty member, or guest artist, including spacing rehearsals, lighting rehearsals, dress rehearsals, culminating in main stage performances in the OCC student dance concert. May be taken for grades or on a pass/no-pass basis Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A205 — Dance as a Profession Seminar — 2 units**
For students planning a career in dance, including dance-related career options, auditions, resumes, photos, video presentations, contracts, choreography and performance fees, resources, and other aspects of professional dance. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Dance A207 — Rehearsal and Performance 4 — 1 unit**
Co-requisite: Dance A213. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

**Dance A208 — Pilates 3-4 — 1.5-3 units**
Prerequisite: Intermediate level skills in Pilates mat and reformation work. This prerequisite will be validated in class during the first week of the course.
Advisory: Dance A108.
Designed for students with intermediate to advanced level Pilates skills. This course will present advanced Pilates levels, principles of movement facilitation, core stabilization, and re-education applied to mat work and to the equipment used in teaching the Pilates Method. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Dance A210 — Dance Methodology — 3 units**
Prerequisite: Intermediate to advanced level skills in dance technique (either modern dance, jazz or ballet). This skill level will be validated in class during the first week of the course.
Advisory: Dance A150 or A160.
Designed for dance students to learn how to teach classes in dance technique and creative movement for adults or youth in a variety of settings. Lecture, Lab. Transfer Credit: CSU.

**Dance A211 — Repertoire 1 — 1-4 units**
Co-requisite: Dance A211.
May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A212 — Repertoire 2 — 2 units**
Prerequisite: Dance A211.
Designed to introduce students to the creative process and unique considerations for the development of a full-length dance for two to five dancers, including lift and partnering, cause and effect relationships, studio rehearsals, critiques, performance skills and production responsibilities. This course provides an opportunity for a dancer to learn and perform, or choreograph and direct, choreography for duet, trio or small group. Student must be enrolled in an OCC technique class in modern dance, jazz, ballet or the dance style being used by the dance choreographer. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A213 — Repertoire 3 — 1-4 units**
Prerequisite: Dance A212.
Designed to introduce students to the creative process and unique considerations for the development of a full-length dance for two to five dancers, including studio rehearsals, critiques, performance skills and production responsibilities. This course provides an opportunity for students to learn and perform choreography by a professional choreographer, an OCC faculty member, or guest artist in modern dance, ballet, jazz, tap, hip hop, or world dance styles. Student must be enrolled in an OCC technique class in modern dance, jazz, ballet or the dance style being used by the dance choreographer. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

**Dance A214 — Repertoire 4 — 1-4 units**
Prerequisite: Dance A212.
Designed to introduce dance students with high intermediate to advanced level skills to the creative process for the development of a full-length solo dance, including studio rehearsals, critiques, performance skills and production responsibilities. This course provides an opportunity for dancers to learn and perform, or choreograph and direct solo choreography for a main stage performance, and provides preparation for university dance major solo auditions. Student must be enrolled in an OCC technique class in modern dance, jazz, ballet or the dance style being used by the dance choreographer. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.
Course Descriptions

Dance A215 — Pilates Internship 1 — 1 unit
Advisory: Dance A108 and A152 or A153 or concurrent enrollment. This skill level will be validated in class during the first week of the course.

A supervised internship related to classroom-based learning at a Pilates-related work site and for the Pilates/Dance Conditioning Instructor. Students should be in or have taken the Level 1 Dance A152 or Level 2 Dance A153 and Dance A108. Recommendation: Ideally, the first level of internship should be taken at the same time as Dance A129, Pilates Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A217 — Pilates Internship 2 — 1 unit
Advisory: Dance A129 or A153 or A215. This skill level will be validated in class during the first week of the course.

A supervised internship related to classroom-based learning at a Pilates-related work site. Students will teach Pilates classes at one or more sites using lesson plans that they have developed. Recommendation: Ideally, the second level of internship should be taken after or at the same time as Dance A210, Pilates Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A218 — World Dance Internship 1 — 1 unit
Prerequisite: Dance A147 or A148 or A155 or A158. This prerequisite will be validated in class during the first week of the course.

Advisory: Dance A210. A supervised internship related to classroom-based learning at a world dance-related work site. Students should be in or have taken Dance A147 or A148. Recommendation: Ideally, the first level of internship should be taken at the same time as Dance A210, Dance Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A219 — World Dance Internship 2 — 1 unit
Prerequisite: Dance A147 or A148 or A155 or A158. This prerequisite will be validated in class during the first week of the course.

Advisory: Dance A218. A supervised internship related to classroom-based learning at a world dance-related work site. Students should be in or have taken Dance A147 or A148. Recommendation: Ideally, the second level of internship should be taken after or at the same time as Dance A210, Dance Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A220 — Dance Internship 1 — 1 unit
Prerequisite: Dance A143 or A144 or A145 or concurrent enrollment. This prerequisite will be validated in class during the first week of the course.

A supervised internship related to classroom-based learning at a dance-related work site. Students should be in or have taken a level 2 or higher course in ballet, jazz or modern dance. Recommendation: Ideally, the second level of internship should be taken after or at the same time as Dance A210 Dance Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A221 — Dance Internship 2 — 1 unit
Prerequisite: Dance A143 or A144 or A145 or A244 or A245. This prerequisite will be validated in class during the first week of the course.

A supervised internship related to classroom-based learning at a dance-related work site. Students should be in or have taken a level 2 or higher course in ballet, jazz or modern dance. Recommendation: Ideally, the second level of internship should be taken after or at the same time as Dance A210 Pilates Methodology. 62 hours internship. Transfer Credit: CSU.

Dance A222 — Performing Dance Ensemble 2 — 3 units
Prerequisite: Dance A203.

Performing Dance Ensemble (Small Group) provides an opportunity for intermediate and advanced level dancers to improve their performing skills in structured rehearsal time, culminating in lecture-demonstration performances for the public schools and the community. An emphasis will be placed on small group choreography. May be taken for grade or on a pass-no-pass basis. Lecture. Transfer Credit: CSU, UC.

Dance A223 — Performing Dance Ensemble 3 — 3 units
Prerequisite: Dance A222.

Performing Dance Ensemble (Guest Choreographer) provides an opportunity for intermediate and advanced level dancers to improve their performing skills in structured rehearsal time, culminating in lecture-demonstration performances touring the public schools and the community. An emphasis will be placed on directing, choreography, and solo/duet performances. May be taken for grade or on a pass-no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A224 — Jazz 4 — 2 units
Prerequisite: Dance A143. This course offers instruction at the advanced level in traditional and advanced levels in jaz dance techniques and It focuses on developing individual style and integrating personal and artistic phrasing and expression. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A225 — Modern 4 — 2 units
Prerequisite: Dance A144. An advanced technique course in modern dance, emphasizing contemporary techniques and current vocabularies, with a focus on rhythmic and personal expression. The course is designed specifically to prepare the serious dancer for successful audition and university transfer as a dance major. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A226 — Tap 4 — 1 unit
Prerequisite: Dance A146. This course offers tap dance instruction at the intermediate and advanced levels, emphasizing advanced footwork skills, complex rhythms, traveling time steps, flash footwork, dancing combinations, and historic tap repertoire with total body integration and appropriate styling. Students should be prepared to participate at the first class meeting. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A227 — Flamenco Dance 3 — 1-2 units
Advisories: Dance A135 and A247.

An advanced course in the technique, dance forms and rhythms of flamenco dance. Emphasis is placed on proper body alignment, arm and footwork precision and artistry, rhythm and improvisational skills at a high intermediate/advanced level. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Dance A250 — Dance Improvisation 2 — 1 unit
Prerequisite: Dance A150.

This dance improvisation course is designed for instruction at the intermediate level for any student who has successfully completed Dance A150. The focus will be on contact improvisation, partnering, weight and support, shape, design, exploration of imagery and props, theatrical contexts, various music styles, rhythm, phrasing and other themes. Directed improvisation assignments and problem solving lead to free exploration of movement expressed through individual movement vocabulary. Students should be prepared to participate at the first class meeting. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A253 — Preparation for Audition — Jazz — 2 units
Prerequisite: Dance A243.

This course offers instruction at the advanced level in Jazz dance, emphasizing contemporary Jazz technique and current vocabularies, with a focus on rhythmic and personal expression. The course is designed specifically to prepare the serious dancer for successful audition and university transfer as a dance major. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A254 — Preparation for Audition — Ballet — 2 units
Prerequisite: Dance A244.

An advanced course in classical ballet intended to improve the technique and performance qualities of dance majors who plan on auditioning for university transfer and/or stage performance experience in the professional field. The class guides students who will seek a career in teaching, concentration corrections and use of intricate movement combinations, diverse rhythms and extensive ballet vocabulary. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A255 — Preparation for Audition — Modern — 2 units
Prerequisite: Dance A245.

This course offers instruction at the advanced level in modern dance, emphasizing release technique and current vocabularies, with a focus on rhythmic and personal expression. The course is designed specifically to prepare the serious dancer for successful audition and university transfer as a dance major. Lecture, Lab. Transfer Credit: CSU, UC.

Dance A256 — Preparation for Audition — Tap — 1 unit
Prerequisite: Dance A246.

This course offers tap instruction at the advanced level in traditional and contemporary tap styles, including tap improvisation and presentation skills needed for successful auditions for university musical theatre programs and to gain employment in the commercial dance field for stage, television, touring productions and films. Areas of focus include tap dance techniques to enhance speed, weight changes, athletic “flash” steps and spatial patterns and turns. Lecture, Lab. Transfer Credit: CSU, UC.
Dental Assisting A100 — Dental Anatomy — 2 units

Dental Assisting A110 — Chairside Techniques 1 — 3 units
Co-requisite: Dental Assisting A120.
Four-handed dentistry. History of the dental profession, Dental Practice Act, law and ethics. Charting, infection control protocols, sterilization procedures, use and maintenance of dental operatory equipment. Laboratory experience includes basic application of operative procedures. Course requires purchase of an appropriate clinical uniform and patient care safety goggles. Lecture, Lab. Transfer Credit: CSU.

Dental Assisting A115 — Chairside Techniques 2 — 2 units
Co-requisite: Dental Assisting A110.
This is a continuation of Dental Assisting A110 Chairside Techniques 1 with an emphasis on dental specialties, and application of coronal polish for state certification. Lecture, Lab. Transfer Credit: CSU.

Dental Assisting A120 — Dental Materials — 3 units
Co-requisite: Dental Assisting A110.
A comprehensive study of materials, including composition and characteristics. Emphasis on use of restorative dental materials and gypsum products. Lab exercises include manipulation of materials, taking impressions, pouring casts and trimming models. Construction of acrylic and metal temporaries and bleaching trays. Lecture, Lab. Transfer Credit: CSU.

Dental Assisting A125 — Expanded Functions — 2 units
Co-requisite: Dental Assisting A110 and A120.
Emphasis on expanded functions for the registered dental assistant. Laboratory practice and preclinical evaluations, including pit and fissure sealant placements on patients. Students will practice mock written and practical examinations in preparation for state licensing board examinations. Lecture, Lab. Transfer Credit: CSU.
Diagnostic Medical Sonography A126 — OB/GYN Sonography — 4 units
Prerequisite: Diagnostic Medical Sonography A123 and A150.
Co-requisite: Diagnostic Medical Sonography A165.
This course is a cross-sectional anatomical and sonoanographic study of the female reproductive system including the nongravid pelvis as well as the gravid pelvis; includes specific study of embryology, fetal biometric data, normal and abnormal fetal anatomy, placenta, amnion, amniotic fluid and umbilical cord. Topics of discussion will include appropriate laboratory tests, ultrasound scan protocols of the American Institute of Ultrasound in Medicine (AIMUM) and other imaging modalities utilized in OB/GYN. Lecture. Transfer Credit: CSU.

Diagnostic Medical Sonography A150 — Sonographic Physics and Instrumentation — 3.5 units
Prerequisite: Allied Health A111.
This is the study of physical principles and instrumentation of diagnostic medical sonography. It includes equipment design, instrumentation and application. Lecture. Lab. Transfer Credit: CSU.

Diagnostic Medical Sonography A155 — Introduction to Vascular Ultrasound — 2.5 units
Prerequisite: Diagnostic Medical Sonography A150.
This course is an introduction to vascular ultrasound including Doppler physical principles and instrumentation. The venous system of the upper and lower extremities is emphasized this semester. Lecture. Lab. Transfer Credit: CSU.

Diagnostic Medical Sonography A161 — Pathophysiology — 3 units
Prerequisite: Diagnostic Medical Sonography A123
Co-requisite: Diagnostic Medical Sonography A126.
Specific study of pathology and pathophysiological mechanisms related to diagnostic medical sonography. Lecture. Transfer Credit: CSU.

Diagnostic Medical Sonography A165 — Introduction to Scanning Practice — 3 units
Prerequisite: Diagnostic Medical Sonography A150
Co-requisite: Diagnostic Medical Sonography A126, A155.
Introduction to Sonographic scanning protocol as applied to clinical practice. Course includes elements of department, emphasis on professionalism, student behavior, medico-legal aspects, and humanitarian approach to patients. Lecture, Lab. Transfer Credit: CSU.

Diagnostic Medical Sonography A166 — DMS Clinical Experience 1 — 2 units
Prerequisite: Allied Health A115
Co-requisite: Diagnostic Medical Sonography A165.
This course is designed to effectively and creatively introduce Photoshop, Illustrator and Indesign. The programs will be approached from an application perspective. Course may include guest speakers and field trips. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

Diagnostic Medical Sonography A255 — Advanced Vascular Ultrasound — 2.5 units
Prerequisite: Diagnostic Medical Sonography A155.
This is an advanced vascular course with laboratory exercises. It includes physiological arterial testing of the lower and upper extremities with pathological correlation. Lecture. Lab. Transfer Credit: CSU.

Diagnostic Medical Sonography A271 — DMS Clinical Experience 3 — 7 units
Prerequisite: Diagnostic Medical Sonography A167
Co-requisite: Diagnostic Medical Sonography A265 and A274.
Clinical experience in ultrasound. Equipment handling and patient management. Departmental operation and scope. Offered on a pass/no-pass basis only. 512 hours clinical. Transfer Credit: CSU.

Diagnostic Medical Sonography A274 — Abdominal Sonography — 3 units
Prerequisite: Diagnostic Medical Sonography A165.
Co-requisite: Diagnostic Medical Sonography A271.
Interpretation of normal and abnormal sonographic anatomy, comparing disease processes and identification of structures in sonographic images of the abdomen and superficial structures. Lecture. Transfer Credit: CSU.

Diagnostic Medical Sonography A275 — Sonographic Review — 3 units
Prerequisite: Diagnostic Medical Sonography A274.
Review of advanced scanning techniques and other ultrasound topics including physics and instrumentation. Interpretation of normal and abnormal sonography. Lecture. Transfer Credit: CSU.

Diagnostic Medical Sonography A276 — DMS Clinical Experience 4 — 2 units
Prerequisite: Diagnostic Medical Sonography A271.
Intermediate clinical experience. Studies in the abdomen, small parts, and pelvis. Variety of real-time equipment, anatomical pathology recognition. Offered on a pass/no-pass basis only. 160 hours clinical. Transfer Credit: CSU.

Diagnostic Medical Sonography A281 — DMS Clinical Experience 5 — 9 units
Prerequisite: Diagnostic Medical Sonography A271.
Advanced clinical experience in the ultrasound department practicing in a variety of Sonographic studies with emphasis on the abdomen and pelvis. Advanced recognition of pathology and scan interpretation. Offered on a pass/no-pass basis only. 576 hours clinical, 16 hours seminar. Transfer Credit: CSU.

Digital Media Arts and Design A116 — Typography 2 — 3 units
Prerequisite: Digital Media Arts and Design A115.
Advisory: Digital Media Arts and Design A115
This course examines the fundamental skills required to create professional typography. This course is applicable to students of any discipline. Students will develop proficiency in the use of typography and visual communication. Projects will be designed to prepare the student for the professional world. Lecture, Lab. Transfer Credit: CSU.

Digital Media Arts and Design A181 — Introduction to Computer Graphics — 3 units
Prerequisite: Digital Media Arts and Design A109.
Advisory: Digital Media Arts and Design A109
This course introduces students to the basics of computer graphics, from the history of the computer to the various tools available today. Students will learn how to use software such as Photoshop, Illustrator, and Indesign. Transfer Credit: CSU.

Digital Media Arts and Design A182 — Graphic Design — 3 units
Prerequisite: Digital Media Arts and Design A109
Advisory: Digital Media Arts and Design A109
This course introduces students to the basics of graphic design, from the history of the computer to the various tools available today. Students will learn how to use software such as Photoshop, Illustrator, and Indesign. Transfer Credit: CSU.

Digital Media Arts and Design A183 — Designing for Print — 3 units
Prerequisite: Digital Media Arts and Design A181.
Advisory: Digital Media Arts and Design A181
This course introduces students to the basics of graphic design, from the history of the computer to the various tools available today. Students will learn how to use software such as Photoshop, Illustrator, and Indesign. Transfer Credit: CSU.
Digital Media Arts and Design A190 — Illustration and Graphics with Illustrator — 3 units
Prerequisite: Digital Media Arts and Design A181.
Adobe Illustrator is a versatile tool for creating illustrations, logos, and graphics for both print and the Web. Students will learn to produce detailed and scalable vector art, while applying the principles of color and design. Students will learn the tools of Adobe Illustrator to create graphic designs and illustrations. Lecture, Lab. Transfer Credit: CSU.

Digital Media Arts and Design A193 — Image Manipulation and Graphics with Photoshop — 3 units
Prerequisite: Digital Media Arts and Design A181.
Adobe Photoshop is the world’s most popular graphics and digital photo-editing software program. This course integrates Photography, art, and design to introduce the skills and techniques needed for digital visual communication. Students will learn the tools and features of Photoshop, allowing students to work more efficiently and creatively. Lecture, Lab. Transfer Credit: CSU.

Digital Media Arts and Design A200 — Designing for the Web — 3 units
Prerequisite: Digital Media Arts and Design A181.
Advisories: Digital Media Arts and Design A190 and A193.
Master the skills of front-end web design, and build working responsive websites optimized for mobile and desktop performance. Students will learn the fundamentals of how the web works and how user experience effects web design. Primary software used: Adobe Muse. Concentration on both web design and creating an online design portfolio. Lecture, Lab. Transfer Credit: CSU.

Digital Media Arts and Design A202 — Internship — 2 units
A supervised internship related to classroom-based learning at a work site related to the student’s certificate program. This course is open to students who have completed four courses in one of the digital media arts and design certificate programs. 119 hours field; Lecture. Transfer Credit: CSU.

Digital Media Arts and Design A203 — Interaction Design — 3 units
Prerequisite: Digital Media Arts and Design A181.
Advisories: Digital Media Arts and Design A190 and A193.
Interaction Design focuses on UX and UI to ensure that websites, and packaging. Lecture. Transfer Credit: CSU.

Digital Media Arts and Design A280 — 2D Animation — 3 units
Prerequisite: Digital Media Arts and Design A181.
Advisory: Digital Media Arts and Design A190.
An investigation into the theory and practice of computer generated 2D animation. Lectures, demonstrations, and graphic examples introduce students to the technical and creative aspects of 2D animation as seen in communication media. Through classroom assignments students will investigate both commercial and fine art applications. Lecture, Lab. Transfer Credit: CSU.

Digital Media Arts and Design A281 — 3D Computer Graphics Animation — 3 units
Prerequisite: Digital Media Arts and Design A181.
Advisories: Digital Media Arts and Design A190 and A193.
Investigation into the practice of 3D temporal image handling utilizing computer graphics technology. Students will explore artistic applications in various fields. Instruction is offered at beginning and advanced levels. Lecture, Lab. Transfer Credit: CSU.

DISPLAY AND VISUAL PRESENTATION

Display and Visual Presentation A180 — Introduction to Display and Visual Presentation — 3 units
Provides an opportunity to learn display and exhibit design for business and museum/gallery. Areas covered include trade show, hard-line product, themed design, space development for store planning, museum exhibition, advertising, and all aspects of visual presentation, to include: window, point of purchase, websites, and packaging. Lecture. Transfer Credit: CSU.

EARLY CHILDHOOD

Early Childhood A126 — Teaching in a Diverse Society — 3 units
Prerequisite: Human Development A180 or concurrent enrollment.
An overview of the different micro cultures to which students belong and the importance of understanding their own culture. Micro cultures discussed are class, ethnicity and race, gender, exceptionality, and age. Emphasis will be placed on the social and cultural conditions that influence education. Lecture. Transfer Credit: CSU. C-ID ECE 230.

Early Childhood A127 — Health, Safety, and Nutrition — 3 units
Prerequisite: Human Development A180.
Introduction to the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health, safety, and nutrition. The key components that ensure physical health, mental health and safety for both children and staff will be identified along with the importance of collaboration with families and health professionals. Focus on integrating the concepts into everyday planning and program development for all children. Lecture. Transfer Credit: CSU. C-ID ECE 220.

Early Childhood A130 — Language Arts for Children — 3 units
Prerequisite: Human Development A180 or concurrent enrollment.
This course covers the development of literacy skills in children ages birth to 5 years. Included are activities such as book selection, storytelling, finger plays, flannel stories, language centers, early writing, alphanumeric and phonemic awareness. Lecture. Transfer Credit: CSU.

Early Childhood A131 — Creativity for Children — 3 units
Prerequisite: Human Development A180 or concurrent enrollment.
Methods for fostering creativity in children and teachers. Emphasis will be on cultivating music and art expression through application of developmental theory. TB clearance required. Lecture. Transfer Credit: CSU.

Early Childhood A132 — Science and Math for Young Children — 3 units
Prerequisite: Human Development A180 or concurrent enrollment.
Physical and natural science activities that encourage children’s thinking and problem solving skills. Emphasis on the development of programs and materials that allow for exploration and/or experimentation. Lecture. Transfer Credit: CSU.

Early Childhood A155 — Principles and Practices of Teaching Young Children — 3 units
Prerequisite: Human Development A180 or concurrent enrollment.
An examination of the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, relationships and teaching strategies in supporting all areas of development for all children. Emphasis on the value of play in supporting all areas of children’s development. Lecture. Transfer Credit: CSU. C-ID ECE 120.

Early Childhood A156 — Early Childhood Laboratory — 2 units
Prerequisite: Early Childhood A155.
Beginning practical experiences that focus on establishing relationships with children and developing guidance, observation, play entry, and collaboration techniques in facilitating learning. TB clearance required. Fingerprint, criminal record and child abuse index check required. Contact EC Lab School PROR to enroll up to 12 hours. Hours are arranged on a first-come, first-served basis. Lecture, Lab. Transfer Credit: CSU.

Early Childhood A157 — Guidance for Young Children — 3 units
Prerequisite: Early Childhood A155.
Course covers theories of behavior, guidance techniques, and parent communication. Emphasis on developing an understanding of children’s behavior and encouraging positive esteem while helping the child work toward self-control. Lecture. Transfer Credit: CSU.

Early Childhood A165 — Observing and Recording Child Behavior — 3 units
Prerequisite: Early Childhood A155, and Human Development A180.
This course focuses on the appropriate use of observation and observation strategies to document development, growth, play and learning to join with families and professionals in promoting children’s success. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. Lecture. Transfer Credit: CSU. C-ID ECE 200.
Early Childhood A174 — Building Partnerships with Families — 3 units
Practical approaches to building relationships with parents through effective communication techniques and supporting families of children with identified or suspected special needs. Lecture. Transfer Credit: CSU.

Early Childhood A199 — Current Issues in Early Childhood — .5-.2 units
Current issues in the field of early childhood education, rotating through a variety of topics, such as working with parents, public policy, and curriculum updates. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Early Childhood A200 — Early Childhood Programs — The Curriculum — 3 units
Prerequisite: Early Childhood A156 or concurrent enrollment.
Curriculum planning for preschool programs based on the individual developmental needs of the child. Emphasis on the importance of observations, schedule, routines, and parent communication. Introduction to the philosophy and history of early childhood education. Lecture. Transfer Credit: CSU. C-ID ECE 130.

Early Childhood A201 — Early Childhood Practicum — Field Experience — 3 units
Prerequisite: Early Childhood A156, Early Childhood A200 or concurrent enrollment.
Practical experiences in preschool programs that focus on the individualized curriculum that addresses all areas of development, routines, and the role of the teacher. Course also covers observation and evaluation of children in play situations, the development of indoor and outdoor environments, positive guidance and staff relationships. TB clearance required. Lecture. 108 hours field experience. Transfer Credit: CSU. C-ID ECE 210.

Early Childhood A220 — Infant and Toddler Programs — 3 units
Prerequisite: Human Development A184 or concurrent enrollment.
Various kinds of programs for infants and toddlers, including philosophies and program emphasis, appropriate routine learning experiences, environments, and provisions for the health and safety of infants and toddlers. Focus on the role of the teacher in facilitating the child's growth through play. Lecture. Transfer Credit: CSU.

Early Childhood A221 — Infant and Toddler Field Experience — 3 units
Prerequisite: Human Development A184 and Early Childhood A220 or concurrent enrollment.
Participation in day care and half-day programs for infants and toddlers. TB clearance required. Please contact EC Lab School PRGR to enrolling in this class to arrange hours. Hours are arranged on a first-come, first-served basis. Lecture. 108 hours field/critical. Transfer Credit: CSU.

Early Childhood A240 — Inclusion of Children with Disabilities — 1 unit
Prerequisite: Human Development A210 or concurrent enrollment.
This course will explore the inclusion of infants, toddlers, and children with special needs in early childhood settings. Topics will include foundations of inclusive practices, collaborating with specialists, and specific strategies for the classroom. Lecture. Transfer Credit: CSU.

Early Childhood A261 — Learning Title 22 — .5 units
Point by point discussion of California Code of Regulations, Title 22, Division 12. Chapters 1 and 2 regulations for child care program. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Early Childhood A262 — Disaster Preparedness for Child Care — .5 units
A study of various natural or man-made disasters to assist child care providers in the development of a comprehensive plan to ensure an effective response to emergency situations. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Early Childhood A263 — Child Abuse I.D. and Referral — 3 units
Way to identify children who are abused and programs to assist both the child and the offender. Discussion of state mandated reporting systems and procedures in record keeping for the teacher and director in a child care program. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Early Childhood A275 — Early Childhood Administration — Program — 3 units
Prerequisite: Early Childhood A200 or A220 or A229.
Supervision and administration of an early childhood program with emphasis on theories, principles, concepts of program and curriculum development, legal, financial, and administrative policies, and program evaluation. Lecture. Transfer Credit: CSU.

Early Childhood A276 — Early Childhood Management — 3 units
Prerequisite: Early Childhood A200, or A220, or A229.
Supervision and administration of an early childhood program with emphasis on leadership, personnel management, communication, problem solving, working with parents, financial, and ethical issues. Lecture. Transfer Credit: CSU.

Early Childhood A277 — Adult Supervision in Early Childhood Programs — 2 units
Prerequisite: Early Childhood A200 or A220 or A229 or A240.
Methods and principles of supervising adults in early childhood programs. Emphasis on the role of experienced teachers who function as mentors while simultaneously addressing the needs of children, parents, and staff. Lecture. Transfer Credit: CSU.

ECOLOGY

Ecology A100 — Human Ecology — 3 units
The physical and biological components of the environment, their interrelationships, and the human population influence on these components. Physical, biological, and political means of reversing environmental deterioration will be considered as well as conservation and management of natural resources. Suitable as a general education elective for the non-science major and also for students in Environmental Science or other natural sciences. Field trip may be required. Lecture. Transfer Credit: CSU, UC.

Ecology A101 — Principles of Ecology — 3 units
This introductory ecology course for non-science majors covers ecological principles and their relevance at several levels of organization. Includes principles governing classification of life, principles of evolution, conditions for life, adaptations to the environment, analysis of ecological niches, population, and community/ecosystem ecology. Field trips are required. Lecture. Transfer Credit: CSU, UC.

Ecology A110 — Island Ecology — 3 units
Islands are used as the platform to discuss ecology, evolution, speciation, biogeography, and human history as it relates to islands. This course focuses on California’s Channel Islands and also covers the Hawaiian Islands, the Galapagos Islands, and many others. Field trip is required. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Ecology A121 — Marine Intertidal Ecology — 1 unit
Ecology of the marine intertidal environment of Southern California. This is a field oriented laboratory experience for non-majors. May be taken for grades or on a pass/no-pass basis. Same as Marine Science A121. Students completing Ecology A121 may not receive credit for Marine Science A121. Lecture, Lab. Transfer Credit: CSU.

Ecology A124 — Ecology of the Gray Whale — 1 unit
Ecology and natural history of the California Gray Whale and the Orange County Whale Watch program. Completion qualifies students as docents on whale watching boats. Field trip required. May be taken for grades or on a pass-no-pass basis. Same as Marine Science A124. Students taking Ecology A124 may not receive credit for Marine Science A124. Lecture. Transfer Credit: CSU.

Ecology A140 — Mediterranean Biome Ecology — 2 units
The Mediterranean Biome includes chaparral and coastal sage scrub in North America, mallee scrub in Australia, matrull in South America, fynbos in Africa, and maquis in Europe. This course surveys this biome through an investigative approach. Field trips are required. Lecture, Lab. Transfer Credit: CSU.

Ecology A141 — Desert Ecology — 2 units
Deserts cover 20% of the Earth and provide wildlife habitat, as well as, economic and recreational value. This course will provide students an opportunity to learn and assess the ecological processes in various deserts on Earth including the deserts of Southwestern United States and Mexico. Field trips are required. Lecture, Lab. Transfer Credit: CSU.

Ecology A210 — Wetlands Ecology and Management — 3 Units
Prerequisite: Biology A100, or Ecology A100, or Horticulture A100, or Marine Science A100, or Geology A105
This course covers the biological, physical, chemical, and hydrological components of wetland ecosystems. Various types of wetland habitats are discussed including their ecological and economic value. Field-based and laboratory-based assessments on wetland ecology are implemented throughout the course. Management practices are investigated including past and current methods, policies, restoration efforts and outcomes, and the effects of climate change on wetlands are examined. Lecture. Transfer Credit: CSU, UC.

ECONOMICS

Economics A100 — Economics: General Concepts — 3 units
Provides the student with a general understanding of the concepts, principles, and methods of microeconomics and macroeconomics at the introductory level. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
Economics A110 — Consumer Economics — 3 units
An applied approach to the problems and possibilities confronting the consumer in today’s economy. Emphasis is placed on the development of skills in personal financial planning, decision making, use of credit and principles of saving and investment. Attention is given to the problems in housing, transportation, health services, and insurance. Issues of personal taxation, government regulation, and environmental protection are considered in relation to consumer interest. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Economics A170 — Microeconomics — 3 units
Formerly Economics A185
Prerequisite: Mathematics A010.
Advisory: Mathematics A030.
An introduction to the principles and problems of microeconomics. Covers economic concepts and principles as applied to markets, analysis of costs, consumer behavior, determining consumer optimum conditions, behavior of producers, determining the producers optimum in the goods and services market and in the factors markets, the structure of markets and how they influence and limit competition, labor, capital, information and entrepreneurship, public goods, and international economics. This course may also be offered online. Lecture. Transfer Credit: CSU, UC, C-ID ECON 201.

Economics A170H — Microeconomics Honors — 3 units
Prerequisite: Mathematics A010.
Advisory: Mathematics A030.
An introduction to the principles and problems of microeconomics. Covers economic concepts and principles as applied to markets, analysis of costs, consumer behavior, determining consumer optimum conditions, behavior of producers, determining the producers optimum in the goods and services market and in the factors markets, the structure of markets and how they influence and limit competition, labor, capital, information and entrepreneurship, public goods, and international economics. Lecture. Transfer Credit: CSU.

Economics A175 — Macroeconomics — 3 units
Formerly Economics A180
Prerequisite: Mathematics A010.
Advisory: Economics A170, Mathematics A030.
An introduction to the principles and problems of macroeconomics. Covers economic concepts and principles as applied to markets, national income, unemployment, inflation, economic growth, fiscal and monetary policy, banking, the Federal Reserve System, and international economics. This course may also be offered online. Lecture. Transfer Credit: CSU, UC, C-ID ECON 202.

Economics A175H — Macroeconomics Honors — 3 units
Prerequisite: Mathematics A010.
Advisory: Economics A170, Mathematics A030.
An introduction to the principles and problems of macroeconomics. Covers economic concepts and principles as applied to markets, national income, unemployment, inflation, economic growth, fiscal and monetary policy, banking, the Federal Reserve System, and international economics. Lecture. Transfer Credit: CSU.

EDUCATION

Education A200 — The Teaching Profession — 3 units
Prerequisite: English A099 or ESL A099.
Advisory: English A100 and Human Development A180.
Examination of opportunities, responsibilities, and rewards in teaching. Skills needed and problems encountered in the classroom will be covered. May be taken for grades or on a pass/no-pass basis. Lecture, 45 hours internship. Transfer Credit: CSU, UC, C-ID EDUC 200.

ELECTRONICS TECHNOLOGY

Electronics Technology A047 — Electronic Problem Solving — 3 units
A project-based, interactive course that teaches skills for college success, such as: project management, study skills, and effective personal learning strategies. Applications from Science Technology, Engineering, & Math (STEM) careers are used to help the student master complex concepts with a deeper understanding of how to apply theory, and to discover creative solutions to complex problems. These applications are integrated into the study of a wide range of math concepts including: numbering systems, fractions, ratios, statistics, probabilities, spreadsheet calculations, introduction to symbolic logic, Boolean Algebra, Algebra 1, geometry, and an introduction to trigonometry: vectors, rectangular and polar graphing techniques. Lecture.

Electronics Technology A101 — Robotics 1 Mechanics and Design — 4 units
Advisory: High School Physics, Electronics Technology A047 and A170.
Design a robot to tournament specifications, with analysis, diagnosis, modification, calibration and documentation of prototype. Course will focus on mechanical structures in robot design, function, and the physical laws that govern design. Integrated electronics applied to the robotic system will also be explored. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A135 — Symbolic Logic with Digital Applications — 4 units
Prerequisite: Electronics Technology A047, A170, or any Mathematics course above Math A030.
Introduction to logic as it applies to discrete Boolean mathematics, deductive reasoning, and digital applications including computer programming, architecture, and embedded systems. An in-depth study of inverse, inverse, AND/OR logical operations. Boolean algebra techniques are applied to simplify complex equations. Students will build, measure, test, analyze and troubleshoot series, parallel and complex circuits. Reading documentation commonly found in industry, i.e. schematics, specifications, assembly and test procedures, will also be included. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A140 — Technical Electronics — 3 units
Co-requisite: Electronics Technology A172 or Electronics Technology A173.
An introduction to electricity and electronics for non-technicians. Vocabulary, power, voltage, current, resistance, safety, test equipment, circuits and devices are studied. Hands-on, interactive, project based: you will build, test, and troubleshoot circuits and devices. You will learn how to read documentation commonly found in industry i.e. schematics, specifications, assembly and test procedures. Lecture. Transfer Credit: CSU.

Electronics Technology A146 — Computer Hardware Configuration and Diagnostics — 3 units
Advisory: Electronics Technology A047 or concurrent enrollment, placement above Math A030.
Computer hardware installation, configuration, diagnostics and troubleshooting. Topics include: installation and upgrade of peripherals, design systems & Local Area Networks, configuration, upgrade, build, test and, troubleshoot computer systems per client specifications; troubleshooting PC workstation to LAN installations; troubleshooting peripherals and internal components. Troubleshooting assemblies, diagnostic, and industry standard documentation (i.e. schematics, specifications, procedures etc.) assembly, diagnostics, & troubleshooting techniques. Lecture. Lab. Transfer Credit: CSU.

Electronics Technology A150 — D. C. Circuits — 3 units
Advisory: Electronics Technology A047.
A project-based in-depth study of DC Circuits for technicians and engineers. Electro-magnetics, power, voltage, current, resistance, sensors & other devices, series, parallel, circuit analysis methods & applications. Laboratory: safety, test equipment, industry standard documentation (i.e. schematics, specifications, procedures etc.) assembly, diagnostics, & troubleshooting techniques. Lecture. Lab. Transfer Credit: CSU.

Electronics Technology A155 — A.C. Circuits — 3 units
Advisory: Electronics Technology A047 or concurrent enrollment, or placement above Math A030.
A project-based in-depth study of AC Circuits for technicians and engineers. Applications from AC & DC power, audio, communications, network systems, industrial automation and, motor control. Topics include: Electro-magnetics, properties of waves, transformers, power factor, maximum power transfer, impedance, inductance, capacitance, RLC transient & filter circuits, phase shift, phasors, modulation, harmonics, resonance, spectrum analysis, bandwidth, transistors, solid-state relays, & circuit analysis methods. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A170 — Safety, Assembly, and Calibration — 1 unit
First semester laboratory experience supplements, complements, or fulfills the laboratory requirement for courses in the Electronics Technology Program. Students will assemble, test, calibrate, and troubleshoot electronic, electro-mechanical, instrumentation, robotics, and automation systems at a foundational level. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A172 — Electronics Laboratory 2 — 1 unit
Prerequisite: Electronics Technology A150 or Electronics Technology A201 or Electronics Technology A246 or concurrent enrollment.
Second semester laboratory will reinforce safe shop practices, maintenance & instrumentation handling procedures, technical documentation, and workspace preparation. Student will work on AC and/or DC circuit projects. Mastery of theory, technical documentation, assembly skills, and teamwork skills will be emphasized. Lab. Transfer Credit: CSU.
Electronics Technology A173 — Electronics Laboratory 3 — 1 unit
Prerequisite: Electronics Technology A135 or Electronics Technology A155 or Electronics Technology A260 or concurrent enrollment.
Third semester laboratory will develop essential skills for a Test Technician: research, documentation, prototype construction, diagnostics methods and, critical thinking skills. Students will work on A/C circuit, robotics and/or semiconductor circuit for motor control projects. They will develop essential skills for a Test Technician: research, documentation, prototype construction, and diagnostics methods. Lab. Transfer Credit: CSU.

Electronics Technology A174 — Electronics Laboratory 4 — 1 unit
Prerequisite: Electronics Technology A245 or Electronics Technology A253 or concurrent enrollment or Electronics Technology A260 or concurrent enrollment.
Fourth semester laboratory develops technical and leadership skills essential for the Industrial Automation Technician, including design, strategic planning, problem solving, and project management. Students will demonstrate the ability to oversee project through the entire process, from design through commissioning of complex systems per client specifications. Lab. Transfer Credit: CSU.

Electronics Technology A201 — Robotics 2 Motors, Transports & Motor Control — 4 units
Advisory: Electronics Technology A101, Electronics Technology A150, and Electronics Technology A172.
Design a robot drive and transport mechanism to compete, according to tournament criteria, against other teams. Analyze and modify the invention to improve original design. Course will focus on motors, transport mechanisms, motor control systems and variable speed drives in robot and automation designs. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A215 — Communications Systems — 3 units
Prerequisite: Aviation Maintenance Technology A182.
A study of basic communications systems, including AM, FM, television, radar, antennas, and transmission lines. Lecture. Transfer Credit: CSU.

Electronics Technology A245 — Advanced Digital Applications — 4 units
Advisory: Electronics Technology A135.
An advanced course designed to develop hands-on skills and knowledge of integrated circuits commonly used in digital systems and microcomputers. Emphasis is on the Z80 microprocessor. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A246 — Server Hardware and Industrial Networks — 3 units
Advisory: Electronics Technology A135, Electronics Technology A146, Electronics Technology A150, and Electronics Technology A407 or placement above Math A030.
Introduction to Server hardware & network systems configuration to client specifications. Topics include: review of PC hardware, introduction to server hardware & network devices, servers types (gateway, gateways, & application), Topology (Buss, Star, & Ring), industrial controllers, industrial Ethernet, and SCADA systems. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A253 — Automation 1 Programmable Logic Controller — 4 units
Advisory: Electronics Technology A135 and Electronics Technology A155.
Introduction to Programmable Logic Control (PLC) operation, calibrate, diagnose, and tune open and closed loop systems. Hands-on project-based learning: analyze programs, design and build PLC systems using various input and output devices: ultra-sound, infra-red, temperature, proximity, limit switches, linear transducers, electro-mechanical and solid-state relays, transistors, thyristors, linear actuators and motors. Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A260 — Automation 2 Semiconductor Motor Control Circuits — 4 units
Advisory: Electronics Technology A047, Electronics Technology A135, Electronics Technology A150, and Electronics Technology A173.
Diagnose semiconductor circuits: power supplies, amplifiers, active filters, oscillators, solid state motor control, phase inverters, Variable Speed Drives (VSD). Lecture, Lab. Transfer Credit: CSU.

Electronics Technology A289 — Internship — 2 units
Prerequisite: Electronics Technology A135 and A155.
A supervised internship, as an assembler or technician, with scope of work related to classroom-based instruction previously completed. The student will research companies and prepare for internship interview. Course includes a directed study of the workplace environment, assigned duties, techniques and skills required for job performance. Student will complete objectives specified by the employer. May be taken for grades or on a pass/no-pass basis. Lecture, 72 hours internship. Transfer Credit: CSU.

Electronics Technology A290 — Electronic Troubleshooting — 3 units
Prerequisite: Electronics Technology A135 and Electronics Technology A170.
A course focusing on the technician’s approach to circuit fault diagnosis. Applications of various test equipment necessary to troubleshoot to component level will be discussed. Both single and multi-stage devices will be examined in analog and digital systems. Lecture, Lab. Transfer Credit: CSU.

Emergency Medical Services A150 — Emergency Medical Technician — 10 units
Prerequisite: English A099 or ESL A099.
American Heart Association Healthcare Provider CPR card. This prerequisite will be validated in class during the first week of the course.
Co-requisite: Emergency Medical Services A151, A155.
An overview of the EMT’s roles and responsibilities including the evaluation and treatment of medical and trauma emergencies. This would include extrication and transport of the sick and injured patient. Successful completion of all Co-requisite courses qualifies the graduating student to take the National Registry EMT certifying exam. This course may also be offered online. Lecture. Transfer Credit: CSU.

Emergency Medical Services A150L — Emergency Medical Services Lab — 1 unit
Prerequisite: American Heart Association Healthcare Provider CPR card. This prerequisite will be validated in class during the first week of the course.
Co-requisite: Emergency Medical Services A150 and A151.
Practical application of the theories and skills required for an Emergency Medical Technician to perform assessments, and provide care, life-saving measures, and employ safe techniques while effectively engaged in patient interactions. Lab. Transfer Credit: CSU.

Emergency Medical Services A151 — Emergency Medical Technician — 1 unit
Prerequisite: English A099 or English as a Second Language A099, and American Heart Association Healthcare Provider CPR (this prerequisite will be validated in class during the first week of the course).
Co-requisite: Emergency Medical Services A150 and Emergency Medical Services A150L.
Application and integration of skills and knowledge gained from EMT A150 in the emergency department of an acute hospital or other arranged clinical setting in accordance with California State Title 22, Section 9 regulations, and on a Basic Life Support ambulance unit. Offered on a pass/no-pass basis only. 40 hours clinical. Transfer Credit: CSU.

Emergency Medical Technology A145 — Emergency Medical Care for Children — 1 unit
Pediatric CPR, first aid, and preventative health and safety for the licensed child care provider. Completion qualifies the participant for CPR, first aid, and childcare, healthcare, and safety certification. Meets the California Child Care Standards. Lecture, Lab. Transfer Credit: CSU.

Emergency Medical Technology A160 — EMT-1 Recertification — 1 unit
Prerequisite: Current EMT certificate or certificate which has not expired by more than two years.
New policies and procedures including the latest CPR techniques and procedures for new equipment, updates to the EMT’s scope of practice within Orange County, the State and Federal guidelines, and review of the required EMS curriculum to the most up-to-date model. Provides 24 hours of Continuing Education as “refresher course.” No skills testing provided. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.
Engineering A110 — Introduction to Engineering and Design — 3 units
Prerequisite: Mathematics A010, or equivalent.
This course is an introduction to the field of engineering and the engineering design. It explores various branches of engineering as regards to academic preparation, opportunities and career options. It explains the engineering education pathways and explores effective strategies for students to reach their academic potential. Emphasis is also on the realization of the regional and global problems of engineering nature and the methods to find responsible solutions. Students are introduced to the applied engineering concepts, methods and tools of problem solving and the engineering design process. Activities also include several engineering design projects. Other topics include engineering ethics, professional and legal responsibilities of engineers as a member of the society, understanding of the global challenges and the engineer’s role and responsibilities in finding possible solutions. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Engineering A180 — Engineering Graphics — 3 units
Prerequisite: Mathematics A170, or concurrent enrollment.
Graphical representation in the analysis and computation of space problems, empirical data, and mathematical relationships. Lecture, Lab. Transfer Credit: CSU, UC.

Engineering A210 — Engineering Materials — 3 units
Prerequisite: Chemistry A180 and Physics A130, or equivalent.
This is an introductory course emphasizing the understanding of the structure and properties of the materials, and the design and selection of materials for engineering applications. Studies include analysis of ferrous and non-ferrous metals, ceramics, polymers, composites and semiconductors. Emphasis is on micro and macro structure, relationship between the structure and properties of materials, and effect of heat, stress, imperfections and chemical environments on material structure, properties and performance. Topics also include mechanical, thermal, electrical (including semiconductors), magnetic and optical properties and also corrosion and degradation of materials. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Engineering A230 — Dynamics — 3 units
Prerequisite: Engineering A280, or equivalent.
This course is an introduction to kinematics and kinetics of particles and rigid bodies. Vector analysis and calculus are used extensively as the tool to describe the motion of the systems and also to study the kinetics of particles and rigid bodies. Topics involved are the geometry of the motion (kinematics), and the methods of analysis, which include second law of motion, work-energy and momentum-impulse methods as applied to particles, system of particles and the rigid bodies. The mechanical vibration of particles and the rigid bodies are also studied in detail. It includes free and forced vibration, with and without damping. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Engineering A240 — Strength of Materials — 3 units
Prerequisite: Engineering A280, or equivalent.
This course provides the engineering students with the means of analyzing and designing various structures and machines subjected to different loading conditions. Students develop the techniques of stress and strain analysis of the systems under axial, torsional, transverse loading and pure bending. It also includes the major topics of design of the beams, shafts and the columns. Analysis of systems using energy method, and deflection of beams by integration and moment-area methods are also introduced. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Engineering A280 — Statics — 3 units
Prerequisite: Mathematics A185 or Mathematics A182H or Mathematics A185H, and Physics A185.
Vector mechanics, covering force diagrams, moment of a force, centroids, beams, trusses, friction, hydrostatics, and moments of inertia. Lecture. Transfer Credit: CSU, UC.

Engineering A285 — Engineering Circuits — 4 units
Prerequisite: Mathematics A185 or A182H or A185H and Physics A280.
A course in analysis of electric circuits, including DC circuits, network theorems, energy sources, transient analysis, sinusoidal analysis, phasors, AC power, and frequency response of circuits. Lab will include connection of circuits and observation of circuit behavior using electronic instrumentation. Lecture, Lab. Transfer Credit: CSU, UC.

ENGLISH

Basic Skills

Native fluency in English required. Not intended for students in English as a Second Language.

English A005 — Basic Reading Skills — 3 units
A sequence of reading lessons that will target reading rate growth, for students in the areas of vocabulary development and comprehension improvement. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English A050 — Introduction to College Reading — 3 units
Theory and practice of fundamental reading skills, finding main idea, identifying supporting details, drawing inferences, and increasing rate. Special attention will be given to critical reading and to particular problems in content areas. Recommended for all students. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English A060 — Grammar — 1.5 units
Learn the fundamentals of standard English grammar usage, including sentence structure, part of speech, agreement, punctuation, and word choice. Apply concepts to written sentences and paragraphs. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

Composition and Related Studies

English A098 — Basic English Skills — 4 units
Prerequisite: Appropriate English placement score.
Study skills, reading, vocabulary, grammar, elemental principles of sentence structure, paragraph development, organization of ideas, punctuation and spelling. A minimum of five arranged hours of supplemental learning in the Success Center is required. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English A099 — Fundamentals of Composition — 3 units
Prerequisite: English A098 qualifying placement score.
Apply the fundamentals of grammar, sentence structure, pre-compositional techniques, paragraph development, and essay construction. Practice in reading and textual analysis, critical thinking skills, and clear writing. Write structurally varied and grammatically correct sentences and clearly organized, appropriately detailed paragraphs leading to frequent practice in the construction of the expository essay. A minimum of five arranged hours of supplemental learning in the Success Center is required. May be taken for grades or on a pass/no-pass basis. Lecture.

English A100 — Freshman Composition — 3 units
Prerequisite: English A099 or English as a Second Language A090 or qualifying placement score.
Instruction and practice in essay writing, including using analytical thinking, choosing a thesis, assembling and organizing supporting evidence, and developing a clear tone and appropriate style. Includes reading and analysis of published essays and practice basic research skills. NOTE: ALL STUDENTS ENROLLING IN ENGLISH A100 MUST BE PRESENT AT THE FIRST CLASS MEETING. ABSENT STUDENTS MAY LOSE THEIR SEATS IN CLASS. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 100.

English A101 — Critical Thinking, Reading, and Writing Through Literature — 4 units
Prerequisite: English A100 or qualifying placement score.
Read, analyze, and write on literature applying critical thinking skills and research strategies while developing students’ close reading skills and appreciation for the aesthetic qualities of literature. Formulate and compose written arguments. Recognize logical fallacies, rhetorical strategies, implicit meaning, and use inductive/deductive reasoning. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 110, 120.

English A101H — Critical Thinking, Reading, and Writing Through Literature Honors — 4 units
Prerequisite: English A100 or qualifying placement score.
Read, analyze, and write on literature applying critical thinking skills and research strategies while developing students’ close reading skills and appreciation for the aesthetic qualities of literature. Formulate and compose written arguments. Recognize logical fallacies, rhetorical strategies, implicit meaning, and use inductive/deductive reasoning. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 110, 120.
English A102 — Critical Reasoning, Reading, and Writing Through Nonfiction — 3 units  
Prerequisite: English A100 or qualifying placement score.  
Read, analyze and write on works of non-fiction applying critical thinking skills and research. Formulate and compose written arguments. Recognize logical fallacies, rhetorical strategies, implicit meaning, and use inductive and deductive reasoning. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 105.

English A102H — Critical Reasoning, Reading, and Writing Through Nonfiction Honors — 3 units  
Prerequisite: English A100 or qualifying placement score.  
Read, analyze and write on works of non-fiction applying critical thinking skills and research. Formulate and compose written arguments. Recognize logical fallacies, rhetorical strategies, implicit meaning, and use inductive and deductive reasoning. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 105.

English A109 — Critical Reasoning and Writing for Science and Technology — 3 units  
Prerequisite: English A100 or qualifying placement score.  
Read, analyze, and write on works about science and technology applying critical thinking skills and research. Formulate and compose written arguments. Recognize logical fallacies, rhetorical strategies, and technical writing formats. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 105.

English A117 — Feature Writing — 3 units  
Prerequisite: Journalism A110 and English A100 or concurrent enrollment.  
A writing workshop focusing on student writing and marketing in-depth non-fiction feature articles. Emphasis will be on guiding students and developing interesting non-fiction stories from the idea stage through publication and finding suitable markets for publication. Same as Journalism A117. Students completing English A117 may not receive credit for Journalism A117. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

English A122 — Novel Writing 2 — 4 units  
Prerequisite: English A100 and A119.  
For students who have completed at least fifty pages of an original novel, this intermediate novel writing workshop focuses on planning and developing the novel into a full-length manuscript. The course explores theory, technique and the practical discipline of writing fiction, and examines models from various genres (literary classics, historical fiction, detective fiction, romance, science fiction and others). In addition, students learn to write critiquing a working knowledge of literary technique and terminology. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A227 — Scriptwriting 2 — 4 units  
Prerequisite: English A127.  
This is a course for students who have completed at least one act (30 pages) of an original play or screenplay. The emphasis will be on analyzing dramatic strategies in film, television, and theatre, with special attention given to bringing a short project to completion (30-60 pages). May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A232 — Novel Writing 1 — 4 units  
Prerequisite: English A099 or English as a Second Language A099 OR appropriate English placement score.  
An introductory course offering an intensive workshop environment in which to write an original work of book-length fiction. The course focuses on theory, technique and practical discipline of writing fiction, and examines models from various genres (literary classics, historical fiction, detective fiction, romance, science fiction and others). Students discuss the techniques of storytelling and present original manuscripts for critical review. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A237 — Scriptwriting 3 — 4 units  
Prerequisite: English A227.  
An intermediate scriptwriting workshop for students who have completed at least 60 pages of an original work. The emphasis at this stage will be on the refinement of structure, tone, dialogue, and character, in service to the emerging themes of the work-in-progress. Students will read essays on craft and will engage in research into the circumstances and settings featured in their scripts. After generating 30-60 new pages, students will carefully revise and edit their work, resulting in the completion of a substantial portion of their full-length plays/screenplay. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A247 — Scriptwriting 4 — 4 units  
Prerequisite: English A237.  
An advanced scriptwriting workshop for students who have completed at least 90 pages of an original work. The emphasis this semester will be on completing and marketing a saleable feature-length screenplay, theatrical play, original pilot, or spec script for an existing television show. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Creative Writing

English A119 — Introduction to Creative Writing — 3 units  
Advisory: English A100.  
Familiarizes students with writing techniques in fiction, poetry, and scriptwriting through close reading in all three genres, careful text analysis with an emphasis on methods, and extensive writing practice. Students will produce original work in all three genres, which they will revise based on detailed responses from instructor and peers. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 200.

English A121 — Short Story Writing — 3 units  
Prerequisite: English A099 or qualifying placement score.  
Required course in short fiction, centered on discussing and evaluating students’ original work. Includes practical strategies for generating strong prose, based on techniques of published writers. For beginning, intermediate, or advanced writers. Students will be given the opportunity to submit work for publication in the Orange Coast Review. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A232 — Novel Writing 3 — 3 units  
Prerequisite: English A119 and A222.  
This is an advanced writing workshop for students who have already completed more than 100 pages of an original novel. Students will focus on analysis of the elements of dramatic fictional structure through examination of works in progress. In addition to generating 50-100 new pages, students will read essays on craft and engage in research into the settings and circumstances of their characters in order to lend authenticly to the narrative. This course is designed to assist students in developing and revising manuscripts to meet contemporary publication standards. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A237 — Scriptwriting 4 — 4 units  
Prerequisite: English A227.  
An intermediate scriptwriting workshop for students who have completed at least 60 pages of an original work. The emphasis at this stage will be on the refinement of structure, tone, dialogue, and character, in service to the emerging themes of the work-in-progress. Students will read essays on craft and will engage in research into the circumstances and settings featured in their scripts. After generating 30-60 new pages, students will carefully revise and edit their work, resulting in the completion of a substantial portion of their full-length plays/screenplay. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A40N — Introduction to Literature Honors — 3 units  
Prerequisite: English A100 or qualifying placement score.  
This course introduces representative works from major genres (fiction, novel, poetry and drama), develops students’ close reading and analytical writing skills, and promotes appreciation and critical understanding of the cultural, historical, and aesthetic qualities of literature. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 120.
English A141 — The Bible As Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important Biblical works from both the Old and New Testament canon. Explore the historical, cultural, philosophical, and aesthetic implications of representative works, their origins and adoption. Formulate and produce written analysis of assigned works. Same course as Religious Studies A180. Students completing English A141 may not receive credit for Religious Studies A180. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A141H — The Bible As Literature Honors — 3 units
Advisory: English A100.
Read, analyze, and write on important Biblical works from both the Old and New Testament canon. Explore the historical, cultural, philosophical, and aesthetic implications of representative works, their origins and adoption. Formulate and produce written analysis of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A143 — Children’s Literature — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important texts of children’s literature. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 180.

English A143H — Children’s Literature Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important texts of children’s literature. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 180.

English A147 — Introduction to Science Fiction — 3 units
Advisory: English A100.
Read, analyze, and write on important works of science fiction. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A147H — Introduction to Science Fiction Honors — 3 units
Advisory: English A100.
Read, analyze, and write on important works of science fiction. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. Lecture. Transfer Credit: CSU, UC.

English A148 — Film As Literature — 3 units
Advisory: English A100.
Read, analyze, and write on international and American films. Critically examine the philosophical, cultural, mythic, religious, and/or historical elements related to film. Explore the styles in individual works and the commentary made on moral, social, and aesthetic issues. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A148H — Film As Literature Honors — 3 units
Advisory: English A100.
Read, analyze, and write on international and American films. Critically examine the philosophical, cultural, mythic, religious, and/or historical elements related to film. Explore the styles in individual works and the commentary made on moral, social, and aesthetic issues. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A150 — American Literature Before the 20th Century — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important early American literary works produced prior to the 20th Century. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 130.

English A150H — American Literature Before the 20th Century Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important early American literary works produced prior to the 20th Century. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 130.

English A151 — American Literature in the 20th Century — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important American literary works from the early 20th century to the present. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 135.

English A151H — American Literature in the 20th Century Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important American literary works from the early 20th century to the present. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 135.

English A152 — Race, Culture, and Identity in Literature — 3 units
Advisory: English A100.
Read, analyze, and write on texts by American writers, immigrant writers, and other writers that explore ethnicity, race, culture, sexuality, or ideology. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A152H — Race, Culture, and Identity in Literature Honors — 3 units
Advisory: English A100.
Read, analyze, and write on texts by American writers, immigrant writers, and other writers that explore ethnicity, race, culture, sexuality, or ideology. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A156 — California Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important texts of California Literature. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A156H — California Literature Honors — 3 units
Advisory: English A100.
Read, analyze, and write on important texts of California Literature. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A160 — World Literature Through Renaissance — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important early World literary works in translation produced from antiquity through the Renaissance. Works will be included from Europe, Asia, Africa, and the Middle East. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A160H — World Literature Through Renaissance Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important early World literary works in translation produced from antiquity through the Renaissance. Works will be included from Europe, Asia, Africa, and the Middle East. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A168 — World Literature Through Romanticism — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important works of literary works in translation produced from the Renaissance to the Romantic period. Works will be included from Europe, Asia, Africa, and the Middle East. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A168H — World Literature Through Romanticism Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important works of literary works in translation produced from the Renaissance to the Romantic period. Works will be included from Europe, Asia, Africa, and the Middle East. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
English A161 — World Literature Since Renaissance — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important World literary works in translation from the Renaissance to the present. Examine the historical, cultural, philosophical, and aesthetic implications of representative works from Europe, Asia, Africa, South America, and the Middle East. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A161H — World Literature Since Renaissance Honors — 3 units
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important World literary works in translation from the Renaissance to the present. Examine the historical, cultural, philosophical, and aesthetic implications of representative works from Europe, Asia, Africa, South America, and the Middle East. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A165 — Introduction to Irish Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important texts of Irish literature from the earliest periods to the present. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Appreciate the literary devices and styles evident in individual works and the commentary made by these works on moral, social, and aesthetic issues. Typical writers include anonymous writers of Irish myths, legends, and folklore, early poets, O’Casey, Lady Gregory, Joyce, Shaw, Synge, Wilde, Yeats. Lecture. Transfer Credit: CSU, UC.

English A168 — Popular Fiction — 3 units
Advisory: English A100.
Read, analyze, and write on important texts of Popular Fiction including popular novels, detective fiction, science fiction, fantasy, horror, young adult, romance, historical fiction, and graphic novel/comics. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

English A170 — Modern and Postmodern Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important modern and postmodern literary works. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A170H — Modern and Postmodern Literature Honors — 3 units
Advisory: English A100.
Read, analyze, and write on important modern and postmodern literary works. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A172 — Unique Topics in Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important topics chosen because of their timeliness and focus on a common theme, form, geographical area, or cultural group. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A173H — Women Writers Honors — 3 units
Advisory: English A100.
Read, analyze, and write on important works by women writers. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A176H — World Mythology Honors — 3 units
Advisory: English A100.
Read, analyze, and write on myths and the literature based on mythic traditions. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Formulate and produce written analysis of assigned work. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

English A177H — Women Writers — 3 units
Advisory: English A100.
Read, analyze, and write on important works by women writers. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A178H — Introduction to Literary Theory — 3 units
Advisory: English A100.
Introduction to literary theory and interpretation with a focus on genre, textual analysis, and application of theoretical principles. Examines the influence of philosophy and history on perceptions of literature and will investigate relevant topics such as art, sexuality, economics, culture, power, and language. Some authors may include Barthes, Foucault, Marx, Derrida, and Foucault. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A187 — Shakespeare — 3 units
Formerly English A187
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on a range of Shakespearean texts including histories, comedies, tragedies, and problem plays. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A187H — Shakespeare Honors — 3 units
Formerly English A175H
Advisory: English A100.
Read, analyze, and write on a range of Shakespearean texts including histories, comedies, tragedies, and problem plays. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A180 — Shakespeare Honors — 3 units
Formerly English A172
Advisory: English A100.
Read, analyze, and write on a range of Shakespearean texts including histories, comedies, tragedies, and problem plays. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A181 — Shakespeare — 3 units
Formerly English A175
Advisory: English A100.
Read, analyze, and write on a range of Shakespearean texts including histories, comedies, tragedies, and problem plays. Examine the philosophical, cultural, mythic, religious, and/or historical elements related to these texts. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

English A250 — British Literature Before 1800 — 3 units
Formerly English A280
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important British literature from the Anglo-Saxon period to 1800. Explore the historical, cultural, philosophical and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 160.

English A270H — British Literature Before 1800 Honors — 3 units
Formerly English A280H
Prerequisite: English A099 or English as a Second Language A099 or qualifying placement score.
Read, analyze, and write on important British literature from the Anglo-Saxon period to 1800. Explore the historical, cultural, philosophical and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 160.
ENGLISH AS A SECOND LANGUAGE

English as a Second Language A011 — Beginning Listening and Speaking — 4 units
Prerequisite: English as a Second Language A011 or concurrent enrollment or qualifying placement score.
Listening comprehension, oral communication, and pronunciation skills for beginning academic students who are non-native speakers of English. Practice in spontaneous conversation and small group discussion. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID ENGL 165.

English as a Second Language A015 — Grammar, Reading, and Writing 1 — 8 units
Prerequisite: English as a Second Language A011 or concurrent enrollment or qualifying placement score.
Intensive introductory level of integrated basic grammar, reading, and writing of American English for non-native students who are pursuing college coursework. Includes work on basic note-taking, verb tenses, spelling and vocabulary. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A021 — Listening and Speaking Skills 1 — 3 units
Prerequisite: English as a Second Language A011 or qualifying placement score.
Listening comprehension, oral communication, and pronunciation skills for low-intermediate students. Practice comprehension of representative works. Formulate and produce written analyses of assigned works. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A026 — Grammar, Reading and Writing 2 — 6 units
Prerequisite: English as a Second Language A011 or qualifying placement score and A015 or qualifying placement score.
Integrated intensive grammar and reading low-intermediate students who are non-native speakers of English. Practice with sentence structure, tenses, modals, comparative and superlative, and clauses. Reading for facts and inferences. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A031 — Listening and Speaking Skills 2 — 3 units
Prerequisite: English as a Second Language A021 or qualifying placement score.
Listening comprehension, oral communication, and pronunciation skills for intermediate students. Practice on basic note-taking from lectures. Task-oriented discussion techniques. Review of basic patterns of American pronunciation. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A035 — Grammar, Reading and Writing 3 — 7 units
Prerequisite: English as a Second Language A021 or qualifying placement score and A026 or qualifying placement score.
Integrated intensive study of grammar, reading, and writing for intermediate students who are non-native speakers of English. Introduction to literal and critical reading; responding to unsimplified texts. Writing practice for grammar, mechanics and fluency. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A051 — Listening and Speaking Skills 3 — 3 units
Prerequisite: English as a Second Language A031 or qualifying placement score.
Listening comprehension, oral communication, and pronunciation skills for high-intermediate and advanced second language students. Practice in effective note-taking and listening for specific information. Work on interpersonal communication, oral presentation, and pronunciation. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A065 — Grammar, Reading and Writing 4 — 6 units
Prerequisite: English as a Second Language A031 or qualifying placement score or concurrent enrollment and A035 or qualifying placement score.
Integrated intensive study of grammar, reading, and writing for high-intermediate students who are non-native speakers of English. Review of intermediate grammar and reading skills, with work on advanced grammatical structures. Paragraph writing in response to readings. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

English as a Second Language A080 — Composition and Reading 1 — 3 units
Prerequisite: English as a Second Language A031 or qualifying placement score and A055 or qualifying placement score.
Integrates college level reading, writing, and critical thinking skills. Emphasis on summarizing and note-taking techniques. Students will write 6,000 instructor-evaluated words. Individual attention given to the structure and usage problems of English as a Second Language students through conferencing and computer applications. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

Ethnic Studies A100 — Contemporary Ethnic America — 3 units
Prerequisite: English as a Second Language A099 or English as a Second Language A011 or qualifying placement score and A055 or qualifying placement score.
A survey of the history of the many (40+) ethnic groups originating in Europe, Asia (including the American Indian), the Americas, the Pacific Islands, Africa, and the Middle East, that make up the population of the United States. Same as History A150. Students who enroll in Ethnic Studies A150 may not receive credit for History A150. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Ethnic Studies A150 — Ethnic Groups in the U.S.: Their Histories — 3 units
Prerequisite: English as a Second Language A099 or qualifying placement score and A055 or qualifying placement score.
An examination of contemporary American dominant, ethnic and racial minority intergroup relations from historical, sociological and psychological perspectives. Addresses continuing issues of racism and discrimination in employment, education, politics and health care. Lecture. Transfer Credit: CSU, UC.

Family and Consumer Sciences A180 — Life Management — 3 units
Prerequisite: English as a Second Language A099 or qualifying placement score and A055 or qualifying placement score.
A laboratory-based course to improve clothing construction skills. Students work independently according to a study plan they devise and complete, under the supervision of the course instructor. Includes periodic student-teacher conferences, completion of individualized lab assignments, and a final self-assessment report. Enrollment is open all semester. Offered on a pass-no-pass basis only. Arranged Lab. Not applicable to AA or AS degree.
Course Descriptions

Fashion A100 — Beginning Clothing Techniques — 3 units
This course is basic clothing construction using the latest methods. Students will learn basic clothing construction techniques and complete multiple easy-to-sew projects. Lecture, Lab. Transfer Credit: CSU.

Fashion A102 — Industrial Sewing Techniques — 2 units
Prerequisite: Fashion A100 or A180.
Advanced clothing construction techniques with emphasis on industrial equipment, techniques, use, and care. Lecture, Lab. Transfer Credit: CSU.

Fashion A105 — Sewing Skills Assessment — 3 units
Advisory: Fashion A100 or A180 or A183.
Assessment of sewing skills and performance of specified clothing techniques required for Fashion A100, A180 and A183. Offered on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU.

Fashion A110 — Applied Textiles and Design — 3 units
Selection, use, care, and performance standards for textile products for fashion apparel and interior textiles. Lecture. Transfer Credit: CSU, UC.

Fashion A115 — Introduction to the Fashion Industry — 3 units
Organization, structure, and interrelationship of industries and services that comprise the business of fashion, terminology, designers, trade organizations, and publications. Identification of current trends and fashion inspiration. Professional opportunities explored. Lecture. Transfer Credit: CSU.

Fashion A118 — Trend Forecasting — 3 units
Studies the techniques and procedures for identifying and forecasting fashion trends and evaluates current trends found in lifestyles, business, ready-to-wear, and home fashion. Students will learn to recognize and analyze predictive lifestyle and business trends that affect retail merchandising and marketing decisions. Lecture. Transfer Credit: CSU.

Fashion A120 — History of Fashion — 1.5 units
A chronological study of costume designs from ancient times to the present. Emphasis is placed on the identification of apparel design details, the relation of recurring style trends to contemporary fashion, socio-economic, political and personal factors affecting clothing through the centuries. Lecture. Transfer Credit: CSU.

Fashion A121 — Street Style — 1.5 units
This course explores the significant and dynamic role street style plays in the 21st Century and surveys how youth defies and influences the fashion establishment. The street’s ascent as a fashion force will be traced from its historical inception to how it makes history. Lecture. Transfer Credit: CSU.

Fashion A130 — Tailoring — 1.5 units
Prerequisite: Fashion A180 or A183.
The student will construct a lined, tailored jacket using traditional and speed tailoring techniques. Forty-eight basic clothing construction techniques will be featured. Lecture, Lab. Transfer Credit: CSU.

Fashion A135 — Design in Everyday Life — 2 units
Design as it relates to everyday life. The study of the design process to include inspiration, design boards, tools and techniques, completed projects and evaluation. Lecture, Lab. Transfer Credit: CSU.

Fashion A137 — Alterations — 2 units
Prerequisite: Fashion A100 or A180 or A183.
Basic analysis and techniques related to fitting and altering ready-to-wear garments and commercial patterns. Lecture, Lab. Transfer Credit: CSU.

Fashion A150 — Flat Pattern Techniques — 3 units
Prerequisite: Fashion A100 or A180 or A183.
Interpretation of clothing design through the use of flat pattern techniques. Basic principles involved in designing and manipulating patterns. Lecture, Lab. Transfer Credit: CSU.

Fashion A155 — Tech-Packs — 2.5 units
Prerequisite: Fashion A100 or A180 or A183 and A150 and A255.
The development of offshore technical packages. To include: garment knock-outs, pattern adjustments, appropriate fit, fabric qualities and package specifications. Lecture, Lab. Transfer Credit: CSU.

Fashion A170 — Clothing Design and Selection — 3 units
An introduction to the psychology of clothing and the study of art elements and principles as they relate to dress and personal appearance. Fashion vocabulary, recognition and description of styles, fashion cycles and trends are emphasized. Lecture. Transfer Credit: CSU.

Fashion A175 — Applied Color and Design Theory — 3 units
Basic design theory and application. Utilization of tools, materials, and equipment to develop technical skills applicable to interior, architectural, and other related fields of design, Exploration of cultural heritage and psychological implication of design. Same as Interior Design A175. Students completing Fashion A175 may not receive credit for Interior Design A175. Lecture, Lab. Transfer Credit: CSU.

Fashion A177 — Fashion Merchandising Concepts — 3 units
An introduction to the fashion merchandising industry will include vendors and products sold, as well as the various types of retail venues and the methods of merchandising apparel in each. The packaging and marketing of a product and the tracking of a fashion trend in several venues will also be included. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Fashion A180 — Fundamental Principles of Clothing Construction 1 — 3 units
Fundamental principles of clothing construction are studied and applied to selected problems with an emphasis on expanding knowledge in a variety of techniques. Fulfills the lower division college transfer requirement in clothing for the family and consumer sciences major. Lecture, Lab. Transfer Credit: CSU.

Fashion A181 — Fashion Internship — 2 units
Advisory: At least four of the following: Fashion A110, A115, A120, A121, A170, A177.
A supervised internship including classroom-based learning and experience at a fashion-related work site. The creative design of garments through draping techniques emphasizing fabric manipulation and design creation. Lecture, Lab. Transfer Credit: CSU.

Fashion A182 — Professional Practices — 2 units
Prerequisite: Must take a minimum of four of the following: Fashion A110, A115, A120, A121, A170, and A177.
This course will include writing resumes and professional correspondence and developing a visual portfolio. This course should be taken in the final semester of the certificate program. Lecture. Transfer Credit: CSU.

Fashion A183 — Fundamental Principles of Clothing Construction 2 — 3 units
An intermediate-level clothing construction class using the latest industry methods. Students will learn clothing construction techniques and complete two sewing projects. Lecture, Lab. Transfer Credit: CSU.

Fashion A199 — Current Issues in Fashion — 5-1.5 units
Current issues in the field of fashion, rotating through a variety of topics, such as fashion design/production, apparel construction, fashion merchandising, and costume. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Fashion A200 — Fashion Internship Lecture — 1 units
Co-requisite: Fashion A181.
A lecture course that runs concurrently with a supervised internship course. Classroom-based learning. Includes 16 hours of company research preparation to include company culture and appropriate behavior; on-site interview skills and techniques; writing measurable learning objectives that are assessed at the end of the internship; and writing a reflective summary for each objective and developing a resource directory for employees, vendors, and services used at the field site. Lecture. Transfer Credit: CSU.

Fashion A225 — Media, Events, and Promotions — 3 units
Prerequisite: Fashion A177 and A255.
Principles of fashion promotion and coordination. Analysis of social media marketing related to the fashion industry. The course will include techniques and procedures for presenting fashion according to retail venue, target customer, type of merchandise, and type of theme or event. Lecture. Transfer Credit: CSU.

Fashion A233 — Couture Techniques — 2 units
Prerequisite: Fashion A180 or A183.
Instruction and practice in techniques used to create couture and custom garments. Techniques of handling special and difficult fabrics, leather and furs. Features fine finishing details. Requires construction of one couture garment. Lecture, Lab. Transfer Credit: CSU.

Fashion A235 — Draping — 2 units
Prerequisite: Fashion A180 or A183.
The creative design of garments through draping techniques emphasizing fabric manipulation and design creation. Lecture, Lab. Transfer Credit: CSU.

Fashion A255 — Fashion Illustrating Techniques 1 — 3 units
Presentation and promotion of fashion and garment design through elementary trade sketching use of the ‘croqui’, and current computer design software, as used in the fashion industry. Lecture. Lab. Transfer Credit: CSU.
Fashion A256 — Fashion Illustrating Techniques 2 — 3 units
Prerequisite: Fashion A255.
Use current computer software to design and refine fashion garment proportions, textile textures and shapes, and garment construction elements to gain a clear understanding of design standards in the fashion industry. Lecture, Lab. Transfer Credit: CSU.

Fashion A260 — Computerized Pattern System — 2 units
Advisory: Fashion A110 and 150.
An introductory course on the operation of the current computer-assisted pattern-making software package, including the 3D format. System management, digitizing, plotting, marker-making, pattern development, library structures of pattern data, development of pattern blocks, pattern design, grading, and drafting system features/ functions will be covered. Lecture. Lab. Transfer Credit: CSU.

FILM & TELEVISION

Film & Television A100 — History & Appreciation of Cinema — 3 units
Introduces the analysis of film form and content, aesthetics and meaning, and history and culture. Explores the diverse possibilities presented by the cinematic art form through an examination of a wide variety of productions, national cinemas, and film movements. Topics include modes of production, narrative and non-narrative forms, visual design, editing, sound, genre, ideology and critical analysis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Film & Television A102 — The Business of Film & Television — 3 units
Advisory: Film A110 and Film A155.
An introduction course to the business of film and television. Students will get a comprehensive and practical look at each aspect of the industry, including careers in development, current programming, broadcast standards and practices, networks, studios, casting, and production for film and television. This class will also address career strategies for advancement within the film, television and new media industries. Lecture. Transfer Credit: CSU.

Film & Television A104 — The Great Directors of Cinema — 3 units
Topics delving into aspects of film history, criticism and aesthetics which can be described as extensions of the film directors’ point of view. The course is intended for Film and Television majors and other students with an interest in Film and Television. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Film & Television A106 — Introduction to Media Writing — 3 units
Basic introductory course in writing for the film and electronic media. Emphasis on preparing scripts in proper formats, including fundamental technical, conceptual and stylistic issues related to writing fiction and non-fiction scripts for informational and entertainment purposes in film and electronic media. Includes a writing evaluation component as a significant part of the course requirement. Lecture. Transfer Credit: CSU.

Film & Television A110 — Video Workshop — 3 units
The course provides an introduction to the theory, terminology, and operation of single camera video production, including composition and editing techniques, camera operation, portable lighting, video recorder operation, audio control and basic editing. This course focuses on the aesthetics and fundamentals of scripting, producing, directing on location, postproduction, and exhibition/distribution. Lecture, Lab. Transfer Credit: CSU, UC.

Film & Television A112 — Project Development and the Pitch — 3 units
Students will learn how to plan a video, documentary, or television project and develop a business presentation for submission to commercial buyers. Topics will include development, marketing, packaging, release strategies, financing, publicity and advertising. Lecture. Transfer Credit: CSU.

Film & Television A120 — Event Productions — 3 units
Advisory: Film A110 and Film A194.
This course is designed to introduce the student to the aesthetic concepts, basic skills, and techniques used to create live event films for sports, theatrical, corporate events, and weddings. Additionally, the course will cover basic business and marketing skills needed to start a videography business. Students will acquire hands on knowledge of live event videography and editing techniques. Lecture, Lab. Transfer Credit: CSU.

Film & Television A150 — Introduction to Radio, TV and Film — 3 units
Overview and analysis of the radio, TV, and film industries in the U.S. with emphasis on the historical, cultural, and technical functions of each medium. Additionally, broadcast advertising, research, media law, and regulations are explored with the additional impact of global broadcasting, cable TV, Internet, and satellite technologies. This course may also be offered online. Lecture. Transfer Credit: CSU.

Film & Television A155 — Television Production 1 — 3 units
Introduction, orientation, and use of digital television studio equipment and other basic tools in television production. The course will focus on theory, terminology, and operation of all television equipment and the responsibilities of television personnel. Students will be assigned projects to produce and will experience all major functions of the production team. Lecture, Lab. Transfer Credit: CSU.

Film & Television A193 — Film and Television Sound — 3 units
This course serves as an introduction to the theory and practice of audio production for radio, television, film and digital recording applications. Students will learn the fundamentals of sound design and aesthetics, microphone use, and digital recording equipment. Students gain hands-on experience recording, editing, mixing and mastering audio. Upon completion, students will have basic knowledge of applied audio concepts, production workflow, equipment functions, and audio editing software. Lecture, Lab. Transfer Credit: CSU.

Film & Television A194 — Digital Film and Video Editing 1 — 3 units
Advisory: Film and Television A110.
Explore the principles, theory, and mechanics of digital film and video editing using computers. Emphasis will be on visual effects editing techniques, sound effects, graphics, and titling. The class is designed for those interested in entering the field of digital editing, graphic artists interested in expanding their knowledge base of the industry, and independent producers in the broadcast, educational, corporate, and consumer markets. Lecture, Lab. Transfer Credit: CSU.

Film & Television A180 — Introduction to Visual Effects — 3 units
Prerequisites: Film and Television A194.
Explore the principles, theory, and mechanics of visual effects editing using computers. Emphasis will be on visual effects editing techniques, sound effects, graphics, and titling. The class is designed for those interested in expanding their knowledge of areas including advanced editing, visual effects, graphics, post-production industries, studio and independent productions for broadcast, educational, corporate, web, virtual reality and other consumer markets. Lecture, Lab. Transfer Credit: CSU.

Film & Television A210 — Production Management — 3 units
Prerequisite: Film and Television A110.
This course will provide a comprehensive step-by-step overview of production management from pre-production through post-production in film, television and new media projects. This course will also cover production planning, budgeting, scheduling, as well as other essential skills and logistics of filmmaking. Lecture. Transfer Credit: CSU.

Film & Television A215 — Social Media Marketing — 3 units
Advisory: Film and Television A110 or A155.
Introduction to the role of social media marketing in entertainment and the practical applications of social media types. Students will learn to optimize career goals through social media; build and leverage a community of followers; create compelling content; and design and implement a multi-platform marketing campaign for an outside client. Lecture, Lab. Transfer Credit: CSU.

Film & Television A230 — Story Development & Production — 3 units
Prerequisites: Film and Television A110.
This course provides an introduction to the theory, terminology, development of fictional story-telling structure, process of making and pre-production materials for film and television. Topics include basic cinematography including the operation, function and creative uses of production and post-production equipment, scripting, camera operation, shot composition, lighting, sound recording and mixing, editing, writing, producing, directing and camera operation. Students will produce a short music video, animation or drama. Lecture, Lab. Transfer Credit: CSU, UC.
**Food and Nutrition A100 — Careers in Dietetics and Food Science** — 1 unit
Exploration of the fields of Dietetics and Food Science/ Culinology, including trends, future projections and employment opportunities. Guest speakers and field trips to nutrition services in health care and community agencies and food manufacturing plants are included. Students completing Food and Nutrition A100 may not receive credit for Nutrition Care A100. Lecture, Lab. Transfer Credit: CSU.

**Food and Nutrition A125 — Vegetarian Nutrition** — 1 unit
Vegetarian diets are explored including information on healthy food choices and nutritional implications. Each class includes lecture and preparation of a wide variety of vegetarian foods. Key nutrients and potential deficiencies are discussed. May be taken for a grade or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Food and Nutrition A136 — Nutrition, Fitness and Performance** — 3 units
An applied nutrition course for individuals interested in health, fitness, and athletics. Principles of nutrition are studied and applied to the athlete and active individuals. Includes pre and post event food and fluid selection, nutrient requirements, supplements, muscle mass and body fat related to performance. Same as Health Education A136 and Kinesiology A283. Students completing Food and Nutrition A136 may not receive credit for Health Education A136 or Kinesiology A283. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Food and Nutrition A140 — Introduction to Nutrition Concepts** — 2 units
Practical approach to nutrition with laboratory activities: includes basic nutrition, food product evaluation, menu modification, food and health issues, nutrition controversies, and food safety. Recommended for Culinary Arts and students wanting an overview of nutrition. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

**Food and Nutrition A144 — Life Cycle Nutrition** — 3 units
Advisory: Food and Nutrition A140 or A170. An overview of nutrition during the lifecycle. Course will cover nutritional needs during pregnancy and lactation, childhood and adolescent, and older adulthood. Introduction to the physiological, social and psychological factors affecting nutritional status for each age group. Lecture. Transfer Credit: CSU.

**Food and Nutrition A145 — Life Cycle Nutrition: Children** — 1 unit
An overview of nutritional needs of children (ages 2 – 18), including appropriate practices and foods to promote optimum growth and development as well as common problems of weight (over/under), food allergies and intolerances. Lecture. Transfer Credit: CSU.

**Food and Nutrition A146 — Life Cycle Nutrition: Later Years** — 1 unit
An overview of the factors affecting the nutritional status of the aging adult: nutritional needs, physiological, social and psychological changes, disease intervention, drug nutrient interactions and community resources to assist the aging population. This course may also be offered online. Lecture. Transfer Credit: CSU.

**Food and Nutrition A170 — Nutrition** — 3 units
Scientific concepts of nutrition relating to the functioning of nutrients in the basic life processes. Emphasis on individual needs, food sources of nutrients, current nutrition issues, and diet analysis. Recommended for nutrition majors and transfer students. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID NUTR 110.

**Food and Nutrition A171 — Applied Nutrition** — 2 units
Prerequisite: Food and Nutrition A136 or A140 or A170 or concurrent enrollment. Current issues in nutrition are explored along with weekly meal preparation and analysis emphasizing maximum nutrient intake. Topics covered include energy needs, current research, eating disorders, supplements, functional foods, and food safety. Lecture. Lab. Transfer Credit: CSU.

**Food and Nutrition A180 — Principles of Foods** — 3 units
Basic knowledge of food science principles and food preparation techniques. Emphasis on ingredient interaction, technique and production standards, food safety, sanitation, nutrient values, and food representations. Recommended for students transferring to the CSU in Nutrition. Lecture, Lab. Transfer Credit: CSU. C-ID NUTR 120.

**Food and Nutrition A185 — Cultural Foods** — 2 units
Exploration of America’s diverse micro-cultures through food including origins, customs, psychological acceptance and nutrition information. Emphasis is placed on food preparation techniques, utensils, food service, and creation of an authentic atmosphere. Meets AA Cultural Diversity Requirements. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Food and Nutrition A195 — Food Science** — 4 units
Food science is the scientific study of raw food materials and their behavior during formulation, processing, packaging, and storage, and includes evaluation as consumer food products. Meets the AS Laboratory Science requirement. Lecture, Lab. Transfer Credit: CSU.

**Food and Nutrition A196 — Food Science Quality Control** — 4 units
Prerequisite: Food and Nutrition A195. The purpose of this class is to prepare students to work in a Food Manufacturing Quality Control lab. Multiple Food Manufacturing Quality Control Principles will be examined. Each examined principle will have multiple lecture and lab components. Students will use real world Quality Control lab techniques to analyze products found in the market place and correlate that product to a homemade one. Lecture. Lab. Transfer Credit: CSU.

**Food and Nutrition A199 — Current Issues in Food, Nutrition, and Food Science** — .5 unit
Study and review of current issues in the field of food, nutrition, food science, and dietetics, including a variety of topics, such as general nutrition, food research and technology, cook/chill, and nutrition related to health and disease, wellness, the life cycle, and fraud. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.
Food and Nutrition A286 — Directed Practice for Culinology®/Food Science — 2 units  
Prerequisite: Food Service Management A160 and Food and Nutrition A195.  
On the job training at approved institutional or commercial facilities working with a food scientist or culinologist in the development of new products or quality assurance. Students will be required to follow industry standards and company policies of conduct, set by the facility in which they are working. 120 hours paid, 150 hours unpaid, 6 hour seminar. Transfer Credit: CSU.

FOOD SERVICE MANAGEMENT

Food Service Management A100 — Introduction to the Hospitality Industry — 3 units  
Overview of the hospitality industry, its history and interrelationships of hotel, restaurant, travel and leisure industries. Economic and social influences of leisure. Emphasis on attitude required of a person seeking a position in the industry. Same as Culinary Arts A100 and Hospitality, Travel & Tourism A100. Students completing Food Service Management A100 may not receive credit for Culinary Arts A100 or Hospitality, Travel & Tourism A100. This course may also be offered online. Lecture. Transfer Credit: CSU.

Food Service Management A150 — Principles of Quantity Food Preparation — 4 units  
Prerequisite: Food Service Management A160, or concurrent enrollment.  
The fundamentals of food preparation, and application of these principles to quantity food production. Emphasis is placed on the use of quantity food preparation equipment, work simplification, and standardized production. Not required for Culinary Arts students. Hospitality dress standards and TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Food Service Management A151 — Food Production Management — 2 units  
Prerequisite: Food Service Management A150 or Culinary Arts A120, A124, and A140.  
Techniques and practice managing individuals responsible for producing food including supervision in planning, organizing, supervising, and controlling food production is discussed. Students will be required to follow hospitality department dress standards. TB clearance required. Transfer Credit: CSU.

Food Service Management A160 — Sanitation and Safety — 3 units  
The basic principles of bacteriology, safety, equipment selection, and facility layout for food service operations. Includes cause and control of food-borne illnesses, cleaning materials and procedures, general safety regulations, food processing methods, first aid, and fire prevention. National food handler certification exam will be given. This course may also be offered online. Lecture. Transfer Credit: CSU.

Food Service Management A161 — Basic Concepts in Sanitation — .5 units  
A short course in sanitation applied to the flow of food. The course is designed to meet current professional organization certification requirements and prepares the student for the national food handler certification examination (ServSafe). This course may also be offered online. Offered on a pass/no-pass basis only. Lecture. Transfer Credit: CSU.

Food Service Management A190 — Dining Room Service — 2 units  
Prerequisite: Food Service Management A160 or concurrent enrollment.  
Orientation to all functions of restaurant dining room operations, including dishwashing, pot and pan washing, floor care, equipment maintenance, and line preparation techniques. Emphasis on dining room service techniques of table waiting and accompanying dining room skills. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Food Service Management A210 — Dining Room Management — 3 units  
Prerequisite: Food Service Management A190.  
How to manage and promote a profitable dining room. Emphasis on management activities of controlling and staffing a dining room. Students will be required to follow Hospitality Department Dress Code. TB clearance required. Lecture, Lab. Transfer Credit: CSU.

Food Service Management A240 — Food Service Math/Accounting — 4 units  
Mathematical and accounting concepts applied to food service problems such as food costing, payroll computations, recipe adjusting, gross profit analysis, guest check mechanics, metric conversions, cost reports, financial statements, budgets, break-even analysis and general financial decision making problems. Lecture. Transfer Credit: CSU.

Food Service Management A250 — Menu Planning and Purchasing — 2 units  
The basic principles of menu planning and purchasing principles will include writing specifications for food and supplies and proper receiving/storage techniques, for restaurants and institutions. Emphasis on type of operation, psychological needs, available equipment, skill of the personnel, merchandising, menu pricing, and operating budget. This course may be offered online. Lecture. Transfer Credit: CSU.

Food Service Management A260 — Supervision and Training Techniques — 3 units  
Developing personnel programs and desirable labor-management relations. Special emphasis placed on leadership skills of motivation, communication, and decision making. Same as Hotel Management A260. Students completing Food Service Management A260 may not receive credit for Hotel Management A260. Lecture. Transfer Credit: CSU.

Food Service Management A275 — Bar Management — 2 units  
How to manage a successful beverage operation. Entry level skills of preparing and serving beer, wine and spirits. Manage the bar for profitability to include cost controls, staffing, marketing, and regulations that affect operations. Lecture, Lab. Transfer Credit: CSU.

Food Service Management A284 — Catering — 3 units  
Prerequisite: Food Service Management A160 or concurrent enrollment.  
The theory and practice of managing a catering operation. Students will be required to follow hospitality department dress standards. TB clearance required. Lecture, 9 hours laboratory arranged. Transfer Credit: CSU.

Food Service Management A285 — Restaurant Management — 3 units  
The principles of operating a food service facility. Characteristics unique to different segments are explored, including quick service, full service, and institutional operations. Management principles, marketing, financial management, site location, space allocations, legal considerations, and customer relations, will be covered. Lecture. Transfer Credit: CSU.

Food Service Management A289 — Directed Practice in Food Service Management 1 — 2 units  
Prerequisite: Food Service Management A150 and 160 and A190.  
This is a directed practice opportunity for Food Service Management which includes practical training in the OCC cafeteria operation. Students will rotate through the major areas of the kitchen in supervised settings. Students will be required to follow Food Service Management Department dress standards. TB clearance required. 6 hours lecture and 120 work hours (paid) or 150 work hours (paid). Transfer Credit: CSU.

Food Service Management A290 — Directed Practice in Food Service Management 2 — 2 units  
Prerequisite: Food Service Management A283.  
A directed opportunity in food service or culinary arts to gain practical training. This directed practice is repeated for each option the student elects in order to earn a Certificate of Achievement in that option. Students will be required to follow dress standards and companies policies of conduct set by the facility in which they are working. TB clearance required. 180 hours directed practice, plus 6-hour seminar. Transfer Credit: CSU.

FRENCH

French A180 — Elementary French 1 — 5 units  
The focus is on development of elementary proficiency in listening, speaking, reading, and writing in French, with an introduction to cultures related to the French language. This course is equivalent to two years of high school French. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

French A180H — Elementary French 1 Honors — 5 units  
The focus is on development of elementary proficiency in listening, speaking, reading, and writing in French, with an introduction to cultures related to the French language. This course is equivalent to two years of high school French. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

French A185 — Elementary French 2 — 5 units  
Prerequisite: French A180 or completion of two years of high school French with a grade of “C” or better.  
Continuation of French A180, with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the French language. This course is equivalent to three years of high school French. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

French A185H — Elementary French 2 Honors — 5 units  
Prerequisite: French A180 or completion of two years of high school French with a grade of “C” or better.  
Continuation of French A180, with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the French language. This course is equivalent to three years of high school French. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
Course Descriptions

French A190 — Conversational French — 3 units
Prerequisite: Completion of two years of high school French with a grade of "C" or better.

French A191 — Current Topics in French — 1-5 units
Prerequisite: Completion of two years of high school French with a grade of "C" or better.

French A280 — Intermediate French 1 — 4 units
Prerequisite: French A185 or three years of high school French with a grade of "C" or better.
Continuation of French A185, with further development of language skills at the intermediate level and exploration of cultures related to the French language. Additional emphasis on reading and writing, with an introduction to selected literary works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

French A285 — Intermediate French 2 — 4 units
Prerequisite: French A280 or four years of high school French with a grade of "C" or better.
Continuation of French A280, with further refinement of language skills at the intermediate level and investigation of cultures related to the French language in preparation for higher level specialized work. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Gender Studies A187 — Women in History — 3 units
Provides a broad overview of the experiences of women in the history of the world from hunter-gatherer societies to the present. It examines how women’s political, economic, social, and cultural experiences have been shaped by gender and affected by place, time, class, and race. Same as History A187. Students receiving credit for Gender Studies A187 may not receive credit for History A187. Lecture. Transfer Credit: CSU, UC.

Gender Studies A189H — Honors Physical Geography — 3 units
Field studies of the geography of Latin America. Physical and cultural processes, characteristics and landscapes will be observed and analyzed. Specific content will vary by geographic region. Class will meet on campus prior to departure and following return. Students will spend three weeks in the Latin American country. Lecture. Transfer Credit: CSU.

Gender Studies A190 — Introduction to Gender Studies — 3 units
An interdisciplinary approach to understanding the role of gender in influencing experiences in society. Focus is on the role of gender in all levels of society and in all social institutions, including family, business, education, health, and religion. The perspective will be both historical and cross-cultural. Lecture. Transfer Credit: CSU, UC.

Gender Studies A197 — Honors Physical Geography — 3 units
A study of the basic cultural elements of geography and their correlation with the physical elements. Particular emphasis is given to population distribution, land-use patterns and trade. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 112.

Geography A100 — World Regional Geography — 3 units
An introduction to the regions and nations of the world. The major countries including their population, resources, general development and physical setting will be investigated. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 125.

Geography A100H — Honors World Regional Geography Honors — 3 units
An introduction to the regions and nations of the world. The major countries including their population, resources, general development, and physical setting will be investigated. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 125.

Geography A101 — Regional Field Studies in Latin America — 3 units
Field studies of the geography of Latin America. Physical and cultural processes, characteristics and landscapes will be observed and analyzed. Specific content will vary by geographic region. Class will meet on campus prior to departure and following return. Students will spend three weeks in the Latin American country. Lecture. Transfer Credit: CSU.

Geography A105 — California Geography — 3 units
A survey of California’s physical and cultural environment and patterns. Topics will include physiography, vegetation, climate, resources, population, migration, ethnic diversity, economics, urbanization and current issues related to geographic factors. Field trips may be required. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 130.

Geography A107 — Environmental Geography and Planning — 3 units
Provides a theoretical basis for understanding the use of Geographic Information Systems (GIS) in spatial analysis and decision making for a variety of applications. Learn fundamental concepts of cartographic presentation and the skills for working with spatial data, database design, data conversion, information retrieval and spatial analysis. Laboratory exercises provide students with applications from various fields including business, environmental, geography, geology, marketing and planning. Lecture, Lab. Transfer Credit: CSU. C-ID GEOG 155.

Geography A110 — Historical Geography — 3 units
A study of the basic cultural elements of geography and their correlation with the physical elements. Particular emphasis is given to population distribution, land-use patterns and trade. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 160.

Geography A112 — Honors Environmental Geography and Planning — 3 units
Provides a theoretical basis for understanding the use of Geographic Information Systems (GIS) in spatial analysis and decision making for a variety of applications. Learn fundamental concepts of cartographic presentation and the skills for working with spatial data, database design, data conversion, information retrieval and spatial analysis. Laboratory exercises provide students with applications from various fields including business, environmental, geography, geology, marketing and planning. Lecture, Lab. Transfer Credit: CSU. C-ID GEOG 160.

Geography A115 — Changing Environmental Systems — 3 units
A study of the basic cultural elements of geography and their correlation with the physical elements. Particular emphasis is given to population distribution, land-use patterns and trade. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 160.

Geography A120 — Historical Geography — 3 units
A survey of California’s physical and cultural environment and patterns. Topics will include physiography, vegetation, climate, resources, population, migration, ethnic diversity, economics, urbanization and current issues related to geographic factors. Field trips may be required. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 140.

Geography A160 — Environmental Geography — 3 units
Provides a theoretical basis for understanding the use of Geographic Information Systems (GIS) in spatial analysis and decision making for a variety of applications. Learn fundamental concepts of cartographic presentation and the skills for working with spatial data, database design, data conversion, information retrieval and spatial analysis. Laboratory exercises provide students with applications from various fields including business, environmental, geography, geology, marketing and planning. Lecture, Lab. Transfer Credit: CSU. C-ID GEOG 160.

Geography A187 — Women in History — 3 units
Provides a broad overview of the experiences of women in the history of the world from hunter-gatherer societies to the present. It examines how women’s political, economic, social, and cultural experiences have been shaped by gender and affected by place, time, class, and race. Same as History A187. Students receiving credit for Gender Studies A187 may not receive credit for History A187. Lecture. Transfer Credit: CSU, UC.

Geography A187H — Honors Physical Geography — 3 units
A study of the basic cultural elements of geography and their correlation with the physical elements. Particular emphasis is given to population distribution, land-use patterns and trade. Lecture. Transfer Credit: CSU, UC. C-ID GEOG 112.

Geography A190 — Introduction to Geographic Information Systems — 2 units
Advisory: Computer Information Systems A100. Provides a theoretical basis for understanding the use of Geographic Information Systems (GIS) in spatial analysis and decision making for a variety of applications. Learn fundamental concepts of cartographic presentation and the skills for working with spatial data, database design, data conversion, information retrieval and spatial analysis. Laboratory exercises provide students with applications from various fields including business, environmental, geography, geology, marketing and planning. Lecture, Lab. Transfer Credit: CSU. C-ID GEOG 155.

Geography A198 — Regional Field Studies in Geography — 2 units
Field studies of the geography of selected regions. Physical and cultural processes, characteristics and landscapes will be observed and analyzed. Specific content will vary by geographic region. Lecture. Lab. Transfer Credit: CSU. C-ID GEOG 160.

Geology A101 — Age of the Dinosaurs — 4 units
The course focuses on the origin, evolution and extinction of dinosaurs with emphasis on paleobiology and paleoecology. Covers fundamentals of dinosaur anatomy and behavior, hot/cold-blooded debate, relationships to birds, diversity and exploits of dinosaur hunters. Extended field trip required. Intended for science and non-science majors. Lecture, Lab. Transfer Credit: CSU, UC. C-ID GEOL 110.

Geology A105 — General Geology — 3 units
Formerly Geology A100
Composition and structure of the earth and the processes which modify the crust and the surface and their effect on man. Not open to students who are taking or have successfully completed Geology A110. One field trip required during semester. This course may be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID GEOL 100.

Geology A105H — General Geology Honors — 3 units
Formerly Geology A100H
Composition and structure of the earth and the processes which modify the crust and the surface and their effect on man. Not open to students who are taking or have successfully completed Geology A110. One field trip required during semester. This course may be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
Geology A105L — General Geology
Laboratory — 1 unit
Formerly Geology A100L
Prerequisite: Geology A105 or concurrent enrollment.
A laboratory study of materials and processes in the earth. A beginning laboratory course for the non-science major. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Geology A105M — General Geology
Lab Honors — 1 unit
Formerly Geology A100M
Prerequisite: Geology A105 or A105H or concurrent enrollment.
A laboratory study of materials and processes in the earth. A beginning laboratory course for the non-science major. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Geology A106 — Earth Science for Teachers — 4 units
A broad-based study of earth science, including geology, oceanography, meteorology, and solar system astronomy. Topics are aligned with the California State Science Standards for K-12 and will prepare future teachers to teach these subjects. Lecture. Lab. Transfer Credit: CSU. C-ID 121.

Geology A110 — Physical Geology — 4 units
A study of materials and processes in the earth. A beginning course in physical geology for science and engineering majors and students desiring a science emphasis. One extended field trip required during the semester. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC, C-ID GEOL 101.

Geology A115 — California Geology — 3 units
The study of a geologic showcase—California. The geologic framework of our state and its corresponding geologic provinces and geologic factors which have influenced California’s human history. The intimate inter-relationships of geology with our agriculture, transportation, construction, mining, oil and gas industry, recreation and public welfare. Field trip required. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID GEOL 200.

Geology A131 — Weather and Climate — 3 units
A survey in meteorology, emphasizing atmospheric composition and variability as well as interactions between atmosphere, oceans and continents to produce our weather. Includes the terminology and tools that meteorologists employ to observe, study and predict storm systems, storm fronts, thunderstorms, tornadoes and wind-driven ocean waves. Current topics such as air pollution and climate change will also be addressed. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Geology A132 — Geologic Field Studies: Death Valley — 2 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the tectonic, petrologic, historical and geomorphological setting of the Death Valley region. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 9 hours lecture, 18 hours scheduled lab, 36 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A133 — Geologic Field Studies: Colorado Plateau — 4 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the tectonic, petrologic, historical and geomorphological setting of the Colorado Plateau. This course includes a multi-day field excursion to study the geology of the Colorado Plateau region. Emphasis is on the stratigraphy, tectonic evolution and geologic history of the parks of the Southwest, including the Grand Canyon, Canyonlands, Arches, Capitol Reef, Bryce and Zion National Parks. 18 hours lecture, 18 hours scheduled lab, 144 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A134 — Geologic Field Studies: Cascade Range — 4 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the tectonic, petrologic, historical and geomorphological setting of the Cascade Range of Northern California, Oregon and Washington. The course combines classroom and field studies of Pacific Northwest geology with an emphasis on the volcanic and geothermal features of Mt. Lassen, Mt. Shasta, Crater Lake, Medicine Lake and Lava Beds National Monument. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 18 hours lecture, 18 hours scheduled lab, 144 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A135 — Geologic Field Studies: Geologic of the Natural Parks and Monuments — 3 units
Geology of national parks, seashores and monuments and its influence on land forms, climate and human history. Classes will vary each semester in order to develop particular skills in interpreting field problems and relationships unique to a given area. Approximate locations will be selected from one of four geologic provinces—The Mojave Desert, Basin and Range, Sierra Nevada, or Colorado Plateau. Field trip required. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Geology A136 — Geologic Field Studies: San Andreas Fault — 1 unit
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the tectonic, petrologic, historical and geomorphological setting of the San Andreas Fault Zone. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 9 hours lecture, 9 hours scheduled lab, 18 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A137 — Introductory Field Geology — 4 units
Prerequisite: Geology A105, Geology A105H, or Geology A110.
Provides intensive field experience in application of field geology equipment, methods, techniques and maintenance procedures. Emphasizes a “hands-on” approach to the interpretation of geologic data in the field. Includes use of Brunton compass and tape, aerial photos, global positioning system, and geographical mapping. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A138 — Geologic Field Studies: Yosemite National Park — 2 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the tectonic, petrologic, historical and geomorphological setting of the Sierra Nevada mountains with an emphasis on the geologic origin and evolution of Yosemite National Park, California. Introductory lectures complement direct field observations, field data collection, analyses and interpretation. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 9 hours lecture, 18 hours scheduled lab, 63 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A139 — Geologic Field Studies: Eastern Sierra Nevada — 2 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the faults, volcanoes, glaciers, mining and tectonic history of the Eastern Sierra Nevada Mountains. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 18 hours lecture, 18 hours scheduled lab, 36 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A141 — Geologic Field Studies: Mojave Desert — 2 units
Advisory: Geology A105, Geology A105H, or Geology A110.
The Mojave Desert is a major economic and recreational resource for southern California. Provides students an opportunity to learn about the geologic processes which have created and shaped the region. Studies the origin, evolution, and geology of the Mojave Desert and adjacent areas. 18 hours lecture, 18 hours scheduled lab, 36 hours field study lab. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.
Geology A142 — Geologic Field Studies: Hawaii Volcanology — 2.5 units
Advisory: Geology A105, Geology A105H, or Geology A110.
This course offers students an opportunity to explore fundamental geological concepts in a field-based setting. Pre-trip meetings will orient students to the structure, plutonic and volcanic features of the Hawaiian Islands with special emphasis on Kilauea volcano. Kilauea’s long-documented eruptive history and easy accessibility make it a training ground for USGS volcanologists. Focuses on the history and features of the volcano and its interactions with the people that live on it. This course includes a multi-day field excursion to various locales of geological interest and may involve camping in primitive wilderness environments. 9 hours lecture, 18 hours scheduled lab, 90 hours field study. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Geology A160 — Environmental Geology — 4 units
Prerequisite: English A100 or concurrent enrollment or qualifying placement score.
The study of natural environments and the impact of humans on geologic systems and will focus on studies of environmental problems associated with soils, water resources and pollution, energy and mineral utilization, coastal erosion, natural geologic hazards, and global atmospheric changes. Principles of sound management of the geologic environment will be emphasized. Lecture, Lab. Transfer Credit: CSU, UC. C-ID GEOL 131.

Geology A165 — Natural Disasters — 3 units
This course explores those natural disasters that affect human activities. Topics include earthquakes, floods, landslides, volcanoes, hurricanes, tornadoes, and asteroid/meteor impacts. The consequences of pollution and population growth will also be explored. Hypothetical and case histories of natural disasters will also be studied. Class discussion will focus on aspects of regional planning, environmental laws and the interaction between science and society. Lecture. Transfer Credit: CSU, UC.

Geology A185 — Evolution of the Earth — 3 units
Advisory: Geology A105 or Geology A110.
Geologic evolution of the earth as shown by the changing patterns of land and sea, and by the succession of fauna and flora. A second course in geology for science majors. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID GEOL 110.

Geology A185H — Evolution of the Earth Honors — 3 units
Advisory: Geology A105 or Geology A110.
Geologic evolution of the earth as shown by the changing patterns of land and sea, and by the succession of fauna and flora. A second course in geology for science majors. May be taken for grades or on a pass/no-pass basis. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Geology A185L — Evolution of the Earth Lab — 1 unit
Prerequisite: Geology A185 or concurrent enrollment.
Laboratory and field exercises to learn how the geologic history of the earth may be determined. Extended weekend field trip required. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Geology A185M — Evolution of the Earth Lab Honors — 1 unit
Prerequisite: Geology A185H or concurrent enrollment.
Laboratory and field exercises to learn how the geologic history of the earth may be determined. Extended weekend field trip required. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Geology A280 — Introduction to Mineralogy — 4 units
Advisory: Chemistry A110 or Chemistry A130.
Introduction to basic concepts of mineralogy, crystallography, crystal and mineral chemistry, beginning optics, paragenesis of economic minerals, and plate tectonics of mineral resources. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU, UC.

Geology A285 — Petrology — 4 units
Prerequisite: Geology A280.
Origin, occurrence, identification, and classification of rocks and rock-forming minerals. Emphasis on hand lens/microscopic identification and field occurrences. This course may also be offered online. Lecture, Lab. Transfer Credit: CSU.

German

German A180 — Elementary German 1 — 5 units
Prerequisite: German A185 or concurrent enrollment.
The focus is on development of elementary proficiency in listening, speaking, reading, and writing in German, with an introduction to cultures related to the German language. This course is equivalent to two years of high school German. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

German A185 — Elementary German 2 — 5 units
Prerequisite: German A180 or completion of two years of high school German with a grade of ‘C’ or better.
Continuation of German A180, with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the German language. This course is equivalent to three years of high school German. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

German A280 — Intermediate German 1 — 4 units
Prerequisite: German A185.
Continuation of German A185, with further development of language skills at the intermediate level and exploration of cultures related to the German language. Additional emphasis on reading and writing, with an introduction to selected literary works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

German A285 — Intermediate German 2 — 4 units
Prerequisite: German A280.
Continuation of German A280, with further refinement of language skills at the intermediate level and investigation of cultures related to the German language. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

GLOBAL STUDIES

Global Studies A101 — Introduction to Global Studies — 3 units
Advisory: English A100.
An introduction to the interdisciplinary study of the global community and the complex forces that shape it. Explores globalization by examining its economic, political, cultural, and environmental effects. Lecture. Transfer Credit: CSU.

Global Studies A102 — Introduction to Global Issues — 3 units
Advisory: English A100.
An introduction to the issues and problems confronting the global community, including global population trends, economic development and global inequality, basic human needs and human rights, international conflict and security, and environmental problems with an emphasis on global governance and transnational solutions. Lecture. Transfer Credit: CSU.

HEALTH EDUCATION

Health Education A100 — Personal Health — 3 units
Advisory: English A99 or equivalent.
This course focuses on the exploration of major health issues and behaviors in the various dimensions of health. Emphasis is on positive health behaviors and personal responsibility. Topics include mental health, stress, drugs, alcohol, smoking, exercise, nutrition, weight control, chronic and infectious diseases, sexuality, consumer health, violence, aging and environmental health. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID PHS 100.

Health Education A111 — Cardiopulmonary Resuscitation — .5 units
Prerequisite: English A100.
Techniques and theory of cardiopulmonary resuscitation. Completion qualifies student for American Red Cross Professional Rescuer CPR/AED certification. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Health Education A112 — First Aid and CPR — 2 units
Prerequisite: English A99 or equivalent.
Techniques and theory of cardiopulmonary resuscitation. Completion qualifies student for American Red Cross Professional Rescuer CPR/AED certification. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Health Education A203. Students completing Health Education A112 may not receive credit for Kinesiology A203. Students completing Health Education A112 may not receive credit for Kinesiology A203. Students completing Health Education A112 may not receive credit for Kinesiology A203. Students completing Health Education A112 may not receive credit for Kinesiology A203.
Health Education A122 — Drugs, Health and Society — 3 units
Advisory: English A099 or equivalent
Examination of the use, misuse and abuse of drugs, both licit and illicit, in American society and the pharmacologic, neurologic and physiologic effects of selected substances on the human brain. Includes psychosocial, legal, historical, political, social, economic and health related aspects; drug dependency, treatment, rehabilitation, and prevention education. Focuses on the impact of psychoactive drugs on the individual and society, including the epidemiology and toxicology of substance abuse and its relevance to personal and public health. Epidemiologic data on the prevalence, incidence, and trends of smoking, alcohol, prescription and other drug dependencies in the U.S. will be covered, as well as risk factors associated with the use and abuse of these substances. Current options for recovery and a survey of local resources will be reviewed. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID PHS 103.

Health Education A136 — Nutrition, Fitness and Performance — 3 units
An applied nutrition course for individuals interested in health, fitness, and athletics. Principles of nutrition are studied and applied to the athlete and active individuals. Includes pre and post event food and fluid selection, nutrient requirements, supplements, muscle mass and body fat related to performance. Same as Food and Nutrition A136 and Kinesiology A283. Students completing Health Education A136 may not receive credit for Food and Nutrition A136 or Kinesiology A283. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Health Education A160 — Peer Educator Level 1 — 3 units
This course prepares students to serve as a member of the Peer Health Action Team (PHAcT) at OCC. Topics covered include strategies for behavior change, referrals, programming, presentation and group success. Students will be certified as Peer Health Educators through BACCHUS national certification exam. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Health Education A260 — Peer Educator Level 2 — 3 units
Prerequisite: Health Education A160.
Second semester course for students who have complete HLED A160 and have been certified as peer health educators by BACCHUS. Students will continue their development of skills related to health promotion program planning and implementation. Emphasis will be on leadership and organizational skills, bystander intervention and health topic content, ie, alcohol, sleep, nutrition, exercise, etc. Students will serve as a members of the Peer Health Action Team (PHAcT) at OCC. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Health Education A270 — Fitness and Health — 3 units
Formerly Health Education A134
Theory and benefits of physical activity to fitness-related health. The study of human adaptation to exercise includes cardiovascular conditioning, neuromuscular training, body composition, nutrition for performance, stretching, sports injuries, and aging. Same as Kinesiology A134. Students completing Health Education A134 may not receive credit for Kinesiology A134. This course may be taken online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Health Education A271 — Drugs and Sports — 3 units
Formerly Health Education A138
An in depth look at substance abuse among athletes. The focus will be on the athletic environment, drug effects, reasons for drug usage, the impact on the team, and positive alternatives. Same as Kinesiology A271. Students completing Health Education A271 may not receive credit for Kinesiology A271. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU.

HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION

Heating, Ventilation, Air Conditioning & Refrigeration A100 — Air Conditioning & Refrigeration Principles — 3 units
Course covers heat principles, heat loads, refrigeration cycle, system components, refrigerant properties, system operation, soldering and oxy-acetylene brazing. Lecture, Lab. Transfer Credit: CSU.

Heating, Ventilation, Air Conditioning & Refrigeration A101 — Basic Electrical for HVACR — 3 units
Advisory: Heating, Ventilation, Air Conditioning & Refrigeration A100.
Basic electrical theory & application. Students will build a variety of series and parallel circuits using switches, contactors, relays, thermostats, transformers and other controls used in the HVAC-R field in addition to using miscellaneous electrical components. Lecture, Lab. Transfer Credit: CSU.

Heating, Ventilation, Air Conditioning & Refrigeration A102 — Refrigeration Service — 3 units
Prerequisite: Heating, Ventilation, Air Conditioning & Refrigeration A100 and A101.
Operation, Maintenance, Troubleshooting and repair of Commercial refrigeration systems. Lecture, Lab. Transfer Credit: CSU.
**HISTORY**

**History A162 — World History 2 — 3 units**
Formerly History A103
The history of world civilizations since the 17th century, giving a general outline of political, social, economic, and cultural institutions. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 160.

**History A162H — World History 2 Honors — 3 units**
Formerly History A103H
The history of world civilizations since the 17th century, giving a general outline of political, social, economic, and cultural institutions. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 160.

**History A170 — History of the United States to 1876 — 3 units**
A survey of American historical development from the founding of the English colonies to 1876. Emphasis is placed on the evolution of the nation’s political and economic institutions, social and intellectual history, and foreign policy. Satisfies the state college requirement in American History. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 130.

**History A170H — Honors History of the United States to 1876 — 3 units**
A survey of American historical development from the founding of the English colonies to 1876. Emphasis is placed on the evolution of the nation’s political and economic institutions, social, and intellectual history, and foreign policy. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 130.

**History A175 — History of the United States Since 1876 — 3 units**
A continuation of the survey of American history development since 1876. Satisfies the state university requirement in American History. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 140.

**History A175H — Honors History of the United States Since 1876 — 3 units**
A continuation of the survey of American history development since 1876. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID HIST 140.

**History A176 — Women in U.S. History — 3 units**
A survey of the history of women in the United States from the pre-contact period to the present, emphasizing significant events, individuals, and movements that have contributed to the nation’s development and women’s changing roles. The course investigates how factors like geography, location, class, ethnicity, race, industrialization, sexual orientation, and notions of family have affected the lives of American women. Lecture. Transfer Credit: CSU, UC. C-ID HIST 140.

**History A180 — Western Civilization 1 — 3 units**
The development of present day western culture from the earliest beginnings to 1715, giving a general outline of the development of social, economic, political, and cultural institutions that have had a major impact upon our civilization. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 170.

**History A180H — Western Civilization Honors 1 — 3 units**
The development of present day Western culture from the earliest beginnings to 1715, giving a general outline of the development of social, economic, political, and cultural institutions that have had a major impact upon our civilization. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 170.

**History A185 — Western Civilization 2 — 3 units**
A study of western culture from 1715 to the present with particular emphasis on the persons, ideas, movements, and institutions which help to interpret our present day civilization. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 180.

**History A185H — Western Civilization 2 Honors — 3 units**
A study of western culture from 1715 to the present with particular emphasis on the persons, ideas, movements, and institutions which help to interpret our present day civilization. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID HIST 180.

**History A187 — Women in History — 3 units**
Provides a broad overview of the experiences of women in the history of the world from hunter-gatherer societies to the present. It examines how women’s political, economic, social, and cultural experiences have been shaped by gender and affected by place, time, class, and race. Same as Gender Studies A187. Students receiving credit for History A187 may not receive credit for Gender Studies A187. Lecture. Transfer Credit: CSU, UC.

**History A195 — History of England and Greater Britain — 3 units**
Survey of British history with an emphasis on the development of Anglo-American institutions. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

**HORTICULTURE**

**Horticulture A100 — Horticulture Science — 3 units**
The science and culture of plants upon which man’s very existence depends. The principles and practices used to grow plants for food and environmental enhancement will be emphasized. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A101 — Current Topics in Horticulture — 1-4 units**
Current issues in the field of Horticulture. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A105 — Botany For Gardeners — 3 units**
The world of garden plants, their structure, form and how they function. A course for the plant professional and plant enthusiasts. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A109 — Knowing Your Soils — 3 units**
A nontechnical study of the fundamental concepts of soil science. Methods of investigations for the management of soils and soil substitutes. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.
**Horticulture A111 — Landscape Drafting**

**Technique — 1 unit**

Basic landscape drafting practices, lettering, line work, symbols, sheet composition and dimensioning. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A115 — Landscape Graphics — 3 units**

This course begins exploring drawing techniques necessary to perform tasks related to communicating design concepts in landscape design. The emphasis is on easy, time-saving techniques that build from understanding perspective to rapid sketching skills. Field sketching is also a vital communication skill in environmental design, as it enables designers to quickly record ideas whether simply for their own use, or to share with a client to gather early feedback on usability, form, and aesthetic. Using both indoor and outdoor venues around the campus, students will learn to communicate their thoughts visually and integrate their sketching into the design process. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A116 — Digital Design — 3 units**

This course provides an introduction to digital techniques while explaining the processes associated with designing and designing the landscape. In addition, this course guides the student through from their first impression of a site, through concept and schematic design and presentation to construction and site drawings, concluding with a case study that shows the final result. The designer needs to know about digital tools and use them at the various stages of a concept development. In the journey from concept to realization, it is important to have the right tools and methods of representation and use them in an intelligent and skillful way. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A150 — Landscape Maintenance — 3 units**

Maintenance of residential and small commercial landscapes to include: small tree and shrub trimming, all aspects of lawn care, soil amending, fertilizing, sprinkler adjustments, watering, pest inspections, and scheduling. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A151 — Introduction To Tree Care — 2 units**

An introduction to the appreciation, selection and care of trees. Tree pruning, staking, watering, fertilizing and recognition of early diagnosis of tree problems. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A170 — Pest Control Applicators and Gardeners P.C.O. Certification — 1 unit**

Preparation for California Certification Exam as Pesticide Applicator and Gardeners Maintenance Pest Control Operators. Emphasis on safe use of pesticides, alternative pest management. Ornamental, turf grass, industrial, right-of-way and seed treatment control. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A181 — Ornamental Trees — 3 units**

Identification, habits of growth, culture, propagation, and use of ornamental trees in landscape design for Southern California. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Horticulture A182 — Ornamental Shrubs — 3 units**

Habits of growth, culture, propagation and use in landscape design for Southern California. Identification will be emphasized. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Horticulture A183 — Plant Propagation — 3 units**

Principles and practice of propagation of horticultural plants. Propagation from seed, cuttings, layering, and grafting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Horticulture A184 — Greenhouse and Nursery Science — 3 units**

A survey of the nursery industry. Nursery structures and equipment, construction, operation and use in the production of commercial nursery crops. Cultural aspects of crop production. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A185 — Plant Diseases — 1.5 units**

Common diseases of plants, emphasis on ornamentals grown in Southern California. Their symptoms and control of salinity, air pollutants, fungi, bacteria, virus, nematodes and other causal agents of plant diseases. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A186 — Pests of Ornamentals — 1.5 units**

Common mite, insect, and other animal pests of ornamental plants and common weeds of Southern California are described and identified and ways to prevent and treat infestations are discussed. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A187 — Interior Plantscaping — 2 units**

Identification, selection, installation, care and maintenance of plants for interior situations. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A189 — Weeds and Their Control — 1.5 units**

Recognition and control of weeds in the landscape and in nurseries with emphasis on practical application. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A190 — California Friendly Landscapes — 2 units**

New landscapes and the retrofitting of existing landscapes with California native and "non-thirsty" Mediterranean plants that will address the current legislation for water conservation. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A191 — Cacti and Succulents — 1.5 units**

How to use the plants from the deserts of the world in the Southern California landscape. Identification, growth habits, culture, propagation, design considerations, and conservation. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A200 — History of Landscape Design — 3 units**

This introduction course is a historical survey of the development of designed landscapes from ancient times through the 21st century. The course will emphasize the cultural, social, and economic contexts that have shaped and informed historic landscapes, broadly defined, and the influence of environmental concerns, horticultural techniques, and technological innovations. Lecture. Transfer Credit: CSU, UC.

**Horticulture A283 — Therapeutic Gardens: Design for Healing Spaces — 2 units**

This course will introduce and broadly explore how Therapeutic Gardens and the field of Horticultural Therapy incorporates the use of plants and gardening activities to promote health and wellness for people of many ages, backgrounds, and abilities. Topics will include people/plant relationship theories, horticultural therapy as a specialized field, Therapeutic Gardens and their use, and the societal impacts of Horticultural Therapy and research that supports it. Lecture. Transfer Credit: CSU.

**Horticulture A284 — Portfolio Development — 1.5 units**

This course provides the strategy, skills, and techniques necessary for constructing a professional portfolio and provides students with an opportunity to understand the full potential of the portfolio within the profession. Lecture, Lab. Transfer Credit: CSU.

**Horticulture A285 — Introduction to Landscape Design — 3 units**

Prerequisite: Horticulture A111, or concurrent enrollment. Landscape design, circulation, form, materials, scale. Preparation of landscape design plans. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

**Horticulture A286 — Landscape Design Elements — 2 units**

Design of basic garden elements (i.e. walls, arbors, pools, steps, fences). Reviews construction materials and their inherent qualities. Preparation of construction drawings. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A287 — Planting Design — 2 units**

Design and preparation of landscape planting plans. Emphasis on ecological and aesthetic considerations. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A288 — Sprinkler Irrigation Systems Design — 2 units**

How to design irrigation sprinkler systems for small areas such as residential properties and small industrial sites. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

**Horticulture A289 — Installation of Residential Irrigation Systems — 1 unit**

A hands-on experience with the installation of a residential irrigation system to include: materials lists, layout, trenching, gluing and fitting lines, sprinklers and nozzles, valve manifolds, and clocks. Emphasis on planning, layout, and time saving practical methods. To include one Saturday installation. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

**Hospitality, Travel & Tourism A100 — Introduction to the Hospitality Industry — 3 units**

Overview of the hospitality industry, its history and interrelationships of hotel, restaurant, travel and leisure industries. Economic and social influences of leisure. Emphasis on attitude required of a person seeking a position in the industry. Same as Culinary Arts A100 and Food Service Management A100. Students completing Hospitality, Travel & Tourism A100 may not receive credit for Culinary Arts A100 or Food Service Management A100. This course may also be offered online. Lecture. Transfer Credit: CSU.
Hospitality, Travel & Tourism A105 — Passport to Success — 3 units
This course presents students with service learning opportunities where they practice the conceptual theories of their course work. Students develop public contact and service skills as they host campus, community, civic, and travel related events. Students improve their social, professional demeanor and critical thinking skills considered essential in the airline, hotel, travel and tourism industries. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A110 — Hotel Front Office Operations — 3 units
Formerly Hotel Management A110
Study of front-office procedures from reservations through checkout including the night audit and the property management system and their impacts on other lodging operations. Special emphasis placed on guest-employee relations. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A116 — Internship 1 — 3 units
An internship opportunity for students enrolled in Airline Travel, Hotel, Meeting Event, Spa Management, or Travel and Tourism programs at Orange Coast College. This course is recommended after one semester of successful academic preparation in an area of specialization. The instructor has the authority to limit access based on academic preparation. The internship is repeated for each option the student elects in order to earn a certificate. Students will be required to follow standards set by the company in which they are working. This course may also be offered online. Lecture, seven hours unpaid, twelve hours paid Internship. Transfer Credit: CSU.

Hospitality, Travel & Tourism A118 — Hospitality Accounting — 3 units
This course provides a basis for understanding hospitality accounting concepts and procedures, the processing of hospitality financial data, and the flow of financial information in the accounting cycle resulting in the production of financial statements. This course is certified through the American Hotel & Lodging Association. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A120 — Housekeeping and Property Operations — 3 units
Examiners the technical functions and coordination between hotel housekeeping and maintenance departments. The fundamentals of management are emphasized through proper communication, training, detailed work methods, and quality assurance techniques. This course is certified through the American Hotel & Lodging Association. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A125 — Destination the Americas — 3 units
This course provides information for maximizing the travel experience to include regional accents, dialects, culture, shopping, historical and recreational tourist destinations for Canada, Mexico, Caribbean, Central America and South America. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A127 — Destination Europe — 3 units
Provides the traveler and industry employee with information for maximizing the travel experience to include regional accents and dialects, shopping, historical and recreational tourist destinations, and cultural diversity for Russia and Baltic countries, Czech Republic, Slovakia, Hungary, Poland, former Yugoslavia, Countries, Romania, and Albania. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A128 — Destination Africa/Pacific — 3 units
This course provides information for maximizing the travel experience to include regional accents, dialects, culture, shopping, historical and recreational tourist destinations, for Australia, New Zealand, Japan, South Korea, Hong Kong, China, Taiwan, Thailand, Philippines, Tahiti, Samoa, Fiji, Singapore, Malaysia, Indonesia, India, and the French Pacific. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A129 — Computer Reservation Systems — APOLLO — 2.5 units
Advisory: Airline Travel Careers A116
This course is an introduction to APOLLO, the computer reservations system used by United Airlines and one of the two major systems used by travel consultants. Students will learn how to build PNR’s (passenger name records), quote fares, and calculate prices through hands-on applications on computers. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A130 — Cultural Tourism — 3 units
This course examines the implications of cultural tourism in the United States and the world. The course will consider the struggle of people to preserve their cultural identity relative to the role of the U.S. tourism industry in protecting cultural heritage. The course studies the complexities of policy making in cultural tourism and world travel. Curriculum includes: values, historical beliefs and religion, plus cultural etiquette including social practices, gestures, body language, eating and drinking practices, and business behavior. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A131 — Computer Reservation Systems — SABRE — 3 units
This course is an introduction to SABRE, the computer reservations system used by United Airlines and one of the two major systems used by travel consultants. Students will learn how to build PNR’s (passenger name records), quote fares, and calculate prices through hands-on applications on computers. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A133 — Sharing the Travel Experience — 3 units
In this course you will learn the critical nature of translating what you see, hear, taste, touch, smell, feel and experience into blogging, tweeting, Facebook posts and journaling. You will learn how to capture the attention of follower’s and build a reputation of story telling. You’ll understand the methods needed to sell material in today’s competitive market. If you have a desire to write and a yen to travel, you’re a perfect candidate for this class. So pack your sense of adventure, organize your determination and put your keyboard in a comfortable position. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A140 — Revenue Management — 3 units
Advisory: Hospitality, Travel, & Tourism A110
This course provides a model for understanding the revenue management process and reveals four basic building blocks to revenue management success. It addresses the elements of a risk management program including, developing forecasts for room revenue and occupancy, evaluating revenue opportunities, and tracking future room availability to achieve maximum revenue from the sale of perishable assets. This course is certified through the American Hotel & Lodging Association. The course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A150 — Travel and Tourism Career Development — 3 units
Survey of the travel and tourism industry and its component segments: airlines, cruises, hotels, tour operators, retail travel agencies, tour wholesalers, receptive ground operators, and other miscellaneous new segments of the industry. Review of each segment and analysis of type of careers, background education, and entry skill preparation, expected salary scale, and travel benefits. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A156 — Cruising and Vacation Packages — 3 units
Advisory: English A099
Cruising is one of the fastest growing segments of the travel industry. Learn the basics of the cruise product including ship and cruise line terminology, applications and selling techniques. Cruise lines, ships and their destinations are identified. Students will learn the essentials of selling vacation packages and tours, including the latest trends, itinerary planning, and the technologies available to travel/tourism consultants in the leisure, recreational, and corporate travel markets. Does not train to work aboard ship. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A157 — Tour Escorting and Group Travel — 3 units
Advisory: English A099
This course introduces the roles and expectations of a tour escort and manager. The student will learn to research, plan and incorporate itineraries, promote the group travel package, attract clients, and manage the operational aspects of a group. The responsibilities and characteristics of a tour escort will also be discussed. This course may also be offered online. Lecture. Transfer Credit: CSU.
Hospitality, Travel & Tourism A150 — Luxury, Incentive, and Corporate Travel — 3 units
Advisory: English A099.
This course leads you on a path toward developing an intimate knowledge of the luxury and incentive travel product, sales process, and unique needs of the affluent consumer. You will be introduced to the corporate travel market and understand how they share expectations. Explore the distinct types of consumers and how to focus sales and marketing efforts to attract and keep them coming back. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A160 — Introduction to Spa and Hospitality Operations — 1.5 units
Gain an understanding of the operational and administrative procedures in spas, private clubs, and the hospitality industry. You will develop an understanding of unique sensitivities required in managing and operating the increasingly lucrative and complex spa industry. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A165 — Spa Industry Services and Treatments — 1.5 units
As the industry evolves, day spas, hotel spas, destination spa resorts, and spas with medical services are becoming more specialized. Understanding the services and treatments making each different is an important element to the success of a business. This course will take you through the fundamentals of spa therapies, equipment, and products and projections for future trends. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A170 — Spa Industry Finance — 1.5 units
This course provides spa supervisors and operation managers techniques toward successful financial management. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A175 — Spa Marketing and Retail Management — 1.5 units
In this course the student will learn to develop effective marketing and retailing to increase sales, and promote branding opportunities for a spa. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A180 — Enhancing Guest Service — 3 units
Advisory: Hotel Management A110 or Hospitality, Travel & Tourism A100 or concurrent enrollment.
This course is designed to convey the importance of guest relation skills in a competitive market. Students will develop the skills expected of each employee, supervisor, and manager based on wants, needs, and expectations of the guest while developing a personal service style. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A185 — Interviewing and Professional Development — 3 units
Advisory: English A099.
Students will learn how professional communication skills can make the difference in achieving their personal career success. This course is an examination of the employment process in the Hospitality and Travel industries. The course analyzes interview techniques, employment tests, and interviewers’ questions leading toward employment in all aspects of the Tourism industry. Reviews oral and written career communication skills, including the development of a personal portfolio. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A190 — Current Issues in Hospitality, Travel & Tourism — .5-1.5 units
This course deals with current issues in the field of hospitality, travel and tourism. Topics vary. Open entry/ open exit on a space available basis with instructor approval. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A211 — Meeting/Event Management Internship — 4 units
Prerequisite: Hospitality, Travel & Tourism A105 and A284.
Advisory: English A099.
Advanced internship for students enrolled in Management programs at Orange Coast College to increase their level of expertise in the area of specialization which they expect to graduate. Students will be required to follow standards set by the company in which they are working. 9 hours lecture and 210 hours work hours (unpaid) or 262.5 work hours (paid). Transfer Credit: CSU.

Hospitality, Travel & Tourism A225 — Travel & Tourism Internship — 4 units
Prerequisite: Hospitality, Travel & Tourism A105 and A284.
Advisory: English A099.
Advanced internship for students enrolled in Travel and Tourism programs at Orange Coast College to increase their level of expertise in the area of specialization which they expect to graduate. Students will be required to follow standards set by the company in which they are working. 9 hours lecture and 210 hours work hours (unpaid) or 262.5 work hours (paid). Transfer Credit: CSU.

Hospitality, Travel & Tourism A226 — Airline Internship — 4 units
Prerequisite: Hospitality, Travel & Tourism A105 and A284.
Advisory: English A099.
Advanced internship for students enrolled in Airline Travel programs at Orange Coast College to increase their level of expertise in the area of specialization which they expect to graduate. Students will be required to follow standards set by the company in which they are working. 9 hours lecture and 210 hours work hours (unpaid) or 262.5 work hours (paid). Transfer Credit: CSU.

Hospitality, Travel & Tourism A227 — Hotel Internship — 4 units
Prerequisite: Hospitality, Travel & Tourism A105 and A284.
Advisory: English A099.
Advanced internship for students enrolled in Hotel Management programs at Orange Coast College to increase their level of expertise in the area of specialization which they expect to graduate. Students will be required to follow standards set by the company in which they are working. 9 hours lecture and 210 hours work hours (unpaid) or 262.5 work hours (paid). Transfer Credit: CSU.

Hospitality, Travel & Tourism A240 — Hospitality and Tourism Marketing — 3 units
Advisory: English A099.
This course will provide students an understanding and application of E-Marketing and Sales in the hospitality and tourism sectors. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A265 — Principles of Event and Meeting Management — 1.5 units
This course addresses successful business practices in event and meeting management. It provides knowledge essential effectiveness and profitability as an event or meeting manager. It is strongly recommended that all students enroll in this course first as it provides a foundation for future coursework. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A266 — Organize and Manage Events and Meetings — 1.5 units
A comprehensive, fast-paced, hands-on course in managing a professional event/meeting, including the practical skills and tools needed for successful planning. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A267 — Managing Business Risks — 1.5 units
This course provides a thorough and systematic approach to risk management that ensures the understanding and use of safeguards to produce safe and successful meetings or events. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A269 — Destination Management — 1 unit
Get the most comprehensive guide to destination management. From tours to transportation, from entertainment to local rules of etiquette, the Destination Management Company (DMC) is the premier resource that finds the right venue, location, speaker, and vendor to ensure a highly professional and successful program. Lecture. Transfer Credit: CSU.

Course changed from HTEL A270.

Hospitality, Travel & Tourism A270 — Meeting and Event Marketing and Sales — 1.5 units
This course examines essential techniques for successful promotion of products and services. An emphasis is placed on the hotel, meeting, and event environments. Creative ideas and practical tools learned will help increase the effectiveness of the marketing dollar. This course may also be offered online. Lecture. Transfer Credit: CSU.

Course Changed from HTEL A272.

Hospitality, Travel & Tourism A271 — Corporate Meetings & Events — 1 unit
Review of the most successful techniques for managing trade shows, sales promotion events, staff meetings, and other corporate events. Focus is placed on how to produce meetings/events with creative flair while staying within a budget. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A272 — Meeting/Conference Practices — 1 unit
This course provides the tools necessary to successfully plan and manage local, national and international meetings and conferences. Prepares students to take the nationally recognized International Special Event Society (ISES), Certified Special Events Professional (CSEP), and Certified Meeting Professional (CMP) examinations. This course may also be offered online. Lecture. Transfer Credit: CSU.

Course Changed from HTEL A276.

Hospitality, Travel & Tourism A273 — Sport Event Management — 1 unit
Promoting and managing large and small sporting events including event logistics, sponsorship, successful marketing strategies and professional management skills. This course may also be offered online. Lecture. Transfer Credit: CSU.
Hospitality, Travel and Tourism A274 — Establish and Operate an Event Business — 1 unit
This course covers the practical skills necessary to launch, operate, and grow a successful event management business. Focus is placed on how to develop a business plan, manage finances, market, and approach event management as a small profit-making business. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel and Tourism A275 — Event Fund-Raising and Sponsorship — 1 unit
Provides a comprehensive plan for identifying, evaluating, soliciting, selling, managing, and coordinating long-term fund-raising and/or sponsorship deals. Develop skills to manage events and work successfully as a staff professional or volunteer. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A276 — Expo/Trade Show Management Promotion — 1 unit
This course provides information for designing and managing projects from a trade show exhibit to planning and coordinating an entire exposition. Focus is placed on the growing role of expositions and trade shows in the marketing and sales processes both nationally and internationally. This course may also be offered online. Lecture. Transfer Credit: CSU. Course Changed from HTEL A277.

Hospitality, Travel & Tourism A277 — Wedding Planning as a Business — 1 unit
This course will assist in developing elements of design, coordination, and execution in preparing and planning weddings. Career opportunities in the lucrative bridal industry will also be discussed. This course may also be offered online. Lecture. Transfer Credit: CSU. Course Changed from HTEL A277.

Hospitality, Travel & Tourism A278 — Catering Design/Management — 1.5 units
This course addresses elements of successful catering operations. Students will explore the catering industry and learn to work with catering professionals to improve quality while reducing costs. Lecture. This course may also be offered online. Transfer Credit: CSU.

Hospitality, Travel & Tourism A279 — Spa Internship — 4 units
Prerequisite: Hospitality, Travel & Tourism A105 and A284.
Advisory: English A099.
Advanced internship for students enrolled in Spa Management programs at Orange Coast College to increase their level of expertise in the area of specialization which they expect to graduate. Students will be required to follow standards set by the company in which they are working. 9 hours lecture and 210 hours work weeks (unpaid) or 262.5 work hours (paid). Transfer Credit: CSU.

Hospitality, Travel & Tourism A284 — Leadership and Strategic Management — 3 units
Advisory: English A099.
This course is designed to provide a basic introduction to leadership by focusing on what it means to be a good leader. Emphasis is on the practice of leadership. We will examine topics such as: the nature of leadership, recognizing leadership traits, developing leadership skills, creating vision, setting the tone, listening to our group members, handling conflict, overcoming obstacles, and addressing ethics in leadership. Attention will be given to helping students to understand and improve their own leadership performance. This course may be offered online. Transfer Credit: CSU.

Hospitality, Travel & Tourism A285 — Hospitality Operations — 3 units
This course is designed to acquaint students with leadership, management, and quality issues facing today’s hospitality industry. Focus is placed on the Malcolm Baldrige National Quality Award, continuous improvement, empowerment, goal setting, high-performance teams, diversity, managing organizational change, and strategic career planning. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A286 — Hospitality, Travel & Tourism Law — 3 units
This course provides an awareness of the rights and responsibilities the law grants to or imposes upon hospitality, travel and tourism businesses. Illustrations of possible consequences for failure to satisfy legal obligations are used. Legal issues raised by the Internet and the hospitality industry are discussed. This course is certified through the American Hotel & Lodging Association. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A288 — Human Resource Management — 3 units
As employers continue to struggle with filling positions in a tight labor market, the role of the human resources manager becomes even more critical. This course uses case studies, Internet exhibits, and Web links that provide essential information for future HR professionals. There is a greater emphasis on legal issues including ADA and OSHA regulations, with focus on corporate organizational culture. This course is certified through the American Hotel & Lodging Association. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A290 — California Employment Law — 3 units
Advisory: Hospitality, Travel & Tourism A288.
California labor and employment law including legislation, court cases and regulatory requirements. Organized to make complex laws understandable. Topics include Unemployment Insurance, State Disability, Family/Medical and Sick Leaves, Workers’ Compensation, Training, Personnel Records, Privacy, Wage & Hour Laws, Compensation, Exempt/Non-Exempt. This course may also be offered online. Lecture. Transfer Credit: CSU.

Hospitality, Travel & Tourism A299 — Certified Travel Associate — 3 units
The Certified Travel Associate (CTA) program teaches skills to become a front-line travel industry professional, including how to close more sales, improve efficiency, expand geography knowledge, and fine-tune customer service skills, all while earning widely recognized industry credentials. This course may also be offered online. Lecture. Transfer Credit: CSU.

Human Development A180 — Middle Childhood Development and Guidance — 3 units
Growth and development of the child from 5 to 12 years of age including physical, cognitive, and psychosocial development, and techniques for guidance of the school age child. Focus is on identifying common developmental qualities of school-age children and find positive approaches to individual, group, and environmental management. Lecture. Transfer Credit: CSU.

Human Development A184 — Infant Development and Relationships — 3 units
Growth and development of the child from birth to two years: current theories and adult-infant relationships along with practical applications for relating to and caring for infants. Lecture. Transfer Credit: CSU.

Human Development A190 — Family, School, and Community Partnerships — 3 units
Examines the connections between the homes, schools, and communities in which children live. Explores historical, legal, social, political, and cultural influences affecting the development of children, pre-school through high school, educational access and equity. Introduces the various models and approaches for building meaningful partnerships with culturally and linguistically diverse families and communities. Lecture. Transfer Credit: CSU. UC. C-ID CDEV 110.

Human Development A210 — Introduction to the Exceptional Child — 3 units
Prerequisite: Human Development A180.
Introduction to the exceptional child including the gifted, developmentally delayed, emotionally disturbed, speech and hearing impaired, visually impaired, orthopedically and neurologically impaired. The role of the teacher in supporting these children and their families and vocational opportunities are discussed. Lecture. Transfer Credit: CSU.

Humanities A100 — Introduction to the Humanities — 3 units
A survey of the European humanities (history, philosophy, literature, and the fine arts) and their contribution to artistic, cultural, and social expression in Western civilization. May be taken for grades or on a pass/no pass basis. Lecture. Transfer Credit: CSU. UC.

Humanities A101H — Honors Themes in Humanities — 3 units
An examination of how literature, philosophy, history, and the arts intersect to explore the problems of man; how the humanities have viewed significant aspects of the human and his culture over widely separated points of time. May be taken for grades or on a pass/no pass basis. Lecture. Transfer Credit: CSU. UC.

INTERIOR DESIGN

Interior Design A050 — Interior Design Lab — 5—2 units
A laboratory based course to improve interior design skills. Students work independently according to a self-designed study plan they complete under the supervision of the course instructor. Periodic student teacher conferences and a final comprehensive report are part of the course. Enrollment is open all semester. Students should be enrolled in an interior design course. Offered on a pass/no-pass basis only. 27-108 hours arranged lab. Not applicable to AA or AS degree.
Interior Design A100 — Fundamentals of Interior Design — 3 units  
Application of design principles and elements in planning of total interior environments that meet individual, functional, legal, and environmental needs. Selection of materials and products used in interior environments will be emphasized for functional, economic, and aesthetic qualities. Evaluation of color theories, space planning, floor plans, lighting, environmentally responsible design, accessibility, and the design process will be introduced. Lecture. Transfer Credit: CSU.

Interior Design A105 — Interior Design Studio 1 — 3 units  
Prerequisite: Interior Design A100 or concurrent enrollment.  
This studio course will apply concepts and theories presented in the lecture course, Interior Design A100. Therefore, it is recommended that this course be taken concurrently. Emphasis is placed on the application of design principles and elements and the design process in developing solutions for residential interior design projects. Lecture, Lab. Transfer Credit: CSU.

Interior Design A110 — Design Communication 1: Design Graphics — 2 units  
This introductory course in design communication techniques will emphasize the importance of visual communication and three-dimensional design graphics for two-dimensional media. Course content will include subject matter and technique presentations in hand-drawn graphics. Design communications shall include orthographic projections, paralines, plan views, elevations, sections, basic perspective drawing, rendering and tonal value applications. Included in this coursework will be introductory applications of 3D software as well integration with hand drawings. Lecture, Lab. Transfer Credit: CSU.

Interior Design A120 — Interior Design Careers — 1 unit  
A survey of the interior design profession, industry, related occupations and work sites. The course will emphasize personal, educational, and professional qualifications required for entry into the interior design profession. Lecture. Transfer Credit: CSU.

Interior Design A130 — Design Communication 2: CAD 20 — 3 units  
This course introduces Computer Aided Drafting (CAD) as used to produce 2-dimensional design drawings. PCs with Autodesk Architecture or other industry standard software will be used and instruction will focus on computer drawing a simple project to include the following drawing types: floor plan, site plan, elevations, and enlarged section/details. Students should have basic knowledge of computer operation and file management. Lecture. Lab. Transfer Credit: CSU.

Interior Design A150 — Interior Materials and Products — 3 units  
Analysis, application, and evaluation of products and materials used in interior design. Includes interior textiles, furnishings, and finish materials and products and specifications. This course may also be offered online. Lecture. Transfer Credit: CSU.

Interior Design A170 — Space Planning — 3 units  
Advisory: Interior Design A100 and A110.  
The application of programming, theory, and techniques in residential and commercial space planning. Drawing and planning process techniques are emphasized in the studio. Lecture, Lab. Transfer Credit: CSU.

Interior Design A175 — Applied Color and Design Theory — 3 units  
Basic design theory and application. Utilization of tools, materials, and equipment to develop technical skills applicable to interior, architectural, and other related fields of design. Exploration of cultural heritage and psychological implication of design. Same as Fashion A175. Students completing Interior Design A175 may not receive credit for Fashion A175. Lecture, Lab. Transfer Credit: CSU.

Interior Design A180 — History of Interior Architecture and Furnishings 1 — 3 units  
The historical relationship between the decorative arts, period furniture, and interior architecture is illustrated in this overview of design heritage from Antiquity through the 19th century in France. Emphasis on style development as it relates to social, economic, and political influences. Lecture. Transfer Credit: CSU.

Interior Design A190 — History of Interior Architecture and Furnishings 2 — 3 units  
The historical relationship between the decorative arts, period furniture, and interior architecture is illustrated in this overview of design heritage. This course begins with 16th century England and America and analyzes the influences and changes in design to the present. Style development as it relates to social, economic, and political forces is emphasized. Lecture. Transfer Credit: CSU.

Interior Design A199 — Current Issues in Interior Design — 5.5-1.5 units  
Advisory: Interior Design A100.  
Current issues in the field of Interior Design, rotating through a variety of topics relating to exploration and preparation for the Interior Design profession. May be taken for grades or on a pass-to-pass basis. Lecture. Transfer Credit: CSU.

Interior Design A200 — Design Communication 3: Illustration — 3 units  
Prerequisite: Interior Design A105 and A110.  
Advisory: Interior Design A175.  
Application of the methods, techniques, and tools used for illustrating interior spaces and products. 36 hours lecture, 54 hours non-lecture. Transfer Credit: CSU.

Interior Design A210 — Fundamentals of Lighting — 3 units  
Prerequisite: Interior Design A100 and A110.  
Advisory: Interior Design A170.  
The fundamentals of lighting, design, theory, and application including the history and vocabulary of lighting, how light affects color and vision, incandescent and fluorescent lamps, lighting techniques for interior designers, codes, and energy efficient lighting practices. Lecture. Transfer Credit: CSU.

Interior Design A215 — Interior Design Studio 2 — 3 units  
Prerequisite: Interior Design A170.  
Develop, analyze, and apply design concepts to interior environments. Universal design, ‘green’ design, space planning, lighting systems, interior components, architectural elements, and specification writing will be integrated into research projects emphasizing a problem solving approach. Lecture, Lab. Transfer Credit: CSU.

Interior Design A220 — Interior Design Construction Documents — 3 units  
Prerequisite: Interior Design A110 and A130 or concurrent enrollment.  
Advisory: Interior Design A215.  
A drafting course emphasizing the legal nature and scope of construction drawings, specifications, codes, products, materials, and equipment used for interior design projects. Transfer Credit: CSU.

Interior Design A230 — Business and Professional Practice — 3 units  
Advisory: Interior Design A100 and A120.  
The business and professional management of an interior design practice including legal issues, project management, and business practices. Three hours. Transfer Credit: CSU.

Interior Design A240 — Interior Design Internship — 2 units  
Prerequisite: Interior Design A210 and A215 or concurrent enrollment.  
Advisory: Interior Design A130.  
A supervised internship related to classroom-based learning at an interior design-related work site. 120 hours arranged. Transfer Credit: CSU.

Interior Design A245 — Portfolio Development — 2 units  
Prerequisite: Interior Design A210 or concurrent enrollment and Interior Design A215 or concurrent enrollment.  
Advisory: Interior Design A130.  
A comprehensive portfolio of Interior Design coursework developed in digital and paper formats. This course will include digital presentation skills and portfolio development. This course should be taken in the final semester of Level 2. Lecture. Transfer Credit: CSU.

Interior Design A250 — Codes and Building Systems — 3 units  
Advisory: Interior Design A215.  
This course examines the building code relative to Interior Design and Architecture. Construction materials and building systems including structural, mechanical, electrical, plumbing and lighting are analyzed in conjunction with the code. This course may also be offered online. Lecture. Transfer Credit: CSU.

Interior Design A260 — Design Communication 4: Digital Visualization — 3 units  
Advisory: Interior Design A130, A170.  
Application of the methods, techniques, and tools used for illustrating interior spaces two and three-dimensionally through the use of technology/software programs. Students should have basic knowledge of computer operation CAD and file management. Lecture, Lab. Transfer Credit: CSU.

Interior Design A265 — Studio Project Specialization — 3 units  
Prerequisite: Interior Design A215.  
Advisory: Interior Design A210 and A260.  
Analysis and application of the design process to the space planning, materials and finish choices, codes application, and selection of specialized equipment unique to planning office spaces. Design solutions for offices will be developed in the studio. Lecture, Lab. Transfer Credit: CSU.
**Course Descriptions**

**JAPANESE**

**Japanese A180 — Elementary**

The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Japanese, with an introduction to cultures related to the Japanese language. This course is equivalent to two years of high school Japanese. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC.**

**Japanese A180H — Elementary**

The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Japanese, with an introduction to cultures related to the Japanese language. This course is equivalent to two years of high school Japanese. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC.**

**Japanese A185 — Elementary**

The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Japanese, with an introduction to cultures related to the Japanese language. This course is equivalent to two years of high school Japanese. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC.**

**Japanese A185H — Elementary**

The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Japanese, with an introduction to cultures related to the Japanese language. This course is equivalent to two years of high school Japanese. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC.**

**JOURNALISM**

**Journalism A110 — News Writing and Reporting**

Prerequisite: English A100 or concurrent enrollment or qualifying placement score.

Beginning journalists will acquire the skills to write practical news stories under deadline pressure with a focus on accuracy, balance, and style. Writing assignments will include police stories, obituaries, speech coverage, round-ups, and feature stories. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC C-ID JOUR 110.**

**Journalism A115 — Newspaper Production**

Prerequisite: English A100 or concurrent enrollment or qualifying placement score.

In this course, students will acquire the skills to write practical news stories under deadline pressure with a focus on accuracy, balance, and style. Writing assignments will include police stories, obituaries, speech coverage, round-ups, and feature stories. May be taken for grades or on a pass/no-pass basis. Lecture. **Transfer Credit: CSU, UC C-ID JOUR 130.**
KINESIOLOGY

Kinesiology A105 — Cardiovascular Fitness — 5-2.5 units
Formerly Physical Education A110
Cardiovascular exercise program. Stretching, fast-walk, jogging, and running programs will be set up on an individual basis. Pulse monitoring, nutrition, and strength will also be emphasized. Explores the relationship between fitness and health related topics to improve, be part of, and maintain a wellness lifestyle. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A106 — Weight Training — 5-1.5 units
Formerly Physical Education A111
The student will learn the basic principles of weight training and exercises and be able to demonstrate proper biomechanics of weight training exercises. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A107 — Fitness Programs I — 5-3 units
Formerly Physical Education A107
Allows a student to use the OCC Cardiovascular lab and attend other daytime activity classes with instructor permission. Students must make selections from a series of computer-analyzed fitness and lifestyle evaluations, as well as attend seminars on physical fitness and wellness. Students are required to attend a one-hour orientation. Offered on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A108 — Strength and Conditioning — 5-3 units
Formerly Physical Education A108
Individual strength and conditioning programs. Workouts must be done in the Fitness Complex. Students are required to attend an one-hour orientation. Offered on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A110 — Walking for Fitness Level 1 — 1-2 units
This course is designed to provide an introduction to walking as a cardiovascular fitness activity. Topics to be discussed will include proper walking techniques; fitness program design and evaluation; equipment and safety; persistence and motivation; and nutrition basics. May be taken for grades or on a pass/no-pass basis only. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A111 — Step Cardio and Core Level 1 — 1-2 units
Formerly Physical Education A112
Contemporary workout designed to improve participant’s strength and cardiovascular fitness level through steady-state stepping movements. The student will be exposed to a graduated continuous system of rhythmic stepping at various platform heights, emphasizing strength, flexibility, and endurance, which are basic components of physical fitness. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

JOURNALISM

Journalism A116 — Multi-Media Reporting and Producing — 3 units
Students will acquire the skills needed to research, write and produce multi-media stories for posting online, including online newspaper sites. Students will gain a basic understanding of digital photography, videography, and photo editing software. May be taken for grades or on a pass/no-pass basis. Transfer Credit: CSU. Lecture, Lab. Transfer Credit: CSU.

Journalism A117 — Feature Writing — 3 units
Prerequisite: Journalism A110 and English A100 or concurrent enrollment.
A writing workshop focusing on student writing and marketing in-depth non-fiction feature articles. Emphasis will be on guiding students and developing interesting non-fiction stories from the idea stage through publication and finding suitable markets for publication. Same as English A117. Students completing Journalism A117 may not receive credit for English A117. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Journalism A125 — Newspaper Production Level 2 — 4 units
Prerequisite: Journalism A115.
Assist in all aspects of newspaper planning and writing. Requires writing news and feature stories on deadline, along with commentaries, sports and arts and culture stories and reviews. Students will continue to practice basic newswriting and feature writing skills while expanding background to include sports and arts stories. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Journalism A126 — Multi-Media Reporting and Producing Level 2 — 3 units
Prerequisite: Journalism A116.
Students will acquire the skills needed to research, write and produce multi-media stories for posting on CoastReportOnline.com. Students will also cover news judgment and advanced editing and hardware and software skills specific to news websites. May be taken for grades or on a pass/no-pass basis. Transfer Credit: CSU, Lecture, Lab. Transfer Credit: CSU.

Journalism A135 — Newspaper Production Level 3 — 4 units
Prerequisite: Journalism A125.
Assist in all aspects of newspaper planning, writing, design and production. Requires writing headlines, designing pages, editing, and layout techniques. Students will use state-of-the-art computer design, graphics, and word processing software in a professional setting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Journalism A145 — Newspaper Production Level 4 — 4 units
Prerequisite: Journalism A135.
Assist in all aspects of newspaper planning, writing, design and production. Requires writing news and features stories on deadline, commentary, writing headlines, designing pages, editing, and layout techniques. Students will use state-of-the-art computer design, graphics, and word processing software in a professional setting. Students will also use social media to promote readership. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Journalism A185 — Photojournalism — 3 units
Covers the fundamentals of photojournalism with students gaining practical experience in the creative process and techniques of making photographs for publication. Work will be assigned for publication in the campus newspaper, Coast Report. Lecture, Lab. Transfer Credit: CSU. C-ID JOUR 160.

Journalism A210 — Advanced News Writing and Reporting — 3 units
Prerequisite: English A100 or qualifying placement score and Journalism A110.
This course offers students insight and background into covering public affairs for print and online news environments. The course guides students through the process of community news reporting and writing, including coverage of student government, local and regional governments, city boards, police, courts and school boards. The course also covers legal and ethical issues in the news media as it pertains to public access, California’s open meetings law, and other news gathering specifics. The course is designed for students pursuing media-related majors and for those seeking employment in the field. Lecture. Transfer Credit: CSU.

Journalism A215 — Coast Report Editorial Board Level 1 — 1 unit
Prerequisite: Must be editor on Coast Report staff.
Co-requisite: Journalism A115, or A125, or A135, or A145.
This course is for the editorial board of the student newspaper. The editors will meet once per week to discuss policy matters, the upcoming issue and the instructor’s critique of the past one. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Journalism A225 — Coast Report Editorial Board Level 2 — 1 unit
Prerequisite: Journalism A215.
Co-requisite: Journalism A125, or A135, or A145.
This course is for the editorial board of the student newspaper. The editors will meet once per week to discuss policy matters, the upcoming issue and the instructor’s critique of the past one. The editors will also design and write headlines for the paper. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Journalism A235 — Coast Report Editorial Board Level 3 — 1 unit
Prerequisite: Journalism A225.
Co-requisite: Journalism A135 or A145.
This course is for the editorial board of the student newspaper. The editors will meet once per week to discuss policy matters, the upcoming issue and the instructor’s critique of the past one. The editors will also write editorials and do advanced layout of the paper and begin directing content for CoastReportOnline.com. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Journalism A245 — Coast Report Editorial Board Level 4 — 1 unit
Prerequisite: Journalism A235.
Co-requisite: Journalism A145.
This course is for the editorial board of the student newspaper. The editors will meet once per week to discuss policy matters, the upcoming issue and the instructor’s critique of the past one. The editors will work independently to produce each week’s paper and stay up to date on posting content to CoastReportOnline.com. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.
Kinesiology A122 — Body Sculpting
Level 1 — 1-1.5 units
Formerly Physical Education A125
Body sculpting is a contemporary workout designed to improve each participant’s muscular tone, strength, endurance and flexibility. The student will be exposed to a graduated continuous system of sculpting the body through the use of various resistance techniques. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A115 — Cross Training
Level 1 — 1-2 units
Formerly Physical Education A115
A multi-dimensional approach to total body fitness and wellness. Cross training will encompass aerobic, running and weight training, and provide the student the opportunity to develop and maintain a complete conditioning program which balances cardiovascular conditioning, strength, flexibility, and coordination. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A116 — Triathlon
Techniques — 2.5 units
Formerly Physical Education A106
A multi-sport program for the novice exerciser to competitor. Students will receive video analysis in swimming, learn safe group cycling practices, proper running technique, discuss injury prevention, the importance of rest and recovery and nutrition. Other topics include equipment technology, selection and maintenance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A207 — Fitness
Programs 2 — .5-3 units
Formerly Physical Education A187
This is an advanced course of Kinesiology A107. Allows a student to use the OCC Cardio Labs and attend other daytime activity classes with instructor permission. Students are required to attend a general fitness evaluation at beginning of the semester. Students are required to attend a one-hour orientation. Offered on a pass/no basis only. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A208 — Strength and Conditioning 2 — 5-3 units
Formerly Physical Education A128
Advanced strength and conditioning programs. Workouts must be done in the Fitness Complex. Students must attend a one-hour orientation. Offered on a pass/no basis only. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A210 — Walking for Fitness
Level 2 — 1-2 units
This course is designed to provide continued improvement and understanding of the benefits of walking as a cardiovascular fitness activity. Topics to be discussed will include walking and power walking techniques; fitness program design and evaluation; equipment and safety; persistence and motivation; and nutrition basics. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A211 — Step Cardio and Core Level 2 — 1-2 units
Prerequisite: Kinesiology A111.
Advanced step, cardio, and core workout designed to improve participant’s strength and cardiovascular fitness. The student will be exposed to a graduated continuous system of rhythmic stepping at various platform heights, emphasizing strength, flexibility and endurance, which are basic components of physical fitness. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A212 — Body Sculpting
Level 2 — 1-1.5 units
Prerequisite: Kinesiology A112.
Body sculpting is a contemporary workout designed to improve each participant’s muscular tone, strength, endurance and flexibility. The student will be introduced to a graduated continuous system of sculpting the body through the use of various resistance techniques. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A215 — Cross Training
Level 2 — 1-2 units
Prerequisite: Kinesiology A115.
Cross training is a multi-dimensional approach to total body fitness and wellness. This course will encompass an intermediate and advanced level of aerobics, running and weight training and provide the student the opportunity to develop and maintain a complete conditioning program which balances cardiovascular conditioning, strength, flexibility and coordination. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A216 — Introduction to Sailing
.5 units
Transfer Credit: CSU, UC.
Kinesiology A228 — Hatha Yoga
— Level I — 1-1.5 units
Formerly Physical Education A128
Prerequisite: Ability to swim. Yoga postures, breathing, concentration/meditation, and relaxation techniques will be presented as a method of personal development encompassing body, mind, and spirit. Intermediate yoga poses will be introduced and practiced. Lecture, Lab. Transfer Credit: CSU, UC.

Aquatic Skills

Kinesiology A130 — Aqua Fitness — .5-1.5 units
Formerly Physical Education A140
Prerequisite: Ability to swim. Exercises are impact-free and combine the properties of weightlessness and resistance to protect the bones and joints and increase bone density. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A131 — Swimming for Fitness Level 1 — 1-2 units
Formerly Physical Education A146
Prerequisite: Ability to swim. Instruction and practice in basics of freestyle, breast stroke, and backstroke, as well as breathing skills, while improving cardiovascular endurance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A132 — Swimming Level 1 — 1-2 units
Formerly Physical Education A143
Instruction and practice in basics of freestyle, breast stroke, and backstroke, as well as breathing skills, while improving cardiovascular endurance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A136 — Introduction to Sailing 1 unit
Formerly Physical Education A136
Transfer Credit: CSU, UC.
Kinesiology A127 — Intermediate Sailing
- Introduction to Keel Boats — 1 unit
Formerly Physical Education A148
Prerequisite: Kinesiology A136 or Marine Activities A136 and the ability to swim 50 yards and tread water for five minutes; basic sailing ability. These skills will be validated in class during the first week of the course. Introduces the intermediate sailor to the fundamentals of ocean sailing through dockside lectures and hands-on experience aboard large sailing vessels. Sail handling, winch operation, steering, reefing, line handling are emphasized. Same as Marine Activities A137. Students completing Kinesiology A127 may not receive credit for Marine Activities A137. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A138 — Introduction to Ocean Sailing — 1 unit
Formerly Physical Education A149
Prerequisite: Ability to swim 50 yards and tread water for five minutes. Basic sailing principles. Introduces the fundamentals of ocean sailing through dockside lectures and hands-on experience aboard large sailing vessels. Sail handling, winch operation, steering, reefing, line handling are emphasized. Same as Marine Activities A138. Students completing Kinesiology A138 may not receive credit for Marine Activities A138. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A139 — Kayaking — .5-.1.5 units
Formerly Physical Education A160
Prerequisite: Students must be able to swim 100 yards and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Designed to teach the fundamental kayaking techniques needed to become a safe and effective kayaker. There will be a fee for use of equipment and use of the off-campus facility. Same as Marine Activities A139. Students completing Kinesiology A139 may not receive credit for Marine Activities A139. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A140 — Outrigger Canoeing — .5-.1.5 units
Formerly Physical Education A159
Prerequisite: Students must be able to swim 100 yards and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Designed to teach the fundamental outrigger canoeing techniques needed to become a safe and effective paddler. There will be a fee for use of equipment and use of the off-campus facility. Same as Marine Activities A140. Students completing Kinesiology A140 may not receive credit for Marine Activities A140. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A141 — Surfing and Ocean Safety Level 1 — 2 units
Formerly Physical Education A161
Prerequisite: Students must be able to swim 100 yards non-stop and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Bring swim suit. Designed to teach the fundamentals of board surfing and provide intermediate and advanced surfers the opportunity to safely learn and improve the skills to ride waves. Introduction of paddling, wave selection, equipment, tides, current, etiquette and ocean safety are emphasized. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A231 — Swimming for Fitness Level 2 — 1-2 units
Prerequisite: Ability to swim. This prerequisite will be validated in class during the first week of the course. Advisory: Kinesiology A131. Explains the theories and teaches the intermediate and advanced skills necessary to achieve cardiovascular fitness through swimming. Introduces to the use of pace clocks, Heart Rate Target-Zone training, hand paddles and pool safety are emphasized. Swimming programs are designed to attain desired levels of cardiovascular efficiency. This is not a swim technique class. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A232 — Swimming Level 2 — 1-2 units
Prerequisite: Ability to swim. This prerequisite will be validated in class during the first week of the course. Advisory: Kinesiology A132. Instruction and practice in intermediate to advanced techniques of freestyle, breast stroke, backstroke, and butterfly. Instruction and execution of thorough breathing skills, pulling ability and kicking propulsion while improving cardiovascular endurance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A241 — Surfing and Ocean Safety Level 2 — 2 units
Prerequisite: Students must be able to swim 100 yards non-stop and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Bring swim suit. Advisory: Kinesiology A141. Designed to teach the fundamentals of board surfing and provide intermediate and advanced surfers the opportunity to safely learn and improve the skills to ride more challenging waves Analysis of paddling, wave selection, equipment, tides, currents, etiquette and water safety are emphasized. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A145 — Badminton
Level 1 — 1-2 units
Formerly Physical Education A150
This course is intended to develop beginning-level skills necessary to participate in the game of badminton. Skill development will include instruction on intermediate-advanced stroke analysis, specific singles and doubles tactics, offensive and defensive strategies, and competitive class match play. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A146 — Tennis Level 1 — 1-1.5 units
Formerly Physical Education A155
Instruction and practice in the essential stroke skills, rules, etiquette and competition in singles and doubles for the beginning/intermediate levels. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A147 — Table Tennis
Level 1 — 1-2 units
Formerly Physical Education A154
Introduction and practice in the essential stroke skills, rules, etiquette, and competition in singles and doubles. May be taken for grades or on a pass/no-pass basis Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A425 — Badminton
Level 2 — 1-2 units
Formerly Physical Education A150
This course is intended to develop intermediate-advanced level skills necessary to participate in the game of badminton. Skill development will include instruction on intermediate-advanced stroke analysis, specific singles and doubles tactics, offensive and defensive strategies, and competitive class match play. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A246 — Tennis Level 2 — 1-1.5 units
Advisory: Kinesiology A146 or Instructor’s consent. Instruction and practice of intermediate and advanced skills and strategies of tennis, including the analysis of self and opponent’s play to become an effective competitor. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A247 — Table Tennis
Level 2 — 1-2 units
Advisory: Kinesiology A154
Introduces and develops for the Intermediate and advanced players the chop shot, loop and defensive strategies as well as singles and doubles tournaments. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A150 — Basketball — 5-1.5 units
Formerly Physical Education A173
Instruction and practice in the essential skills, rules, etiquette and competition necessary for beginning/intermediate basketball. This is a coed class designed for recreational players. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A151 — Futsal/Indoor Soccer Level 1 — 2 units
Formerly Physical Education A156
Designed for men and women with beginning, intermediate, and advanced soccer ability. Students will improve skills through application of rules, theory and study, improve flexibility and endurance training, and participate in drills, Futsal/indoor soccer scrimmages and games. Will explore the relationship between fitness and health related topics to improve, be part of, and maintain a wellness lifestyle. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A152 — Soccer Level 1 — 1-2 units
Formerly Physical Education A177
Designed for beginners, intermediate, and advanced soccer players. Students will improve skills through application of rules and theory increase flexibility and endurance, and participate in drills, scrimmages and games. This course will explore the relationship between fitness and health related topics to improve, be part of, and maintain a wellness lifestyle. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A153 — Golf Level 1 — 1-2 units
Formerly Physical Education A179
Novice through intermediate levels of instruction in putting, chipping, pitching, sand shots and full swing fundamentals with emphasis placed on grip and stance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.
Kinesiology A154 — Volleyball Level 1 — 1-1.5 units
Advisory: Kinesiology A153
Intermediate/Advanced instruction, with emphasis on court play and competition. Students should have beginning knowledge of volleyball, with a focus on game play and development. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A253 — Golf Level 2 — 1-2 units
Advisory: Kinesiology A153
Intermediate/Advanced instruction, with emphasis on course play and competition. Students should have beginning knowledge of golf, with a focus on game play and development. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A252 — Soccer Level 2 — 1-2 units
Advisory: Kinesiology A152
Designed for intermediate and advanced soccer players. Students will learn advanced technical skills and advanced game tactics for competitive team play. This course will explore the relationship between fitness and health-related topics to improve, be part of, and maintain a wellness lifestyle. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A251 — Futsal/Indoor Soccer Level 1-1-2 units
Advisory: Kinesiology A151
Designed for intermediate and advanced soccer players. Students will learn advanced technical skills and advanced game tactics for competitive team play. This course will explore the relationship between fitness and health-related topics to improve, be part of, and maintain a wellness lifestyle. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A171 — Adapted Individual Sports — 1-1.5 units
Formerly Physical Education A197
Course is designed for students with physical disabilities who can benefit from a structured or adapted exercise program. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A170 — Adapted Strength Training — 1-1.5 units
Formerly Physical Education A191
Course is designed for students with physical disabilities requiring an adapted exercise program. Students will learn basic techniques and tactics for team and tournament play. The course covers basic techniques, court positioning, roles, drives, and team strategy, with an emphasis on offensive and defensive play. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A176 — Adapted Stretching — 0.5-1.5 units
Formerly Physical Education A198
Course is designed for students with physical disabilities who can benefit from adapted stretching and muscular endurance activities. Activities are conducted both from a sitting position and lying down on mats. Relaxation techniques, pressure points, passive and resistive stretching, and exercises will be demonstrated and performed. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A174 — Adapted Cardiovascular Fitness — 0.5-1.5 units
Formerly Physical Education A196
Course is designed for students with physical disabilities who can benefit from a structured or adapted exercise program. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A177 — Adapted Aerobic Exercise — 1-1.5 units
Formerly Physical Education A199
Course is designed for students with physical disabilities who can benefit from a structured or adapted exercise program. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A173 — Adapted Strength and Balance — 1-1.5 units
Formerly Physical Education A185
Course is designed for students with physical disabilities who want to learn methods of increasing stability, decreasing fear, improving posture, recovering loss of balance & getting up from a fall. Students must participate in all challenges & balance assessments. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A203 — First Aid and CPR — 2 units
Emphasizes injury prevention, early medical care, first aid for common injuries and life-saving skills. Successful completion qualifies a student for the American Red Cross Standard First Aid Card and CPR Certification. May be taken for grades or on a pass/no-pass basis. Same as Health Education A112. Students who take this course may not get credit for Health Education A112. Lecture. Transfer Credit: CSU.
Kinesiology A270 — Fitness and Health — 3 units  
Formerly Physical Education A134  
Theory and benefits of physical activity to fitness-related health. The study of human adaptation to exercise includes cardiovascular conditioning, neuromuscular training, body composition, nutrition for performance, stretching, sports injuries, and aging. Same as Health Education A270. Students completing Kinesiology A270 may not receive credit for Health Education A270. This course may be taught online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Kinesiology A271 — Drugs and Sports — 3 units  
Formerly Physical Education A138  
An in-depth look at substance abuse among athletes. The focus will be on drug effects, the impact on the team, nutrition and positive alternatives. Same as Health Education A271. Students completing Kinesiology A271 may not receive credit for Health Education A271. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU UC.

Kinesiology A272 — Movement Analysis 3 units  
Formerly Physical Education A274  
Introduction to the musculo-skeletal system and its function in human movement. Analysis of movements in sport skills and the muscles and bones involved. Lecture. Transfer Credit: CSU, UC.

Kinesiology A273 — Sports Medicine — 3 units  
Formerly Physical Education A281  
Technique and theory of care and prevention of athletic injuries. Includes the use of various therapeutic modalities for therapy and prevention of injury through strength and flexibility exercise. Lecture. Transfer Credit: CSU, UC.

Kinesiology A274 — Athletic Taping and Modalities — 3 units  
Formerly Physical Education A285  
The entry-level theory and technique of athletic strapping and physiological effects and use of therapy modalities. Instruction in the use of ultrasound, electrostimulation, heat/cold, and whirlpool. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A275 — Sports Medicine Practicum Level 1 — 2-4 units  
Formerly Physical Education A287  
Designed to provide the beginning level athletic training student interested in sports-related injury prevention and care to develop learning and gaining practical knowledge of athletic training by observing procedures, techniques and concepts applicable to the athletic training setting. Experience will include observing taping for prevention of injury, use of modalities, and exercise programs in rehabilitation of injuries. Instructor will assess student ability and skill level in the first week of class to insure proper course level placement. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A276 — Sports Medicine Practicum Level 2 — 2-4 units  
Advisory: Kinesiology A275 or instructor consent.  
This course is designed for the beginning/intermediate athletic training student to get an overview of sports medicine topics including medical terminology, therapeutic modalities, basic tape techniques, contagious skin diseases as related to athletes, and a variety of sports-related injuries. Instructor will assess student ability and skill level in the first week of class to insure proper course level placement. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A277 — Sports Medicine Practicum Level 3 — 2-4 units  
Advisory: Kinesiology A275 and A276.  
This course is designed for the intermediate/advanced student to learn therapeutic goals and objectives, therapeutic taping and bandaging, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress and development of criteria for progression and return to normal function. Instructor will assess student ability and skill level in the first week of class to insure proper course level placement. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A278 — Sports Medicine Practicum Level 4 — 2-4 units  
Advisory: Kinesiology A275 and A276 and A277.  
This course is designed for advanced level athletic training student to further develop their athletic training skills and prepare to transfer to a 4-year school. This includes working with team physicians, physician assistants, emergency medical technicians, coaches, administrators, cooperative learning with lower level students, record keeping and taping. Instructor will assess student ability and skill level in the first week of class to insure proper course level placement. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A279 — Sports Management — 3 units  
Formerly Physical Education A278  
Introduction to sports and fitness management programs-operation, procedures, facilities and equipment. Includes how to find a profession in the fitness field. Lecture. Transfer Credit: CSU.

Kinesiology A280 — Strength and Conditioning Theory — 3 units  
Formerly Physical Education A289  
Theory and applications of strength development, muscular endurance, flexibility, neuromuscular coordination, nutrition and supplementation. Includes planning, developing and setting up programs designed to achieve the desired goals in the most efficient way. Also, includes introduction to fitness and exercise testing procedures. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A281 — Fitness and Exercise Testing — 3 units  
Formerly Physical Education A284  
Theory and techniques of physical fitness evaluation, exercise testing and exercise prescription. Lecture. Transfer Credit: CSU, UC.

Kinesiology A282 — Introduction to Exercise Physiology — 3 units  
Formerly Physical Education A296  
Advisory: Biology A225.  
An introduction to the study of human physiological processes during exercise and activity. Includes study of metabolic changes to major body systems during acute exercise, the physiological adaptations due to chronic exercise and the effect of training upon performance. Students will practice fitness testing and apply practical knowledge in a lab setting. Lecture, Lab. Transfer Credit: CSU, UC.

Kinesiology A283 — Nutrition, Fitness, and Performance — 3 units  
An applied nutrition course for individuals interested in health, fitness, and athletics. Principles of nutrition are studied and applied to the athlete and active individuals. Includes pre and post event food and fluid selection, nutrient requirements, supplements, muscle mass and body fat related to performance. Same as Food and Nutrition A136 and Health Education A136. Students completing Kinesiology A283 may not receive credit for Food and Nutrition A136 or Health Education A136. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Kinesiology A284 — Theory of Yoga — 3 units  
A survey of the origins of Yoga, including ancient to modern traditions, and exploration of the principal ancient texts of Yoga. This course includes the evolution of yoga from its earliest development to its current integration into modern culture. Lecture. Transfer Credit: CSU.

Kinesiology A285 — Yoga Methodology — 3 units  
Advisory: Kinesiology A128 and A228.  
Designed for students to learn how to teach key poses in each category of Yoga for adults, teens, and children in a variety of settings. This class includes proper alignment, sequencing of postures, positive communication, verbal and physical cueing, precautions, and modifications for yoga clients. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A286 — Personal Trainer — 3 units  
This course will provide students with the knowledge and confidence to become leaders in the personal training industry to be prepared for careers as fitness professionals. Topics to include an investigation of the personal training industry, fitness assessment, and program design. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A287 — Fitness Specialist Practicum — 2 units  
This course will provide a hands-on experience in fitness evaluation and assessment for healthy populations. Students will learn how to accurately perform skinfolds measurement, assess flexibility, strength, and muscular endurance. Maximum and submax cardiovascular endurance assessment will also be covered. Exercise programming based on assessment will be completed. Lecture, Lab. Transfer Credit: CSU.

Kinesiology A288 — Internship — 2-3 units  
Formerly Physical Education A298  
Prerequisite: Current CPR certification to be verified by instructor during first class meeting and Kinesiology A280 or concurrent enrollment.  
A supervised internship related to classroom-based learning at a workplace site that supports the learning outcomes of the Fitness Specialist Certificate program. Lecture, arranged. Transfer Credit: CSU.

Kinesiology A289 — Introduction to Exercise Physiology — 3 units  
Formerly Physical Education A296  
Advisory: Biology A225.  
An introduction to the study of human physiological processes during exercise and activity. Includes study of metabolic changes to major body systems during acute exercise, the physiological adaptations due to chronic exercise and the effect of training upon performance. Students will practice fitness testing and apply practical knowledge in a lab setting. Lecture, Lab. Transfer Credit: CSU, UC.
Course Descriptions

LEADERSHIP STUDIES

Leadership Studies A100 — Personal Leadership — 3 units
Introduction to the concepts and personal skills related to leadership on campus, the community, and business. Course progresses from a study of leadership traits and models to assessment and analysis of personal skills and attitudes and ends with the development of individual student plans for leadership development. An introductory course of the leadership studies program. Lecture. Transfer Credit: CSU.

Leadership Studies A200 — Organizational Leadership — 3 units
Learn to provide leadership to business, community, and governance organizations. Lecture. Transfer Credit: CSU.

LEARNING SKILLS

Learning Skills A001 — Basic Skills Remediation — 1-3 units
Prerequisite: Completion of the California Community College Learning Disabilities Assessment. Provides individualized remedial instruction to students with learning disabilities. The program is designed to help a student improve the basic academic skills of reading, spelling, writing and arithmetic. This is an open entry/open exit course. Offered on a pass/no-pass basis only. Lab. Not applicable to AA or AS degree.

LIBRARY AND MEDIA SERVICES

Library A100 — Library Research and Information Competency — 2 units
This course is designed to introduce students to college level research, using traditional and electronic library resources and other online research tools effectively. Classwork emphasizes applied experience with research planning, search strategies, critical evaluation of information, and documentation of sources following standard citation styles. This course may be offered online. Lecture. Transfer Credit: CSU, UC.

MANUFACTURING TECHNOLOGY

(Formerly Machine Technology)

Machine Technology A100 — Introduction to Machine Shop — 3 units
This course familiarizes the student with the basics of machine shop safety practices, common non-precision and basic precision measuring tools, hand tools, simple blueprint reading, simple lathe, mill, and drill press operations. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A105 — Lathe — 5 units
Advisory: Machine Technology A100 and A121. A basic course in engine lathe operation to include both vertical and horizontal milling usage, theory, and usage of tools and accessories. Safety is also emphasized. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A110 — Milling Machine — 5 units
Advisory: Machine Technology A100 and A120. A basic course in milling machine operations to include both vertical and horizontal milling usage, theory, and usage of tools and accessories. Safety is also emphasized. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A115 — Production Machining Techniques — 2 units
Prerequisite: Machine Technology A100 and A105 and A110 or permission of instructor. This course emphasizes production machining. Set up and running of more than one part on a variety of machines including but not limited to engine lathe, chuck lathe, ID and OD grinder, vertical mill and horizontal mill. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A120 — Blueprint Reading for Manufacturing — 3 units
A study of blueprint reading and measuring systems used in manufacturing, including an in-depth study of the basic and advanced measuring tools used by machinists. Common blueprint formats and dimension practices will be explored. Geometric dimensioning and tolerancing will be discussed. Lecture. Transfer Credit: CSU.

Machine Technology A121 — Computations for Machinists — 3 units
A course in applied technical computations for students in machine technology and CNC studies. Topics include basic computations, shop formulas and equations, and applied trigonometry as used in the machining industries. Lecture. Transfer Credit: CSU.

Machine Technology A122 Machine Shop Inspection — 1.5 units
Advisory: Machine Technology A120. This course provides a basic understanding of the purpose and procedures for verifying the dimensional properties of manufactured parts. Students will train and practice using appropriate inspection equipment. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A125 — Computerized Numerical Control Machine Operation — 3 units
Advisory: Machine Technology A105 and A110. A basic course in the operation of a computerized numerically controlled lathes and mills, including machine functions, tooling setup, reading machine language, part setup, and machine manipulation. Includes production of parts on both lathes and mills. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A126 — CNC Machine Technology A125 or instructor approval. Operation 2 — 2 units
Students will learn advanced features of state-of-the-art CNC lathes and mills, including the necessary programs, and produce the parts on CNC machines. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A130 — Introduction to Computerized Numerical Control and Manual Programming — 3 units
Advisory: Machine Technology A105 and A110 or approval of instructor. A basic course in computerized numerical control of machine tools. Types of control systems, capabilities, and the different machine languages are examined. Elementary parts programming in two-axis systems, including all steps necessary to complete a part on both CNC lathes and mills. Lecture. Transfer Credit: CSU.

Machine Technology A133 — CNC Programming-Mastercam 1 — 3 units
Advisory: Computer and High Technology A100 or Computer Information Systems A100 or Machine Technology A130. Students will receive hands-on training in the use of Mastercam programming software. The basics of two-dimensional part programming, including geometry development, milling, drilling, tapping, pocketing, and more will be explored. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A134 — CNC Programming-Mastercam 2 — 3 units
Prerequisite: Machine Technology A133. Advanced CNC programming using Mastercam to program CNC machines. Instruction emphasizes complex cutter movement and surfacing. 54 hours lecture, 18 hours laboratory. Transfer Credit: CSU.

Machine Technology A141 — Mastercam Lathe — 1.5 units
Prerequisite: Machine Technology A133. A course designed for students who have completed the basic Mastercam class, Machine Technology A133, and wish to have concentrated instruction on CNC lathe programming on lathe only. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A142 — Mastercam Solids — 2 units
Prerequisite: Machine Technology A133. An intermediate course in CNC programming using the solids feature of Mastercam. This course will introduce the student to solid modeling creation, Boolean addition and subtraction, as well as filleting, chamfering, and the machining of solids models. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A146 — Machining with MasterCAM — 1.5 Units
An intermediate course in manufacturing with vertical machining centers using MasterCAM to develop programs for the purpose of creating metal parts. Basic 2D toolpaths as well as advanced 3D toolpath techniques will be discussed and created. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A150 — Tool and Cutter Grinding — 2.5 units
Advisory: Machine Technology A100. A basic course in the sharpening of common cutting tools such as drills, reamers, countersinks, counter bores, and end mills. Emphasis is on the tool and cutter grinder, but several other types of sharpening machines will be included. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A152 — Introduction to SolidWorks — 3 Units
The fundamentals of computer-aided design and drafting using SolidWorks software. Application of SolidWorks in creating manufacturing models will be covered. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A158 — Additive Manufacturing/3D Printing — .5 units
Additive Manufacturing deals with aspects of additive, subtractive, and joining processes to form three-dimensional parts with applications ranging from prototyping to production. Additive manufacturing processes directly from computer-aided-design (CAD) models. In this course, students will learn about a variety of AM and other manufacturing technologies, their advantages and disadvantages for producing both prototypes and functional production quality parts. Lecture, Lab. Transfer Credit: CSU.
Management A100 — Applied Management for Public and Private Organizations — 3 units
An introduction to the tools, practices, policies, and concepts of management in modern organizations. Emphasis will be on management, the functions of planning, organizing, leading, and controlling, communication, decision-making, and the manager's role as a leader in organizational change. This course may also be offered online. Lecture. Transfer Credit: CSU.

Management A115 — Human Relations and Supervision — 3 units
A behavior science approach to human relations in business with special emphasis on developing a student’s leadership qualities, understanding, personal characteristics, and attitudes desirable for advancement to greater responsibilities in business management. Designed for on-the-job trainees or mid-management trainees who are seeking further insights in dealing with co-workers and management. This course may also be offered online. Lecture. Transfer Credit: CSU.

Management A239 — Professional Communication — 3 units
Study of communication functions, choices, and roles for professionals in business. Practice in using verbal, nonverbal, and writing skills to communicate one-on-one, electronically, and in groups. Same as Business A239. Students completing Management A239 may not receive credit for Business A239. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Machine Technology A175 — Dimensioning and Tolerancing — 3 units
Advisory: Machine Technology A120.
A course in reading and using Reference (SME Y-14.5-1994) standards for geometric dimensioning and tolerancing. Lecture. Transfer Credit: CSU.

Machine Technology A190 — Elementary Metallurgy — 2 units
An elementary course describing the relationship between microstructure, composition, heat, and mechanical treatment and physical properties of metal and alloys; their relationship to design and machining. Lecture. Transfer Credit: CSU.

Machine Technology A195 — Manufacturing Processes — 3 units
A study of engineering materials and manufacturing processes from the viewpoint of the machinist, draftsman, and designer. Course discusses the problems of material selection coupled with economical manufacturing methods. Lecture. Transfer Credit: CSU.

Machine Technology A199 — Current Topics in Machine Technology — 1-4 units
Current issues in the field of Manufacturing Technology, rotating through a variety of topics, such as inspection, quality control, lean manufacturing, rapid prototype, materials, and other topics related to manufacturing. Lecture, Lab. Transfer Credit: CSU.

Machine Technology A200 — Tooling — 2.5 units
Advisory: Machine Technology A100, A105, A110, and A120.
A basic course in the making of jigs, fixtures, and molds. Lecture, Lab. Transfer Credit: CSU.

Marine Activities A136 — Introduction to Sailing — 1 unit
Formerly Marine Activities A147
Prerequisite: Ability to swim 50 yards and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Introduces the fundamentals of sailing through deckside lectures and hands-on experience in Lido 14 dinghies. Points of sail, basic terminology, tacking, jibing, theory, and safety are emphasized. Same as Kinesiology A136. Students completing Marine Activities A136 may not receive credit for Kinesiology A136. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Marine Activities A137 — Intermediate Sailing - Introduction to Keel Boats — 1 unit
Formerly Marine Activities A148
Prerequisite: Marine Activity A136 or Kinesiology A136 and the ability to swim 50 yards and tread water for five minutes. Basic sailing ability. This prerequisite will be validated in class during the first week of the course. Introduces the intermediate sailor to the fundamentals of sailing through deckside lectures and hands-on experience in Shields 30 sloops. Points of sail, basic terminology, tacking, jibing, theory, and safety are emphasized. Same as Kinesiology A137. Students completing Marine Activities A137 may not receive credit for Kinesiology A137. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Marine Activities A138 — Introduction to Ocean Sailing — 1 unit
Formerly Marine Activities A149
Prerequisite: Ability to swim 50 yards and tread water for five minutes. Knowledge of basic sailing principles. This prerequisite will be validated in class during the first week of the course. Introduces the fundamentals of ocean sailing through deckside lectures and hands-on experience aboard large sailing vessels. Sail handling, winch operation, steering, reefing, and line handling are emphasized. Same as Kinesiology A138. Students completing Marine Activities A138 may not receive credit for Kinesiology A138. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Marine Activities A139 — Kayaking — .5-1.5 units
Formerly Marine Activities A160
Prerequisite: Students must be able to swim 100 yards and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Designed to teach the fundamental kayaking techniques needed to become a safe and effective kayaker. There will be a fee for use of equipment and use of the off-campus facility. Same as Kinesiology A139. Students completing Marine Activities A139 may not receive credit for Kinesiology A139. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Marine Activities A140 — Outrigger Canoeing — .5-1.5 units
Formerly Marine Activities A159
Prerequisite: Ability to swim 100 yards and tread water for five minutes. This prerequisite will be validated in class during the first week of the course. Designed to teach the fundamental outrigger canoeing techniques needed to become a safe and effective paddler. There will be a fee for use of equipment and use of the off-campus facility. Same as Kinesiology A140. Students completing Marine Activities A140 may not receive credit for Kinesiology A140. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Marine Activities A150 — Coastal Navigation — 3 units
Starting with the basics of navigation, students will be able to interpret charts, plot positions and courses, utilize navigational publications, and determine the effects of tides and currents relating to coastal piloting. Passage planning and boat safety legal requirements will be included. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Marine Activities A151 — Maritime Industry — 2 units
Students will learn about marine industry careers, maritime terminology, types of vessels and vessel protocol. Job skills and career paths for the marine industry are covered. Practical conduct, customer service skills, resume writing and interviewing skills are included to improve employment opportunities. This is a required course of the Professional Mariner Program. A facility fee will be charged for field trips. Lecture. Transfer Credit: CSU.

Marine Activities A152 — Boat Handling and Seamanship — 3 units
Prerequisite: Formerly Marine Activities A140. Students completing Marine Activities A152 may not receive credit for Kinesiology A152. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Marine Activities A153 — Marine Basic Safety Training — 4 units
Prerequisite: Marine Activities A151 or concurrent enrollment.
This course is the basic safety training (BST) as specified by the U.S. Coast Guard (USCG). Basic firefighting, personal survival, personal safety, social responsibility, and first aid in marine situations are covered in this hands-on program. Students with satisfactory level of completion will be qualified for First Aid and CPR cards and Certificates of Completion for STCW-95 compliance. This is a required course for the Professional Mariner Program. An optional facility fee will be paid at a Fire Training Facility. A $30 Certificate fee will be paid at Bursar’s Office upon successful completion of all USCG evaluations. Lecture, Lab. Transfer Credit: CSU.
Marine Activities A201 — Professional Mariner Lecture — 1 units

Co-requisite: Marine Activities A200.

This course provides instructor-guided preparation related to classroom-based learning at a maritime-related work site. This course is designed as a supplement to the supervised internship course for the Professional Mariner Program. Lecture. Transfer Credit: CSU.

Marine Activities A200 — Professional Mariner Internship — 2 units

Prerequisite: Marine Activities A150, or A151, or A152, or A153, or A155

Co-requisite: Marine Activities A201.

A supervised internship related to classroom-based learning at a maritime related work site. This course is designed as a supervised internship course for the Professional Mariner student. The student will gain experience in a marine related position that bridges classroom based learning with career goals. This 120 hour unpaid or 150 hour paid work experience course is designed to assist students to acquire career awareness, work habits, attitudes and skills for the professional mariner program. Credit for occupational work experience may be accrued at the rate of one to 8 units per semester for a total of sixteen units. Additionally, this course is for 2 units and students must work 75 paid hours or 60 non-paid hours per unit earned. Transfer Credit: CSU.

Marine Activities A156 — Maritime Environment — 2 units

Students will learn about the systems that drive global weather patterns and conditions commonly found along major shipping routes as well as hubs of recreational yachting. Global and regional physical oceanography will be covered as it relates to navigational challenges to the mariner. Understanding oceanography and weather will aid the student in understanding pollution regulations and the responsibilities of the mariner to the environment in which he or she works. This is a required course of the Professional Mariner Program. A facility fee will be charged for field trips. Lecture. Transfer Credit: CSU.

Marine Activities A157 — Radar Observer — 2 units

Prerequisite: Professional Mariner Level 1 Certificate of Achievement or higher.

Students will learn fundamentals of marine Radar, its uses, limitations, and how to interpret data from a radar system. Primary focuses will be on Radar Navigation and Collision avoidance. Students with satisfactory level of completion will be qualified for a Certificate of Completion for U.S. Coast Guard Radar Observer license endorsement, establishing competency in the operation and utilization of marine radar equipment. This endorsement may be added to any U.S. Coast Guard Deck Officer License. Lecture. Transfer Credit: CSU.

Marine Science A100 — Oceanography — 3 units

Advisory: English A098 or English as a Second Language A099.

An orientation to the marine sciences including considerations of physical and chemical properties of the sea, the sea-air interface, the biology of the sea, the ecology of the ocean basins, the sea as a physical, chemical, biological and recreational resource, and the obligation of mankind to control further contamination of the environment. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Marine Science A100H — Honors Oceanography — 3 units

Advisory: English A098 or English as a Second Language A099.

An orientation to the marine sciences, including considerations of physical and chemical properties of the sea, the sea-air interface, the biology of the sea, the ecology of the ocean basins, the sea as a physical, chemical, biological and recreational resource, and the obligations of mankind to control further contamination of the environment. Lecture. Transfer Credit: CSU, UC.

Marine Science A100L — Oceanography Laboratory — 1 unit

Prerequisite: Marine Science A100 or concurrent enrollment. If student drops from Marine Science A100, the student, on their own initiative, must also drop Marine Science A100L.

Advisory: English A098 or English as a Second Language A099.

An orientation to marine science research process, techniques, and equipment. Investigations of physical and chemical properties of the sea, the air/sea interface, biological taxonomy and classification, student of longitude, latitude, other navigational elements, ocean basin geography and geology study. Evaluation of the sea as a physical, chemical, biological, and recreational resource. Includes at least three class field trips. Lab. Transfer Credit: CSU, UC.

Marine Science A100M — Oceanography — 3 units

Advisory: Marine Science A100 or concurrent enrollment. If student drops from Marine Science A100, the student, on their own initiative, must also drop Marine Science A100M.

Advisory: English A098 or English as a Second Language A099.

An orientation to marine science research process, techniques, equipment, institutions, and training/education centers. Investigations of physical and chemical properties of the sea, the sea-air interface, review of biological taxonomy and classification, study of longitude, latitude, ocean basin geography and geology. Evaluation of the sea as a physical, chemical, biological, and recreational resource. Analysis of human efforts to control pollution, manage fisheries, and monitor the ocean world. Lab. Transfer Credit: CSU, UC.

Marine Science A120 — Marine Aquarium Science — 1 unit

Prerequisite: Marine Science A100 or concurrent enrollment.

Advisory: English A098 or English as a Second Language A099.

Introduces students to the science of Aquaritumology and provides experience working in a small public aquarium, under the supervision of the instructor and designated student aquarium managers. Students will learn basics of animal husbandry, disease control, aquarium water chemistry, methods of filtration, feeding, and cleaning. Lecture. Lab. Transfer Credit: CSU.

Marine Science A121 — Marine Intertidal Ecology — 1 unit

Ecology of the marine intertidal environment of Southern California. This is a field oriented laboratory experience for non-majors. May be taken for grades or on a pass/no-pass basis. Same as Ecology A121. Students completing Marine Science A121 may not receive credit for Ecology A121. Transfer Credit: CSU.

Marine Science A124 — Ecology of the Gray Whale — 1 unit

Ecology and natural history of the California Gray Whale and the Orange County Whale Watch program. Completion qualifies students as docents on whale watching boats. Field trip required. May be taken for grades or on a pass/no pass basis. Same as Ecology A124. Students completing Marine Science A124 may not receive credit for Ecology A124. May be taken for grades or on a pass/no-pass basis. Transfer Credit: CSU.

Marine Science A180 — Marine Biology — 3 units

Advisory: English A098 or English as a Second Language A099 and Marine Science A100 or A100H.

The life of the world’s oceans including principles of cell biology as it relates to the marine situation, energy flow through living systems, the evolution of marine life, the taxonomy of marine plants and animals, an overview of marine habitats and their organisms, intertidal zonation, plankton biology, marine mammals, pollution and its relations to marine biology, and discussion of currently applicable topics. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Marine Science A180L — Marine Biology Lab — 1 unit

Prerequisite: Marine Science A180, or concurrent enrollment.

Advisory: English A098 or English as a Second Language A099.

An exploration of the principles of marine biology using, whenever possible, living organisms in natural surroundings. Included will be plankton biology, the taxonomy and habits of common eastern Pacific marine plants and animals, aspects of intertidal zonation, analysis of fouling communities, and field trips to see to observe marine birds and mammals. Lab. Transfer Credit: CSU, UC.

Marine Science A185 — Coastal Oceanography — 3 units

Prerequisite: Marine Science A100 or A100H or concurrent enrollment.

Study of the physical, chemical, geological, and biological oceanography of the coastal ocean of Southern California and northeast Pacific Ocean. May be taken for grades or on a pass/no-pass basis. This course may be taught online. Lecture. Transfer Credit: CSU, UC.
Marine Science A185L — Coastal Oceanography Lab — 1 unit
Prerequisite: Marine Science A100, Marine Science A185, or concurrent enrollment.
Scientific laboratory and field investigation of physical, geological and chemical oceanography related to the Southern California coastal ocean. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Marine Science A187 — Marine Mammals — 3 units
Prerequisite: Marine Science A100.
Advisory: Marine Science A180 and A185 and English A099 or English as a Second Language A099.
Explores the natural history, ecology, population dynamics, evolutionary history, communications, energetics, migrations, intelligence, and conservation of marine mammals— including: whales, dolphins, seals, sea lions, walrus, sea cows, sea otters, and polar bears. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Marine Science A188 — Marine Mammal Field Studies — 1 unit
Advisory: Marine Science A187.
This course offers students the opportunity to survey the ecology, behavior, and life history of various marine mammal groups in a field based setting. In-class meetings will orient students to the specific marine mammal group and the field site that they will explore. The course includes a multi-day field excursion to various locales of ecological interest and may involve camping in primitive wilderness environments. Topics include evolution, human interaction, biology, ecology, life history and conservation of marine mammals. Specific content will vary depending on region and marine mammal life present. Lecture, Lab. Transfer Credit: CSU.

Marine Science A221 — Practical Experience in Aquaculture Science and Management 3 — 1 unit
Prerequisite: Marine Science A200.
This course introduces students to the complexity involved in working in, and actively managing a functioning public aquarium as a student aquarium manager. Students will gain hands-on experience planning, designing and maintaining exhibits in the OCC Public Aquarium. They will be responsible for helping to educate and mentor students in the marine aquarium science course and giving tours to visitors. Course content will introduce more advanced aquarium equipment and technology and the student will take an active role in identifying potential issues, evaluating possible solutions, and implementing resolutions based on an understanding of aquarium science. All prospective students will be required to perform a facility safety and proficiency demonstration to enroll in this course. Lab. Transfer Credit: CSU.

Marine Science A222 — Practical Experience in Aquarium Science and Management 3 — 1 unit
Prerequisite: Marine Science A221.
This course introduces students to the responsibility and understanding involved in being a senior student aquarium manager. Students will take an active role in researching species interactions and husbandry, and focus on identifying potential issues that they must then address proactively. They will also be responsible for not only mentoring aquarium science students, but also never aquarium managers to help train them proper procedures and techniques based on the best available scientific knowledge. Lab. Transfer Credit: CSU.

Marine Science A223 — Practical Experience in Aquarium Science and Management 4 — 1 unit
Prerequisite: Marine Science A222.
This course is the last class in the aquarium science and management series and focuses on preparing aquarium managers to take on leadership roles in off-campus businesses and organizations involved in aquarium science. Students will broaden their understanding of increasingly complex aquarium science husbandry techniques and will be responsible for helping the course instructor to plan and implement longer-term facility and educational goals. Constructively mentoring junior aquarium managers and the development of leadership and communication skills will be a central focus of this course. Lab. Transfer Credit: CSU.

Marketing A100 — Introduction to Marketing — 3 units
A survey of the major marketing topics of interest to marketing students and practitioners. Studies include: major institutions involved in the marketing process, major tools used by marketers, and environmental forces affecting the marketing process. Emphasis is placed on an introduction to the marketing process. This course may also be offered online. Lecture. Transfer Credit: CSU.

Marketing A110 — Professional Selling — 3 units
Theories and practices of the relational selling process. Covers the steps in organizing, developing, and preparing a professional sales presentation. Builds self-confidence and competence in selling oneself as well as products, service, and ideas. may be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Marketing A130 — Principles of Advertising — 3 units
Examines the major components of modern advertising and promotion. Key areas explored include the social and economic role of advertising, controls over advertising, planning of the campaign, and the role of research, media playing, advertising strategy and coordination with other elements of marketing. This course may also be offered online. Lecture. Transfer Credit: CSU.

Marketing A142 — Direct Marketing — 1.5 units
Selling to consumers by mail, catalogs, telemarketing, consumer publications, broadcast media, and business-to-business direct marketing. Includes planning, segmentation, budgeting, creating the message, and the legal environment. Lecture. Transfer Credit: CSU.

Marketing A150 — International Marketing — 3 units
A survey of major international marketing topics of interest to international business students and practitioners. Studies include: tools used by global marketers; institutions and environmental forces impacting the marketing process worldwide; and effective strategic planning for global markets. Lecture. Transfer Credit: CSU.

Marketing A150H — International Marketing Honors — 3 units
A survey of major international marketing topics of interest to international business students and practitioners. Studies include: tools used by global marketers; institutions and environmental forces impacting the marketing process worldwide; and effective strategic planning for global markets. Lecture. Transfer Credit: CSU.

Marketing A220 — Retail E-Commerce Management — 3 units
Advisory: Mathematics A010 or Business A125.
Study of the operations of an established E-Commerce retail business. Concepts of merchandising include buying, pricing, stock control, credit, credit control, omni-channel strategies, logistics, layout, customer service, marketing, and analytical software. Emphasis is on creation and management of an E-Commerce store. Lecture. Transfer Credit: CSU.

Marketing A220 — Retail Buying — 3 units
Advisory: Mathematics A010 or Business A125.
A study of the principles and techniques of buying for retail organizations, including merchandise selection, planning, control, and use and interpretation of merchandise management reports. Lecture. Transfer Credit: CSU.

MATHEMATICS

Mathematics A005 — Practical Math — 3 units
Prerequisite: Math Placement test required.
Practical math involves the fundamental operations of arithmetic on integers, fractions, decimals and percents (without calculators), and consumer applications. The course includes introductions to ratio and proportion, measurement, geometry, and statistics. Applied problems will be emphasized throughout the course. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.
Course Descriptions

*Mathematics A008 — Pre-Algebra — 3 units  
Prerequisite: Math A005 or qualifying placement score.  
Pre-algebra will introduce basic operations of algebra including signed numbers, exponents, first degree equations, special products, applied problems, factoring, rational expressions, radicals, proportions, and the rectangular coordinate system. These topics will utilize the student’s working knowledge of decimals, fractions, and percentages. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

*Mathematics A010 — Elementary Algebra — 4 units  
Prerequisite: Math A008 or qualifying placement score.  
Operations of algebra including first degree equations and inequalities, exponents, special products and factoring, rational expressions, graphing, radicals, and quadratic equations will be presented. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

*Mathematics A020 — Plane Geometry — 3 units  
Prerequisite: Math A010 or qualifying placement score.  
Definition of basic geometry terms: point, line, plane, angle. Postulates and theorems involving angles, congruence, lines, circles, general polygons, triangles, inequalities, and solid geometry will be covered. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

*Mathematics A030 — Intermediate Algebra — 4 units  
Prerequisite: Math A010 or qualifying placement score.  
Topics covered will be functions, linear and quadratic equations, curve sketching, exponents, rational expressions, rational exponents, logarithms, variations, systems of equations, determinants, Cramer’s Rule, and conic sections. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

*Mathematics A045 — Combined Elementary and Intermediate Algebra — 6 units  
Prerequisite: Math A008 or qualifying placement score.  
This course includes all the topics that are studied in elementary algebra and intermediate algebra. Thus starting at the elementary level, each topic is covered up to the level of intermediate algebra. Topics include, introduction and advance operations with algebraic expressions, linear graphing and factoring, Functions, linear and quadratic equations, curve sketching, exponents, rational expressions, rational exponents, logarithms, variations, systems of equations, and conic sections. A minimum of five arranged hours of supplemental learning per semester in the Success Center is suggested. May be taken for grades or on a pass/no-pass basis. Lecture.

Mathematics A070 — Intermediate Algebra and Trigonometry — 5 units  
Prerequisite: Math A010 or qualifying placement score.  
Advisory: Mathematics A020.  
Topics covered will be functions, linear and quadratic equations, curve sketching, exponents, rational expressions, rational exponents, logarithms, systems of equations, determinants, Cramer’s Rule, conic sections, trigonometric and inverse trigonometric functions, graphs of trigonometric functions, identities and trigonometric equations, solutions for triangles, and complex numbers. This is an intense and fast-paced course designed for students intending to continue into precalculus. May be taken for grades or on a pass/no-pass basis. Lecture. Not applicable to AA or AS degree.

Mathematics A100 — Liberal Arts Mathematics — 3 units  
Prerequisite: Math A030 or qualifying placement score.  
Designed for students whose majors do not require calculus, this applications-oriented course emphasizes management science optimization techniques, introductory descriptive and inferential statistics, weighted voting systems analysis, game theory principles, decision-making strategies, growth trends, and pattern analysis. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A103 — Statistics for Elementary Teachers — 3 units  
Prerequisite: Math A030 or qualifying placement score.  
Advisory: Math A020.  
Designed for prospective elementary school teachers, this course emphasizes mathematical structure and problem solving techniques associated with the real number system, elementary number theory, ratio and proportion, set theory, elementary logic, and percent. Instructional delivery design techniques and technological applications will be explored. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Mathematics A104 — Mathematics for Elementary Teachers — 3 units  
Prerequisite: Math A030 or qualifying placement score.  
Advisory: Math A020.  
Designed for prospective elementary school teachers, this course emphasizes mathematical structure and problem solving techniques associated with the real number system, elementary number theory, ratio and proportion, set theory, elementary logic, and percent. Instructional delivery design techniques and technological applications will be explored. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A115 — College Algebra — 4 units  
Formerly Mathematics A130  
Prerequisite: Math A030 or qualifying placement score.  
Topics include linear, quadratic, rational, logarithmic, and exponential functions and their graphs, systems of equations, matrices, sequences, series, and basic combinations. This course prepares students to enter Math A140 but does not provide sufficient preparation to enter Math A180. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A115 — College Algebra — 4 units  
Formerly Mathematics A130  
Prerequisite: Math A030 or qualifying placement score.  
Topics include linear, quadratic, rational, logarithmic, and exponential functions and their graphs, systems of equations, matrices, sequences, series, and basic combinations. This course prepares students to enter Math A140 but does not provide sufficient preparation to enter Math A180. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A120 — Trigonometry — 3 units  
Prerequisite: Math A030 or qualifying placement score.  
Advisory: Mathematics A020.  
Topics covered will be trigonometric (circular) and inverse trigonometric functions, graphs of trigonometric functions, identities and conditional equations, solutions for triangles, vectors, complex numbers and applications. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Mathematics A140 — Business Calculus — 4 units  
Formerly Mathematics A157  
Prerequisite: Math A115 or A155 or A170 or qualifying placement score.  
Analytic geometry and limits; introduction to differential and integral calculus with applications to include polynomial, rational, exponential and logarithmic functions and their graphs. Multivariate calculus to include partial differentiation and multiple integration. Introduction to computer aided problem solving with applications. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A155 — Finite Mathematics with Applications — 4 units  
Formerly Mathematics A154  
Prerequisite: Math A030 or qualifying placement score.  
Mathematical models, properties of sets, functions, elementary curve fitting, finance, matrix operations, linear programming by the graphic and simplex methods, Markov matrices, elementary probability, and game theory. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A160 — Introduction to Statistics — 4 units  
Prerequisite: Math A030 or qualifying placement score.  
A general education course covering descriptive statistics, probability, binomial and normal distributions, variation, linear regression, correlation and hypothesis testing. Applications taken from natural sciences, social sciences, business, and life sciences. Students completing Mathematics A160 may petition for credit for Psychology A160. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID MATH 110.

Mathematics A170 — Precalculus — 4 units  
Prerequisite: Math A070 or A120 or qualifying placement score.  
The course includes structure and properties of number systems; applications, solution and graphs of polynomials, rational, exponential, logarithmic and trigonometric functions; matrices, sequences and series; analytic geometry. Prepares students for Mathematics A180. This course may also be taken online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Mathematics A180 — Calculus 1 — 4 units  
Prerequisite: Math A170 or qualifying placement score.  
This is the first course in the calculus sequence. It satisfies the sequence for majors in mathematics, science, or engineering. Topics include limits, derivatives of algebraic and transcendental functions, applications of derivatives, indefinite integrals, definite integrals, the Fundamental Theorem of Calculus, and applications of integration. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID MATH 210.

Mathematics A180H — Honors Calculus 1 — 4 units  
Prerequisite: Math A170 or qualifying placement score.  
This is the first course in the calculus sequence. It satisfies the sequence for majors in mathematics, science, or engineering. Topics include limits, derivatives of algebraic and transcendental functions, applications of derivatives, indefinite integrals, definite integrals, the Fundamental Theorem of Calculus, and applications of integration. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID MATH 210.

Mathematics A182H — Honors Calculus 1 and 2 — 5 units  
Prerequisite: Math A140 or A180 or AP Calculus AB exam with a score of 5 or higher or qualifying placement score.  
An in-depth honors level study of elementary differential and integral calculus which includes exponential, logarithmic, and trigonometric functions, techniques of integration, sequences and series, and applications. Combines content of Math A180 and Math A185 with emphasis on theory and challenging problems in a fast-paced course for well-prepared students with previous calculus experience. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.
Mathematics A185 — Calculus 2 — 4 units
Prerequisite: Math A180 or A180H or qualifying placement score.
This is the second course in the calculus sequence. It satisfies the sequence for majors in mathematics, science, or engineering. Topics include techniques and some applications of integration, calculus applied to parametric curves and polar curves, analytic geometry, sequences, series, and an introduction to differential equations. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID MATH 220.

Mathematics A185H — Honors Calculus 2 — 4 units
Prerequisite: Math A180 or A180H or qualifying placement score.
This is the second course in the calculus sequence. It satisfies the sequence for majors in mathematics, science, or engineering. Topics include techniques and some applications of integration, calculus applied to parametric curves and polar curves, analytic geometry, sequences, series, and an introduction to differential equations. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A220 — Introduction to Symbolic Logic — 3 units
Translate simple, quantified, and multiple quantified English sentences to symbolic form. Determine the validity of arguments containing simple sentences and sentences involving single quantification. Prove arguments composed of simple sentences, sentences involving single and multiple quantification. Same as Philosophy A220. Students completing Math A220 may not receive credit for Philosophy A220. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A230 — Introduction to Discrete Mathematics — 5 units
Prerequisite: Math A182H or A185 or A185H or qualifying placement score.
Introduction to logic, sets, relations, algorithms, number theory, combinatorics, graphs, trees, and Boolean algebra. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A235 — Applied Linear Algebra — 3 units
Prerequisite: Math A185 or A185H or A182H. Introduction to linear algebra, classical linear algebra problems, and applications to computer science and related technologies including matrices, determinants, linear spaces, linear transformations, and eigenvalues. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A280 — Calculus 3 — 4 units
Prerequisite: Math A182H or A185 or A185H or qualifying placement score.
Multivariable calculus including vectors, vector-valued functions, functions of several variables, partial derivatives, multiple integrals, calculus of vector fields, Green’s Theorem, Stokes’ Theorem, and the Divergence Theorem. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A280H — Honors Calculus 3 — 5 units
Prerequisite: Math A182H or A185 or A185H or qualifying placement score.
Multivariable calculus including vectors, vector-valued functions, functions of several variables, partial derivatives, multiple integrals, calculus of vector fields, Green’s Theorem, Stokes’ Theorem, and the Divergence Theorem. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A285 — Introduction to Linear Algebra and Differential Equations — 4 units
Prerequisite: Math A182H or A185 or A185H or qualifying placement score.
Introduction to linear algebra and differential equations. Topics include matrices, determinants, vector spaces, linear systems of equations, inner product spaces, first and second order differential equations, systems of differential equations, and Laplace transforms. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A285H — Honors Introduction to Linear Algebra and Differential Equations — 5 units
Prerequisite: Math A182H or A185 or A185H or qualifying placement score.
Introduction to linear algebra and differential equations. Topics include matrices, determinants, vector spaces, linear systems of equations, inner product spaces, first and second order differential equations, systems of differential equations, and Laplace transforms. Additional honors topics include Jacobian matrices, properties of R3 and simple abstract topological spaces, and some exterior algebra. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Mathematics A290H — Honors Introduction to Tensors and Calculus on Manifolds — 5 units
Prerequisite: Math A280 or A280H and A285 or A285H.
Introductory study of elementary tensor algebra and calculus, differential and integral calculus in higher dimensions, differential forms, and calculus on manifolds. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Medical Assisting A181 — Clinical Medical Assisting 1 — 5 units
Prerequisite: Allied Health A111 and Biology A221 or A220 and A225
Co-requisite: Medical Assisting A150.
Theory and techniques in basic microbiology; performing blood and urine collection; CLIA waivered lab test performance; sterilization principals and assisting with minor surgery; medication preparation and administration, including parental medications; assisting with general and specialty physical examinations in an outpatient setting. Lecture, Lab. Transfer Credit: CSU.

Medical Assisting A205 — Administering Medical Assisting 2 — 5 units
Prerequisite: Medical Assisting A175.
Introduction to the skills required to perform medical office bookkeeping, accounting (accounts receivable and payable), payroll, and banking procedures. Insurance coding and claims preparation used in the medical office setting and facility management skills to facilitate the ability to engage in marketing and community service. Lecture. Transfer Credit: CSU.

Medical Assisting A281 — Medical Assisting Clinical Experience — 3.5 units
Prerequisite: Allied Health A115 and Medical Assisting A180.
Co-requisite: Medical Assisting A205.
Supervised clinical medical assisting experience in a medical office, clinic, or related outpatient facility. One-third hour lecture, 10.6 hours clinical. Transfer Credit: CSU.

Medical Assisting A289 — Clinical Medical Assisting 2 Specialty Procedures — 5 units
Prerequisite: Allied Health A111 and Medical Assisting A180.
Basic concepts of preparing patients for special diagnostic tests and techniques in the medical office, including pulmonary function and electrocardiography. Lecture, Lab. Transfer Credit: CSU.

Music A100 — History and Appreciation of Music — 3 units
A survey of Western Classical Music. The students will gain an appreciation of music from the Medieval to the Modern period. The class will cover the stylistic features of musical genres from the six major historical periods of Western Music. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID MUS 100.

Music A101 — Musicianship and Ear Training — 2 units
Prerequisite: Minimum musical experience and ability to read simple music is suggested.
A study of scales, rhythm, sight singing and musical interval recognition. Students will learn to identify, perform, and notate melodic and rhythmic musical phrases. This course includes computer assisted aural learning. Lecture. Transfer Credit: CSU, UC.

MUSIC
Course Descriptions

Music A110 — Computers in Music 1 — 3 units
Formerly Music A102.
Designed to introduce the layman or computer professional to the rapidly evolving use of computers and related digital technology in music. Emphasis will be given to professional music software, dedicated music systems, MIDI (Musical Instrument Digital Interface) and digital audio. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Music A111 — Computers in Music 2 — 3 units
Prerequisite: Music A110.
Designed to introduce the layman or computer professional to the rapidly evolving use of computers and related digital technology in music. Emphasis will be given to professional music software, dedicated music systems, MIDI (Musical Instrument Digital Interface) and digital audio. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Music A112 — Computers in Music 3 — 3 units
Prerequisite: Music A111.
Designed to introduce the layman or computer professional to the rapidly evolving use of computers and related digital technology in music. Emphasis will be given to professional music software, dedicated music systems, MIDI (Musical Instrument Digital Interface) and digital audio. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Music A113 — Computers in Music 4 — 3 units
Prerequisite: Music A112.
Designed to introduce the layman or computer professional to the rapidly evolving use of computers and related digital technology in music. Emphasis will be given to professional music software, dedicated music systems, MIDI (Musical Instrument Digital Interface) and digital audio. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Music A115 — Fundamentals of Music — 3 units
For those with no previous music theory background. Fundamentals of music including key signatures, intervals, chords, 7th chords, and functional harmony. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Music A116 — Basic Guitar — 2 units
Advisory: Students provide their own acoustic nylon or steel-string guitar.
Fundamentals of guitar, music and musicianship. Music notation, terminology, scales, key signatures and time signatures. Basic guitar chords, rhythms and fingerning techniques. Beginning level classical, folk and popular guitar literature. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A120 — College Choir — 1 unit
Open to all students interested in singing in a college choir. In addition to public performances of standard choral literature, this course includes basic vocal techniques, basic music theory, improvement of sight reading, musicianship skills, music fundamentals, and music history and appreciation as it relates to choral literature. Prerequisite training is not necessary. Lab. Transfer Credit: CSU, UC.

Music A121 — Chamber Singers — 1 unit
Prerequisite: Successful audition; this prerequisite will be validated in class during the first week of the course. A select vocal ensemble which performs suitable music from all historical periods. Extensive participation in concerts on and off campus. Occasional brief section rehearsals. Schedule of performances announced at the beginning of each semester. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, C-ID MUS 180.

Music A127 — Jazz Lab Ensemble — 1 unit
Prerequisite: Eligibility based on successful audition. Study and performance of modern big band jazz music. Special emphasis on ensemble skills for rehearsal and concerts. Public performances with guest artists will be scheduled during each semester. Guest jazz artists will meet and work with the group periodically. Studio, arranged. Transfer Credit: CSU, UC, C-ID MUS 180.

Music A129 — Guitar Ensemble — 1 unit
Advisory: Able to sight read standard musical notation on the guitar. Must provide own acoustic guitar.
Designed for guitarists who read standard musical notation. Rehearsal and performance of guitar ensemble literature from Renaissance to the present including music of the Baroque, Classical, Romantic and Modern eras. Students in this class will present a public concert with guest artists. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Music A132 — Wind Ensemble — 1 unit
Prerequisite: Eligibility based on successful audition. Open to advanced performers on brass, woodwind and percussion instruments. Rehearsal and performance of music from standard symphonic and wind ensemble literature. Regularly scheduled public concerts. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU, UC. C-ID MUS 180.

Music A133 — Orchestra — 1 unit
Prerequisite: Eligibility based on successful audition. Rehearsal and performance of music from the standard symphonic orchestral literature. Open to advanced performers of string, brass, woodwind, and percussion instruments. Regularly scheduled public concerts during the school year. Lab. Transfer Credit: CSU, UC, C-ID MUS 180.

Music A139 — History of Rock Music — 3 units
Formerly Music A109
The study of social and musical influences on rock music and the influence of rock music on society and the music industry, 1950s through modern rock. CDs, videos, computer-generated multimedia presentations. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Music A140 — Beginning Instruments — 2 units
Elementary instruction on a selected orchestral instrument. Lecture. Lab. Transfer Credit: CSU, UC.

Music A141 — Piano 1 — 1 unit
Group instruction for the beginner that develops musicianship and basic piano technique. Recommended for elementary teachers, required of music majors in many transfer schools. One-half to one hour minimum daily practice. Practice pianos available on campus. Lecture. Lab. Transfer Credit: CSU, UC.

Music A142 — Piano 2 — 1 unit
Advisory: Music A141 or successful audition.
Continuation of Music A141 (Piano 1). Rhythms through sixteenth notes, harmonizing of folk tunes, and pieces by contemporary masters will be studied. One-half to one hour daily practice. Practice pianos available on campus. Lecture. Lab. Transfer Credit: CSU, UC.

Music A143 — History of Jazz — 3 units
Formerly Music A173
History and development of jazz in the United States, including evolving styles and important musicians. Influence of Pre 1900 popular music; Ragtime, Blues, and Dixieland, recognition of playing styles, merging of other musical forms with the Jazz idiom, Jazz as an art form and the composer/performer in jazz today. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Music A144 — Popular Vocal Techniques — 1.5 units
Designed to meet the changing needs and challenges of performing currently popular singing styles including solo, group and background singing in jazz, rock, blues, country, folk and easy listening. Also covered are microphone technique, self accompaniment and popular music terminology. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Music A145 — Voice 1 — 1 unit
This course is for beginning singers. It prepares beginning singers voice for solo and group singing by improving breathing, vocal tone, range, agility, volume, diction, health, expression, and self-confidence. Students will sing songs from musical theatre, film, folk, popular, and classical repertoire, in English and students first language, memorized from printed music. One hour daily practice and attendance at one approved recital is required. A pianist accompanies classes. Lecture. Lab. Transfer Credit: CSU, UC.

Music A146 — Voice 2 — 1 unit
This course is a continuation of Music A145 for singers with two years of choral experience or one semester of private lessons or voice class. It prepares for solo and group singing by improving breathing, vocal tone, range agility, volume, diction, health, expression and self-confidence at the second semester level. Sing songs from musical theatre, film, folk, popular, and classical repertoire in English, Italian and students first language from musical theatre, film, folk, popular, and classical repertoire. May be taken for grades or a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A148 — Classical Guitar 1 — 2 units
Group instruction in basic techniques for classical guitar including tuning, correct posture, left and right hand position, and sight reading. Students are required to perform selected classical pieces from memory. Recommended for those wishing instruction in finger-style guitar. Lecture. Lab. Transfer Credit: CSU, UC.

Music A149 — Classical Guitar 2 — 2 units
Prerequisite: Music A148 or audition.
Continuation of Classical Guitar 1 with emphasis on advanced classical guitar performance techniques and literature. Lecture. Lab. Transfer Credit: CSU, UC.
Music A150 — Intermediate Band/Orchestra — 2 units  
Prerequisite: Music A140 or audition.  
Intermediate instruction on a selected band or orchestral instrument. Lecture, Lab. Transfer Credit: CSU, UC.  
C-ID MUS 180.

Music A151 — Studio Guitar 1 — 1.5 units  
Students must bring their own guitar.  
Group instruction in studio guitar techniques including styles such as jazz, rock, and other popular genres. Chart reading, finger style guitar, and plucked guitar are included. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A152 — Studio Guitar 2 — 1.5 units  
Advisory: Music A151 or successful audition.  
Continuation of Studio Guitar 1. Group instruction in studio guitar techniques including styles such as jazz, rock, and other popular genres. Emphasis on picking technique, notes reading in positions, scales, chords, music theory, sight reading, solo and ensemble performance. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A180 — Theory 1 — 3 units  
Co-requisite: Music A181  
Advisory: Music A181 and the ability to locate treble and bass clef pitches on a keyboard and name the notes. Notation, terminology, scales, key signatures, intervals, chords, rhythms and form. Also includes four-part writing with primary triads, seventh chord analysis, harmonization of melodies in major and minor keys. Lecture, Transfer Credit: CSU, UC. C-ID MUS 120.

Music A181 — Musicianship 1 — 1 unit  
Advisory: Ability to locate treble and bass clef pitches on a keyboard and name the notes. This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory I through ear training, sight singing, analysis, and dictation. Lecture, Lab. Transfer Credit: CSU, UC. C-ID MUS 125.

Music A185 — Theory 2 — 3 units  
Co-requisite: Music A186  
Prerequisite: Music A180  
Advisory: Music A141 or A142.  
This course incorporates the concepts from Music Theory I. In addition, through guided composition and analysis, the course will include: voice leading involving four-part chorale writing; diatonic harmony; and an introduction to secondary/applied chords and modulation. May be taken for a letter grade or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID MUS 130.

Music A186 — Musicianship 2 — 1 unit  
Advisory: Music A142 and A181.  
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory 2 through ear training, sight singing, analysis, and dictation. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID MUS 135.

Music A213 — Voice 3 — 1 unit  
Formerly Music A244.  
This course is the third semester continuation of Voice 2. Songs in English, Italian, German, and French, and students first language. Daily practice and review of a voice recital is required. No audition is required. Lecture, Lab. Transfer Credit: CSU.

Music A214 — Voice 4 — 1 unit  
This course is the fourth semester continuation of Music A213. Songs in English, Italian, German, and French, and students first language. In-depth study of characterization and song presentation. Daily practice and review of a voice recital is required. No audition is required. Lecture, Lab. Transfer Credit: CSU.

Music A215 — Voice 5 — 1 unit  
This course is the fifth semester continuation of Music A214. Songs in English, Italian, German, and French, and students first language. In-depth study of characterization and song presentation. Daily practice and review of a voice recital is required. No audition is required. Lecture, Lab. Transfer Credit: CSU.

Music A216 — Voice 6 — 1 unit  
This course is the sixth semester continuation of Music A215. Songs in English, Italian, German, and French, and students first language, In-depth study of characterization and song presentation. Daily practice and review of a voice recital is required. No audition is required. Lecture, Lab. Transfer Credit: CSU.

Music A230 — Jazz Improvisation — 1 unit  
Prerequisite: Eligibility based on successful audition.  
Open to advanced performers of string, brass, woodwind and percussion instruments. Rehearsal and performance of music from the standard symphonic and chamber orchestra literature. Regularly scheduled public concerts during the school year. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A233 — Symphonic Chamber Orchestra — 1 unit  
Prerequisite: Eligibility based on successful audition.  
Open to advanced performers of string, brass, woodwind and percussion instruments. Rehearsal and performance of music from the standard symphonic and chamber orchestra literature. Regularly scheduled public concerts during the school year. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU, UC. C-ID MUS 180.

Music A234 — Studio Jazz Ensemble — 1 unit  
Prerequisite: Eligibility based on successful audition.  
A group of advanced instrumentalists that will discuss, write, rehearse and perform modern big band jazz music. Emphasis on a laboratory environment that will stress articulation, phrasing, improvisation, ensemble skills, and style for the professional performer. Students will have the opportunity to write, rehearse and conduct their own jazz oriented compositions. Guest jazz artists will meet and work with the group periodically. Public performances will be scheduled during the semester. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC. C-ID MUS 180.

Music A240 — Sophomore Recital — 5 units  
Prerequisite: Three semesters of Music A290 or audition.  
Assists the sophomore music student to organize, arrange and schedule recital performance to meet department and Associate in Arts degree requirements. Lab/Arranged Lab. Transfer Credit: CSU.

Music A241 — Piano 3 — 2 units  
Prerequisite: Successful audition.  
Advisory: Music A142 or successful audition.  
Early intermediate classical piano literature. Emphasis on development of technical proficiency and stylistically appropriate interpretation. Lecture, Lab. Transfer Credit: CSU, UC.

Music A242 — Piano 4 — 2 units  
Prerequisite: Successful audition.  
Advisory: Music A241 or successful audition.  
Intermediate/advanced classical piano literature in master class performance. Emphasis on artistic development of student performers. Lecture, Lab. Transfer Credit: CSU, UC.

Music A248 — Classical Guitar 3 — 2 units  
Prerequisite: Music A149 or audition.  
Designed for the serious music student who seeks more extensive awareness in technical facility, musical literature, musicianship and self-discipline. Lecture, Lab. Transfer Credit: CSU, UC.

Music A249 — Classical Guitar 4 — 2 units  
Prerequisite: Music A248 or audition.  
Designed for the serious classical guitar student who seeks more extensive awareness in technical facility, musical literature, musicianship and self-discipline. Involves ensemble performance with an emphasis on technique and sight reading. A continuation of Music A248. Lecture, Lab. Transfer Credit: CSU, UC.

Music A261 — Recording Techniques 1 — 3 units  
A course in recording studio techniques based upon Pro Tools HD. An introductory workshop for musicians and sound engineers who will record, edit and produce live performances in a studio environment. Included is analysis of studio acoustics, vocal and instrumental recording and mixing board characteristics. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Music A262 — Music as a Business — 2 units  
For students planning a career in the music industry including contracts, negotiations, taxes, agents, producers, club owners, contractors and managers. Guest lecturers from the industry. May be taken for grades or on a pass/no-pass basis. Lecture, Transfer Credit: CSU.

Music A265 — Recording Techniques 2 — 1.5 units  
An advanced course in recording studio techniques based upon Pro Tools HD. Requires basic knowledge of studio acoustics, vocal and instrumental mic techniques, control board and off-board effects units and general studio activity. Students will develop their own recorded materials including support musicians and production staff. May be taken for grades or on a pass/no-pass basis. Lecture, Transfer Credit: CSU.

Music 267 — Piano 5 — 2 units  
Prerequisite: Minimum two years prior piano study, to be verified during first week of class. Students perform works in a masterclass setting. Functional skills including technique, memorization, sight-reading, transposition, and ensemble playing. Lecture, Lab. Transfer Credit: CSU, UC.

Music 268 — Piano 6 — 2 units  
Prerequisite: Minimum two years prior piano study, to be verified during first week of class. Advanced Studio Masterclass for music majors. Review of functional skills. Preparation for transfer and sophomore recitals. Lecture, Lab. Transfer Credit: CSU, UC.
Music A271 — Studio Guitar 3 — 1.5 units
Advisory: Music A152 or successful audition.
Continuation of Studio Guitar 1 and 2. Emphasis on linear note reading across the guitar fretboard, chord substitutions, altered chords, chordal progressions, turnarounds, music theory, chordal analysis, sight reading, ensemble and solo performance, arranging for solo guitar. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A272 — Studio Guitar 4 — 1.5 units
Advisory: Music A271 or successful audition.
Continuation of Studio Guitar 1, 2 and 3. Emphasis on intermediate and advanced picking techniques, analysis of styles, history and appreciation, improvisation, arranging and performance of chordal solos for the guitar. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Music A280 — Theory 3 — 3 units
Co-requisite: Music A281
Prerequisite: Music A185
Advisory: Music A242
This course incorporates the concepts from Music Theory 2. In addition, through writing and analysis, the course will include: introduction to chromatic harmony; secondary/applied chords; modulation; borrowed chords; introduction to Neapolitan and augmented-sixth chords. May be taken for letter grade or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID MUS 140.

Music A281 — Musicianship 3 — 1 unit
Advisory: Music A186 and A240.
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory 2 through ear training, sight singing, analysis, and dictation. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID MUS 145.

Music A285 — Theory 4 — 3 units
Co-requisite: Music A286.
Prerequisite: Music A280.
Advisory: Music A242.
This course incorporates the concepts from Music Theory 2. In addition, through writing and analysis, the course will include: post-Romantic techniques such as borrowed chords and modal mixture, chromatic mediant; Neapolitan and augmented-sixth chords, 9th, 11th and 13th chords, altered chords and dominant; and 20th century techniques such as: Impressionism, tone rows, set theory, pantodiatonicism and polytonalism, meter and rhythm. May be taken for letter grade or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID MUS 150.

Music A286 — Musicianship 4 — 1 unit
Advisory: Music A342 and A281.
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory 4 through ear training, sight singing, analysis, and dictation. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID MUS 155.

Music A290 — Applied Music — .5 unit
Prerequisite: Audition.
Co-requisite: Concurrent enrollment in an OCC music performing group.
Students will take private lessons in applied music, composition, theory, orchestration, arranging or computer music from an approved teacher. Students will participate in public performances. Students will be required to practice on campus, perform in a music performing group and attend on-campus music performances. This course may be taken four times. Arranged Lecture. Transfer Credit: CSU, UC. C-ID MUS 160.

NATURAL SCIENCE

Natural Science A112 — Introduction to Physical Science — 4 units
Prerequisite: Math A010.
An introduction to the basic physical principles that govern the universe. This course will present an overview of the general aspects of physics and chemistry including: forces, motion, energy, electricity, magnetism, heat, waves, light, the atom, acids and bases. Satisfies part of the laboratory science requirement for the Elementary Education transfer degree. Lecture, Lab. Transfer Credit: CSU.

NEURODIAGNOSTIC TECHNOLOGY

Neurodiagnostic Technology A110 — Basic Electroencephalography — 4 units
Prerequisite: Allied Health A010.
Fundamentals of EEG, including application of electrodes using the international 10/20 system, basic EEG wave forms, artifacts, and introduction to the EEG machine. Opportunity is given to perform limited EEG tests and to observe EEG labs in health care facilities. All enrollees must be accepted into either the Neurodiagnostic or Polysomnographic program. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A115 — Advanced Electroencephalography — 4 units
Prerequisite: Neurodiagnostic Technology A110, Allied Health A130.
Introduction to the abnormal electroencephalogram (EEG), maturational changes, and the basic electronic principles upon which successful electroencephalographic techniques are based. Lecture, Lab. Transfer Credit: CSU.

Neurodiagnostic Technology A116 — Clinical Experience 1 — 3.5 units
Prerequisite: Neurodiagnostic Technology A110 and Allied Health A115.
Beginning clinical practice of electroencephalography testing on patients at various affiliated neurodiagnostic labs. This will include observation, application of electrodes, performance of EEG testing on clinical patients, medical record keeping, and clinical history reporting. Students must purchase a uniform for this course. Offered on a pass/no-pass basis only. Lecture, 256 hours clinical. Transfer Credit: CSU.

Neurodiagnostic Technology A117 — Clinical Experience 2 — 3 units
Prerequisite: Neurodiagnostic Technology A115 and A116.
Continued clinical experience in Electroencephalography at a selected Neurodiagnostic Lab in an affiliated health care facility, under the direct supervision of a physician and/or EEG technologist. This clinical will build on skills attained in NDT A116, and will include performance of EEG testing on clinical patients, medical record keeping, and clinical history taking. Offered on a pass/no-pass basis only. 256 hours clinical. Transfer Credit: CSU.

Neurodiagnostic Technology A190 — Introduction to Neuro Anatomy and Physiology — 3 units
Prerequisite: Biology A221 or A220 and A225.
An introduction to the anatomy of the central and peripheral nervous system with correlation to related symptoms and pathology as needed by a Neurodiagnostic and/or Polysonmographic technologist. Provider approved by the California Board of Registered Nursing. Provider #CFP 12655 for 54 hours. This course may also be offered online. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A191 — EEG Record Review—Normal — 1 unit
Co-requisite: Neurodiagnostic Technology A115.
Practice in electroencephalograph (EEG) record review of normal adult and pediatric patients. Technical description of normal EEG patterns. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A200 — Neurodiagnostic Lab Practice — 5 units
Prerequisite: Neurodiagnostic Technology A110.
Application of basic technical skills to successfully record routine EEG, and EP procedures according to published ACNS guidelines. Lab. Transfer Credit: CSU.

Neurodiagnostic Technology A280 — Neurologic Disorders — 3 units
Prerequisite: Neurodiagnostic Technology A115 and A190.
Clinical and electrodienagnostic correlations to various physical conditions and disease states which are commonly dealt with in neurodiagnostic technology. Relationship of technologist to various medical specialties: neurology, neurosurgery, pathology, radiology, internal medicine, and psychiatry. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A284 — Introduction to Transcranial Doppler — 1 unit
Prerequisite: Neurodiagnostic Technology A190.
An introduction to Transcranial Doppler (TCD) procedures and recording techniques. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A285 — Introduction to Nerve Conduction Velocity — 1 unit
Prerequisite: Neurodiagnostic Technology A117.
An introduction to nerve conduction velocity (NCV) testing procedures and recording techniques. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A286 — Clinical Experience 3 — 3.5 units
Prerequisite: Neurodiagnostic Technology A117.
Continued clinical experience in EEG at an affiliated health care facility under the direct supervision of an EEG technologist or physician. This clinical will build on skills attained in NDT A117. There will also be opportunities to observe and possibly perform evoked potential studies. Offered on a pass/no-pass basis only. 256 hours clinical. Transfer Credit: CSU.
Neurodiagnostic Technology A287 — EEG
Record Review — Abnormal — 1.5 units

Prerequisite: Neurodiagnostic Technology A115 and A191.
Practice in electroencephalograph (EEG) record review of neurological conditions covered in Neurodiagnostic Technology A280. Classification of abnormal EEG patterns associated with clinical disorders. Lecture. Transfer Credit: CSU.

Neurodiagnostic Technology A288 — Evoked Potentials — 4 units
Prerequisite: Neurodiagnostic Technology A110 and A190.
Concepts, terminology, and techniques of Evoked Potential (EP) recording with testing modalities of visual, auditory, and somatosensory systems to be individually discussed. An overview of EP instrumentation and technical concepts. Analyze the clinical correlates of evoked potential testing and focus on waveform analysis correlating to normal neurological diseases. Lecture, Lab. Transfer Credit: CSU.

Neurodiagnostic Technology A289 — Clinical Experience 4 — 2 units
Prerequisite: Neurodiagnostic Technology A286 and A288.
Clinical practice in neurodiagnostic testing with an emphasis on evoked potential and more specialized neurodiagnostic testing procedures. This clinical also further develops advanced skills in electroencephalographic recording and analysis. Offered on a pass/no-pass basis only. 192 hours clinical. Transfer Credit: CSU.

Neurodiagnostic Technology A296 — Introduction to Intraoperative Monitoring — 2 units
Prerequisite: Neurodiagnostic Technology A288.
An introduction to intraoperative neurophysiologic monitoring recording strategies. Analysis of signal changes during an operation will be correlated with anesthetic agents, effects of surgery, and/or the effects of surgical trauma. Intraoperative monitoring scenarios will be demonstrated and practiced in the classroom laboratory. Lecture, Lab. Transfer Credit: CSU.

Neurodiagnostic Technology A297 — Microcomputer Applications in Neurodiagnostics — 2 units
Prerequisite: Neurodiagnostic Technology A115.
Advisory: Computer Information Systems A100.
Specialized computer applications in Neurodiagnostic Technology. Testing modalities of Electroencephalography, evoked potentials, epilepsy monitoring, and automated diagnostic techniques will be presented. Opportunities for hands-on use of digital equipment will be integrated into the classroom and during field trips. Lecture, Lab. Transfer Credit: CSU.

Neurodiagnostic Technology A298 — Clinical Internship — 1 unit
Corequisite: Neurodiagnostic Technology A289.
Specialized neurodiagnostic clinical internship at an affiliated hospital site. Specialized areas may include intraoperative neurophysiologic monitoring, neonatal testing, long-term epilepsy monitoring, pediatric testing, transcranial doppler studies, nerve conduction studies and others. Offered on a pass/no-pass basis only. 128 hours clinical. Transfer Credit: CSU.

Nutrition Care A100 — Careers in Dietetics and Food Science — 1 unit

Exploration of the fields of Dietetics and Food Science/ Culinary, including trends, future projections and employment opportunities. Guest speakers and field trips to nutrition services in health care and community agencies and food manufacturing plants are included. Same as Food and Nutrition A100. Students completing Nutrition Care A100 may not receive credit for Food and Nutrition A100. Lecture, Lab. Transfer Credit: CSU.

Nutrition Care A175 — Health Care Field Experience — 3.5 units

Prerequisite: Food Service Management A150 and Food and Nutrition A170
Co-requisite: Nutrition Care A180.
Importance and scope of providing food and nutrition services in health care or community facilities to include clinical experience. Team concept approach and public relations will be emphasized. Students will be required to follow dress standards set by the facility in which they are working. TB clearance required, Lecture, 144 hours field experience (lab). Transfer Credit: CSU.

Nutrition Care A180 — Introduction to Medical Nutrition Therapy — 3 units

Prerequisite: Food and Nutrition A136, or A170, or Health Education A136.
The principles of nutrition as they relate to special and abnormal physical conditions and diseases and the dietary modifications necessary. Lecture. Transfer Credit: CSU.

Nutrition Care A280 — Intermediate Nutrition Care — 2 units

Prerequisite: Nutrition Care A180
Co-requisite: Nutrition Care A281.
Nutrition education principles and techniques for individual, family, and small group instruction in normal and preventive nutrition care. Consideration is given to community and cultural influences on nutrition. Lecture, Lab. Transfer Credit: CSU.

Nutrition Care A281 — Supervised Practice 1 — 3.5 units

Co-requisite: Nutrition Care A280.
Supervised clinical practice in community agencies and schools dealing with nutritional aspects of dietetic evaluation, nutrition education and counseling. Students will be required to follow 180 hours clinical. Transfer Credit: CSU.

Nutrition Care A285 — Advanced Nutrition Care — 3 units

Prerequisite: Nutrition Care A281.
Co-requisite: Nutrition Care A286.
Advanced application of knowledge and skills related to food service management and the nutrition care process in preparation for entry-level practice as dietetic technicians in health care facilities. Lecture, Lab. Transfer Credit: CSU.

Nutrition Care A286 — Supervised Practice 2 — 3 units

Co-requisite: Nutrition Care A285.
Supervised practice in food service management and nutrition care in acute medical care facility. Rotation through the various job responsibilities of the dietetic technician. Students will be required to follow dress standards set by the facility. Lecture, 180 hours clinical. Transfer Credit: CSU.

Philosophy A100 — Introduction to Philosophy — 3 units

A survey of the fundamental problems of philosophy: ethics and aesthetics, logic, philosophy of religion, metaphysics, persons and personal identity, freedom and/or determinism, theory of knowledge, society, and political issues. Basic questions asked about the universe and our place in it. This course may also be offered online. Lecture. Transfer Credit: CSU, UC. C-ID PHIL 100.

Philosophy A115 — Philosophy of Religion — 3 units

An examination of key issues and problems of religion, including the nature and significance of religion and religious experience, arguments for and against the existence of God, the nature of God, the problem of evil, and the relation between science and religion. Same as Religious Studies A115. Students completing Philosophy A115 may not receive credit for Religious Studies A115. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Philosophy A118 — Aesthetics/Philosophy of Art — 3 units

A philosophical approach to a critical evaluation of works of art (literary, musical, visual). May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Philosophy A120 — Ethics — 3 units

An introduction to ethical theories and problems. An analysis of the theories and principles on which moral judgments are based and the way these judgments are used in moral problems such as abortion, euthanasia, capital punishment, sexual equality, discrimination, censorship, and economic justice. Special attention will be given to the kinds of arguments used in ethical discussion. Same as Religious Studies A120. Students completing Philosophy A120 may not receive credit for Religious Studies A120. Lecture. Transfer Credit: CSU, UC. C-ID PHIL 120.

Philosophy A125 — History of Ancient Philosophy — 3 units

This introductory course surveys ancient philosophy. It explains the philosophical positions of the ancients, their religious attitudes, and the cultural milieu out of which ancient philosophical thought arose. Recommended for philosophy majors, historians, and those interested in the roots of modern civilization. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID PHIL 130.

Philosophy A150 — Critical Reasoning & Writing — 3 units

Advisory: English A100.
An introduction to the critical analysis and rational evaluation of argument and other forms of expression. Covers the uses of language, distinctions between deductive and inductive reasoning, and practice in detecting formal and informal fallacies. Develop tools for distinguishing between and evaluating beliefs, opinions, claims, explanations, and arguments. A strong emphasis is instruction in writing which models the critical thinking knowledge and skills examined in the course. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.
Photography A101 — Photography and Society — 3 units
Lecture/discussion class that explores how photographs function in society, and, in turn, how society determines our visual environment. Images will be analyzed in context of the total photographic milieu: news, advertising, snapshot, art, the internet, TV, etc. Fulfills “100” elective course requirement for Photography Certificate of Achievement. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Photography A102 — Careers in Photography — 3 units
Introduction to careers in photography and the Photography program at Orange Coast College. Recommended to anyone interested in pursuing photography as a career goal. Lecture. Transfer Credit: CSU.

Photography A110 — Photography: Theory and Practice — 3 units
This course focuses on the historical development, cultural significance and aesthetic experience of photography. Also included is an examination of the techniques and methods of digital photography. Students will learn camera functions and develop their ability to analyze, evaluate, and compose photographs. May be taken for grades or on a pass/no-pass basis. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Photography A120 — Introduction to Photography — 3 units
Introduction to the processes, principles, and tools of photography. Topics include the development of technical and aesthetic skills, elements of design and composition, camera technology, materials and equipment, and contemporary trends in photography. Discussion and demonstration of basic black & white 35mm photography. Emphasis on the historical development of photography and its use as a means of communication, personal expression and on the critical evaluation of student work. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Photography A120H — Introduction to Photography Honors — 3 units
Introduction to the processes, principles, and tools of photography. Topics include the development of technical and aesthetic skills, elements of design and composition, camera technology, materials and equipment, and contemporary trends in photography. Discussion and demonstration of basic black & white 35mm photography. Emphasis on the historical development of photography and its use as a means of communication, personal expression and on the critical evaluation of student work. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Photography A121 — Medium and Large Format Film Capture — 2 units
An introduction to medium and large format camera techniques. Topics will include; Camera movements, film handling, developing, printing methods, and working applications of film based equipment. This class gives the student an opportunity to explore their creative vision with the use of film based photography equipment. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A122 — Personal Expression — 3 units
Prerequisite: Photography A120 or Photography A123 or Photography A125.
Through making photographs, this class explores the development of ideas, and an individual point of view. Discussion of aesthetics and current trends in photography. Students may work with analog or digital media. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Photography A123 — Introduction to Digital Photography — 3 units
Instruction in photography as a creative art, emphasizing photography as a means of communication and personal expression. Includes examination of the theory of aesthetics, composition, content, and technical elements of photography, as well as, critical evaluation of student work. Introduces DSLR camera operation and digital imaging techniques. This course does not meet the requirements for the Photography Certificate; photo majors are required to take Photo A120. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Photography A125 — Imaging with Photoshop 1 — 3 units
Prerequisite: Photography A120, or A120H, or A123, or concurrent enrollment.
Designed to introduce the student to DSLR cameras and photographic image processing with computers. Lectures and demonstrations of camera features, basic image manipulation, color managed digital printing, and archiving of images. May be taken for grades or on a pass/no-pass basis. Two hours lecture, four hours laboratory. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A130 — History and Aesthetics of Still Photography — 3 units
Provides an overview of the history of photography from 1839 to the present. The work of major practitioners is discussed, as well as lesser known figures, and the trends, movements, and artist groups that have shaped the course of the medium. This course may also be offered online. Lecture. Transfer Credit: CSU, UC.

Photography A141 — Black and White Photography Laboratory 1 — 1-2 units
Formerly Photography A160
Prerequisite: Photography A120 or A120H.
Instruction and assistance with intermediate black & white laboratory, using 35mm, RC Papers, and camera projects. Students determine their own projects. This is a workshop course intended as, but not limited to, an augmentative laboratory course for those enrolled in certificate studio/production photography classes. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU.
Photography A142 — Black and White Photography Laboratory 2 — 1-2 units
Prerequisite: Photography A141.
Instruction and Assistance with intermediate/advanced black & white laboratory using 120 film, fiber based paper, and camera projects. This is a workshop course intended as, but not limited to, an augmentative laboratory course for those enrolled in certificate studio/production photography classes. Students determine their own projects. Instruction is offered at intermediate and advanced levels. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A143 — Black and White Photography Laboratory 3 — 1-2 units
Prerequisite: Photography A142.
Instruction and assistance with advanced black & white laboratory using 4x5 film, fiber based paper, a variety of different film/paper developer combinations, and camera projects. This is a workshop course intended as, but not limited to, an augmentative laboratory course for those enrolled in certificate studio/production photography classes. Students determine their own projects. Instruction is offered at advanced levels. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A152 — Photo Gallery — 2 units
Prerequisite: Photography A120.
Instruction is offered at advanced levels. Counts towards “200” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A161 — Digital Photography Laboratory — 1-2 units
Prerequisite: Photography A125.
Students requiring additional digital laboratory experience. Assistance provided with scanning and printing projects. This is a workshop course intended as an augmentative laboratory course for those enrolled in advanced digital photography classes. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A180 — Introduction to Professional Photography — 4 units
Prerequisite: Photography A125.
Instruction in the basic professional techniques and the use of professional cameras and lighting stressing technical excellence in all phases. Required for photography majors entering the program. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A187 — Laboratory Practices — 3 units
Prerequisite: Photography 120.
Study of professional black and white photographic techniques. Emphasis on the following areas: film, developer and paper selection and testing, exposure, contrast control (zone system), advanced fine printing techniques, alterations of photographic materials through intensification and reduction, basic sensitometry and practical photography. Counts towards “100” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A188 — Commercial Photography — 5 units
Prerequisite: Photography A180.
Overview of the profession of photography. Study and application of the techniques of commercial photography with emphasis on tungsten, strobe and available lighting; small and large products, advertising illustration, special effects image techniques, and basic business practices. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A196 — Photo Bookworks — 3 units
Prerequisite: Photography A125.
Major course projects are the production of several unique photographic books. Layout, typography, editing of photos, and makeup of a book are covered. Attention will be paid to viewing and discussing a wide range of photographic bookworks. Instruction is offered at intermediate and advanced levels. Recommended for photography majors. Counts towards “100” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A200 — Documentary Photography — 3 units
Prerequisite: Photography A125.
Concepts, aesthetics and history of documentary photography. Strongly recommended for students interested in journalism, material culture and social/political issues. Students may use B&W, color or digital photography. Instruction is offered at intermediate and advanced levels. Counts towards “200” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A220 — Fashion Photography — 3 units
Prerequisite: Photography A180.
Editorial and advertising fashion photography as it is practiced professionally. Previous knowledge of color materials is useful. Instruction is offered at beginning, intermediate, intermediate/advanced and advanced levels. For repeating students this becomes a contemporary issues course with course content and independent portfolio work varying according to student’s specializations. Counts towards “200” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A230 — Photography Since 1945 — 3 units
Prerequisite: Photography A130.
A critical history of photography from 1945 to the present. Works will be considered from social, political, and art historical perspectives. Will survey the work of major photographers, exhibitions, and critical writers, as well as the ever-increasing role of photography in contemporary cultural life. Counts towards “200” level elective course requirement. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Photography A241 — Business Practices for Photographers — 3 units
Prerequisite: Photography A180.
This course provides an introduction to basic business practices in photography. Topics include: establishing a photographic business, current pricing structures, marketing procedures, principles of accounting, calculating fixed and variable expenses, possible legal and ethical problems, general small business practices and a review of professional organizations. Helps students to identify and achieve professional goals and objectives. Strongly recommended for photography majors. Counts toward “200” level elective class requirement. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Photography A261 — Art Portfolio Development 1 — 1 unit
Prerequisite: Photography A120 or A123.
Faculty directed study into the history, criticism, interpretation, literature, theory, or business of art photography, not involving any lab work. Topic(s) and faculty chosen by the student. Instruction is offered at intermediate, intermediate/advanced and advanced levels. For repeating students this becomes a contemporary issues course with course content and independent portfolio work varying according to student’s specializations. Counts towards “200” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A223 — Action Sports Photography — 3 units
Prerequisite: Photography A180.
A course designed to address topics and skills associated with photography in the professional Action Sports industry, for the purpose of illustrating a concept or an idea as it relates to publishing, advertising, web and social media. Counts towards “200” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A225 — Professional Digital Workflow and Color Management — 3 units
Prerequisite: Photography A125 or Digital Media Arts and Design A193.
Emphasis on current techniques of advanced digital printing workflow, digital file preparation, color management and advanced digital retouching techniques. Recommended for those with an interest in commercial, editorial, or fine art work. Counts towards “200” level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.
Course Descriptions

Photography A283 — Commercial Portfolio Development 2 — 1 unit
Prerequisite: Photography A262
Faculty directed in-depth study of the preparation of a professional commercial portfolio and portfolio presentation. Topic(s) and faculty chosen by the student. Instruction is offered at intermediate/advanced and advanced levels. Recommended for photography majors. Must be taken for letter grade only. Counts towards "200" level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A284 — Exhibition Preparation 2 — 1 unit
Prerequisite: Photography A120, or A120H, or A123.
Faculty directed study into the conception, development, planning, and installation of a personal photographic exhibition. Instruction is offered at intermediate/advanced and advanced levels. Recommended for photography majors. Counts towards "200" level elective course requirement. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A286 — Marketing and Self Promotion 1 — 1 unit
Prerequisite: Photography A180.
Faculty directed in-depth study of a specific area of photographic marketing and self-promotion. Topic(s) and faculty chosen by the student. Instruction is offered at intermediate and intermediate/advanced levels. Recommended for photography majors. Must be taken for letter grade only. Counts towards "200" level elective course requirement. Lab/Arranged Lab. Transfer Credit: CSU.

Photography A287 — Alternative Methods — 3 units
Prerequisite: Photography A180.
An intermediate to advanced course covering modern photographic techniques involved with alternative photographic processes. Technical and creative experimentation will be emphasized. Counts towards "200" level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A288 — Editorial and Advertising People Photography — 3 units
Prerequisite: Photography A188.
Addresses the topics and skills associated with commercial photography of people, usually on location, for the purpose of conveying a message, idea, or concept in advertising, editorial, and annual report applications. Topic(s) include commercial and retail portraiture, conceptual photography, location scouting and lighting. Counts towards "200" level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A289 — Architectural Photography — 3 units
Prerequisite: Photography A180.
A course in professional architectural photography techniques, methodology and workflow. This course is designed to prepare the student for the professional industry by introducing a high technical level. Counts towards "200" level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Photography A290 — Advertising Illustration Photography — 3 units
Prerequisite: Photography A188.
This course is designed for the advanced photography student and professional photographers with specific interest in the commercial photography field of advertising illustration. Counts towards "200" level elective course requirement. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Physics A110 — Conceptual Physics — 3 units
A brief, but complete presentation of the fundamental phenomena and laws in physics, with experimental illustrations, enhancing the development of conceptual scientific thinking. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Physics A111 — Introductory Physics Laboratory — 1 unit
Prerequisite: Physics A110 or concurrent enrollment.
Introductory physics laboratory for students to complement Physics 110. Not open to those who hold credit for any other college physics laboratory course. May be taken for grades or on a pass/no-pass basis. Lab. Transfer Credit: CSU, UC.

Physics A120 — Algebra-Based Physics: Mechanics — 4 units
Prerequisite: Math A120 or A170 or A180 or concurrent enrollment.
The first semester of a two-semester sequence (with Physics A125) covering all topics in basic physics. Requires algebra and trigonometry. Satisfies the requirements for biological sciences and technical programs except physics, chemistry, and engineering. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID PHYS 105.

Physics A125 — Algebra-Based Physics: Electricity, Magnetism — 4 units
Prerequisite: Physics A120.
The second semester of a two-semester sequence (with Physics A120) covering all topics in basic physics. Requires algebra and trigonometry. Satisfies the requirements for biological sciences and technical programs except physics, chemistry, and engineering. May be taken for grades or on a credit/no-credit basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID PHYS 110.

Physics A130 — University Physics 1 (non-major) — 4 units
Prerequisite: Math A180 or A182H or concurrent enrollment.
Co-requisite: Math A185.
A study of general principles of mechanics, waves, and thermodynamics. Emphasis will be on Newton’s three laws of motion, theory of gravity, conservation laws, laws of thermodynamics, generation and propagation of mechanical waves. The first semester of a two-semester sequence (with Physics A135) requiring calculus. Lecture, Lab. Transfer Credit: CSU, UC.
POLITICAL SCIENCE

Political Science A101 — Survey of Current Issues — 3 units
Survey of current issues and events in American and/or world politics. Focus will be on issues and problems of political significance, opposing viewpoints in the political realm, analysis and evaluation of arguments, and ideological and political conflict. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Political Science A110 — International Relations — 3 units
Introduction to international relations theory with an examination of national, international, transnational, and sub-national actors and their institutions interactions and processes as they relate to global issues. Study of the functions of power, ideology, diplomacy, international law, and organization, as well as military and economic factors. Consideration of United States, Russian, and Chinese foreign policy and prominent cold war and post-cold war problems as they illustrate concepts of international politics. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID POLS 140.

Political Science A180 — American Government — 3 units
An introduction to the principles and problems of government with particular emphasis on the American political system at all levels. This course satisfies the state college requirements in the Constitution of the United States, state, and local governments. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID POLS 110.

Political Science A180H — American Government Honors — 3 units
An introduction to the principles and problems of government with particular emphasis on the American political system at all levels. This course satisfies the state college requirements in the Constitution of the United States, state, and local governments. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID POLS 110.

Political Science A185 — Comparative Politics — 3 units
An introduction to comparative empirical analysis of selected political systems, including advanced democracies, communist and former communist countries, and less developed countries, with an emphasis on governmental institutions and political processes. Particular attention is placed on the relationship between institutions and behavior. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID POLS 110.

Political Science A188 — Introduction to Political Theory — 3 units
An introduction to selected political theorists and concepts from Plato to the present. Focus on the Western tradition and its major texts by reading ancient, modern, and contemporary political thinkers to examine their arguments on the nature of government and politics. Lecture. Transfer Credit: CSU, UC. C-ID POLS 120.

Political Science A190 — Introduction to American Legal System — 3 units
An overview of the American legal system, its structure, and history. Reviews many aspects of the law and judicial process: the adversarial system, powers and jurisdiction of the federal and state courts, judicial review, legal education, the legal profession, and other related topics. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Political Science A200 — Introduction to Political Science — 3 units
An introduction to the study of politics. Explores the approaches, theories, methods, and models of the discipline and its subfields to prepare students for a systematic examination of the political world and its many faces around the globe. Lecture. Transfer Credit: CSU, UC. C-ID POLS 150.

Political Science A201 — Introduction to Political Science Research Methods — 3 units
Prerequisite: Political Science A180 or A180H
Introduction to the techniques used for research in the study of politics, including framing and clarifying research questions, systematic thinking about research design, the relationship between data and theory, using and assessing qualitative and quantitative methods, and learning the toolbox of methods of the discipline. Lecture. Transfer Credit: CSU. C-ID POLS 160.

POLYSOMNOGRAPHIC TECHNOLOGY

Polysonmography A100 — Polysonmography Basics — 1 unit
Prerequisite: Allied Health A130
An introduction to the pathological condition of a variety of sleep related disorders, including basic set-up of the polysomnogram, types of disorders, and treatment modalities for advanced respiratory care and neurodiagnostic technology students. Lecture. Transfer Credit: CSU.

Polysonmography A150 — Introduction to Polysonmography — 3 units
Co-requisite: Polysonmography A160
A fundamental and detailed study of the various sleep disorders, their symptoms, consequences, treatments, and polysonmogram manifestations. Sleep stage scoring, pattern recognition and data computation are covered. Instruction in patient examination and history taking for sleep disorders is included. Lecture. Transfer Credit: CSU.

Polysonmography A160 — Polysonmography Testing 1 — 2 units
Prerequisite: Neurodiagnostic Technology A110 or concurrent enrollment
Co-requisite: Polysonmography A150
Hands-on experience and instrumentation theory of various polysonmographic recording equipment utilized for recording polysonmographic studies and includes patient hookup, calibration, and simulated testing in the lab. Continuous Positive Airway Pressure and oxygenation demonstration. Lecture, Lab. Transfer Credit: CSU.

Polysonmography A165 — Polysonmography Clinical 1 — 1 unit
Co-requisite: Allied Health A115 and Polysonmography A150, A160, and A170
Clinical application of polysonmographic testing at an affiliated sleep disorder center to include patient interaction, application of testing equipment, and monitoring sleep behavior. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Polysonmography A170 — Polysonmographic Practice — 5 units
Co-requisite: Polysonmography A150 and A165
Preparatory course for polysonmography clinical experience. Topics will include medical ethics, clinical emergencies, behavioral and performance objectives, and employability skills. Lecture. Transfer Credit: CSU.

Polysonmography A175 — Polysonmography Clinical 2 — 1 unit
Clinical application of Polysonmographic testing at an affiliated sleep disorder center to include patient interaction, application of testing equipment, and monitoring sleep behavior. Offered on a pass/no-pass basis only. 96 hours clinical. Transfer Credit: CSU.
Course Descriptions

Polysomnography A250 — Polysomnography
Record Review — 2 units
Prerequisite: Polysomnography A150, A160, and A165.
Review of normal and abnormal polysomnographic
recordings. Learn to recognize normal and abnormal
sleep and breathing patterns and behaviors, artifacts,
lithation of CPAP, BIPAP, and oxygen. Scoring and
calculation of polysomnographic recordings. Lecture.
Transfer Credit: CSU.

Polysomnography A260 — Polysomnography
Testing 2 — 2 units
Prerequisite: Polysomnography A160.
Advanced aspects of polysomnographic technology,
testing, instrumentation, ancillary testing, basic
management skills, and computerized scoring. 24 hours
lecture, 12 hours non-lecture. Transfer Credit: CSU.

Polysomnography A265 — Polysomnography
Clinical 3 — 2 units
Prerequisite: Polysomnography A175 or concurrent
enrollment.
Continued clinical application of Polysomnographic
testing at an affiliated sleep disorder center. Includes
patient interaction, application of testing equipment, and
monitoring sleep behavior. Offered on a pass/no-pass
basis only. Lecture, 144 hours clinical. Transfer Credit: CSU.

Polysomnography A270 — Physician
Lecture Series — 1 unit
Prerequisite: Neurodiagnostic Technology A190 or
concurrent enrollment.
Physician lectures on current topics in polysomnography
and related areas of medicine. Time will be allotted
for discussion with physicians about individual clinical
problems. Lecture. Transfer Credit: CSU.

Psychology A100 — Introduction
to Psychology — 3 units
This course is a scientific study of mental processes and
behavior. The following psychology topics are explored:
methodology, physiology, sensation, perception, states of
consciousness, learning, memory, intelligence, thought,
language, development, motivation, emotion, sexuality,
health, stress, personality, abnormal disorders, and
therapies. This course may also be offered online. May
be taken for grades or on a pass/no-pass basis. Lecture.
Transfer Credit: CSU, UC. C-ID PSY 110.

Psychology A100H — Honors Introduction
to Psychology — 3 units
This course is a scientific study of mental processes and
behavior. The following psychology topics are explored:
methodology, physiology, sensation, perception, states of
consciousness, learning, memory, intelligence, thought,
language, development, motivation, emotion, sexuality,
health, stress, personality, abnormal disorders, and
therapies. May be taken for grades or on a pass/no-pass
basis. Lecture. Transfer Credit: CSU, UC. C-ID PSY

Psychology A105 — Psychology
of Women — 3 units
Evaluates traditional theories of the psychology of women
and how they relate to women today. Will examine what
science has taught us about the nature of women and
how their psychology is both similar to and different from
that of men. Topics include communication styles, social
relationships, body image, sexuality, motherhood, work,
and physical and mental health. May be taken for grades
on a pass/no-pass basis. Lecture. Transfer Credit:

Psychology A110 — Psychology
of Adjustment — 3 units
The study of concepts and principles of personal
and social adjustment. Theories (e.g., biological,
psychodynamic, behavioral, cognitive, humanistic)
of healthy adjustment are explored and coupled with
personal discipline and responsibility of the individual
student. The material is geared to be relevant and
applicable to contemporary society. May be taken for
grades or on a pass/no-pass basis. Lecture. Transfer
Credit: CSU, UC.

Psychology A125 — Introduction to
Counseling Psychology — 4 units
Designed for students who seek to acquire a basic
understanding of counseling psychology and helping
roles in the mental health profession. Theoretical and
practical approaches to treating emotionally,
technically, and cognitively impaired clients will be
explored within the context of the rehabilitation and
recovery model and other treatment models. May be
taken for grades or on a pass/no-pass basis. Lecture.
Transfer Credit: CSU, UC.

Psychology A130 — Life Span
Developmental Psychology — 3 units
Psychological study of human development across the
lifespan from prenatal development through childhood,
adolescence, adulthood, and dying. Theories and
research of physical, cognitive, personality, and social
development are examined, as well as attention to
developmental problems. Institutions impacting each
stage of development also addressed. May be taken for
grades or on a pass/no-pass basis. Lecture. Transfer
Credit: CSU, UC. C-ID PSY 180.

Psychology A140 — Psychology of
Adult Development — 3 units
The scientific study of human development from late
adolescence through the stages of early, middle and
late adulthood. Examined are the theories and research
on the physical, cognitive, and psychosocial changes,
including the impact of love, work, and family as
individuals progress through adulthood and the advanced
years. May be taken for grades or on a pass/no-pass
basis. Lecture. Transfer Credit: CSU, UC.

Psychology A150 — Developmental
Psychopathology — 3 units
Prerequisite: Psychology A100.
An overview of child and adolescent psychopathology.
Topics explored include the classification, assessment,
course, etiology, prevention, and treatment of disorders
associated with infancy, early childhood, middle
childhood, and adolescence. Risk and protective
factors as well as gender and cultural differences in
developmental psychopathology will also be examined.
May be taken for grades or on a pass/no-pass basis.
Lecture. Transfer Credit: CSU.

Psychology A160 — Statistics for the
Behavioral Sciences — 4 units
Prerequisite: Mathematics A030 or qualifying
placement score.
This course emphasizes the calculation, interpretation,
and application of descriptive and inferential statistics
in the behavioral sciences. Topics include research
methods, mathematical concepts, distributions,
estimation, correlation, regression, sampling and
probability, hypothesis testing, z and t Tests, ANOVA,
nonparametric tests, and statistical analysis and
interpretation using technology such as SPSS and
Excel. Application of statistical concepts will incorporate
data from social and behavioral sciences, business,
life science, health science, and education. Students
completing Mathematics A160 may petition for
alternative credit for Psychology A160. May be taken for
grades or on a pass/no-pass basis. Lecture. Transfer
Credit: CSU, UC. C-ID MATH 110.

Psychology A165 — Principles of
Human Sexuality 1 — 3 units
Scientific analysis of human sexual behavior from the
psychological, sociological, and physiological points of
view. Designed to provide the academic and theoretical
basis for the entire field of human sexuality. May be
taken for grades or on a pass/no-pass basis. Lecture.
Transfer Credit: CSU, UC. C-ID PSY 130.

Psychology A175 — Human Sexuality 2 — 3 units
Prerequisite: Psychology A165.
An advanced course on human sexuality in which the
social-psychological factors that affect sexual behavior
will be explored. This course will examine the extent
to which knowledge, preferences, lifestyle, awareness,
and education affect sexuality. May be taken for
grades or on a pass/no-pass basis. Lecture. Transfer
Credit: CSU, UC. C-ID PSY 130.

Psychology A185 — Principles
of Psychology — 3 units
Prerequisite: Psychology A100.
This course is a survey of contemporary and classic
research in the subfields of psychology particularly
addressing applications, critical thinking, and
the processes which underlie behavior. An emphasis
on contemporary interests, recent discoveries, and
innovations in the field of psychology will be addressed.
This class is recommended for general education and for
students majoring in the behavioral sciences. Lecture.
Transfer Credit: CSU, UC.

Portuguese
Portuguese A180 — Elementary
Portuguese 1 — 5 units
The focus is on the development of elementary
proficiency in listening, speaking, reading, and writing in
Portuguese with an introduction to cultures related to the
Portuguese language. May be taken for grades or on a
pass/no-pass basis. Transfer Credit: CSU, UC.

Portuguese A185 — Elementary
Portuguese 2 — 5 units
Prerequisite: Portuguese A180 or completion of
two years high school Portuguese Continuation of
Portuguese A180, with further development of listening,
speaking, reading, and writing proficiency, and additional
exploration of cultures related to the Portuguese
language. This course is equivalent to three years of
high school Portuguese. May be taken for grades or on a
pass/no-pass basis. Transfer Credit: CSU, UC.
Psychology A190 — Cross-Cultural Psychology — 3 units
Advisory: Psychology A100.
This course is an introduction to essential theories and research in cross-cultural psychology. The course will explore how culture influences human behavior and psychological processes including cognition, lifespan development, emotion, language, personality, mental health, self-concept, and social behavior. Topics include identity development, worldview, stereotypes, prejudice, discrimination, enculturation, acculturation, cultural competence, and mental health, with particular emphasis placed on the influence of race, ethnicity, sex, gender, disability, socioeconomic status, nationality, sexual orientation, and religion. Examination of these topics will prepare students to more fully engage in an increasingly diverse society where cross-cultural contact is a routine occurrence. Lecture. Transfer Credit: CSU, UC.

Psychology A190H — Cross-Cultural Psychology Honors — 3 units
Advisory: Psychology A100H.
This course is an introduction to essential theories and research in cross-cultural psychology. The course will explore how culture influences human behavior and psychological processes including cognition, lifespan development, emotion, language, personality, mental health, self-concept, and social behavior. Topics include identity development, worldview, stereotypes, prejudice, discrimination, enculturation, acculturation, cultural competence, and mental health, with particular emphasis placed on the influence of race, ethnicity, sex, gender, disability, socioeconomic status, nationality, sexual orientation, and religion. Examination of these topics will prepare students to more fully engage in an increasingly diverse society where cross-cultural contact is a routine occurrence. Lecture. Transfer Credit: CSU, UC.

Psychology A199 — Current Topics in Psychology — 5-3 units
Study and discussion of topics and issues of current interest in psychology. Units vary according to topic selected, semester offered, and number of meetings scheduled. May be taken for grades or on a pass/no-pass basis Lecture. Transfer Credit: CSU.

Psychology A200 — Positive Psychology — 3 units
Focus on presenting practical ways to promote and maintain well-being and happiness by managing emotions, strengthening positive character traits, and fostering better relationships. Topics include compassion, mindfulness, creativity and flow, self-knowledge, self-esteem, love, parenting, friendships, work ethics and achievement, spirituality, tolerance, resilience and humor. May be taken for grades or on a pass/no-pass basis Lecture. Transfer Credit: CSU.

Psychology A215 — Psychosocial Rehabilitation and Recovery — 3 units
Advisory: Psychology A100.
Introduces and familiarizes students with recovery and rehabilitation methods that address co-occurring disorders, family support, work, and education support. Introduces the student to community resources that will aid them in assisting individuals with housing, employment, dual diagnosis services, transportation, and other social services as part of the recovery process. Lecture. Transfer Credit: CSU.

Psychology A245 — Field Work for Mental Health Workers — 3 units
Prerequisite: Psychology A100, A125, A235, and A255 with a minimum grade of "C". CPR Certification, and instructor consent. The course instructor must approve fieldwork placement settings. Fieldwork experience is a component of the Mental Health Worker Certificate Program. Class meetings emphasize learning about working in the mental health field and developing associated skills. Students obtain supervised experience in a relevant mental health placement setting. Must be taken for letter grade. Lecture, Arranged. Transfer Credit: CSU.

Psychology A250 — Psychobiology — 3 units
Prerequisite: Psychology A100.
This course is an examination of the relationships between the brain and behavior and their application to self-management. The anatomy and physiology of the following will be explored: neurological disorders and their treatments, sensation, perception, sexuality, drug use, emotion, sleep, learning, memory, and internal bodily states. This course may also be offered online. Lecture. Transfer Credit: CSU, UC, C-ID PSY 150.

Psychology A255 — Abnormal Psychology — 3 units
Formerly Psychology A158
Prerequisite: Psychology A100.
A survey course emphasizing the scientific study of abnormal psychology. Topics include defining and describing the history of abnormal psychology, comprehensive models of psychopathology, assessment and classification of current psychological disorders, etiology and treatment, legal and ethical issues, and contemporary trends in the field. This course emphasizes a critical thinking approach for understanding content in the context of a culturally diverse society. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID PSY 120.

Psychology A260 — Social Psychology — 3 units
The scientific study of the influence of others on an individual’s mental processes and behavior. Topics explored include self-perceptions, attitudes and behavior, group influence and persuasion, attraction and relationships, stereotypes, prejudice, aggression, helping, and the application of social psychology to health, business, and law. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC, C-ID PSY 170.

Psychology A270 — Psychology of Learning — 3 units
Investigates types of learning, the background and research that led to their discovery, and current models of learning, memory, and problem solving. Critical and analytical thinking applied to instances of everyday learning and memory. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Psychology A280 — Introduction to Experimental Methods — 4 units
Prerequisite: Psychology A100 or Psychology A100H and completion of or concurrent enrollment in Psychology A160 or Mathematics A160 or Mathematics A160H.
This course addresses the principles and techniques which enter into experimental research concerning behavior and emphasizes designing, conducting, analyzing, and reporting research in the behavioral sciences. Lecture, Lab. Transfer Credit: CSU, UC, C-ID PSY 200.

RADIOLOGIC TECHNOLOGY

Radiologic Technology A100 — Radiologic Physics — 2 units
Prerequisite: Biology A221 and Math A030.

Radiologic Technology A105 — Radiation and Imaging Safety — 1 unit
Prerequisite: Acceptance into the OCC Radiologic Technology Program.
A study of the effects of radiation in humans and the principles of protection as applied to radiography. Introduction to health-physics instrumentation with a study of radiation control regulations. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A165 — Beginning Radiologic Practice — 1.5 units
Prerequisite: Allied Health A111.
Introduction to the radiology environment, emphasizing professionalism, humanistic approach to patients, medical/radiology records responsibilities, and medical/legal principles. Student obligations to clinical education are identified. Lecture. Transfer Credit: CSU.

Radiologic Technology A170 — Radiographic Positioning and Critique 1 — 3 units
Prerequisite: Allied Health A111.
Introduction to radiographic positioning studies, study of contrast media, acquaintance with x-ray apparatus, and laboratory practice and film critique of chest, abdominal studies and upper extremities. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A171 — Clinical Lab 1 — 2 units
Corequisite: Radiologic Technology A165 and Allied Health A115.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Radiographic skills in chest and abdomen procedures will be emphasized. Work Experience. Transfer Credit: CSU.

Radiologic Technology A172 — Clinical Lab 2 — 2 units
Prerequisite: Radiologic Technology A171.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel utilizing a condensed format. Radiographic skills to include assisting with routine contrast media studies of the GI and GU tracts. Work Experience. Transfer Credit: CSU.
Radiologic Technology A175 — Radiographic Positioning and Critique 2 — 3 units
Prerequisite: Radiologic Technology A170.
Radiographic positioning principles, laboratory practice, and image analysis of the lower extremities, vertebral column, and basic skull. Overview of common pathologies of identified areas. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A176 — Clinical Lab 3 — 7 units
Prerequisite or concurrent enrollment: Radiologic Technology A171 and A172.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Radiographic skills to be emphasized will be fluoroscopic procedures, GI tract, upper and lower extremities, and routine spinal column. Work Experience. Transfer Credit: CSU.

Radiologic Technology A177 — Clinical Lab 4 — 4.5 units
Prerequisite: Radiologic Technology A176.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Radiographic skills to be emphasized will be routine skull radiography, portable radiography, minor special procedures, and introduction to pediatric and trauma radiography. Work Experience. Transfer Credit: CSU.

Radiologic Technology A180 — Radiographic Imaging — 3 units
Corequisite: Radiologic Technology A110.
An introductory course to the factors influencing radiographic image formation, principles of film processing, digital imaging, exposure techniques, and essentials of radiographic image quality. Radiographic image critique skills will be developed. 36 hours lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A185 — Radiographic Pathology — 1 unit
Prerequisite: Radiographic Technology A170.
Advanced study, identification, and critique of common radiographic pathologies in major body systems. Assists the learner in providing quality patient care. Lecture. Transfer Credit: CSU.

Radiologic Technology A216 — Advanced Radiologic Patient Care — 2 units
Prerequisite: Allied Health A115.
Multi-skill preparation for the allied health professional including management communication skills and business management concepts, and contrast media administration limited to the upper extremity. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A265 — Principles of Digital Imaging and Computer Applications — 2 units
Prerequisite: Radiologic Technology A165.
Introduction to computer aided medical imaging as used in radiology departments. Applications include computed and digital radiography (CR/DR), CT, MRI, and other modalities. Basic imaging principles are applied, including physics, imaging protocols, and systems electronics. Software and display strategies for varying modalities will be discussed. Course does not include clinical experience. Lecture. Transfer Credit: CSU.

Radiologic Technology A270 — Radiographic Positioning and Critique 3 — 2.5 units
Prerequisite: Radiologic Technology A175.
Radiographic positioning, film critique of advanced skull to include sinuses, TMJs, mastoid, mandible, facial bones, bony thorax and pelvic girdle. Introduction to ancillary imaging modalities including sectional anatomy. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A271 — Clinical Lab 5 — 10.5 units
Prerequisite: Radiologic Technology A177.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Emphasis on independent radiography and decision making. Advanced cranial studies and torso exams will be emphasized. Work Experience. Transfer Credit: CSU.

Radiologic Technology A275 — Radiographic Positioning and Critique 4 — 3 units
Prerequisite: Radiologic Technology A270.
Introduction to advanced imaging principles and procedures to include diagnostic specials, interventional angiography CT and MR sectional anatomy as related to these imaging procedures. Principles of mammographic imaging per California state (BBR) regulations. Introduction to quality assurance principles and techniques. Elements of professional development. Lecture, Lab. Transfer Credit: CSU.

Radiologic Technology A276 — Clinical Lab 6 — 2 units
Prerequisite: Radiologic Technology A271.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Emphasis on independent radiography and decision making. Professional growth and program exit skills are expected. Work Experience. Transfer Credit: CSU.

Radiologic Technology A277 — Clinical Lab 7 — 6 units
Corequisite: Radiologic Technology A276.
Clinical experience in an affiliated radiology department under the supervision of certified radiology and health care personnel. Emphasis on independent radiography and decision making. Professional growth and program exit skills are expected. Work Experience. Transfer Credit: CSU.

Radiologic Technology A285 — ARRT Board Preparation — 1 unit
Prerequisite: Radiologic Technology A110.
Comprehensive categorical review of diagnostic radiologic technology in preparation for State and National Certification boards. Lecture. Transfer Credit: CSU.

Radiologic Technology A290 — Applied Physics & Fluoroscopy — 2.5 units
Prerequisite: Radiologic Technology A110.
Applied principles of physics for current radiographic equipment including fluoroscopy, image viewing and recording systems, and tomography. Study of knowledge and skills required to qualify student for fluoroscopy component of state licensure exam. Review of imaging concepts (analog and digital), x-ray beam quantity and quality, and radiation protection. Lecture. Transfer Credit: CSU.

REAL ESTATE

Real Estate A110 — Real Estate Principles — 3 units
Designed for those preparing for the state real estate license examination for those with investments in real estate. Includes real property laws on such subjects as estates, title transfer, encumbrances, contracts, landlord/tenant, escrow, title insurance, real estate finance, financial institutions, appraisal, subdivision laws, taxation, licensing, education, and real estate management. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Real Estate A120 — Legal Aspects of Real Estate — 3 units
Advisory: Real Estate A110.
Escrows, sales contracts, trust deeds, landlord tenant, liens, probate sales, joint tenancy, etc. Emphasizes the more complex aspects of real estate law. This course may also be offered online. Lecture. Transfer Credit: CSU.

Real Estate A130 — Real Estate Practice — 3 units
Advisory: Real Estate A110.
Covers the day to day practice of real estate including sales, working with buyers and sellers, the listing and purchase agreement, finance, taxation, property management and investing for real estate. This course may also be offered online. Lecture. Transfer Credit: CSU.

Real Estate A140 — Real Estate Appraisal — 3 units
Advisory: Real Estate A110.
This is an introductory course designed for brokers or those seeking entry level appraisal positions. The basic principles, theories and methods of appraising are discussed. Analysis of data and factors influencing value conclusions are emphasized. This course may also be offered online. Lecture. Transfer Credit: CSU.

Real Estate A150 — Real Estate Finance — 3 units
Advisory: Real Estate A110.
The factors of the general national economy, Federal Reserve System, sources of mortgage funds, money terms, real estate finance math, appraisal for financing purposes, loan processing, qualifying borrowers, assuming vs. subject to financing, various categories, and lending institutions. This course may also be offered online. Lecture. Transfer Credit: CSU.

Real Estate A190 — Leasing of Commercial Properties — 3 units
Planning, evaluating and negotiating of leasing techniques, protocol for commercial properties including retail, office, industrial and apartment rentals. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

RELIGIOUS STUDIES

Religious Studies A100 — Introduction to Religious Studies — 3 units
An introduction to the study of religion as an academic discipline with particular emphasis on the nature of religion, the methods used to study religious life, ways of expressing religious experience, and the practice of religion. May be Lecture. Transfer Credit: CSU, UC.
Religious Studies A110 — World Religion — 3 units
An identification of the nature of religious thinking and belief. The variety of patterns developed in both the West and the East are explored with a special emphasis on the relevance to the contemporary intellectual world. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A115 — Philosophy of Religion — 3 units
An examination of key issues and problems of religion, including the nature and significance of religion and religious experience, arguments for and against the existence of God, the nature of God, the problem of evil, and the relation between science and religion. Same as Philosophy A115. Students completing Religious Studies A115 may not receive credit for Philosophy A115. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A120 — Ethics — 3 units
An introduction to ethical theories and problems. An analysis of the theories and principles on which moral judgments are based and the way these judgments are used in moral problems such as abortion, euthanasia, capital punishment, sexual equality, discrimination, censorship and economic justice. Special attention will be given to the kinds of arguments used in ethical discussion. Same as Philosophy A120. Students completing Religious Studies A120 may not receive credit for Philosophy A120. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A125 — Introduction to the Bible — 3 units
This course covers the field of general Biblical introduction, including higher criticism, canonicity, methods of textual transmission, and history of the Bible in English. A survey of how the Bible was written, compiled, copied, and transmitted to the present. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A128 — History of Christianity — 3 units
A history of Christianity focusing on its central periods, personalities and ideas from its origins to the present. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A130 — Life and Times of Jesus — 3 units
A study of the historical situation of the world of Jesus’s day and an investigation of the main outlines of his life and teachings. The contributions made by Judaism and the Greek and Roman worlds to the shaping of the Christian religion. May be taken for grades or Lecture. Transfer Credit: CSU, UC.

Religious Studies A140 — History of Judaism — 3 units
This course surveys the history of Judaism from the earliest possible time to the present time. It describes the time prior to Abraham and discusses the development of the literature, rituals, and ceremonies through the centuries to the present time. It shows the impact of Jewish practices and thought on the changing world. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A145 — Mysticism and Meditation — 3 units
An identification of the nature of mysticism. An examination of the varieties of mysticism in the world with special emphasis on their development and practices. Meditation techniques related to mysticism will be examined and explained. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A150 — Eastern Thought — 3 units
An introduction to the religions of Asia including Hinduism, Buddhism, Taoism, and Confucianism. In addition to historical background and the current status of the religion, the course will focus on the scripture of each religion. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A160 — Contemporary Religious Topics: Islam — 3 units
Islam, the youngest of the world’s major religions, has evolved to play a significant role in world politics. The course will introduce students to the beliefs and practices of Islam, its history and development, its contribution to the arts and sciences, and its significant role in the 21st century. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Religious Studies A180 — The Bible as Literature — 3 units
Advisory: English A100.
Read, analyze, and write on important Biblical works from both the Old and New Testament canon. Explore the historical, cultural, philosophical, and aesthetic implications of representative works, their origins and adoption. Formulate and produce written analysis of assigned works. Same course as English A141. Students completing Religious Studies A180 may not receive credit for English A141. Lecture. Transfer Credit: CSU, UC.

RESPIRATORY CARE

Respiratory Care A185 — Respiratory Anatomy and Physiology — 3 units
Prerequisite: Biology A221 or A220 and A225.
Anatomy and physiology of the cardiopulmonary system with emphasis on function & clinical assessment by respiratory therapists. Includes pulmonary and cardiac anatomy, pulmonary ventilatory mechanics, pulmonary blood flow, oxygenation transport, hypoxemia and hyperoxia, carbon dioxide transport, acid-base balance and regulation of respiration. Lecture. Transfer Credit: CSU.

Respiratory Care A190 — Basic Respiratory Care Equipment — 3 units
Co-requisite: Respiratory Care A185 and A195.
Theories of equipment operation, procedures, and use for treatment of cardiopulmonary disease, including the use of humidity and aerosol, oxygen, infection control, hyperinflation techniques, basic ventilatory measurement, respirators, chest physiotherapy, and equipment related to compressed gases. Emphasis is placed on clinical application of equipment & techniques. Lecture, Lab. Transfer Credit: CSU.

Respiratory Care A191 — Clinical Lab 1 — 1.5 units
Prerequisite: Respiratory Care A100.
Beginning clinical practice of procedures presented in Respiratory Care A100. Includes hospital and respiratory therapy department orientation, recordkeeping, patient chart evaluation, use of compressed gases, medical gas therapy, humidity and aerosol therapy, drug administration, sterilization and culturing of equipment, incentive spirometry, PPB and chest physiotherapy, and patient assessment. Offered on a pass/no-pass basis only. Lab, Clinical. Transfer Credit: CSU.

Respiratory Care A192 — Clinical Lab 2 — 3 units
Prerequisite: Respiratory Care A190 and A191.
Continued applications of procedures and concepts of basic clinical therapy presented in the first year of the respiratory care program. Application and skills evaluations in advanced administration of aerosol therapy, PPB, pharmaceutical agents, chest physiotherapy, medical gases, and patient assessment. Offered on a pass/no-pass basis only. Clinical. Transfer Credit: CSU.

Respiratory Care A195 — Respiratory Pharmacology — 1 unit
Co-requisite: Respiratory Care A185 and A190.
A study of the drugs used to treat respiratory pathologies and their administration. Includes bronchodilators, steroids, mucokinetics, antibiotics, and respiratory stimulants and depressants. Lecture. Transfer Credit: CSU.

Respiratory Care A205 — Home Care and Rehabilitation — 1 unit
Prerequisite: Respiratory Care A190.
Techniques and operation of respiratory home care and pulmonary rehabilitation. Includes special equipment set-up, patient and family education, patient evaluation, and care of the ventilator dependent patient at home. Also includes regulations of home care and third party reimbursement. Lecture. Transfer Credit: CSU.

Respiratory Care A260 — Arterial Blood Gases, Theory and Practice — 2 units
Prerequisite: Respiratory Care A185.
Interpretation of arterial blood gases, arterial puncture technique, blood gas analysis. Interpretation of fluid and electrolyte imbalances, renal physiology on acid base control. Plethysmography. Lecture, Lab. Transfer Credit: CSU.

Respiratory Care A265 — Pulmonary Pathology — 3 units
Prerequisite: Respiratory Care A185.
The study of cardiopulmonary disease processes with emphasis on pathophysiology, manifestations, and treatment. Relates each disease state to evaluation, testing, and treatment. Lecture. Transfer Credit: CSU.

Respiratory Care A270 — Ventilators and Respiratory Management — 2 units
Prerequisite: Respiratory Care A260 or concurrent enrollment.
Co-requisite: Respiratory Care A276.
Principles and techniques in the management of patients requiring ventilatory support. Includes mechanical descriptions of ventilators in common use (including laboratory demonstrations and hands on practice), as well as patient assessment for need for ventilatory support along with assessment for changes in ventilatory support techniques. Lecture, Lab. Transfer Credit: CSU.
Respiratory Care A275 — Respiratory Care Procedures — 3 units
Prerequisite: Respiratory Care A185.
Respiratory care procedures, including physical assessment of the chest, chest x-ray assessment, airway management, bronchoscopy, chest tube drainage, electrocardiogram performance and interpretation, and ALS procedures. Lecture, Lab. Transfer Credit: CSU.

Respiratory Care A276 — Clinical Lab 3 — 4 units
Prerequisite: Respiratory Care A192.
Co-requisite: Respiratory Care A265, A270.
Clinical application of procedures & concepts from Respiratory Care A260, A270 and A275, continuing experience in the skills from Respiratory Care A191 and A192. Includes ABG puncture & analysis, airway management, artificial airways, bronchial hygiene, bronchoscopy, ventilatory management, patient assessment, monitoring, & other therapeutic measures related to patient treatment. Offered on a pass/no-pass basis only. 336 hours clinical. Transfer Credit: CSU.

Respiratory Care A278 — Pulmonary Case Assessment — 1 unit
Prerequisite: Respiratory Care A276.
Assessment of critical pulmonary patients with emphasis on assessment techniques, critical care procedures, and management techniques as applied to case studies. Includes use of both actual and simulated patient scenarios using information gathering and decision making by the Respiratory Care Practitioner. Lecture, Clinical. Transfer Credit: CSU.

Respiratory Care A279 — Physician Series 1 — .5 units
Co-requisite: Respiratory Care A276.
Physician presentations on current topics in pulmonary medicine emphasizing patient assessment and treatment. Discussion with physicians about individual clinical problems. Lecture. Transfer Credit: CSU.

Respiratory Care A280 — Critical Care Monitoring — 1 unit
Prerequisite: Respiratory Care A260 and A270.
Co-requisite: Respiratory Care A286.
Theory, use, and application of medical techniques used to monitor cardiopulmonary status and advanced techniques of diagnosis and treatment. Includes hemodynamic monitoring and non-invasive blood gas monitoring. Lecture. Transfer Credit: CSU.

Respiratory Care A285 — Pulmonary Function Testing — 2 units
Prerequisite: Respiratory Care A260 and A265.
Theory and application of pulmonary function testing by mechanical and electronic devices. Lecture, Lab. Transfer credit: CSU.

Respiratory Care A286 — Clinical Lab 4 — 3 units
Prerequisite: Respiratory Care A276.
Co-requisite: Respiratory Care A260 and A290.
Clinical application of respiratory therapy primarily in critical care areas. Includes airway management, patient assessment, ventilator mechanics and management, and monitoring of the critically ill patient. Offered on a pass/no-pass basis only. 240 hours clinical. Transfer Credit: CSU.

Respiratory Care A287 — Clinical Internship — 2 units
Co-requisite: Respiratory Care A286.
Advanced clinical utilization of knowledge and skills in critical care or specialty areas. Cumulative application of assessment, diagnostic, therapeutic, and judgmental skills acquired within the Respiratory Care Program. Offered on a pass/no-pass basis only. 150 hours laboratory clinical. Transfer Credit: CSU.

Respiratory Care A290 — Neonatal Intensive Care — 2 units
Prerequisite: Respiratory Care A260, A270 and A275.
Co-requisite: Respiratory Care A286.
Theory & practice of neonatal intensive respiratory care with emphasis on the role of the R.C.P. Includes fetal anatomy & physiology, delivery & assessment, resuscitation, neonatal pathologies, respiratory care diagnostic & therapeutic procedures, & techniques for mechanical ventilation. Provider approved C.B.R.N, CEP #12655 for 56 hours. Lecture, Lab. Transfer Credit: CSU.

Respiratory Care A296 — Respiratory Care Board Review — 1 unit
Co-requisite: Respiratory Care A278.
Comprehensive categorical review of diagnostic and therapeutic modalities in Respiratory Care to prepare for national certification, national registry, and state licensing board examinations. Lecture. Transfer Credit: CSU.

School Health Assistant A100 — School Health Assistant — 3 units
The principles and skills required of a School Health Assistant in the educational setting. Includes the roles and documentation of legal, and ethical responsibilities, cultural issues, office management, health records, and reporting. Students concerned to include physical findings, illnesses, emergency care, communicable diseases, screening, treatments, and medications. Lecture. Transfer Credit: CSU.

Sociology A100 — Introduction to Sociology — 3 units
Formerly Sociology A180
The study of social interrelationships and human group organization. Attention is given to the foundations of society, culture, group organization, social differentiation, and the methods of sociological study. Emphasis is on American social institutions. Lecture. Transfer Credit: CSU, UC.

Sociology A100H — Introduction to Sociology Honors — 3 units
Formerly Sociology A180H
The study of social interrelationships and human group organization. Attention is given to the foundations of society, culture, group organization, social differentiation, and the methods of sociological study. Emphasis is on American social institutions. Lecture. Transfer Credit: CSU, UC.

Sociology A110 — Introduction to Marriage and the Family — 3 units
The family, its structures and functions. Emphasis on the sociological theory and research on marriage, kinship systems, components of mate selection, intimate relationships, and child-rearing practices. The family is examined in historical perspective and in relation to social change. Lecture. Transfer Credit: CSU, UC. C-ID SOCI 130.

Sociology A150 — Introduction to Race & Ethnicity — 3 units
Multicultural approaches to cultural diversity including immigration policy, affirmative action, and bilingual debates. Intercultural comparisons including Native American, African American, Hispanic American, Asian American, and European American cultural traditions. Social science theories and methodologies for development of positive intercultural relationships. Same as Anthropology A150. Students completing Sociology A150 may not receive credit for Anthropology A150. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID SOCI A150.

Sociology A185 — Analysis of Social Problems — 3 units
An identification and analysis of contemporary social problems including (1) the role of power and ideology in the definition of social problems, (2) their causes and consequences, (3) evaluations of proposed solutions, and (4) methods of intervention. Topics will vary. Lecture. Transfer Credit: CSU, UC. C-ID SOCI 115.

Sociology A185H — Honors Analysis of Social Problems — 3 units
An identification and analysis of contemporary social problems including (1) the role of power and ideology in the definition of social problems, (2) their causes and consequences, (3) evaluations of proposed solutions, and (4) methods of intervention. Topics will vary. Lecture. Transfer Credit: CSU, UC.

Sociology A200 — Introduction to Research Methods — 3 units
Prerequisite: Sociology A100 or Sociology A100H
Advisory: Math A160 or A160H, Psychology A160.
Introduces basic steps in the research process and/ or basic steps in critical evaluating discussions on social issues using a variety of research methodologies. Emphasizes the scientific investigation of social subject matter. Lecture. Transfer Credit: CSU, UC. C-ID SOCI 120.

Spanish A160 — Spanish for Spanish Speakers — 5 units
Formerly Spanish A260
The focus is on improving proficiency in listening, speaking, reading, and writing in Spanish, with particular attention paid to the unique needs of Spanish-speaking students and to the linguistic and cultural diversity of the Spanish-speaking world. This course is taught in Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Spanish A165 — Spanish for Spanish Speakers 2 — 5 units
Prerequisite: Spanish A160 or 2 yrs of high school Spanish with a grade of “C” or better.
A second level beginning course for Spanish speaking students to improve their command of all aspects of the Spanish language and to broaden their appreciation of the Hispanic culture. The course will be taught in Spanish. Lecture. Transfer Credit: CSU, UC. C-ID SPAN 230.
Spanish A180 — Elementary Spanish 1 — 5 units
The focus is on development of elementary proficiency in listening, speaking, reading, and writing in Spanish, with an introduction to cultures related to the Spanish language. This course is equivalent to two years of high school Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Spanish A180H — Elementary Spanish 1 Honors — 5 units
This course is equivalent to two years of high school Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Spanish A185 — Elementary Spanish 2 — 5 units
Prerequisite: Spanish A180 or completion of two years of high school Spanish with a grade of "C" or better. Continuation of Spanish A180, with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the Spanish language. This course is equivalent to two years of high school Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID SPAN 110.

Spanish A185H — Elementary Spanish 2 Honors — 5 units
Prerequisite: Spanish A180H or completion of two years of high school Spanish with a grade of "C" or better. Continuation of Spanish A180H, with further development of listening, speaking, reading, and writing proficiency, and additional exploration of cultures related to the Spanish language. This course is equivalent to three years of high school Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID SPAN 110.

Spanish A190 — Conversational Spanish — 3 units
Prerequisite: Spanish A185.
The focus is on improving listening comprehension and oral competency to facilitate communication; reading, writing and cultural components are included. Designed to further the student’s ability to comprehend and communicate in Spanish. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Spanish A190 — Current Topics in Spanish — 2-5 units
Development of listening, speaking, reading, and writing proficiency in Spanish. Extensive exposure to cultures related to the Spanish language through authentic materials and group discussions on a variety of topics ranging from current events to global issues. Emphasis on cross-cultural understanding. This course may also be offered online. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU.

Spanish A280 — Intermediate Spanish 1 — 5 units
Prerequisite: Spanish A185.
Continuation of Spanish A185, with further development of language skills at the intermediate level and exploration of cultures related to the Spanish language. Additional emphasis on reading and writing, with an introduction to selected literary works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID SPAN 200.

Spanish A280H — Intermediate Spanish 1 Honors — 5 units
Prerequisite: Spanish A185H.
Continuation of Spanish A185, with further development of language skills at the intermediate level and exploration of cultures related to the Spanish language. Additional emphasis on reading and writing, with an introduction to selected literary works. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC C-ID SPAN 200.

Spanish A285 — Intermediate Spanish 2 — 5 units
Prerequisite: Spanish A280 or A280H.
Continuation of Spanish A280, with further refinement of language skills at the intermediate level and investigation of cultures related to the Spanish language in preparation for higher level specialized work. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC. C-ID SPAN 120.

SPEECH LANGUAGE PATHOLOGY ASSISTANT

Speech-Language Pathology Assistant A100 — Introduction to Speech-Language Pathology Assistant — 2 units
Prerequisite: Allied Health A101.
An introduction to the Speech Language Pathology Assistant career. Professional standards and responsibilities, legal and ethical issues, interdisciplinary and supervisory relations, and management of individuals with speech-language and hearing disorders are emphasized. Consideration is given to cultural, ethnic, and linguistic diversity. Lecture. Transfer Credit: CSU.

Speech-Language Pathology Assistant A115 — Speech, Language, and Hearing Development — 2 units
Prerequisite: Speech-Language Pathology Assistant A100.
This course encompasses speech production, acoustics, International Phonetic Alphabet, fine phonetic transcription, phonetic measurements, dialects, and the analysis of both normal and abnormal speech sounds. Protocol techniques for therapy are covered. Lecture, Lab. Transfer Credit: CSU.

Speech-Language Pathology Assistant A150 — Introduction to Phonetics — 3 units
Prerequisite: Speech-Language Pathology Assistant A100.
An introduction to phonetics including the analysis, description, and transcription of speech. The course encompasses speech production, acoustics, International Phonetic Alphabet, fine phonetic transcription, phonetic measurements, dialects, and the analysis of both normal and abnormal speech sounds. Protocol techniques for therapy are covered. Lecture. Transfer Credit: CSU.

Speech-Language Pathology Assistant A180 — Screening and Therapeutic Processes — 3 units
Prerequisite: Speech-Language Pathology Assistant A140.
Screening procedures and equipment used in evaluation of client status and development of treatment protocols. Therapeutic techniques, use of protocol forms, checklists and anecdotal records for speech, hearing, and language disorders. This course includes therapeutic procedures used in client protocol applications and in patient safety issues. Lecture, Lab. Transfer Credit: CSU.

Speech-Language Pathology Assistant A190 — SLPA Clinical Experience 1 — 2 units
Co-requisite: Speech-Language Pathology Assistant A140.
Application of clinical practice procedures and techniques as required of a speech-language pathology assistant under the supervision of a speech language pathologist. Offered on a pass/no-pass basis only. 192 hours clinical, Lecture. Transfer Credit: CSU.

Speech-Language Pathology Assistant A200 — Adult and Geriatric Disorders — 2 units
Prerequisite: Speech-Language Pathology Assistant A180.
Therapeutic techniques and assessment directed at adult and geriatric conditions. Special emphasis on acquired conditions and specialized application/adaptation of screening, protocols, and therapy. Lecture. Transfer Credit: CSU.

Speech-Language Pathology Assistant A250 — SLPA Clinical Experience 2 — 4 units
Prerequisite: Speech-Language Pathology Assistant A180 and A190.
Advanced application of clinical practice procedures and therapeutic techniques performed under the guidance of a speech pathologist. Client observation, treatment protocols, record keeping procedures, and discussion of case study management issues are also covered. 256 hours clinical, Lecture, Arranged. Transfer Credit: CSU.

TECHNOLOGY

Technology A040 — Technical Math — 3 units
An applied math course designed for the student with minimal background in mathematics to develop “need to know” skills necessary to be successful in technical, science, and vocational courses which require specific mathematical skills. Considerable review of essential math is emphasized. May be taken for grades or on a pass/no-pass basis. Lecture.
THEATRE ARTS

Theatre Arts A100 — Introduction to Theatre — 3 units
An introductory lecture course which explores the process of creating theatre today, including the contributions of the playwright, actor, director and designer. Plays of varying genres will be viewed and discussed. Students will attend and review two OCC-produced plays. Lecture. Transfer Credit: CSU, UC.

Theatre Arts A101 — Introduction to History and Literature of the Theatre — 3 units
The study of the history of theatre from the Origins of Theatre to today. The history and development of theatre and drama are studied in relationship to cultural, political and social conditions of the time. Important plays from each era will be viewed and discussed. Students will attend and review one OCC theatre production. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Theatre Arts A103 — Theatre Improvisation-Short Form — 3 units
The student will rehearse and perform individual and group improvisational scenes and exercises. The goals of the course are to help performers work with ease in front of an audience or camera, and learn Improv Olympics and theatre sports techniques and rules. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

Theatre Arts A104 — Improvisation — 3 units
The student will rehearse and perform individual and group improvisational scenes and exercises. The goal of the course is to help performers work with ease in front of an audience or camera. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC.

Theatre Arts A105 — Drama and Acting — 3 units
An introduction to acting and dramatic literature. Includes analysis of plays and dramatic structure, rehearsal techniques and performance of scenes and monologues. Lecture. Transfer Credit: CSU, UC.

Theatre Arts A106 — Acting Fundamentals — 3 units
This course prepares a student to apply basic acting theory to performance and develops the skills of interpretation of drama through acting. Special attention is paid to skills for performance: memorization, stage movement, vocal production, and interpretation of text. Required for theatre arts majors. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU, UC. C-ID THTR 151.

Theatre Arts A107 — Acting 2 — 3 units
Prerequisite: Theatre Arts A106 or intermediate level acting experience/skills. See the instructor for admission on the first day of class, skill level will be validated by the instructor during the first week of the course.
This course follows Acting Fundamentals and continues the exploration of theories and techniques used in preparation for the interpretation of drama through acting. The emphasis will be placed on deepening the understanding of the acting process through character analysis, monologues, and scenes. Must be taken for letter grade. Lecture, Lab. Transfer Credit: CSU, UC.

Theatre Arts A110 — Theatre Laboratory Level 1 — 2 units
An introduction to technical theatre and the creation of scenic elements. Includes basic concepts of design, painting techniques, set construction, set movement, prop construction, backstage organization, and career possibilities. Students will work on OCC stage productions under faculty supervision. Must be taken for letter grade. Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A111 — Theatre Laboratory Level 2 — 2 units
Advisory: Theatre Arts A110.
A laboratory course for the creation of scenic elements. Includes concepts of design, painting techniques, set construction, set movement, prop construction, backstage organization. Level 2 students will work on OCC stage productions on intermediate skill-level technical tasks including scenery building and painting, and prop building and backstage crew assignments. Must be taken for letter grade. Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A112 — Theatre Laboratory Level 3 — 2 units
Advisory: Theatre Arts A111.
Level 3 students will work at an advanced skill-level in the scene shop or backstage on OCC stage productions supervising crews and projects and/or building, rigging or painting scenic and prop elements. Includes advanced level concepts of set and prop design and construction, painting techniques, set rigging and movement, backstage organization, and career possibilities. Must be taken for letter grade. Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A113 — Theatre Laboratory Level 4 — 2 units
Advisory: Theatre Arts A112.
Students will work on OCC stage productions under faculty supervision. Technical tasks in the fourth semester include working as head carpenter, lead scenic painter or prop master on a production. Must be taken for letter grade. Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A115 — Acting for Camera and Stage — 3 units
Explores the translation of stage acting techniques into film and television acting. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A120 — Drama Rehearsal and Performance - Beginning — 3 units
This course provides instruction and supervised participation in theatre rehearsal and performance of a dramatic play. Third semester students will gain advanced level practical acting experience in an ensemble, supporting or leading dramatic role. Assignments will be given upon enrollment. Actors must pass auditions. Must be taken for letter grade. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A121 — Drama Rehearsal and Performance - Intermediate — 3 units
Advisory: Theatre Arts A120.
This course provides instruction and supervised participation in theatre rehearsal and performance of a dramatic play. Second semester students will gain intermediate level practical experience acting in ensemble or supporting roles. Assignments will be given upon enrollment. Actors must pass auditions. Must be taken for letter grade. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A122 — Drama Rehearsal and Performance - Advanced — 3 units
Advisory: Theatre Arts A121.
This course provides instruction and supervised participation in theatre rehearsal and performance of a dramatic play. Third semester students will gain advanced level practical acting experience in an ensemble, supporting or leading dramatic role. Assignments will be given upon enrollment. Actors must pass auditions. Must be taken for letter grade. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A123 — Comedy Rehearsal and Performance - Beginning — 3 units
Advisory: Theatre Arts A122.
This course provides instruction and supervised participation in theatre rehearsal and performance of a comedic play. Second semester students at an intermediate level will gain practical acting experience in comedic ensemble or supporting roles. Cast assignments will be given upon enrollment. Actors must pass auditions. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A124 — Comedy Rehearsal and Performance - Intermediate — 3 units
Advisory: Theatre Arts A123.
This course provides instruction and supervised participation in theatre rehearsal and performance of a comedic play. Second semester students at an intermediate level will gain practical acting experience in comedic ensemble or supporting roles. Cast assignments will be given upon enrollment. Actors must pass auditions. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A125 — Comedy Rehearsal and Performance - Advanced — 3 units
Advisory: Theatre Arts A124.
This course provides instruction and supervised participation in theatre rehearsal and performance of a comedic play. The third semester focuses at an advanced level on comic acting techniques and performance. Students in their third semester will gain practical experience in the performance of an ensemble, supporting or leading comic role. Cast assignments will be given upon enrollment. Actors must pass auditions. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A126 — Musical Rehearsal and Performance - Beginning — 3 units
This course provides instruction and supervised participation in theatre rehearsal and performance of a stage musical. Students will gain practical acting and singing experience at a beginning level. Actors must pass auditions. Cast assignments will be given upon enrollment. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A127 — Musical Rehearsal and Performance - Intermediate — 3 units
This course provides instruction and supervised participation in theatre rehearsal and performance of a stage musical. Students in their second semester will gain practical experience in musical theatre performance. Students will rehearse and perform at an intermediate level in an ensemble or supporting role. Roles will be assigned after enrollment. Actors must pass auditions. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Course Descriptions
Theatre Arts A128 — Musical Rehearsal and Performance - Advanced — 3 units
This course provides instruction and supervised participation in theatre rehearsal and performance of a stage musical. Students in their third semester will work at an advanced level of skill on characterisation, vocal and acting technique in an ensemble, supporting or leading role. Assignments will be given upon enrollment. Actors must pass auditions. May be taken for letter grade or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A129 — Technical Theatre Practicum — 3 units
Students will gain practical experience in the application of production responsibilities in any of the following: stage management, house management, construction of scenery, properties or costumes, lighting, sound, and running crews of a faculty-directed play. Must be taken for letter grade. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A131 — OCC Theatre Repertory 1 — 3 units
This is “The Rep.”, a student-run theatre company. Students will collaborate under faculty supervision to plan and produce several plays. First semester students will choose two or more areas of play production in which to take part. Play production aspects include backstage duties such as technical production, crew, or stage management, acting in student-directed plays, or management duties such as planning, publicity and ushering. This course gives students hands-on experience which extends and enriches experience beyond previous beginning acting and technical courses. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A132 — OCC Theatre Repertory 2 — 3 units
Advisory: Theatre Arts A131.
This is “The Rep.” Second-semester students will work at a higher skill level on more complex tasks in at least two aspects of play production while staging a series of stage plays. Production aspects include acting, design, publicity, technical production, stage management and house management will be practiced. This course extends and enriches experience beyond previous courses. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A133 — OCC Theatre Repertory 3 — 3 units
Advisory: Theatre Arts A132.
This is “The Rep.” Experienced students in their third semester will collaborate with others to plan and produce several plays at an advanced skill-level in one or more aspects of play production. Aspects of play production include acting, design, playwriting, publicity, technical production, stage management, production management and house management. This course extends and enriches the student’s specific skills and experience at an advanced level. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A134 — OCC Theatre Repertory 1 — 3 units
Advisory: Theatre Arts A132.
Students in their fourth semester with “The Rep” will take part in planning and producing several plays in a position requiring experience, advanced skills and responsibility, such as director, designer, production manager, artistic director, leading actor, etc. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

Theatre Arts A144 — Summer Theatre Festival — 4 units
Students participate in the pre-production, planning, audition, rehearsal, and performance of a theatrical production or productions in repertory. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A145 — Touring Production 1 — 3 units
Students will participate in elements of presenting a show at various locations. These elements will include: acting, set design, set construction, lighting, sound design, costume, make up, and interaction with audiences through question and answer sessions. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A146 — Touring Production 2 — 3 units
Students will participate at an intermediate skill level in one or more production aspects presenting a touring show at various locations. These aspects include: acting, technical design and production, and stage management. Students will also learn to interact with audiences during question and answer sessions. Acting roles are assigned through audition. Lecture, Lab. Transfer Credit: CSU.

Theatre Arts A165 — Stagecraft Lab 1 — 1 unit
Introduction to stage craft activities including scenery construction, set painting, light rigging, stage props and theatre operations. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A166 — Stagecraft Lab 2 — 1 unit
Advisory: Theatre Arts A165.
Students will work on stage productions practicing various stage craft activities including scenery construction, set painting, prop construction, and working backstage on a theatre production. Level 2 students will work on intermediate skill-level projects and/or backstage as crew leads during performances. Must be taken for letter grade. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A170 — Stage Crew Activity — 1 unit
This course will help produce an OCC stage production. One or more elements of technical theatre will be explored including scenic and prop construction, scene painting, or stage lighting. Strongly recommended for theatre majors. May be taken for grades or on a pass/no-pass basis. Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A172 — Elizabethan Play Workshop and Production — 3 units
This course provides instruction and supervised participation in theatre and rehearsal and performance of a play from or influenced by the Elizabethan era. Auditions will be held the first week of the class, and students will be assigned roles based on these auditions. 18 Lecture Hours, 90 scheduled Lab Hours, 18 arranged Lab Hours. Transfer Credit: CSU.

Theatre Arts A175 — Stage Scenery — 3 units
An in-depth study of all the diverse theatre crafts such as scenery construction, scene painting, and properties, and a survey study of theatre design. The historical development and major trends of stagecraft will be studied. Students will prepare a practical project consisting of a scene design or scale model. Required for students planning to transfer to CSU Long Beach and Fullerton. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC. C-ID THTR 171.

Theatre Arts A176 — Stage Lighting — 3 units
This course involves the study and execution of stage lighting with emphasis on equipment, control, color and their relationship to design. Students will participate in the lighting of college productions. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A177 — Make-up — 3 units
A practical introduction to basic makeup techniques for theatre and film. Must be taken letter grade. Lecture. Transfer Credit: CSU, UC. C-ID THTR 175.

Theatre Arts A178 — Stage Costuming — 3 units
An introduction to costume techniques for the theatre and entertainment industry. Topics include basic costume construction and alteration techniques, costume craft tools and materials, mask making and an introduction to costume design methods. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC. C-ID THTR 174.

Theatre Arts A181 — Arts Internship — 1-2 units
Advisory: Internship course must be taken during the last year prior to completion of certificate program. A supervised internship related to classroom-based learning at a work site related to the student’s certificate program. Arranged. Transfer Credit: CSU.

Theatre Arts A182 — Advanced Makeup — 3 units
Advisory: Theatre Arts A177.
An advanced course in film and stage make-up techniques. Class will cover advanced make-up application which will include design, sculpting, molding, casting and finishing techniques of a prosthetic make-up. Lecture, Lab. Transfer Credit: CSU.

Theatre Arts A188 — Body Movement for the Actor — 3 units
Instruction in using the body as an expressive instrument in performance. Strength, flexibility, relaxation, control, and body relationship will be studied. May be taken for grades or on a pass/no-pass basis Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A189 — Stage Combat — 2 units
Fundamentals of stage combat emphasizing such weapons as quarterstaff, foil, epees, sabre, broadsword, rapier, and dagger. Such stunt techniques as fist fighting and falls are included. Strongly recommended for acting majors and theatre arts teachers. May be taken for grades or on a pass/no-pass basis. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A200 — Voice and Articulation — 3 units
This course explores vocal techniques for actors including warm-up techniques, phonetics, projection, articulation and the use of regional accents. May be taken for grades or on a pass/no-pass basis. Lecture. Transfer Credit: CSU, UC.

Theatre Arts A206 — Acting 3 — 3 units
Advanced techniques based on the study, analysis, rehearsal, and performance of dramatic scenes. Areas of concentration include projection and articulation, goal discovery and setting, and the use of imagery and connection. Lecture, Lab. Transfer Credit: CSU, UC.

Theatre Arts A207 — Acting 4 — 3 units
Advanced acting techniques with particular emphasis on stage diction. Units of study include phonetics, voice projection, vocal quality, dialects, and the application of vocal techniques to dramatic literature. Required of theatre arts majors. Lecture, Lab. Transfer Credit: CSU, UC.
Theatre Arts A215 — Rehearsal and Performance — 2 units
Students will work collaboratively to produce and perform a play. Each student’s area of involvement will be in one or more of the following areas: acting, technical, stage management, or house management. Student’s area of involvement will be determined by the instructor with the student to satisfy individual expectations. Actors must audition for roles. 18 Lecture Hours, 40 scheduled Lab Hours, 14 arranged Lab Hours. Transfer Credit: CSU, UC.

Theatre Arts A216 — Rehearsal and Performance 2 — 2 units
Advisory: Theatre Arts A215
Students will work collaboratively at an advanced skill level to produce and perform a play. Each student’s area of involvement will be in one or more of the following areas: acting, technical, stage management, or house management. Student’s area of involvement will be determined by the instructor with the student to satisfy individual expectations. Actors must audition for roles. 18 Lecture Hours, 40 scheduled Lab Hours, 14 arranged Lab Hours. Transfer Credit: CSU.

Theatre Arts A275 — Directing — 3 units
An examination of the basic principles and problems in stage direction. Students will complete directing assignments by directing a student production or special project, assisting a faculty director with a production, or stage managing a faculty-directed play. Lecture, Lab/Arranged Lab. Transfer Credit: CSU, UC.

Theatre Arts A285 — Advanced Directing — 3 units
Advisory: Theatre Arts A275.
An advanced practicum in stage direction. Students in their second semester will work independently under faculty supervision to direct or stage manage a play or project in the OCC Theatre Department. Lecture, Lab/Arranged Lab. Transfer Credit: CSU.

TUTORING

Tutoring A050 — Supervised Tutoring — 0 units
Supervised peer tutoring in academic courses for students who want assistance with course content and/or study skills. This is an open entry/open exit course. Offered on a pass option basis only. Arranged. Not applicable to AA or AS degree.

Tutoring A060 — Supervised Learning — 0 units
Supervised learning for student academic assistance to help students in historically difficult classes master content while they develop and integrate learning and study strategies. Enrollment is open all semester. Not applicable to an AA/AS degree. Arranged.

Tutoring A150 — Tutoring Skills/Student Success Center — 1 unit
Designed for students who meet the criteria to be tutors in one of the Student Success Center. Tutoring skills development in the areas of interpersonal and communication skills, learning styles, study skills, techniques, diversity/cultural awareness, and Socratic method. Open entry/open exit. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit: CSU.

WELDING TECHNOLOGY

Welding Technology A100 — Arc and Oxy-acetylene Welding — 3 units
Beginning course in arc and oxy-acetylene welding that covers safety practices, use of equipment, brazing and cutting operations, and applications to various types of steels. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A101 — Arc and Oxy-acetylene Welding — 4 units
Beginning course in arc and oxy-acetylene welding that covers safety practices, use of equipment, welding in all positions, brazing and cutting operations, and applications to various types of steels. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A102 — Weld Testing GMAW 1 — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of Gas Metal Arc Welding process to the industry standard set by the Inter-Industry Conference on Auto Collision Repair (I-CAR) required tests. A Welder Qualification Certification will be issued. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A103 — Weld Testing GMAW 2 — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of Gas Metal Arc Welding process to the industry standard set by the Inter-Industry Conference on Auto Collision Repair (I-CAR) required tests. A Welder Qualification Certification will be issued. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A104 — Weld Testing GTAW — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of level I in Gas Tungsten Arc Welding process. When completed, may lead to Certificate of Specialization. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A105 — Weld Testing Basic — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels I, II, III or IV in Shielded Metal Arc Welding process. When completed, may lead to Certificate of Specialization. A Certification Certificate will also be issued for the appropriate level. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A106 — Weld Testing Intermediate — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels V and/or VI in the Shielded Metal Arc Welding process. When completed, may lead to Certificate of Specialization. A Certification Certificate will also be issued for the appropriate level. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A107 — Weld Testing Advanced 1— .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels VII, VIII, and/or IX in Shielded Metal Arc Welding. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A108 — Weld Testing Advanced 2— .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels I, II, III, and/or IV in Flux Cored Arc Welding. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A109 — Weld Testing FCAW 1 — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels V, VI, VII, VIII in Flux Cored Arc Welding. When completed, may lead to Certificate of Specialization. A Certification Certificate will also be issued for the appropriate level upon successful completion. Enroll only when ready to test. Fee charged for qualification test. Offered on a pass/no-pass basis only. Lab. Transfer Credit: CSU.
Welding Technology A110 — Weld Testing FCAW 2 — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels IX in Flux Cored Arc Welding. When completed, may lead to Certificate of
Specialization. A certification will also be issued for the appropriate level upon successful completion. Enroll only
when ready to test. Fee charged for qualification test.
Lab. Transfer Credit: CSU.

Welding Technology A111 — Weld Testing Pipe — .5 units
Prerequisite: Welding Technology A100 or Welding Technology A101, or concurrent enrollment.
Weld testing for mastery of levels I and/or II in the Pipe Welding process or Gas Tungsten Arc and Shielded Metal Arc Wa
d welding processes. Enroll only when ready to test. Fee charged for qualification test. Offered on a
pass/no-pass basis only. Lab. Transfer Credit: CSU.

Welding Technology A115 — Arc and Oxy-acetylene Welding Practice Level 1 — 1-2 units
Prerequisite: Welding Technology A100 or concurrent enrollment.
A laboratory class to develop skills in arc and oxy-acetylene welding. Lab. Transfer Credit: CSU.

Welding Technology A116 — Arc and Oxy-acetylene Welding Practice Level 2 — 1-2 units
Prerequisite: Welding Technology A100 or concurrent enrollment.
Advisory: Welding Technology A115
A second-level laboratory class to develop skills in SMAW and oxy-acetylene welding. Lab. Transfer Credit: CSU.

Welding Technology A117 — Arc and Oxy-acetylene Welding Practice Level 3 — 1-2 units
Prerequisite: Welding Technology A100.
Advisory: Welding Technology A116.
A laboratory class to develop intermediate skills in arc and oxy-acetylene welding. Lab. Transfer Credit: CSU.

Welding Technology A118 — Arc and Oxy-acetylene Welding Practice Level 4 — 1-2 units
Prerequisite: Welding Technology A117.
A level four laboratory class to develop skills in arc, oxy-acetylene, and GMAW welding. Lab. Transfer Credit: CSU.

Welding Technology A120 — Mathematics & Fabrication Layout for Welders — 4 units
Advisory: Technology A040.
The study of mathematics to prepare welders for job skills requiring fabrication layout. Lecture, Lab. Transfer
Credit: CSU.

Welding Technology A130 — Gas Tungsten Arc Welding Level 1 — 3 units
Prerequisite: Welding Technology A100, A101 or A140.
GTAW (Gas Tungsten Arc Welding) Level 1 theory and practice covering aluminum and stainless steels and
qualification requirements. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit:
CSU.

Welding Technology A131 — Gas Tungsten Arc Welding Level 2 — 3 units
Prerequisite: Welding Technology A100, A101 or A140
GTAW (Gas Tungsten Arc Welding) Level 1 theory and practice covering aluminum and stainless steels and
qualification requirements. May be taken for grades or on a pass/no-pass basis. Lecture, Lab. Transfer Credit:
CSU.

Welding Technology A140 — Occupational Welding Level 1 — 1.5 units
Formerly Welding Technology A122
A first-level beginning course in arc and oxy-acetylene welding covering safety practices, use of welding,
brazing, thermal and mechanical cutting equipment operations on various types of metal. Lecture, Lab.
Transfer Credit: CSU.

Welding Technology A141 — Occupational Welding Level 2 — 1.5 units
A second-level beginning course in arc and oxy-acetylene welding covering safety practices, use of welding,
brazing, thermal and mechanical cutting equipment operations on various types of metal. Lecture, Lab.
Transfer Credit: CSU.

Welding Technology A142 — Occupational Welding Level 3 — 1.5 units
A third-level beginning course in arc and oxy-acetylene welding covering safety practices, use of welding,
brazing, thermal and mechanical cutting equipment operations on various types of metal. Lecture, Lab.
Transfer Credit: CSU.

Welding Technology A143 — Occupational Welding Level 4 — 1.5 units
A fourth-level beginning course in arc and oxy-acetylene welding covering safety practices, use of welding,
brazing, thermal and mechanical cutting equipment operations on various types of metal. Lecture, Lab.
Transfer Credit: CSU.

Welding Technology A180 — Blue Print Reading — 2 units
A basic course in the reading of blueprints associated with the welding fabrication industry. Lecture, Lab.
Transfer Credit: CSU.

Welding Technology A200 — Advanced Welding — 3 units
Prerequisite: Welding Technology A100, A101 or A122.
Advanced welding theory and practice covering thermal cutting, oxy-acetylene and gas shielded arc welding processes, welding of ferrous and non-ferrous metals, qualification and certification requirements to Los Angeles City and American National Standards Institute, use of welding symbols. May also enroll in Welding Technology A215 for additional laboratory units. Each 54 hours of laboratory time earns one unit. Will be given credit for the laboratory course appropriate for the number of hours worked. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A201 — Advanced Welding — 4 units
Prerequisite: Welding Technology A100 or A101.
Advanced welding theory and practice, covering thermal cutting, oxy-acetylene welding and welding of ferrous and non-ferrous metals, qualification and certification requirements to Los Angeles City and American National Standards Institute. May also enroll in Welding Technology A215 for additional laboratory units. Each 54 hours of laboratory time earns one unit. Will be given credit for the laboratory course appropriate for the number of hours worked. Same as Welding Technology A200 but with added lab hours. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A210 — Welding Inspection and Testing — 4 units
This course covers physical tests, metallographic analysis, visual inspection, non-destructive examination of welds and chemical analysis of metals and alloys. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A211 — Gas Metal Arc Welding Training Level 1 — 1 unit
Prerequisite: Welding Technology A100, A101 or A140.
This course teaches Gas Metal Arc Welding Theory and practice on ferrous and non-ferrous metals covering welding standards set by the American Welding Society, American National Standards Institute and I-CAR in preparation for qualification and certification requirements. Each 54 hours of laboratory time earns one unit. Students will be given credit for laboratory course appropriate for the number of hours worked. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A212 — Gas Metal Arc Welding Training Level 2 — 1 unit
Prerequisite: Welding Technology A100, A101 or A140.
Advisory: Welding Technology A211.
This second level course teaches Gas Metal Arc Welding Theory and practice on ferrous and non-ferrous metals covering welding standards set by the American Welding Society, American National Standards Institute and I-CAR in preparation for qualification and certification requirements. Each 54 hours of laboratory time earns one unit. Students will be given credit for laboratory course appropriate for the number of hours worked. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A215 — Advanced Arc and Oxy-acetylene Lab Level 1 — 1-2 units
Prerequisite: Welding Technology A200, A201, or A223.
This is a laboratory course to develop skills in Shielded Metal Arc (SMAW), Oxy-Acetylene, GTAW (TIG), and GMAW (MIG) welding. Lab. Transfer Credit: CSU.

Welding Technology A220 — Advanced Arc and Oxy-acetylene Lab Level 2 — 1-2 units
Prerequisite: Welding Technology A200, A201, or A223.
A second level advanced laboratory course to develop skills in oxy-acetylene, SMAW, GTAW, and GMAW welding. Lab. Transfer Credit: CSU.

Welding Technology A221 — Advanced Arc and Oxy-acetylene Lab Level 3 — 1-2 units
Prerequisite: Welding Technology A200, A201, or A223.
A third level advanced laboratory course to develop skills in oxy-acetylene, SMAW, GTAW, and GMAW welding. Lab. Transfer Credit: CSU.

Welding Technology A222 — Advanced Arc and Oxy-acetylene Lab Level 4 — 1-2 units
Prerequisite: Welding Technology A200, A201, or A223.
A fourth level advanced laboratory course to develop skills in oxy-acetylene, SMAW, GTAW, and GMAW welding. Lab. Transfer Credit: CSU.

Welding Technology A223 — Advanced Welding Specifications and Codes — 2 units
Codes and specifications used by governmental agencies and industry in control of products and production.
Lecture. Transfer Credit: CSU.

Welding Technology A233 — Advanced Welding Level 1 — 1.5 units
Prerequisite: Welding Technology A100 or A101 or A140.
An advanced welding course teaching the theory and practice of joining ferrous and non-ferrous metals. Includes certification requirements joint design and use of welding symbols. Lectures include preparation for Los Angeles City testing. Lecture, Lab. Transfer Credit: CSU.
Welding Technology A224 — Advanced Welding Level 2 — 1.5 units
**Prerequisite:** Welding Technology A100 or A101 or A140.
**Advisory:** Welding Technology A223.
A second-level advanced welding course teaching the theory and practice of joining ferrous and non-ferrous metals. Includes certification requirements joint design and use of welding symbols. Lectures include preparation for Los Angeles City testing. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A225 — Advanced Welding Level 3 — 1.5 units
**Prerequisite:** Welding Technology A100 or A101 or A140.
**Advisory:** Welding Technology A224.
A third-level advanced welding course teaching the theory and practice of joining ferrous and non-ferrous metals. Includes certification requirements joint design and use of welding symbols. Lectures include preparation for Los Angeles City testing. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A226 — Advanced Welding Level 4 — 1.5 units
**Prerequisite:** Welding Technology A100 or A101 or A140.
**Advisory:** Welding Technology A225.
A fourth-level advanced welding course teaching the theory and practice of joining ferrous and non-ferrous metals. Includes certification requirements joint design and use of welding symbols. Lectures include preparation for Los Angeles City testing. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A230 — Welding Metallurgy — 3 units
Basic metallurgy as applied to welding, metal structures, strength of material. Weld ability of metals, heat treatment, welding procedures, welding stresses and control. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A253 — Pipe Welding Level 4 — 3 units
**Prerequisite:** Welding Technology A200 or A201 or A226.
Fourth-level course for Oxygen-Acetylene, Shielded Metal Arc, Gas Metal Arc and Gas Tungsten Arc Welding for pipe welder qualification to achieve American National Standards (ANSI) certification. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A255 — Orbital Welding Level 1 — 3 units
**Prerequisite:** Welding Technology A100, A101 or A140.
First level advanced welding theory and practice covering the process of gas tungsten arc welding using an automatic orbital welding system. Instruction includes safety, equipment use, and certification requirements. Lecture, Lab. Transfer Credit: CSU.

Welding Technology A256 — Orbital Welding Level 2 — 3 units
**Prerequisite:** Welding Technology A100, A101 or A140.
**Advisory:** Welding Technology A255.
Second-level advanced welding theory and practice covering the process of orbital gas tungsten arc welding, cleanroom procedures, piping blueprints and certification. Instruction includes safety, equipment use, and certification requirements. Lecture, Lab. Transfer Credit: CSU.

Professor, English
B.A., M.A., California State University, Los Angeles

GILBERT, STEPHEN (1997)
Professor, Computer Science
B.S., California State University, Long Beach
M.S., Azusa Pacific University

GILLISSEN, BLADE (2007)
Professor, Photography
A.A., Orange Coast College
A.A., Rancho Santiago College

GOERRISSEN, JAN (2012)
Instructor, Biological Sciences
B.S., University of California, Santa Cruz
Ph.D., University of California, Davis

GOLDMANN, TAMAR (1995)
Professor, English as a Second Language
B.A., M.A., University of California, Los Angeles

GOLSON, CHRISTOPHER “RICK” (1990)
Professor, Theatre Arts
A.A., Orange Coast College
B.A., University of California, Santa Cruz
M.A., San Francisco State University

GONZALES, JARREN (2009)
Associate Professor, Psychology
B.A., University of Portland, Oregon
M.A., Ph.D., University of Notre Dame, Indiana

GONZALES, SHRILY L. (1993)
Assistant Professor, Chemistry
B.S., Ph.D., University of California, Irvine

GORDON, LEE (1989)
Assistant Professor, Business Education
B.S., Indiana University
M.A., Indiana University

GOTSCHAL, NORIKO (2016)
Instructor, Counseling Services
B.A., University of Wisconsin, Madison
M.S., California State University, Long Beach

GOULD, BRIAN (1995)
Professor, Music
B.A., University of California, Irvine
M.M., D.M.A., University of Southern California

GREEN, ULRIKE (2017)
Instructor, Anthropology
A.A., Orange Coast College
B.A., University of California, Irvine
M.A., Ph.D., University of California, San Diego

GROOMS, MARK (2016)
Instructor, Business
B.S., Indiana University, Bloomington
M.B.A., University of California, Irvine

GUERRA, ARNOLD, III (2002)
Professor, Physics
M.S., Ph.D., University of California, Irvine

GUILLEN, DENIA (2008)
Associate Professor, Counseling Services
B.A., California State University, Fullerton
M.S., California State University, Long Beach

HANLON, ANNA (2003)
Professor, Kinesiology and Athletics
B.S., M.S., M.P.H., California State University, Fullerton

HARLOW, RICHARD (2005)
Assistant Professor, Horticulture
B.S., California State Polytechnic University, Pomona

HARRIMAIN, STANLEY (2015)
Instructor, Aviation Pilot Training
B.S., Andrews University, Michigan
M.S., Ph.D., Purdue University, Indiana

HELLMAN, AMY (2016)
Instructor, Chemistry
B.S., University of California, Santa Barbara
M.S., Ph.D., University of California, San Diego

HENDERSON, KARL (2015)
Instructor, Manufacturing Technology
A.S., ITT Technical Institute of Technology

HIDDEN, MARTA L. (2001)
Professor, Mathematics
B.A., M.A., California State University, Sacramento

HITCHENS, JAMIE (2017)
Instructor, Film & Television
B.A., M.A., Proctor Institute College of Art
B.F.A., Kansas City Art Institute
M.A., New York University

HOFFMAN, GLYNIS (1997)
Professor, English
B.A., M.A., California State University, Fullerton

Professor, Counseling Services
A.A., A.S., Mt. San Antonio College
B.S., California State University, Los Angeles
M.A., California State University, San Bernardino

HOLLANDER, GENA (1999)
Associate Professor, Anthropology/Sociology
B.A., Queens College (New York)
M.A., California State University, Fullerton

HOLT, KELLY (2012)
Instructor, Radiologic Technology
A.A., Long Beach City College
B.A., California State University, Long Beach
M.S., California State University, Dominguez Hills

HUNTER, AMELIE (2001)
Professor, Dance
B.A., M.A., University of California, Los Angeles
M.F.A., Tisch School of the Arts, New York University

HUSAIN, SYED (2008)
Professor, Mathematics; Engineering
M.S., South Dakota School of Mines and Technology

HUTCHISON, RICHARD (1999)
Professor, Welding Technology
A.A., Cerro Coso College
B.T.E., California State University, Long Beach

ICARO-BOISER, RUBIROSAS (2012)
Professor, Computer Science
B.S., University of California, Los Angeles

ICARO-BOISER, RUBIROSAS (2012)
Instructor, Counseling Services: International/General
A.A., Cerro Coso College
B.S., California State University, Fullerton
M.S., University of La Verne

ISAAK, DARRYL (1995)
Professor, Sociology
B.A., University of California, Irvine

JOHNSON, DOUGLAS (2012)
Instructor, Accounting
B.S., California State University, Fullerton
M.S., California State University, Dominguez Hills
M.S.D., Arizona State University

JUDD, FREDERICK (2017)
Instructor, Business and Business Law
B.S., Arizona State University
J.D., Brigham Young University Law School

KAGAWA, AKEMI (1999)
Professor, Japanese
B.A., M.A., California State University, Los Angeles
M.A., University of Southern California

KAMPHUIS, JACQUELINE (1999)
Associate Professor, Student Success Center
B.A., M.A., California State University, Long Beach

KANG, HANNAH (2016)
Instructor, Psychology
B.A., University of California, San Diego
Ph.D., University of California, Irvine

KEITH, ARLETE BEATRIZ (2005)
Assistant Professor, Spanish
B.A., M.A., University of California, Irvine

KENDEY, MARILYN (1999)
Associate Professor, English
A.A., Cypress College
B.A., California State University, Long Beach
M.A., California State University, Fullerton

KENDEY, PATRICK (1990)
Professor, English
B.A., M.A., California State University, Long Beach
KERINS, JOHN CHRISTOPHER (2017)  
Instructor, Commercial Art  
B.A., California Polytechnic University, San Luis Obispo  
M.F.A., University of California, Los Angeles

KETCHAM, CHRISTOPHER (2017)  
Instructor, Kinesiology & Head Coach, Men’s/ Women’s Tennis  
B.A., Chapman University  
M.S., Azusa Pacific University

KEY, CHRISTINA (2017)  
Instructor, Counseling Services, DSPS  
B.A., University of California, Santa Barbara  
M.A., University of San Diego

KINGS, ROSE ANNE (2000)  
Professor, Architectural Technology  
B.Arch., California Polytechnic State University, San Luis Obispo

KIRCH, STACY (2001)  
Professor, Counseling Services  
B.A., Concordia University  
M.S., California State University, Long Beach

KINES, ANDREW (2001)  
Professor, Mathematics  
B.A., University of California, Berkeley  
M.S., Ph.D., University of California, Irvine

KOMENDA, VIRGINIA (2012)  
Instructor, English  
B.A., Humboldt State University  
M.S., California State University, Long Beach  
M.A., University of Southern California

KRAFT, RICHARD (2002)  
Professor, Photography  
B.F.A., Parsons School of Design, New York  
M.F.A., University of Michigan

KUBIAK, RENEE (2000)  
Professor, Interior Design  
B.A., California State University, Long Beach

KULIK, CHRISTOPHER (2016)  
Instructor, Counseling Services, CAFYES/EOPS  
B.A., Saint Lawrence University  
M.A., University of Northern Colorado

KUO, DANIEL (2006)  
Assistant Professor, Economics  
B.A., University of California, Berkeley  
M.A., University of California, Santa Barbara

LA MER, EMMA GRACE “JOEY” (1992)  
Assistant Professor, Speech  
B.S., M.A., Arizona State University

LANGE, ANDREA (2017)  
Instructor, Counseling Services  
B.A., California State University, Long Beach  
M.S., Chapman University  
M.A., California State University, Dominguez Hills

LANNOM, MICHAEL (2014)  
Instructor, Welding Technology  
A.S., Orange Coast College

LAUX, JOHN M. (2000)  
Professor, Chemistry  
B.S., Pacific Lutheran University, Washington  
M.A., University of California, Irvine

LEGASPI, JODI (2016)  
Instructor, Kinesiology and Athletics, Softball Coach  
B.A., University of California, Los Angeles  
M.A., Concordia University

LERMA, MARIA (1993)  
Professor, English as a Second Language  
B.A., University of Southern California  
M.A., California State University, Long Beach

LIANG, TABITHA WEI MEI (2016)  
Instructor, Neurodiagnostic and Polysomnographic Technology  
B.S., University of California, Irvine

LIVINGSTON, TAB (1997)  
Professor, Mathematics  
B.A., University of Central Florida  
M.A., California State University, Fullerton

LLOYD, DOUGLAS (2015)  
Instructor, Mathematics  
B.S., California State University, Long Beach  
M.A., California State University, Los Angeles

LOHMAN, BENJAMIN (2001)  
Associate Professor, Speech  
B.S., Bradley University, Illinois  
M.F.A., Chapman University

LOREN, DAVI (2001)  
Professor, English  
B.A., M.A., California State University, Northridge  
M.F.A., University of California, Irvine

LOVEGREEN, ALAN (2016)  
Instructor, English  
B.A., M.A., Ph.D., University of California, Riverside

LUCKRING, EVE (1999)  
Professor, Photography  
B.A., University Of Delaware  
M.F.A., University of California, Los Angeles

MAEKAWA, NAOKO (2008)  
Professor, Mathematics  
B.S., University of California, Irvine  
M.S., California State University, Los Angeles

MAHER, DEBORAH (1999)  
Professor, Psychology  
B.A., M.A., University of California, Riverside  
Ph.D., University of California, Riverside

MALATY, MARTHA (1998)  
Professor, Computer Science  
B.S., M.S., Ain Shams University, Egypt  
Ph.D., University of Dortmund, Germany

MARCINA, VESNA (2002)  
Professor, Political Science  
B.A., California State University, Long Beach  
M.A., Ph.D., University of California, Santa Barbara

MARRON, ELIAS (1995)  
Professor, Counseling Services  
B.A., California State University, Fullerton  
M.S., California State University, Dominguez Hills

MAUGHAN, HELEN (2000)  
Assistant Professor, Chemistry  
B.A., Glassboro State College, New Jersey  
M.A., University of Southern California

MIRANDA, PEDRO LUIS (2017)  
Instructor, Counseling Services  
A.A., Moorpark Community College  
B.A., California State University, Dominguez Hills  
M.S., California State University, Long Beach

MCCALL, LESLIE (2001)  
Professor, Photography  
A.A., Cypress College  
B.F.A., Art Center College of Design  
M.F.A., Art Institute of Boston at Lesley University

MCCLANAHAN, ANNE (2001)  
Professor, Speech-Language Pathology Assistant  
B.A., M.A., California State University, Fullerton

MCCOMB, HELEN (1984)  
Professor, History/Humanities  
B.A., M.A., University of California, Santa Barbara

MEANS, LELAND (2012)  
Instructor, Sculpture  
B.A., California State University, Sonoma  
M.A., Claremont Graduate University

MILLIKIN, E. DOUG (1984)  
Professor, Mathematics  
B.S., M.S., The Ohio State University  
B.S.M.E., General Motors Institute

MOCHIZUKI, JON ATSUSHI (2017)  
Instructor, History  
B.A., University of California, Los Angeles  
M.A., University of California, Irvine

MONAHAN, GEORGE (1989)  
Professor, Speech  
B.A., M.A., California State University, Long Beach

MONTAGE, MERIDITH (2015)  
Instructor, Physical Anthropology  
B.S., M.A., California State University, Fullerton

MOORE, ART (1984)  
Professor, Mathematics  
A.B., M.A., University of California, Berkeley

MOORE, GREGORY (2001)  
Professor, Mathematics  
A.A., El Camino College  
B.A., University of California, Los Angeles  
M.A., Cornell University, New York

MORGAN, ARABIAN (2006)  
Professor, Accounting  
B.S., M.B.T., University of Southern California

MORGAN, CARLETON (1991)  
Professor, Librarian  
B.A., California State University, San Bernardino  
M.L.S., San Jose State University

MORGAN, DENNIS (1999)  
Associate Professor, Business Education  
A.A., El Camino College  
B.S., California State University, Dominguez Hills  
M.B.A., California State University, Long Beach
MUCCIARO, THOMAS (1999)
Professor, Chemistry
A.B., Occidental College
Ph.D., Stanford University

MUCINO, PATRICIA (2016)
Instructor, Counseling Services
B.S., California State Polytechnic University, Pomona
M.S., California State University, Long Beach

MUELAS, MARI-AALA (2005)
Assistant Professor, Spanish
B.A., M.A., University of California, Los Angeles

MUJIR, ROBERT (1999)
Professor, Mathematics
B.S., California State Polytechnic University, Pomona
M.S., University of California, Irvine

MURPHY, TIMOTHY (2000)
Associate Professor, Computer Information Systems
B.A., M.A., California State University, Long Beach

MYERS, JOY (2008)
Professor, Registered Dental Assisting
B.S., California State University, Long Beach

MYERS, KEVIN (1999)
Associate Professor, Fine Arts/Ceramics
B.F.A., M.F.A., Otis College of Art and Design

B.A., Carroll College, Montana
M.A., California State University, Northridge

PRIOLEAU, KAREN (2012)
Instructor, Professional Mariners
A.A., Orange Coast College

PULLMAN, LORI (2014)
Assistant Professor, Horticulture
B.A., University of California, Los Angeles
M.A., California State Polytechnic University

QUINN, CHRISTOPHER (2012)
Instructor, Geography
B.A., M.A., California State University, Long Beach

RAILEANU, LIA (1999)
Professor, French
M.A., University of Iassy, Romania

RANGNO, ERIK (2007)
Assistant Professor, English
B.A., University of California, Berkeley
M.A., Ph.D., University of California, Irvine

RASKIN, DEBRA (2016)
Instructor, Mathematics
B.A., University of California, Irvine
M.A., University of California, Fullerton

REBER-BONHALL, CYNTHIA (2005)
Associate Professor, Diagnostic Medical Sonography
A.A., Orange Coast College
B.S., Weber State University, Utah

REED, CHARLENE (2007)
Professor, Interior Design
B.A., California State University, Long Beach
M.A., Pepperdine University
**Faculty**

RICKERSON, IRINI (1990)  
Professor, Art  
Doctorate, Florence University, Italy

RIDNOR, RACHEL (2016)  
Instructor, Sociology  
B.A., M.A., University of California, Irvine

RIGGIO, ALISON (2012)  
Instructor, Respiratory Care  
A.A., College of St. Catherine, Minnesota  
B.S., St. Cloud State University, Minnesota

RODGERS, KATHRYN (2016)  
Instructor, Computer Science  
M.S., University of California, Irvine  
B.S., University of Utah

RODRIGUEZ, DAVID (1999)  
Professor, Construction Technology  
A.A., El Camino College  
B.S., California State University, Long Beach

ROJAS, ALEXANDRIA (2016)  
Instructor, Counseling Services  
B.A., M.A., Chapman University

RUBENSTEIN, ELIZA (2009)  
Associate Professor, Music  
B.A., Oberlin College, Ohio  
M.F.A., University of California, Irvine

SACHS, LOREN (2004)  
Professor, Radiologic Technology  
B.A., M.A., California State University, Dominguez Hills

SACHKHE, WILLIAM (2001)  
Professor, Computer Information Systems  
A.A., El Camino College  
B.S., M.S., University of California, Irvine

SAM, THINH (2006)  
Assistant Professor, Math  
B.S., M.S., University of Colorado

SAVAGE, JENNIFER (2008)  
Professor, Economics  
B.A., University of Colorado, Colorado Springs  
M.A., University of California, Irvine

SCANE, DANIELLE (2006)  
Professor, Business  
B.A., Arizona State University  
M.S., Amberton University

SCHEIDER, VICTOR (2015)  
Instructor, Geology  
B.S., University of California, Davis  
M.S., California State University, Sacramento

SCHNEIDERMAN, ROBERT (1997)  
Professor, Counseling Services  
B.S., Arizona State University  
M.A., Chapman University

Instructor, Kinesiology and Athletics  
B.S., California State University, Fullerton  
M.H.A., University of Phoenix

SEVI, KAYLEIGH (2015)  
Instructor, English  
B.A., M.A., California State University, Long Beach

SHAJIE, VIDA (1996)  
Professor, Counseling Services  
B.A., M.A., ParS College, Iran  
M.S., California State University, Fullerton

SHINE, BRENDA (1993)  
Professor, Hotel Management  
B.S., Southern California College

SIMPSON, MELISSA (2001)  
Professor, Culinary Arts  
B.S., University of Missouri

SUJE, GERALD (1962)  
Professor, Counseling Services  
B.A., Pasadena College  
M.S., Ph.D., University of Southern California

SMITH, C. DOUG (2002)  
Assistant Professor, Kinesiology and Athletics  
Assistant Coach, Football  
B.S., M.S., California State University, Fullerton  
M.S., California State University, Long Beach

SMITH, KEVIN (2004)  
Assistant Professor, Kinesiology and Athletics  
Head Coach, Soccer  
B.A., University of California, Irvine  
M.S., National University

SMITH, WARD (2016)  
Instructor, Librarian  
B.A., Birmingham-Southern College  
M.A., University of California, Los Angeles

SMOLIN, JAMES M. (2005)  
Professor, Psychology  
B.A., M.A., California State University, Long Beach  
Ph.D., Purdue University, Indiana

SOGO, L. FARAH (1999)  
Professor, Biology  
B.A., University of California, Riverside  
Ph.D., University of California, San Diego

SOTO, RICARDO (2001)  
Professor, Music  
B.A., M.A., California State University, Fullerton  
M.S., University of Southern California

SPENCER, STEVEN (2001)  
Assistant Professor, Kinesiology and Athletics  
Head Coach, Men's Basketball  
A.A., College of Marin  
B.A., Sonoma State University  
M.S., California Lutheran University

STANTON, JORDAN (2017)  
Instructor, History  
B.A., University of Illinois at Champaign-Urbana  
M.A., University of Chicago  
Ph.D., University of California, Irvine

STORM, SARA (1992)  
Professor, English as a Second Language  
A.A., Orange Coast College  
B.A., California State University, Long Beach  
M.A., California State University, Fullerton

STUART, ANDREW (2016)  
Professor, English  
B.A., M.A., California State University, Long Beach

STUART, JOHN (2007)  
Associate Professor, Heating, Ventilation, Air Conditioning and Refrigeration  
B.A., California State University, Fullerton  
M.A., California State University, Long Beach

SUGDEN, JAMES (2008)  
Assistant Professor, Accounting  
B.A., M.A., University of Southern California

TAYLOR, MICHAEL (1991)  
Professor, English; Kinesiology and Athletics  
Assistant Coach, Football  
A.A., Santa Ana College  
B.S., Oregon State University  
M.A., California State University, Long Beach

TOM, EILEEN (2008)  
Professor, Counseling Services  
B.A., California State University, Long Beach  
M.A., University of California, Los Angeles

Topping, Holly (2008)  
Associate Professor, Art  
B.F.A., Otis College of Art and Design  
M.F.A., University of California, Irvine

TRAXLER, MARIA (2007)  
Assistant Professor, Counseling Services  
A.A., Irvine Valley College  
B.S., California State University, Fullerton  
M.A., California State University, Long Beach

TUAN, ANGELA (2016)  
Instructor, Counseling Services  
M.S., California State University, Long Beach  
B.A., California State University, San Diego

VIEAU, ARLENE (1997)  
Assistant Professor, Mathematics  
B.A., M.A., University of California, Los Angeles  
M.S., University of Southern California

VOICU, MARIANA (2001)  
Associate Professor, Mathematics  
B.A., California State University, San Bernardino  
M.S., University of California, Irvine

CORTEZ, JOSE O.
Professor, Machine Technology
1976-1983

COWPERTHWAIT, SARAH M.
Professor, English as a Second Language
1976-1993

CRON, JAMES R.
Professor, Welding Technology
1971-1993

CRUMLEY, LAVERNE
Professor, English
1971-1984

CRUTCHER, ROBERT
Professor, Art
1977-2000

CURTIS, ADRIENNE R.
Associate Professor, Chemistry
1976-1999

DANIELS, SHARON CALLAWAY
Professor, Biological Sciences
1973-2011

DANZIGER, LESLEY
Professor, English
1990-2006

DECKER, KAREN G. A.
Professor, Fine Arts
1970-2004

DEES, ROBERT
President
1976-2009

DENTON, BOB C.
Professor, Mathematics
1986-2006

DIMSDALE, JEFFREY M.
Dean, Student Services
1969-2000

DONOFF, SHARON K.
Vice President, Student Services
1971-2000

DOSS, RICHARD
Professor, Philosophy
1971-1995

DOWLING, THOMAS
Professor, Art
2000-2017

DUDDRIDGE, DOROTHY
Professor, Dance
1961-1984

EABICK, DIANE
Associate Professor, English as a Second Language
1992-2014

EASTMAN, JUDITH B.
Professor, English
1974-2000

ELDON, FREDA S.
Professor, English/Speech
1962-1995

ELLIS, GERALD
Dean, Evening College; Professor, Engineering/Math
1954-1982
