

## PROGRAM OF STUDY

### Anthropology Associate in Arts for Transfer

The Department of Anthropology at Orange coast College is a comprehensive program with opportunities to experience all four of the primary fields of research within the discipline. Our objective is to apply theory and offer hands-on experience to enable the student to gain a broad perspective of the diversity of interests that can be acquired by pursuing a degree in Anthropology. The Associate in Arts in Anthropology for Transfer will allow for transfer to the baccalaureate program in Anthropology at California State University Long Beach, California State University Fullerton, as well as similar majors elsewhere.

#### Program Outcomes:

##### **OUTCOME 1:**

Differentiate the biological concept of race from the social and political concept of race and discuss their impact on human populations.

##### **OUTCOME 2:**

Explain the importance of genetic principles and bio-molecular studies in the interpretation of the fossil record and identify different forms of hominid fossils.

##### **OUTCOME 3:**

Compare and contrast anthropology with other social sciences and describe anthropological fieldwork methodologies, emphasizing participant observation, interviewing strategies, and relate.
