Greetings from the HSI STEM program at CSULB!

Congratulations on your admission for Fall 2019! Our goal is to facilitate your transition to CSULB if you choose us as your home for the next few years. Learn and take advantage of the opportunities listed below. For more information, check out the flyer behind this letter.

Summer Bridge to The Beach

This is a 9-week research program for incoming transfer students with a declared major in the College of Engineering or the College of Natural Sciences and Mathematics who are Hispanic/Latino and/or Pell Grant eligible. Students conduct research with a CSULB faculty member during the summer, receive professional development and research workshops and have the opportunity to apply for travel funds to attend a STEM conference. More details are on the website or [apply](#) today.

Transfer Welcome Orientation

The Transfer Welcome orientation is open to all students declaring a major in the colleges of Engineering and Natural Sciences and Mathematics. You will learn about the student services and resources on campus, meet campus representatives and faculty, meet other peers in your major, and prepare for your SOAR date. Check out the [website](#) for the date and registration.

STEM EXCEL Transfer Learning Community- NSCI 390

The Excellence through a Community of Engaged Learners (EXCEL) program provides STEM mentoring and tutoring through a learning community in the colleges of Natural Sciences and Mathematics and Engineering. Register for NSCI-390, a one unit Transfer Success Course taught in Fall 2019. Experience your first year in a cohort program alongside other peers taking the same courses, with your peer mentor to guide you and ask questions, and enjoy exclusive access to tutoring and workshops. Registration takes place during your scheduled SOAR date in the summer. More information will be available on our website soon.

We hope that you take advantage of these various opportunities. For updates and deadlines, visit our [website](#).

You can also visit or contact our office directly at hsi-stem@csulb.edu or 562-985-4127.

Best of luck!
